The Old and Well Established Insurance Company of JOHN S. HARVEY,

have this day formed a co partnership, under the firm name of

MORSE & ILSLEY,

for the purpose of carrying on the Insurance Business in all its branches. They trust, by industry, integrity and good judgment, to merit the approbation of all the old patrons of the office, and to receive a good share of new business.

MR. HARVEY will still take a lively interest in the Companies for which he has so long and faithfully worked, and he is authorized to receive applications for Insurance in said Companies as our Agent.

JOSEPH P. MORSE, WINGATE N. ILSLEY. }

Portsmouth, May 1, 1871.

A CARD.

HAVING disposed of my Insurance Business to JOSEPH P. MORSE and WINGATE N. ILSLEY, two gentlemen well known for their integrity and business capacity, I return my thanks to my old and constant patrons and friends, for their many favors, and earnestly recommend my successors, trusting the same generous patronage will be extended to them as to myself. They represent some of the oldest and most reliable Companies in both Fire and Life Insurance in the Country.

LOCAL AFFAIRS.

New Advertisements to-day.

Monuments and Headstones.

We are requested to contradict the report that Mrs. Marcy is to take a six months' vacation from the Unitarian choir.

Paymaster C. F. Guild has been detached from duty at this yard and ordered to Hong Kong, China, as purchasing paymaster at that station. Paymaster Guild by his prompt and courteous method of transacting the business connected with his office has won himself hosts of friends, who will all unite in regretting his departure.

We hear that Mr. Stephen W. Clarke of the Boys' High School has recently received several urgent invitations to go elsewhere and teach school at largely increased salaries, but has not determined to accept either, as yet. Mr. Clarke is too valuable a man to lose, and while we would be pleased in connection with all his friends to wish him increased prosperity, we hope his valuable services may be retained here.

Communicated.

An article in Wendesday's Chronicle was calculated to give a false idea in regard to the fire service rendered by the steamer Dearborn, to those of our citizens who have been born since "her arrival hither;" older people know the engine has done good service, and our real estate owners and tax payers would not like to sell it for the paltry sum of $500.

The Committee on the Fire Department have had the subject under consideration for several weeks, and have obtained all the information they desired. After a thorough inspection of the machine they became convinced that it could be repaired, and made as serviceable as a new one. A machinist who has the entire confidence of the department was employed to examine the engine and make an estimate of the cost of the necessary repairs and alterations; and he reported that it could be done for $2000. Thus the committee were assured it could be done, and believing that money could be saved and the steamer made to do its duty, determined not to sacrifice it and several thousand dollars besides, to a desire to have a new engine and the attendant eclat, but sent for the builders of the Dearborn to come and overhaul it in presence of the Mayor, Aldermen and Chief Engineer. The result was an engagement on the part of the builders to make the desired alterations and repairs, for a sum not to exceed $1100.

The engine is now in Boston, and the work of reconstruction is to be finished within a month. The firm which has undertaken the job is perfectly reliable and competent, and say they will return the engine to us in a condition to do good and efficient service as long as a new one would.

[*Note.*—We do not question that the Dearborn has done service, at times, nor that the Committee on Fire Department obtained all the information they could concerning the machines, and believed they were acting for the best interests of the city in getting it repaired in preference to selling the old engine and purchasing a new one. But we do not think the Dearborn ever has been or can ever be made a reliable machines, and we believe that money would be saved to the city by disposing of the engine, even at a sacrifice.

The resolution empowering the Mayor and others to sell the Dearborn was passed through the Common Council in one session, under suspension of the rules, one councilman only voting against the sale, and he not because he considered the engine good for anything at a fire, but because he thought more money should be paid the city for it. The resolution to sell was introduced by a former Chief Engineer of the Fire Department, and supported by him and other former members of the Department, now serving as councilmen, all of whom agreed that the engine had never been reliable, and none of whom imagined that it could ever be made so; and they ought to know something about it, certainly.

We have it on good authority that the foreman machinist of a large shop, after examining the Dearborn, expressed surprise that the city should "throw any money away on her," as he expressed it, alleging that the only way to make the engine valuable was to put a new one in its place, as the principal on which it was constructed was faulty at the first, and a good machine can never be made on a bad principle. And that his estimate of the Dearborn's value is correct, the condemning and breaking up of the only two other machines of the same pattern ever made goes for to prove.—*Eds. Chron.*

The old saw mill in the Raynes ship yard has been taken down and will be put up at the foot of Vaughan Street by Mr. Daniel Mason.

Barnabee's concert was fine. Those who were not present missed a rich entertainment. The comicalities of the inimitable H. C. B. were irresistible, Mrs. Smith and Mrs. Cary sang brilliantly and Mr. Dow gave the finishing touch to the whole affair. The expenses of the evening must have been very large, but we hope the genial Barnabee realized a handsome sum, enough to encourage a re-appearance.

Base Ball.—At the meeting called at Union Hall to form a new junior Base Ball Club, Wednesday evening, Samuel Donnell, Jr., was chosen President; Geo. W. Sawyer, John Cunningham, Vice Presidents; John D. Randall, Secretary; William Hazel, Treasurer; Samuel Donnell, Jr., William Hazel, M. Henry Hackett, Directors. The following persons were selected as the Nine:—Samuel Donnell, Jr., Captain, M. H. Hackett, John Cunningham, John Morrissey, John Keleher, Geo. W. Sawyer, John D. Randall, Daniel Casey, Wm. Hazel; Ira Burnham, substitute; John Hennessey, scorer. The meeting voted to name the Club the "Athletics." A practice game will be played at the Plains, Saturday afternoon.

There is talk of reviving the old Rockingham Club, seniors.

City Councils—May 25.

In Board of Aldermen, a petition of Simon Marston and others for the extension of Wibird Street to South Road was referred to Committee on Streets.

Petition of Joshua Stackpole and others for repairs on South Mill bridge was referred.

Elder E. Owen asked for use of Ward Room in Ward Three for religious purposes two evenings each week; petition referred.

A claim was received from the officers of the Rockingham Ten Cents Savings Bank of exemption of the building from city taxation, on the ground that it is the property of depositors. The Board voted to accept the offer of taxes under protest, the case to be settled by law.

The Appropriation Bill was passed under suspension of the rules as it came from the Common Council, with the exception of transferring the $100 for Celebration of Independence to the Contingent fund.

The bill for the increase of the pay of the Police force was laid on the table.

Policemen Davidson and Stearns were discharged for misconduct, without giving them a hearing.

In Common Council — no quorum; anjourned for one week.

Kittery, May 23d.

Messrs Editors:—As Memorial Day draws near one cannot fail to observe, with feelings of emotion, the manifest interest which the people of America are taking in the commemoration of it precious sacrifices which have been offered in behalf of our beloved country. The G. A. R. is making elaborate arrangements everywhere, for a proper observance of that day, which speaks volumes of history. Post 14, of Kittery are astir, intent upon a trusty performance of *their* duty, and the day will no doubt be observed under their supervision in a most faithful manner.

Fondly revering the noble character of the gallant Farragut, and there remaining in this vicinity one spot which will ever be held sacred to his memory, it is hoped that the place where the great and noble Admiral breathed his last, will be appropriately remembered.

Besides being a day for floral offerings to the memory of the heroic dead, why not make it also a day in which the widows and the fatherless, the sick and the maimed, the poor and the needy, noble but sad relics of the war for the life of the nation, may be remembered by pecuniary tokens of sympathy. It is believed that the great mass of the people would hail the suggestion with pleasure, and a large sum be promptly and cheerfully given in behalf of these living monuments of the sacrifices made that the nation might live. Charity.

Job and Card Printing.—We have made great additions to our jobbing facilities—a mammoth Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c.—and are prepared to execute with neatness and dispatch, all orders for Full Sheet Posters, Date Slips, Pamphlets, Sermons, Addresses, Auction Bills, Constitutions, By Laws, Programmes, Handbills, Circulars, Orders Dances, Blanks, Bill Heads, Receipts, Tickets, Business, Marriage, Address and Visiting Cards, Labels, Tags, and in fact Printing of any Description, at Satisfactory Prices. AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.

OUR BURGLARS.

I was in the middle of a troubled dream about the price of gold when Effie gave me a little pinch and woke me.

"Do you hear that noise?"

"What noise? Where?"

"I think I hear somebody trying to open a window."

I raised my head in the attitude of a listener for a moment, out of mere politeness.

"Nonsense! it's rats; you know the house is full of them. Or, it may be the wind rattling the casement. It would be a convenience, my dear, if I could be allowed to sleep through one night without being disturbed by thieves and hobgobblins."

I spoke rapidly, and in no very gentle tone. I am not a cross man. I repeat the assertion with emphasis. I am only a little inclined to dyspepsia at times, and my business affairs were just then all in a muddle.

Our house was an old fashioned castle of a building, which stood in the center of a half acre lot. It was in the very heart of the fastest city on this continent. The grounds were filled with flowers and shrubbery, and peas, and pumpkin vines, and cucumbers. On every side of the old mansion were verandas, and side entrances, and low windows, which must have looked inviting to the light-fingered fraternity. My wife had suggested to me once or twice that the fastenings on both doors and windows were time-worn and insecure, and I had responded by promising to hire a tinker by the day. I never wanted to have her think much about such things, particularly when she ought to be getting her rest, because it left white circles around her pretty eyes.

I was having some such thoughts when there came a vivid flash of lightning, followed by a clap of thunder which set the house quivering on its foundation. At the same instant my well-toned ears caught another sound, like the breaking of glass. I sprang out of bed and peered through the half closed shutter into the yard below. It was pitch dark, and I of course saw nothing. Rain-drops spattered in my face. I hit my head against the gas burner as I turned to go to the other window.

"What is the matter?" asked Effie in a sleepy voice.

"That is what I am trying to find out."

"Don't bother yourself, Cynic; I presume it is a mouse in a cologne bottle, or a cat in the chimney."

Another flash of lightning revealed to my astonished vision the figure of a man darting under the barberry bush.

"Effie! Effie! give me my pistol, quick!"

Alas! it was in the bottom of a trunk in the attic, and the key was on a ring with seventeen other keys, in a box in the china closet in the dining-room. Effie had an opinion of her own about having a place for everything and everything in its place. Just then there came a loud nervous knocking at our chamber door. I opened it promptly, and found our cook, Lizzie, outside, in a state of mortal terror.

She screamed her information. All the burglars on the block must have heard what she said. Her window opened on a veranda. When she awoke, a man was just in the act of stepping aside. She started to fly from the room, and he made a quick movement as if to catch hold of her. She escaped him, but in the passage by the laundry she passed another window at which a man wasat work trying to open.

"So there are two of them?" exclaimed Effie.

"There! I saw one myself on this side of the house at the same moment," I replied.

"Are you sure, Cynic? You know Fido is often hopping about the yard."

"Hallos, what's all this?" cried my wife's brother, Jerry, who occupied the room with the arched ceiling on the opposite side of the hall from our own.

"Burglars!" I responded, "Come down with us and help chase them out."

"Have you pistols?"

"Yes, but not at hand. We can pelt them with chairs and crockery."

"I am your man."

He lighted his gas and so did I mine. We dressed ourselves and went for Hilldragon, who slept in the wing directly over the cook's room.

Of course the rascals had had plenty of time to make their wills and take a journey to Salt Lake city, while we were preparing for battle. We went down stairs and found the coast clear. They had been there though, that was plain enough; the fastening of Lizzie's window had been cut with a sharp instrument, and one of my hills of beans had been robbed of its pole to make a support for the sash. The fellow's tracks were on the carpet. The shutter had been taken from the window in the passage, and the fastening broken. One of the panes of glass in the great north outer door had been broken, and a man's hand slipped back the bolts.

We were safe, however, and so, was a considerable sum of money which I had brought home with me, because I was too late for the bank.

We did not sleep any more that night. During the next and following days we discussed the subject pretty effectually. Effie recommended new locks and fastenings, but I was of the opinion that I should be doing the community a good service by picking off a regiment of house-breakers. I exhumed my pistol, loaded it, and kept it under my pillow. I bought one for Hilldragon, and gave him some private instructions in respect to its use. I provided Jerry with a swordcane that once belonged to my grandfather, and Lizzie was ordered to throw a waterproof around her and come noiselessly to our room on the first appearance of danger.

"But don't you know that lightning never strikes twice in the same place?" asked Effie.

"We shall see."

I must confess that I was rather desirous that the burglars should come back. Effie meanwhile became pale and thin. I think she was afraid I might kill some member of the household with my shooter.

Concluded in our next.

TARRANT'S SELTZER APERIENT.

OF A HIGHER CLASS than any other proprietary medicine of the day stands

Tarrant's Effervescent Seltzer Aperient.

And for this reason: It is an exact counterpart of one of the most valuable natural medicines in the world. We refer to the great Seltzer Spring of Germany, to which thousands of the dyspeptic, the bilious, the rheumatic, and the victims of renal diseases resort annually, and return to their homes convalescent or cured. The Aperient is one of the first, and by far the most successful of all the efforts made to reproduce, in a portable form, the popular mineral waters of Europe. See that you purchase only the genuine article.

NATURE'S REMEDY.

VEGETINE,

THE GREAT BLOOD PURIFIER.

THE METHODIST, of New York, has always been edited with marked ability by Rev. Dr. CROOKS. Its publishers have just added to its editorial corps, Rev. ABEL STEVENS, an equally experienced journalist, and author of the best History of Methodism extant. They have also engaged contributions and sermons from Rev. T. DE WITT TALMAGE, whose success and popularity as a preacher, writer and lecturer, are almost unexampled, and whose free Tabernacle in Brooklyn, with its congregation of over 3,000 people, is one of the marvels of the age. Rev. HENRY WARD BEECHER has a Lecture Room in it every week.

THE METHODIST abounds in good things, is never dull or dry, has stories for children, hints for farmers, and something for everybody. Mrs. Whitney's great serial story is almost ready. They offer for the price of one year's subscription ($2.50) to send THE METHODIST from now until July 1st, 1872. Specimen copies free. 114 Nassau Street, New York. m9

PRACTICAL APPLICATION OF HAMLET'S SOLILOQUY

To insure or not to insure? That is the question. Whether 'tis well be nobler for my family to suffer
The stings and arrows of outrageous fortune
Or take a policy against those dangers,
And, by insuring, end them? To fret, to fear,
No more; and by a policy to end
The heartache and the thousand natural shocks
That flesh is heir to. Yes, my application 's
Devoutly to be wished; apply, insure,
And pay the premium: ay—there's the rub
For in that time what premiums may come
Before I shuffle off this mortal coil,
Does make me pause, tightens my purse,
And makes me rather pay the bills I have
Than fly to others I know not of.
Thus does measness make brutes of us all.

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS.

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetisers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawfebl5

A GOOD OFFER TO THE

Ladies of Portsmouth and Vicinity.

E. A. JOY

Has Fitted up a Spacious and Elegant SEWING MACHINE ROOM directly over his Music Store and employs a competent young lady to take charge of the same. A cordial invitation is hereby extended to all the ladies (not having good Sewing Machines of their own) to bring in lots of work and learn to make it up on the Machines. *This* will cost nothing whether a Machine is purchased or not. If you do not buy now, you will at some future time; for the day is not far distant when a SEWING MACHINE will be considered as indispensable as a Cook-Stove. Come as often and stay as long as you please.

MR. JOY'S business in the Sewing Machine line is very rapidly increasing, which enables him to make the above generous offer.

His long experience in the branch qualifies him to be an excellent judge of the goods he sells; and as he has had the Agency of *all* kinds offered him at different times it is reasonable to suppose that the *Best* SEWING MACHINES may always be had at the SEWING MACHINE EMPORIUM, No. 9 PLEASANT ST., nearly opposite the Post Office, Portsmouth, N. H. *Twelve Different Kinds to Select from.* mh7

TRY IT!

How well we remember in days that are gone,
The feelings we felt as we saw the cork drawn—
The disgust—the recoil

THE OLD-FASHIONED BOY.

Oh, what shall we do with the queerest of boys?
He looks with disdain on the weakness of toys?
While comrades are playing he never will budge,
But he sits in a corner as grim as a judge.

He sighs for a cane, and he wants a high hat;
He pines for a vest, and a watch, and all that;
He prattled of shaving when schooldays began,
This dear little, odd little, dry little man.

He promises mother a house and some land,
And twenty-five servants or more to command;
He keeps his own trunk, on his own little shelf,
And he writes funny letters, and all to himself.

His age—would you think it?—is only just four;
You'd say, by his ways he was forty or more;
He begs to sit up when the rest go to bed—
Say, what's to be done with this wise little head?

He has a wee sister, who's just come to town;
He came, and he looked at her in her white gown;
Then bade her "good morning," and made it a point
To show that his nose wasn't put out of joint!

He talks of a gun, and a pistol that shoots:
His feelings are strong on the subjects of boots;
They call him 'old-fashioned;" and so let him stay,
As long as he's good in the "old-fashioned way.

Correspondence.

NORFOLK, VA., May 23d.

Messrs. Editors :—As several Portsmouth boys have settled here as "carpet baggers," I fancy some of your readers might like to hear from this section. As the season advances we cannot help thinking of our former home, and wishing that we might import some of the cool weather, and export some of our warm, for we certainly do have good hot summer here. Vegetables and berries are now plenty and cheap. Strawberries are selling at from five to ten cents per quart. One of our Portsmouth boys has been nominated for surveyor of this city, the election to come off on the 25th inst. This is contrary to the wishes of the southern people, as their invitation is, "Northern people, come buy our lands and settle among us, but don't meddle with our politics."

Work at the Navy Yard here is quite brisk in some of the departments. The Constellation is fitting out for the Middies' summer cruise, and will be towed to Annapolis in a day or two to receive them on board. Last week Naval Constructor Thomas E. Webb, who has been on duty at this Yard for three years, took his departure by order of the Department for your Yard, and I suppose has reported for duty before this. He left here on the Boston steamer and long before her hour for sailing the wharf was crowded with his friends. Mr. Webb was very popular here, and I have never seen so much feeling expressed at the departure of an officer from this Yard, as in his case. B. P. C.

SATURDAY, MAY 27, 1871.

PROTECTION TO WITNESSES.

The New York Standard commends the reply of the lady whom Mr. Putnam of New York was escorting while murdered by Foster on leaving a horse car in New York. It says:—

The determination of the principal witness in the Putnam tragedy to protect her domestic relations from inquisitive inquiry and impertinent meddling will be applauded to the echo by all in our midst who believe in decency and fair play. It seems a little singular that the public should only just rouse to the fact that witnesses have some rights which lawyers are bound to respect. A few men and women fined for nothing else than to call the attention of the world to the precedent long since established, by which these ubiquitous gentlemen of the bar are allowed to asperse the character of every individual who comes before the world as prosecutor or defendant, and by irrelevant and totally unjustifiable interrogatories, insulting the witnesses dragged in to testify for or against.

This abuse of witnesses is in no wise confined to New York. Desperate lawyers employed in desperate cases do not hesitate here in New Hampshire to abuse witnesses without stint, and, if a woman appears to testify, disgrace themselves, the court and the place of their existence, by coarse of allusions and insulting suggestions, that would warrant any person in choking the life out of their miserable bodies. A majority of the legal fraternity, we are glad to say, have too much decency to resort to such low acts of meanness, but there are despicable exceptions who glory in insulting ladies who may for a time be at their mercy.

PARIS.—Up to Thursday night there had hardly been the least cessation of the terrible and bloody fighting which has filled the streets of Paris with dead men.

Fort Montrouge and the Pantheon have fallen into the hands of the government forces. There are hopes that the battery from which the insurgents have been firing petroleum shells has also been captured.

The government has already taken 12,000 prisoners and the number will reach 20,000. Thiers announces that the national guards are to be disbanded at once.

The noble Cathedral of Notre Dame has been destroyed by the insurgents

It is said that the communists have murdered several archbishops and priests in Mazas prison, in return for the execution of some of their leaders who were captured.

A last summons to surrender has been sent to the insurgents; all found with arms in their hands hereafter will be shot.

KU-KLUX.—The house of John Hatfield, in Douglass county, Missouri, was surrounded on the 18th by a party who fired several shots into it. After daylight Hatfield discovered two of his assailants and shot and wounded them. Subsequently Hatfield gave himself up, and while being taken to the county-seat in charge of an officer, was overtaken by several men and killed, his body being riddled with bullets. Three attempts have been made to take Hatfield's life since last fall.

THE American and Spanish claims commission has agreed on Baron Lederer, the Austrian minister, as umpire.

GOVERNOR Scott, of South Carolina, and all the leading politicians of Columbia, are in favor of giving women the ballot, and it is predicted that women will vote there in less than three years.

THE entire tribe of Mountain Apaches have declared open war against the whites in consequence of the recent killing of one hundred Indians at Camp Grant. Military assistance is urgently demanded.

THE communists' insurrection in Paris is not the only one that has proved unsuccessful, as we are informed that the revolution in Costa Rica has been suppressed and the leaders will be banished; the Panama rebellion has ended, and peace has been concluded; a revolutionary attempt in Peru has failed, and peace prevails in Honduras.

AN unsuccessful attempt was made in the Senate executive session, May 25, to remove the injunction of secrecy from the vote ratifying the treaty. Senator Chandler assailed Mr. Sumner, as being the traitor who furnished the copy of the treaty to the Tribune! Senator Sumner has stood some hard hits in his day, but probably this attack of Chandler's will be too much for him.

NEW HAMPSHIRE ITEMS.

A husband and wife in Hollis named Jewett, after a separation of thirty years, are living together happily again.

The six months old calf of Mr. John Towns of Keene has gained a hundred and ninety-five pounds in the last two months and now weighs six hundred and thirty pounds.

Miss Jane Anderson of Candia fell and broke a hip lately in drawing water from a well.

The Prentice mansion in Northwood was destroyed by fire, together with its contents, recently. The house was occupied by Mrs. Perkins and son. J. P. Tucker of Boston lost considerable furniture, which was insured.

Fires were raging on the 20th, in the woods of Tamworth, Ossipee, Albany, Madison, Bartlett and Waterville, in a manner that entirely eclipses the conflagration of last year. On the 18th one began in the plains near Banks' Hotel at West Ossipee, and by the 20th had got four miles, into Madison. The general idea is that this fire was wilfully set by some persons particularly desirous of a good crop of blueberries. Large numbers of men have been engaged in fighting these fires and have been able to save several dwellings.

A man named Leavitt, of Suncook, employed in driving logs down the river, was drowned a few rods below Hooksett, Thursday.

Mrs. John F. Ham, Jr., of Newmarket, was thrown from her carriage on Wednesday evening last and seriously injured.

According to the annual inventory of the assessors, the valuation of Nashua is placed at $5,290,000, an increase over last year of $150,192. The amount to be raised to meet the appropriations of the city government, including the State and county, is $131,893. This will make the rate $2.49 on a hundred dollars, 47 cents more than last year, and 31 cents less than the year before. The amount of tax to be raised is $27,565 more than last year, and $11,440 less than the year before.

Mr. John Smith, on Wednesday last, while driving an ox team in Nashua, fell under the wheels of his loaded team, and was instantly killed. His age was 45 years.

VICE PRESIDENT COLFAX continues to improve.

WILLIAM FOSTER, the New York murderer, has been sentenced to be hung on the 14th of July.

THE cracker-mill of the Hazardville Powder Mills exploded May 25, and three men were killed.

THE celebrated Yerger case came before the Jackson, Miss., district court on the 14th. The plea of the former jeopardy was argued and overruled by Judge Brown. The general impression is that Yerger will be cleared.

THERE is said to be excellent authority for the statement that Secretary Fish will shortly retire from the Cabinet, and be appointed our member of the tribunal of arbitration which is to meet at Geneva for the settlement of the Alabama claims.

THE grand lodge of Good Templars in session at Baltimore, Md., May 25, elected the following officers for the ensuing year: Grand Templar, Rev. J. Russell of Michigan; councillor, J. J. Hickman of Kentucky; vice-templar, Sister Anna Raymond of New York; secretary, Julius A. Spencer of Cleveland, Ohio, and treasurer, John Campbell of St. Louis, Mo.

ALL but a thousand dollars of the money stolen from the Adams Express Company's office at Columbus, Ohio, on the 16th, has been recovered. Theodore Bradley, lately a conductor, surrendered $15,000 in Chicago and $23,673 was exhumed in the yard of George B. Bradley at Columbus. Both Bradleys were arrested, the latter being one of the express employes, who was in the office and was ostensibly chloroformed at the time of the robbery.

THE spots on the sun visible for the last year or two are rapidly disappearing. But a small proportion of spot area is now to be seen, compared with the great number of black patches that have so sorely puzzled our astronomers. An observation taken in St. Louis a few days ago showed only eleven spots, and of these all but one were relatively minute specks, while the dimensions of the exceptional one were only about 12,000 by 4,000 miles. The total of the spotted area is now scarcely 50,000 square miles, which is less than one part in 6,000 of the area obscured in May, 1870. At the rate the spots are disappearing it is supposed they will all have disappeared by next month.

WHY did'nt sombody think of it before? The Californians are saving coal by lining their grates with a wire screen, so that the little bits of coal, which usually drop through and are wasted, are retained and consumed.

—Galena Ill., enjoys "apron parties."

—Boston will officially spend $20,000 on the 4th of July.

—John A. Mayhew, of Bangor, died very suddenly on Wednesday night of disease of the heart. His mother was the first white child born in Bangor.

—Alexander E. Orr recovered on Wednesday from the city of New York $53,593, the full value with interest of a grain elevator and other property destroyed by the rioters, July 18, 1863.

—The United States steamer Worcester will sail this week from Liverpool for New York, bringing the guns which formerly formed the battery of the Confederate privateer Shenandoah.

—The fires on the mountains in Sullivan, Ulsters and Delaware counties, New York, have swept over 10,000 acres of woodland. Three cabins were destroyed, and it is believed that all the occupants perished.

BUSINESS NOTICES.

A GOOD CUISINE is indispensable to the comfort of all travellers. That of the AMERICAN HOUSE, BOSTON, is irreproachable, while the other conveniences of the house include all that is modern and desirable.

Johnson's Anodyne Liniment will give more relief in cases of Chronic Rheumatism, no matter how severe, than any other article known to medical men.

It is often remarked by strangers visiting our State, that we show a larger proportion of good horses than any other State in the Union. This, we tell them, is owing to two principal reasons; in the first place, we breed from the very best stock; and in the second place, our people use *Sheridan's Cavalry Condition Powders*, which in our judgment are of incalculable advantage.

You Haven't Tried Them.

Victim of debility, who is responsible for your feebleness? Not yourself, you will say, for you've done all you could to cure it. That's a mistake on your part.

You haven't tried Hostetter's Bitters.

Gloomy dyspeptic, with an uneasy stomach and a world-weary face, of course you don't think yourself responsible for your own torments. But you are. It is easy to see from your condition that you haven't tried Hostetter's Bitters.

Billious sufferer, it is not your fault, you think, that your symptoms grow worse day by day. Blue pill doesn't do you any good. Very likely. But you can be brought round for all that.

Why haven't you tried Hostetter's Bitters?

Friend, on whom fever and ague alternately blows hot and cold, and whose brain seems to be bursting with the effects of some powerful drug, do you assume the responsibility? O, no! You've taken piles of quinine, and all the regulation medicines. What could you do more? One thing more—the very thing that would have exempted you from all the pangs that now rack you.

You have never tried Hostetter's Bitters.

Nervous invalid, what have you to say? You plead that you have taken all the nervines of the pharmacopœia. If they have done you no good, it is not your fault. You are not responsible. Wrong, all wrong. You have, in reality, nobody to blame but yourself.

Why haven't you tried Hostetter's Bitters?

For all the above-named complaints, the Bitters are absolute specifics.

INSURANCE BUSINESS!

The Subscribers having purchased the "Business and Goodwill," of

The Old and Well Established Insurance Company of JOHN S. HARVEY,

have this day formed a co-partnership, under the firm name of

MORSE & ILSLEY,

for the purpose of carrying on the Insurance Business in all its branches. They trust, by industry, integrity and good judgment, to merit the approbation of all the old patrons of the office, and to receive a good share of new business.

MR. HARVEY will still take a lively interest in the Companies for which he has so long and faithfully worked, and he is authorized to receive applications for Insurance in said Companies as our Agent.

JOSEPH P. MORSE,
WINGATE N. ILSLEY.
Portsmouth, May 1, 1871.

A CARD.

HAVING disposed of my Insurance Business to JOSEPH P. MORSE and WINGATE N. ILSLEY, two gentlemen well known for their integrity and business capacity, I return my thanks to my old and constant patrons and friends, for their many favors, and earnestly recommend my successors, trusting the same generous patronage will be extended to them as to myself. They represent some of the oldest and most reliable Companies in both Fire and Life Insurance in the Country.

Communicated.

STEAMER "DEARBORN." — *Messrs. Editors*:—There seems to exist in the minds of many of our citizens honest doubts regarding the economy of the Board of Aldermen in voting to expend $1100 in repairing Dearborn, 1. These queries arise from the fact that the steamer (as you stated in the CHRONICLE a day or two since) has been to us a comparatively useless piece of property. She cost $4500 when new, and but a short time had elapsed after her arrival ere a job was necessary in order to make a machine to reach her valves and push them up from the places where they had stuck in consequence of the heat from the fire-box melting or softening their rubber composition. Other outlays were soon needed until bye and bye her tubes gave out. Then she was thoroughly overhauled at an expense of about $700 as Messrs. Critchley & Whalley will testify. Up to this time—the time of repairing her tubes, and including the cost of those repairs, about $800 had been laid out on her, causing the steamer to stand at the figures of $5300. But had she done well thereafter, there would have existed no great occasion for faultfinding, although every one tolerably posted in such matters would have said that the price was too great for the service she had rendered. Next, it was found that her canteen, containing fresh water, leaked badly every time she was drawn out to a fire or for trial, in consequence of the draught of the whole weight of the machine coming directly upon this fresh water apparatus, straining it to such an extent as to cause the water to strain entirely out of it. We are informed, however, that this can be remedied. But we have good authority for asserting that the sticking of the rubber valves cannot. Composition valves may substitute them, but that kind of a valve is said to be too heavy.

We further learn that Messrs. Campbell & Whittier have not obligated themselves to repair the steamer for $1100; but will do it as cheap as they can, presuming that it will not cost over the sum mentioned. But, already, an unlooked for item of expense appears in the shape of an additonal job of painting, which will cost about $100. So that, without doubt, the expense of repairing Dearborn 1 will not fall far short of $2000. Add her original cost with her repairs and we find the steamer standing us the nice little sum of $7300; and then not half so good for our purposes as an engine that would cost but little more than half that sum. We will not weary the patience of the readers of the CHRONICLE further than to state that * in his communication of Friday said, by implication, that the city had been offered but $500 for the steamer in question. This is not true, as manufacturers at Manchester have offered $800 for her in exchange for one of their machines, which give universal satisfaction. ☞

N. K. WALKER & SON, the well known hatters at No. 11 Congress St., have a new stock of nice goods for Spring and Summer wear. Their light doesn't shine behind a bushel at all, as they know the value of advertising thoroughly and systematically. Walk in and see their stock, select and purchase.

WE heard plenty of grumbling remarks, such as "Confound the dust," from the men, and "How very unpleasant! why don't they sprinkle the streets?" from ladies, Thursday evening, when the gravel and small rocks were flying about our streets before the strong wind; and we are not sure that we did not remark something ourself, as we got a few shovelfuls of sand and dust in our mouth and eyes, on turning the Academy corner. If the dry weather holds on and the wind does not give out, the streets of the city will all be blown away before midsummer; and we believe a few hundred dollars paid for sprinkling them would be money well laid out by the city, merely as a means to keep the road material where it belongs.

The annual appropriation bill this year contains no item devoting money for sprinkling; but the bill was amended in the Board of Aldermen before it was passed, and the Common Council will yet have to act upon it, in which case an appropriation for sprinkling could—and we think should—be introduced. All the streets in the city should be sprinkled; but this would take a much larger sum of money than the City Councils would be justified in voting, and to pay from the city Treasury the entire cost of sprinkling the principal streets, only, would seem an injustice to the dwellers in by-ways and secluded places. But a portion of the expense may well be borne by the city, the remainder to fall upon individuals whose buildings stand on the streets thus favored.

Mr. Plaisted informs us that the business men and firms on Market Square have subscribed $60 towards having it sprinkled, but that he cannot water the Square twice a day from now until October for less than $150, to make any profit at all; and it is the same with regard to subscriptions in the principal streets of the city—many residents are willing to pay liberally, but do not think they should be asked to pay *all*, for that which benefits the public as well as themselves. That sprinkling the principal thoroughfares is a public benefit as well as a luxury, we think cannot be disputed; and such being the case, the public should pay a portion of the expense, even if every street in the city is not watered. We hope the Common Council, will consider this matter well.

AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.

Morning Chronicle.

Concluded from yesterday.

OUR BURGLARS.

"You certainly will not fire until you have asked who it is, will you Cynic?"

"Maybe not. But I shan't have many words with the wretches. If they don't want to get shot, they must not be caught prowling around my house on dark nights."

"But the baby might have the croup or swallow the match-safe, and then nurse would have to run through the Halls."

"I am not bloodthirsty enough to kill her. Don't get excited unnecessarily."

We did not have to wait always for the crisis. It came sure and swift. It was hardly two weeks after our first scare when the events occurred which make my hair stand on end to relate; it was always a trifle stiff, and I part it in the middle.

It was another stormy night. Signs and shutters banged and clattered. I was awakeful. I must have had a premonition of mischief. Ah! what was that? Yes; I was certain that I heard a door latched or unlatched somewhere not far distant.

"Effie," I whispered, jumping up.

"Well, dear, what is it?"

"Somebody's in the house; don't make a noise, for your life!

"I do wish the thieves and hobgoblins would let me sleep till morning;" and she turned over without manifesting the least apparent interest in the matter. I found afterwards that she had slipped my pistol down between the sheets where I could not reach it easily.

I opened the door into the hall and listened. A step! Yes. It was approaching stealthily. Nearer, nearer, and more near. I could almost feel the villain's breath in my face. I banged the door together and rushed for my pistol.

"Where is it?" I asked excitedly.

"You had better see who the person is Cynic. Perhaps it is one of the servants;" and not finding me eager to ask the first question in catechism, Effie went herself to the door before I had time to say "Jack Robinson."

"It is me madam," replied the well known voice of Hilldragon, in a strange whisper. "There is something going on in the house. There has been a gentle wee bit of knocking right in the floor, for an hour a'most. It goes tap, tap, just three times, then stops awhile. I thought it was spirits and didn't like to make much of a stir; but finally I kinder thought to myself they would be in more respectable business than bothering around that way, and I grew to suspicioning that the house was broken into."

Effie threw her wrapper around her and proposed to go to Hilldragon's room, and listen for herself. I went too, a trifle dumfounded by my wife's exhibition of common sense bravery. Sure enough we heard the rapping—there was no delusion about that.

"This is over Lizzie's room. She must be in some trouble," said Effie.

"It cannot be Lizzie, for the raps are in the floor unmistakably. She never could reach the top of her room."

"I will go down and see," said Effie.

"Oh, no, not you! The house may be full of concealed demons. Stay quietly in your room, and I will manage this business."

We spoke in whispers. It was but the work of a moment to organize my army. I was captain general, Jerry was aid-de-camp, and Hilldragon was high private. Effie insisted upon bringing up the rear, to look after the killed and wounded.

We put on our coats that we might not be seen so readily in the dark. My orders were:

"Single out your man, and take steady aim."

It was a silent, solemn, ghostly procession that started out on the midnight march. Step, step, step, along the corridor, carefully, creakingly down the stairs, through the long north hall to the west wing of the building, each and every one of us in breathless dread of dire calamity. I was conscious of an intense longing for those peaceful days when my blood was not so stirred with hope of shooting a burglar. I was foremost, and might encounter him at any moment, and what if he should kill me instead of I him! Who would comfort my widow and fatherless ones?

There was a squeak in the floor under my feet, and I jumped backward into Jerry's arms. The shock gave him a retrograde impetus, and he rested in the bosom of Hilldragon. The latter individual resisted manfully, but was obliged in the end to fall back, hitting his brawny elbow against Effie's face.

I regained my equilibrium and we moved on. Before Lizzie's door we halted and hearkened. All was still as the grave. Five minutes, ten minutes twelve and one half minutes—then we heard distinctly, three knocks.

I quaked from the crown of my head to the sole of my feet. But my presence of mind forsook me not. I ordered Hilldragon to fix his eyes upon the window in the rear end of the room, and fire immediately if a shadow came between. I stationed Jerry with uplifted cane little to my right, for the purpose of knocking down any similar apparition.

"Let me speak to Lizzie," said Effie, taking hold of my arm. Before I could reply she had pronounced the girl's name with her lips to the keyhole.

There was a stifled sob within. "Oh, Mrs. Croaker, help me. They have fastened me up and are all over the house stealing everything, and I can't get up to tell you."

A council of war decided on bursting open the door; therefore we three masculines ran against it with all our united force, and it yielded in the struggle. Lizzie stood on the bureau. She had been waked up by some unaccountable noise, and in trying to open her door found herself a prisoner. Not daring to scream, she had patiently and persistently applied herself to knocking on the wall over her head. Effie took her up stairs and we commenced a vigorous and thorough search for the enemy. We went into all the pantries and felt round under the shelves. We grouped behind the sofas and under beds. We took our registers, and probed the furnace pipes. In short we examined every possible and impossible place, and lastly struck a light.

Everything was just as it had been left the night before. The windows and doors were fastened, and the shutters closed as usual.

"Who locked that girl into her room?" asked Jerry, just before we disbanded.

"Oh, I can tell you," said Effie, leaning over the balustrade. "There is no lock on the door, nothing but a small bolt inside. She must have been frightened, and, in her excitement, pushed it the wrong way, and imagined the rest.

We laughed a little among ourselves.

The next day I invested in a stock of hard-ware, had the house made as secure as possible against intrusion from without, returned my pistol for safe keeping, and myself to my old habits. The burglars have not visited us since.—*Appleton's Journal.*

TARRANT'S SELTZER APERIENT.

OF A HIGHER CLASS than any other proprietary medicine of the day stands

Tarrant's Effervescent Seltzer Aperient.

And for this reason: It is an exact counterpart of one of the most valuable natural medicines in the world. We refer to the great Seltzer Spring of Germany, to which thousands of the dyspeptic, the bilious, the rheumatic, and the victims of venal diseases resort annually, and return to their homes convalescent or cured. The Aperient is one of the first, and by far the most successful of all the efforts made to reproduce, in a portable form, the popular mineral waters of Europe. **Be certain you purchase only the genuine article.**

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS,

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations, of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

FOR TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawfebl6

A GOOD OFFER TO THE

Ladies of Portsmouth and Vicinity.

E. A. JOY

Has Fitted up a Spacious and Elegant SEWING MACHINE ROOM directly over his Music Store and employs a competent young lady to take charge of the same. A cordial invitation is hereby extended to all the ladies (not having good Sewing Machines of their own) to bring in lots of work and learn to make it up on the Machines. *This will cost nothing whether a Machine is purchased or not.* If you do not buy now, you will at some future time; for the day is not far distant when a SEWING MACHINE will be considered as indispensable as a Cook-Stove. Come as often and stay as long as you please.

MR. JOY'S experience in the Sewing Machine line is very rapidly increasing, which enables him to make the above generous offer.

His long experience in this branch qualifies him to be an excellent judge of the goods he sells; and as he has had the Agency of *all* kinds offered him at different times (It is reasonable to suppose that the NEW SEWING MACHINES may always be had at the SEWING MACHINE EMPORIUM, No. 9 PLEASANT ST., nearly opposite the Post Office, Portsmouth, N. H. *Twelve Different Kinds to Select from.* mh7

TRY IT!

How well we remember in days that are gone,
The feelings we felt as we saw the cork drawn—
The disgust—the recoil
From "Cod Liver Oil,"
Dealt out to poor souls in the days that are gone!

Of this to be ta'en?
It swallows as easy as sparkling Champagne—
Does "Marvins' Deodorized Oil."

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS, *For Inventions, Trade Marks or Designs,*

NO. 763 FATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to procure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments and Claims for Patents, are drawn on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in every case, which is conclusive proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

PREVENTING CONSUMPTION.—It is not intended to give a chapter on the dire disease, consumption, believing that a few words on its prevention will be more useful. To ensure success, we must begin with the infant subject—the offspring of healthy ancestors. Protect it in infancy with soft flannels next to the skin, and let it breathe only pure air. In youth teach it that good health is the greatest of earthly blessings; without it there can be no enjoyment of life, and with it there should be no complaint of its defects. Teach it that good health, like an estate, may be squandered little by little, until it is bankrupt. Teach it that temperance in all things is essential; that there can be no violence of the laws of nature with impunity. Teach it to sit and walk erect, that the chest may be fully expanded. Do not suffer the clothing so tight on the chest and body as to interfere in the smallest degree with the expansion of the lungs. To keep the feet dry, use thick oiled leather, loosely applied. Exercise several hours each day in the open air. Choose virtuous and cheerful companions, with whom singing and laughter may be indulged in, and finally, take time to eat, and masticate your food well.

CHINESE KUKLUX IN LOUISIANA.—One of our coast planters, who has a number of Chinese laborers in his employ, seeing a disposition on the part of some of the negroes to annoy the Orientals, and apprehending a resort by the latter to the use of sharp knives which they always wear, cautioned them not to take the law into their own hands, but in case they were troubled by any negro to bring the offender before him and he would see that justice was done. Accordingly one day the painter, while sitting on his gallery, observed a procession of the Chinamen coming from the quarters bearing at their head a dark package. They marched with great deliberation and dignity up to the mansion, and laid their burden on the gallery at the feet of the painter. It proved to be a "chunk of a negro," securely bound, as only Chinamen know how to tie a parcel of goods. The negro was scared out of his senses, though entirely unhurt. Laying him quietly down on the gallery the leader of the Chinese, pointing to the dark mass, said to the painter, "Niggah! too much! too much niggah!" and then the whole party trotted back to their work. It was an hour's hard work to unite the frightened negro, who, on his release, very cheerfully acted upon the suggestion of the planter to "make himself scarce."—*New Orleans Times.*

Portsmouth, N. H.

MONDAY, MAY 29, 1871.

PARIS.—Minister Washburne has telegraphed that Americans and their property are all safe.

The archbishop of Paris and the fifty priests who were reported as massacred by the communists, have been rescued by the Versaillists. The story of their murder was spread by the communists, to increase the panic.

The fires are being got under; a part of the London fire brigade has gone to Paris.

The following is a summary of the principal public buildings destroyed or saved:—The palace of the Louvre has sustained immense damage. The building has been charred and blackened by the flames and smoke, and in some parts the walls alone remain standing. The valuable collections have fortunately been saved, with the exception of the library. The Tuileres has been burned from the railings in front of the Palais Royal to the pavilion floors. The Palais Royal has been destroyed. The Bibliotheque Nationale has been saved. The following-named public buildings have been destroyed. The Palace of the Tuileries, Ministry of Finance, Prefecture of Police, Court of Accounts, Palace of the Legion of Honor, barracks on the Quay d'Osay, Hotel de Ville and Mont de Piete. The following have been saved: Ministries of Marine, Interior, Foreign Affairs and Agriculture; the Pantheon, Ecole Militairie, Ecole des Beaux Arts, Bank of France, Credit Foncier and the churches generally.

The most determined and destructive fight of the civil war occurred in the cemetery of Pere la Chaise on Friday. The communists fought desperately, but were attacked on all sides, and crushed.

Government troops surprised and instantly shot a large number of women who were pouring petroleum into cellars and then throwing in fire, on the 26th.

The Communists continued firing petroleum shell all over the city, from La Chaumont, on the 27th.

In the Senate, Friday, Mr. Carpenter denied that he was Mr. Conkling's catspaw, and reiterated his belief that the treaty was not made public except through the gross carelessness of the Senate. He abused Mr. Whitelaw Reid, and said that Mr. Tinker had denounced as untrue, in a note to him, the statement concerning his testimony published in the Tribune. Mr. Fenton then submitted a statement from four well-known correspondents that Mr. Tinker's report to them was even stronger than that which they published. The Senate then went into executive session, and for once it is not known what was done during the five hours that the doors were closed.

THE Heathen Chinee has got to the windward of race prejudice. Chinese testimony was received in a California court for the first time, May 26. A Chinese doctor was recently robbed and maltreated in broad daylight, but one Judge Sawyer refused (under a State law) to allow him to testify against the thieves. The doctor then made arrangements to take out a warrant in the federal court under the Ku-Klux bill, whereupon the decision against him was reversed by the sapient judge, and he was permitted to testify.

ABOUT twenty-five women attacked a notorious house of ill-fame in Ashland, Ill., on the night of May 25, and hurled bricks and stones at the doors, to the imminent danger of the inmates, who were compelled to come out. When on the street a large crowd gathered, and such a storm of missiles and abuse met the occupants that they were glad to escape from the crowd and leave the town as quickly as possible.

J. B. COGGESHALL, republican representative to the Mississippi legislature from Tallahatchie county, was mortally wounded at Harrison Landing, in the same county, in a difficulty with Fred Craig, May 25. The affair originated in a political discussion. Craig has been arrested.

THE prize-fighters, Collins and Edwards, have been sentenced to one year in State prison and $1000 fine, each—the fine to count as another year, if not paid. Their umpire is treated to six months in prison and a fine of $500. There is *some* good in New York, yet.

A party of wood-choppers and a band of Yankton Indians lately had a desperate fight near Muscle Shells Mount, on the Missouri River, in which one white and eleven Indians were killed.

NEW HAMPSHIRE ITEMS.

Another Democratic Representative has been hurt, Mr. John F. Morrill of Thornton, who was thrown from a wagon and painfully bruised.

The newly elected Board of Directors of the Manchester & Lawrence Railroad is said to be not in sympathy with the present management of the Concord R. R.

Mr. William F. Baird, foreman of the workmen on the "Summit" ledge on the Sugar River Railroad, who had his right foot crushed by a fragment from a blast on the 22d, suffered amputation of the member about half way up to the knee on the 25th. Mortification set in, rendering the amputation necessary. Mr. B. is in a very critical state.

The tobacco farmers of Walpole intend to double the acreage devoted to the cultivation of the noxious weed. Many will raise twenty-five acres. Many persons are entering upon raising this profitable crop.

The Annual report of Directors of the Concord Railroad for the year ending March 31, opens with a terse statement of the history of the road under the "contract" management, during which its affairs were so mixed with the affairs of the Northern Railroad that no separation of the financial accounts is practicable. The present directors came into possession of the road January 14th, and from that date down to March 31st, the receipts were $150,910.-80, and the expenditures $149,371.32; net earnings $1,539.48. The net earnings for April, 1870, before the Road went into the hands of the Northern Road under the contract, were $28,789.-46; receipts from the Northern Road, $107,851.79, and the net earnings while it was in the hands of the Receivers $56,232.86; making the whole net earnings for the year, $194,413.59. Deducting $42,325.52 paid to the Manchester & Lawrence Road, the sum of $152,088.06 remains as the net earnings of the Concord Road. From this two dividends of 4 per cent have been paid, $150,000, leaving $2,088.07 to the contingent fund, which is now $59,-819.35.

GOVERNOR Scott of South Carolina had a long interview with President Grant Friday morning, in which he said that there was no necessity for putting the State under martial law, that the good state of feeling among the better classes of citizens was enough to put down the Ku-Klux. If the good state of feeling among the better classes of citizens is so patient, a more public exhibition of it would be gratifying—it is high time the Ku-Klux were put down by somebody. The following pleasant picture of affairs is given by a recent writer from that State:—

The better classes hate and depise the State Government; the poor whites, ignorant and cowardly, but cruel and revengeful, detest negroes as their rivals in labor and politics; the negroes distrust the whites, and always fear that an attempt will be made to remand them to slavery; incompetent and dishonest men have been placed in office by the well-meaning negroes; mysterious and murderous Ku-Klux gangs go about the country; the State Government is weak and vacillatig, and many of its officers are more intent on filling their pockets than upon enforcing the laws and protecting the citizens.

THAT the millenium is near at hand seems to be a general opinion of the press. A murderer has been convicted in New York, the police of that city have arrested and a magistrate has held to bail a crowd of bullies and roughs, and a raid has been made in the "policy shops" and 500 swindlers taken into custody and bound over or imprisoned. What can it mean? Has Tammany wearied of the violence and crime of its own agents of misrule and fraud?

Two foolish young persons in Lawrence, Mass., because there was opposition to their marriage, attempted suicide with arsenic on Friday night. The girl died, but the young man recovered and is under arrest.

MEN KILLED.—Charles Eacker was hung at Fonda, New York, May 26th, for the murder of Thomas E. Burdick; and Ben. Sawyer, colored, was hung the same day at Evansville, Ind., for the murder of his wife.

JEFF DAVIS has talked some more, this time at Augusta, Georgia. He does not consider the principles of the "lost cause" as dead, and believes the South can afford to be patient under her "wrongs."

IN Chelsea, Mass., May 26, a small boy went into a stable to practise smoking a pipe. The stable and a house connected with it were burned.

—Colfax is sick; his party is sicker, though.—*Maine Standard.*

And the Democratic party is sickest.

NEW PUBLICATIONS RECEIVED.

Every Saturday for this week presents a new and important claim to favor. Every copy is trimmed, neatly pasted so as not to disfigure the paper, and held together as securely as if stitched. This arrangement is to be permanent, will be a very great convenience to all who read the diversified literary contents of Every Saturday, and all who examine its weekly gallery of portraits, landscapes, and pictures of character, incident and travel.

Every Saturday is publishing a series of articles by Ralph Keeler, entitled "On the Mississippi," with admirable illustrations by Mr. Waud.

John Hay, like Bret Harte, has his illustrated editions. J. R. Osgood & Co., publish Little Breeches and Jim Bludso together, with illustrations by S. Eytinge, Jr.

Miss Alcott's new book, "*Little Men*," will be issued by Robert Brothers June 1. Most of the characters of "Little Women" are introduced in connection with Prof. Bhaer's and Jo's school at Plumfield.

—Bangor, Me., worked through a divorce in eight minutes, last week, and wants to see that time beaten if anybody can do it.

—A party of eastern correspondents, including Mrs. Richardson and Mr. Samuel Sinclair and daughters, on their way to the Yosemite, passed under the natural bridge of Calaveras, the entire distance, over a quarter of a mile, wading several underground streams. The feat was never before accomplished by woman.

BUSINESS NOTICES.

Johnson's Anodyne Liniment will give more relief in cases of Chronic Rheumatism, no matter how severe, than any other article known to medical men.

It is often remarked by strangers visiting our State, that we show a larger proportion of good horses than any other State in the Union. This, we tell them, is owing to two principal reasons; in the first place, we breed from the very best stock; and in the second place, our people use *Sheridan's Cavalry Condition Powders*, which in our judgment are of incalculable advantage.

SPECIAL NOTICES.

You Haven't Tried Them.

Victim of debility, who is responsible for your feebleness? Not yourself, you will say, for you've done all you could to cure it. That's a mistake on your part.

You haven't tried Hostetter's Bitters.

Gloomy dyspeptic, with an uneasy stomach and a world-weary face, of course you don't think yourself responsible for your own torments. But you are. It is easy to see from your condition that you haven't tried Hostetter's Bitters.

Billious sufferer, it is not your fault, you think, that your symptoms grow worse day by day. Blue pill doesn't do you any good. Very likely. But you can be brought round for all that.

Why haven't you tried Hostetter's Bitters?

Friend, on whom fever and ague alternately blows hot and cold, and whose brain seems to be bursting with the effects of some powerful drug, do you assume the responsibility? O, no! You've taken piles of quinine, and all the regulation medicines. What could you do more? One thing more—the very thing that would have exempted you from all the pangs that now rack you.

You have never tried Hostetter's Bitters.

Nervous invalid, what have you to say? You plead that you have taken all the nervines of the pharmacopœia. If they have done you no good, it is not your fault. You are not responsible. Wrong, all wrong. You have, in reality, nobody to blame but yourself.

Why haven't you tried Hostetter's Bitters?

For all the above-named complaints, the Bitters are absolute specifies.

TRY IT!

How well we remember in days that are gone,
The feelings we felt as we saw the cork drawn—
The disgust—the recoil
From "Cod Liver Oil."

Dealt out to our souls in the days that are gone!
But who could complain
Of this to be ta'en?
It swallows as easy as sparkling Champagne—
Does "Marvins' Deodorized Oil."

HALL'S Burlesque Comedy Company will play at the Temple, Wednesday and Thursday evenings.

ONE of the "Hoocheekooochees" who tried to get an old friend drunk last week was three or four days recovering. Served him right.

SCHOONER Light of Home, Seward, arrived on Friday at Harding & Doane's, with 180 bbls. mackerel—the first of the season. Capt. Seward reports the fleet doing well.

U. S. Steamer Ticonderoga left the Navy Yard for the lower harbor on Saturday at noon, and the Wyoming now occupies her berth. The latter will probably be ready for sea about the middle of June.

STEAMER Emerald went adrift, Thursday evening, owing to the parting of a tiller rope. The wind was blowing fresh and the little ferry boat drifted down to the Narrows before the tiller rope was secured.

THE work of rebuilding the North Mill bridge is to be commenced to-day,—none too soon, for it has been in a bad condition for a long while. The job is in charge of Mr. Joseph L. Martin, who will do it satisfactorily.

THE young man who visited the Hayes farm last week, found his wishes anticipated when he wanted to go over a stone wall. He wanted to go over, of course, else he'd not have gone. A horned quarruped assisted him in a very effective way, and Hiram didn't "make a note on't."

WE learn that Mr. W. W. Palfrey of this city met with an accident on Saturday morning, which came near being serious. While engaged in cutting grass with a sickle the tool slipped, cutting his hand badly. Fortunately it was his left hand that was injured, or he would have been interrupted in his office duties for a long time.

THE "copper horn" has several times demanded that the republican papers in this section should publish the correspondence and editorials of the N. Y. Tribune, concerning Ku-Klux outragas. We don't recognize any one's right to tell us what we shall put in the CHRONICLE, but we have obeyed the order "for this occasion only," and extracts from the correspondence of the Tribune will be found on our fourth page.

REV. GEORGE W. BICKNELL preached a very interesting Memorial sermon on Sunday at the Universalist church. Storer Encampment, G. A. R., were invited by the wardens to be present, and attended in uniform. The church was filled, and the preacher held the large congregation in close attention to the end of his discourse. That he should speak with earnestness and feeling on the subject is but natural, as he bore an honorable part "at the front" himself, during the nation's struggle for existence, and therefore knows whereof he speaks.

SEVERAL new monuments have been erected in Harmony Grove and Proprietors' Cemeteries this Spring. Among them may be noticed particularly a very beautiful granite shaft, surmounted by a cross,—erected on the lot of Mr. Thacher Emery. The panels on this shaft are polished, and the monument is one of the most effective in the cemetery. In the lot of the late Albert L. Jones, a magnificent sarcophagus has been erected; it is entirely of white granite, beautifully finished, ornamented with acanthus leaves and sphinx's heads in bold relief. No more majestic monument marks the resting place of any citizen.

SOUND marrowfat squashes are seldom met with at this season of the year, but Mr. George H. Ham showed us one on Friday evening of last week, raised last year in his garden on Union Street, weighing six pounds, and perfectly sound and free from any blemish or suspicion of decay. It grew on a vine trained up on the side of the house, and shows no trace of contact with the earth, not having rested upon it while growing. No especial care was taken of it—we understood Mr. Ham to say that the children had used it for a marble, on occasions, though we may have been mistaken in that; but we do not mistake as to the promise given us of a big piece of the pie Mrs. Ham will make of the squash, and we anticipate a very pleasant season in devouring that same, as squash pie is our especial weakness.

W. L. TERHUNE, at the new hat store in the Franklin house, offers a drink of soda to each purchaser—a novel idea. The new firm has faith in advertising and propose to fight it out on that line.

A detachment of marines for the Wyoming arrived at the Navy Yard on Saturday. They numbered thirty-two when they left Boston, but on their arrival here only thirty-one could be counted. His gun, knapsack, &c., were all right, but bold soldier No. 32 had fled.

CHARLES ROBERTS, of Chistian Shore, this city, broke a rib and was otherwise injured at Jones' Brewery on Monday of last week. He was entering the building on a plank from the ground, with a piece of joist on his shoulder, and in stooping to enter the window the plank slipped and Mr. Roberts was precipitated to the ground—a distance of about 9 feet. He is now doing well.

IT is getting so dry that farmers are becoming anxious for rain. A party of three were discussing the matter recently, one predicting rain soon. It was then suggested that he had better keep in out of the wet, "that none of the rain should be wasted when it fell"—which reminded a listener of a statement that another farmer "was so mean that he would not walk over his field on a sunny day for fear of shading the corn."

THE Biddeford correspondent of the Great Falls Journal says the surveyors of the Boston and Maine extension have been at work for several days, and are now in the vicinity of Old Orchard Beach. Many who had great faith in the building of the road are now unbelievers, thinking that this survey is simply to make a bargain with the P. S. & P. and Eastern railroads; if not, they argue that it would be hurried more, and by this time would have been finished. Whether it will or will not be built remains to be seen.

SOUTH SEABROOK.—On Memorial Day the new cemetery in the rear of the Congregational church, recently completed, will be dedicated with the name "Wildwood." A procession of citizens, children and a company of returned soldiers, will parade through the neighborhood, headed by the Atlantic Cornet Band, who will appear for the first time in their new uniform. The oration will be delivered by Rev. E. A. Rand, pastor of the E Street church, South Boston, a brother of the resident pastor of South Seabrook. The soldiers' monument in the centre of the cemetery will then be decorated with flowers by the children, the band playing a dirge; after which the veterans will fire several volleys.

THE "8 o'clock" advertisement in the papers refers to a new brand of coffee.

GLOUCESTER fears a set back in her fishery business, if the treaty with John Bull is made and ratified as proposed.

BASE BALL.—The Kekiongas of Fort Wayne beat the Cleveland Forest City club 16 to 7, May 26. The Washington Olympics beat the Stars of New York, amateurs, by the close score of 21 to 29.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a month Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c.—and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, HANDBILLS, CIRCULARS, ORDERS DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, at SATISFACTORY PRICES. Morning Chronicle.

NEITHER the Ku-Klux bill, the South Carolina "Conciliatory Convention," the Address of the copperhead National Committee, the Vallandigham "new departure," or the one Tribune correspondent who (according to good copperhead authority—in the North) alone of all his fellows is worthy of credence, have managed to stop the Ku-Klux outrages in South Carolina. Another Tribune correspondent—not the copperheads' idol—writes that the Probate judge of Newberry county recently gave up his commission in a hurry, to save his life; and adds the following account of an affair that occurred there recently.

On Saturday night, about 12 o'clock, the Ku-Klux, numbering about 100 men, all mounted and disguised, wearing grotesque masks upon their faces and horns upon their heads, came into the town, and ordered the few men they saw on the streets to go to their houses and stay there. They then moved with military regularity, and their commands were given by whistles. They first visited the house of Simeon Young, Chairman of the Board of County Commissioners, a negro man of intelligence and good education. Thirty of the gang entered the yard and surrounded the house; the others remained in the road. Those about the house broke the sash of the window of Mr. Young's bedroom, and threw in a lighted turpentine ball, that they might see to shoot. Young sprang out of bed, and had presence of mind enough to smother the flames at once with a blanket. Three more blazing balls were thrown in, and a volley was fired through the window and the door. Mrs. Young was wounded in the back, and a child which was in bed with her, was wounded in both legs. Mrs. Young's wound is believed to be fatal. The assassins then broke the door down. As they entered, Young shot the foremost, and instantly sprang through the window. He ran through the back yard and leaped the fence, receiving two revolver shots in the leg, but he escaped to the woods where he lay concealed until Monday, when he returned to the town and took the train to Columbia. The Ku-Klux left Young's house immediately, and made a descent upon the houses of David Harlstock, another County Commissioner, and also upon that of a trial justice named Long; but these men, warned by the firing at Young's, made their escape.

The Ku-Klux then left the town, impressing a horse and buggy to carry off the wounded man, whom they left, however, at a house four miles away. On Monday the Sheriff took a posse, captured the wounded desperado, who was found to be a gambler and tavern loafer well known in Newberry, and lodged him in jail. His wounds are severe, and one of his legs will have to be amputated. If he does not die, and *if he can be brought to trial*, it is hoped he will implicate the other members of the gang. I cannot learn that there was any cause of antimosity against Mr. Young, beside the fact that he is a negro and was holding office.

The Ku-Klux were also at work on Saturday night in Fairfield County, and whipped two old men nearly to death.

The writer concludes as follows:—

The Ku-Klux movement has now got beyond the control of respectable and influential men, and however strongly they may desire to prevail, the depraved and desperate men who now do the work of the order give no heed to their entreaties. Already in some districts the leading citizens are afraid of the Ku-Klux as are the poor negroes. The editor of an up-country Democratic paper said, the other day, that he would be glad to denounce the Klan in his columns, but did not dare to do so for fear that they would use violence against him. The same feeling prevents the adoption of any efficient measures for the arrest and punishment of the ruffians.

In all of South Carolina, excepting the coast counties and the four or five northwestern counties, there prevails a condition of society difficult for one who has always lived where laws are respected to comprehend. Everybody who can buy a weapon carries one, and nobody lies down to sleep without placing a gun, or a revolver, or an ax, if he is too poor to buy fire-arms, within reach from his bed. The whites constantly fear that the negroes will retaliate in some indiscriminate and brutal way for the wrongs they have suffered, and the negroes dread the visits of the terrible Ku-Klux. I was assured by a man of prominence, socially and politically, that every member of the late convention in Columbia carried a revolver, and when it is considered that these were for the most part grave old men, who met for the purpose of devising means for securing tranquility, this fact well illustrates the extent to which the feeling of uneasiness and apprehension prevails.

—This is the way a Wyoming woman was taken at a St. Louis banquet last week:—"Gentlemen, the sentinels of great ideas which have kept lonely watch across the centuries are calling to each other from mountain top to peak, 'Watchman what of the night?' The nineteenth century responds, 'Traveler, the dawn usually breaks in the East, but lo! The morning cometh from the West, and the Star of Wyoming and Missouri proclaims the birth of freedom's daughter!'"

TARRANT'S SELTZER APERIENT.

OF A HIGHER CLASS than any other proprietary medicine of the day stands

Tarrant's Effervescent Seltzer Aperient.

And for this reason: It is an exact counterpart of one of the most valuable natural medicines in the world. We refer to the great Seltzer Spring of Germany, to which thousands of the dyspeptic, the bilious, the rheumatic, and the victims of renal diseases resort annually, and return to their homes convalescent or cured. The Aperient is one of the first, and by far the most successful of all the efforts made to reproduce, in a portable form, the popular mineral waters of Europe. **See that you purchase only the genuine article.**

NATURE'S REMEDY.

VEGETINE,

THE GREAT BLOOD PURIFIER.

THE METHODIST, of New York, has always been edited with marked ability by Rev. Dr. CROOKS. Its publishers have just added to its editorial corps, Rev. ABEL STEVENS, an equally experienced journalist, and author of the best History of Methodism extant. They have also engaged contributions and sermons from Rev. T. DEWITT TALMAGE, whose success and popularity as a preacher, writer and lecturer, are almost unexampled, and whose free Tabernacle in Brooklyn, with its congregation of over 3,000 people, is one of the marvels of the age. Rev. HENRY WARD BEECHER has a Lecture Room Talk every week.

THE METHODIST abounds in good things, is never dull or dry, has stories for children, hints for farmers, and something for everybody. Mrs. Willing's great serial story is almost ready. They offer for the price of one year's subscription ($2.50) to send THE METHODIST from now until July 1st, 1873. Specimen copies free. 114 Nassau Street, New York. m3

ARE YOU GOING TO PAINT?

—IF SO, USE THE—

AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier to work than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.

I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing good experienced workmen by the day at very low wages. B. NORTON, only Agent for selling the

JOUVIN KID GLOVES, best quality, for sale by CEAS. E. SHEILD & Co.

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS.

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawfebl6

NEW PUBLICATIONS RECEIVED.

The June number of *The Aldine* appears to be better than the last, and from what we in the present behold, and are led to understand of the preparations for the future, the limit to which its enterprising publishers intend to go is not yet. The opening picture "Night" is a charming group of statuary, emblematic of sleep, by Schilling. The legend of "The Pied Piper of Hamelin," is beautifully illustrated in a whole page engraving, by Spangenberg, and accompanied by Browning's exquisite metrical version of the story. The other full-page one is "The Hayn Fall," one of the best cut and most effective pictures that has ever appeared in this publication. Of the smaller ones, "Mount Quarantana," and "The Payrus Swamp on the Upper Jordan," by Harry Fenn, are particularly pleasing, while the portrait of William Cullen Bryant is in every way worthy of its noble subject. In literary matter this number is excellent; $2.50 per year, which includes a chromo in oil-colors, alone worth the money. Publishers, James Sutton & Co., 23 Liberty Street, N. Y.

Climates for Invalids by Ledyard Bill, New York; Wood & Holbrook. The Christian Union, edited by Henry Ward Beecher, speaks enthusiastically of this book as follows: "Minnesota for most people, Florida for delicate temperaments, where disease has a mental origin, afford the best climates, in the author's opinion, for those who are stricken with consumption or allied maladies. In justifying this view, the author enters upon climatic considerations with enthusiasm and knowledge. Indeed, we have seldom read of a book of this kind, so delightful in its general methods, so full of newly collated facts, and so scientifically entertaining. The author's advice to invalids as to physical means of recovery is excellent, and altogether the volume is one of genuine merit."

A HUGE STORY.—If the following, which we copy from the Eastern Herald, published at Palatka, Fla., is based upon facts, deliver us from ever navigating the Ocklawaha river or residing within many miles of that section. It says:

A Terrible Scene. — A gentleman, who has been stopping in our midst for some time gives an account of one of the most terrible scenes ever recorded in the annals of this country. While steaming up the placid waters of the Ocklawaha river he witnessed a conflict which made his hair stand on end, never to be forgotten. After rounding Sacket's point the stream widens and deepens, and the waters at this point always look troubled and black. Suddenly the steamer encountered a sea of alligators, floundering and splashing water in every direction; their bellowing shook the foundation of the waters. The captain says he never heard of or witnessed such a scene and never wished to again. Before the speed of the little steamer could be checked they found themselves in the midst of these terrible monsters. To back or go ahead was impossible. The passengers endeavored to drive them away by shooting, and the hands on board beat them with hand-spikes; yet they seemed more determined to obstruct the passage of the boat. The situation every moment became more critical, and the crew and passengers more and more exhausted and the destruction of the boat seemed inevitable.

Already three colored hands had been devoured by these terrible monsters and several others wounded. Several planks were torn from the hull and the steamer was with difficulty kept from sinking. Just at this period a source of relief came. A huge serpent appeared, making his way from the lakes, the same, it is supposed, that was seen at Devil's Elbow last fall. The alligators soon disapeared before the sea devil, or whatever you may call him, and such fighting was never witnessed. At a point where the river suddenly narrows, it soon became blocked up by dead alligators, and the water was red with blood. It is difficult to account for the numbers and sudden appearance of these animals, but the latest theory may throw some light upon the subject. It is believed by many that a large subterranean passage exists between the waters of the Okeechobee lake, and those of Ocklawaha river, and that these monsters have found their way here in large numbers and if not soon exterminated, will obstruct the navigation of the Ocklawaha.

ARE THE BEST AND MOST RELIABLE.

One bottle of Helmbold's Fluid Extract Sarsaparilla equals in strength one gallon of the syrup or decoction as made by druggists; and a wine-glass added to a pint of water equals the celebrated Lisbon diet drink—a delightful and healthful beverage.

The Grape-Juice Pill is composed of Fluid Extract of Catawba Grape-Juice and

Fluid Extract Rhubarb.

Useful in all diseases requiring a cathartic remedy, and far superior to all other purgatives, such as salt, magnesia, &c.

Helmbold's Grape-Juice Pill

is not a patented pill, put up as those ordinarily vended, but THE RESULT OF TEN YEARS' EXPERIMENTING, AND GREAT CARE IN PREPARATION. SAFE FOR AND TAKEN BY CHILDREN. NO NAUSEA; NO GRIPING PAINS, BUT MILD, PLEASANT, AND SAFE IN OPERATION. TWO BOTTLES OF THE FLUID

IT IS A SURE AND Perfect Remedy for all diseases of the

LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVERS, OR THEIR CONCOMITANTS.

DR. WELLS, having become aware of the extraordinary medicinal properties of the South American Plant, called

JURUBEBA,

Sent a special commission to that country to procure it in its native purity, and having found its wonderful curative properties to even exceed the anticipations formed by its great reputation, has concluded to offer it to the public, and is happy to state that he has perfected arrangements for a regular monthly supply of this wonderful Plant. He has spent much time experimenting and investigating as to the most efficient preparation from it, for popular use, and has for some time used in his own practice with most happy results the effectual medicine now presented to the public as

Dr. Wells' Extract of Jurubeba,

and he confidently recommends it to every family as a household remedy which should be freely taken as a BLOOD PURIFIER in all derangements of the system and to animate and fortify all weak and Lymphatic Temperaments. 4wm16

TUESDAY, MAY 30, 1871.

THE Democratic papers are fond of quoting from a few Republican sources that President Grant is unpopular in the West and elsewhere. If the President isn't popular why don't they advocate his renomination by the Republicans, that he may be easily beaten? The fact is that since his abandonment of the Santo Domingo project and the ratification of the Treaty of Washington, President Grant has a firmer hold on the Republican party and is supported more heartily by the people than at any time since his elevation to the Presidency. The Democrats, knowing this, make him the especial object of attack.

THERE are well-founded fears that Vice President Colfax will never be able to preside over the Senate again. There seems little doubt that he has been attacked with incipient paralysis, from which it is feared he will never fully recover. Excessive labor, loss of sleep and over indulgence in strong cigars have contributed to this. Except tobacco, Mr. Colfax has no small vices; and the first spirituous liquor he ever took in his life was administered the other day when he was insensible.—*Washington cor. Boston Herald.*

THE shaft of the Pittston, Pa., coal mine was set on fire, May 27th, by the burning of the coal breaker, which caught from a heated journal. There were 38 men in the mine, 18 of whom were dead when they were got out, Sunday afternoon. There is but one shaft to the mine, but a second one is being constructed. The engineer of the mine stuck to his post after the engine house was in flames, bringing up three cage loads of men, and sending the cage down four times after no more men came up. He only left after the hoisting ropes was burned off, was terribly scorched himself, and with difficulty escaped with his life.

REV. HENRY D. MOORE of Cincinnati and all the members of his family were recently dangerously poisoned, but all survived. It was doubtful whether the poison was in some food eaten or whether it was inhaled into the system, the house having just been painted.

SENATORS Carpenter, Sprague and West are supposed to be the only Republicans who voted against the treaty, and Messrs. Corbett and Howe did not vote. Messrs. Bayard and Hamilton are thought to be the only Democrats who voted for it.

WILLIAM THOMPSON, the former editor of the Bangor Democrat and Evening Times, hung himself Sunday forenoon. He lost his speech some time ago, and was probably insane in consequence. His age was 60 years.

Two more prize fighting roughs have been sentenced in New York. They get six months in prison and $1000 fine, each.

THE court of claims has ordered the payment for Mr. Seward's cable despatches in cypher.

THE Concord correspondent of the Boston Journal says:

John C. Pearson, the Republican Representative from Webster, is prostrated by a dangerous illness, and it is feared that he will not be able to be present at the opening of the session. The Democrats are looking after their representatives, and are cautioning them to be careful of their health. It is reported here that the Democrats are so anxious for the personal safety of these legislators that they are arranging to have them brought to Concord in special trains preceded by pilot engines. The political situation continues intensely interesting, with a slight change favoring the Republicans.

The indications are that the contest over railroad matters in the coming Legislature will be an intensely earnest one. Democrats are so mixed up in it that there is a possibility that it will act injuriously upon their political organization. In view of this they are now considering the propriety of a compromise that will postpone all important railroad questions to the Legislature of 1872. The Republicans have also some anxiety on the same topic, but are not near so deeply concerned as are the Democrats.

SOUTHERN RAILROAD EXTENSION.—The new era of prosperity and increased production at the South will demand greatly extended railway communication between the agricultural districts and the shipping ports. Especially is the want of adequate transportation facilities felt by the people of Texas. They have an enormous and exceedingly fertile State, with a capacity for cotton, grain and cattle raising that can hardly be estimated, but to reach New Orleans there has been but one route, and that by way of coastwise navigation, which, at the best, has been tedious and is often dangerous. But Northern capitalists have at length taken in hand the work of building a trunk line of railroad, which will connect the two great commercial cities of the Gulf—Mobile and New Orleans—and give a direct line from the latter city to Houston, Texas.

Of the whole line of 475 miles, about 225 have been already built from Mobile westward, and 108 miles in Texas from Houston to the Sabine River, has also been built. On the Louisiana division of 226 miles, about 85 miles are built, leaving but about 140 miles to complete the whole line. To do this work has taken large capital, and the stockholders of the Company are reported to have paid out in the construction of the road, not less than $10,000,000 before asking the public to loan money upon any sort of promise to pay.

Having done so much themselves, the Company now issue bonds upon the Louisiana division—the most important part of the line—which are thoroughly secured both by the certain prospective business of the road, and the large amount, above noted, which has already been invested in the work. The bonds are of two classes: First Mortgages to the very small amount of $12,500 per mile, and Second Mortgages, to an equal amount, both principal and interest guaranteed by the rich State of Louisiana.

The bonds are offered, for the present, at 90 and accrued interest in currency. They pay interest at the rate of 8 per cent. currency, or 7 per cent. gold, payable semi annually, in January and July. The holder can take his choice at every separate coupon day, whether to take currency or gold interest, so if gold is temporarily high at such time, he can have the advantage of the premium.

The Company embraces many of the strongest capitalists of the North, and the negotiation of the bonds is in the hands of Mr. W. B. Shattuck, whose marked success in promoting the Government loans, the Union Pacific and Central Iowa railway securities, and other large financial enterprises, has proven his ability to manage first class investments.

At the price named these bonds pay very largely in excess of Governments, and the figures given in the Company's pamphlet show that these 8 per cent. currency bonds are much more profitable, at the same price, than 7 per cent. gold bonds. The advertisement in another column presents some of the strong features of this new road, and parties having money to invest will do well to examine the matter.

PARIS. — Minister Washburne telegraphs that the insurrection has been suppressed, that the insurgents have lost enormously, and that an archbishop and 69 priests were shot on Tuesday, May 23, by the communists.

The fighting on Friday and Saturday was terrible, and it is calculated that 60,000 dead bodies, many of them of women and children, encumber the houses and cellars; a pestilence is apprehended.

It is proposed to burn the bodies of the dead, as a sanitary measure.

The summary execution of prisoners is being conducted at a frightful rate by the victors. Men, women, and even children are shot without discrimination or delay. The women are, in many cases, publicly disgraced before being executed. Numbers of women belonging to the regiment of Amazons have been captured and many shot.

A dispatch from outside Paris, Sunday evening, reports that not a shot had been fired since 10 o'clock A. M.; also that the flames which have destroyed so much of the city were under control, and the provision trains were entering the gates.

Orders received by mail, express, or at the CHRONICLE OFFICE will be *promptly filled.*

BUSINESS NOTICES.

Johnson's Anodyne Liniment will give more relief in cases of Chronic Rheumatism, no matter how severe, than any other article known to medical men.

It is often remarked by strangers visiting our State, that we show a larger proportion of good horses than any other State in the Union. This, we tell them, is owing to two principal reasons; in the first place, we breed from the very best stock; and in the second place, our people use *Sheridan's Cavalry Condition Powders*, which in our judgment are of incalculable advantage.

SPECIAL NOTICES.

You Haven't Tried Them.

Victim of debility, who is responsible for your feebleness? Not yourself, you will say, for you've done all you could to cure it. That's a mistake on your part.

You haven't tried Hostetter's Bitters.

Gloomy dyspeptic, with an uneasy stomach and a world-weary face, of course you don't think yourself responsible for your condition. But you are. It is easy to see from your condition that you haven't tried Hostetter's Bitters.

Billious sufferer, it is not your fault, you think, that your symptoms grow worse day by day. Blue pill doesn't do you any good. Very likely. But you can be brought round for all that.

Why haven't you tried Hostetter's Bitters?

Friend, on whom fever and ague alternately blows hot and cold, and whose brain seems to be bursting with the effects of some powerful drug, do you assume the responsibility? O, no! You've taken piles of quinine, and all the regulation medicines. What could you do more? One thing more—the very thing that would have exempted you from all the pangs that now rack you.

You have never tried Hostetter's Bitters.

Nervous invalid, what have you to say? You plead that you have taken all the nervines of the pharmacopoeia, if they have done you no good, it is not your fault. You are not responsible. Wrong, all wrong. You have, in reality, nobody to blame but yourself.

Why haven't you tried Hostetter's Bitters?

For all the above-named complaints, the Bitters are absolute specifies.

A GOOD OFFER TO THE
Ladies of Portsmouth and Vicinity.
E. A. JOY

Has Fitted up a Spacious and Elegant SEWING MACHINE ROOM directly over his Music Store and employs a competent young lady to take charge of the same. A cordial invitation is hereby extended to all the ladies (not having good Sewing Machines of their own) to bring in lots of work and learn to make it up on the Machine. This will cost nothing whether a Machine is purchased or not. If you do not buy now, you will at some future time; for the day is not far distant when a SEWING MACHINE will be considered as indispensable as a Cook-Stove. Come as often and stay as long as you please.

Mr. JOY'S business in the Sewing Machine line is very rapidly increasing, which enables him to make the above generous offer.

His long experience in this branch qualifies him to be an excellent judge of the goods he sells; and as he has had the Agency of *all* kinds offered him at different times it is reasonable to suppose that the *Best* SEWING MACHINES may always be had at the SEWING MACHINE EMPORIUM, No. 9 PLEASANT ST., nearly opposite the Post Office, Portsmouth, N. H. *Twelve Different Kinds to Select from.* mh7

NEW ADVERTISEMENTS.

THE
NEW ORLEANS, MOBILE & TEXAS
RAILROAD COMPANY

Are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 168 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 226½ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.

Subscriptions will be received in Portsmouth by

SAMUEL LORD,
Cashier, First National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.

VANDALS still desecrate the graves of the dead in the cemeteries. The latest case of the kind is reported by Mr. Richard L. Randall, whose lot in Harmony Grove Cemetery near the soldiers' monument lot has been robbed of the emblems of love and respect for the dead which had been planted over the grave of a beloved daughter. The English language hardly contains words of sufficient force to apply to the miscreants whose meannesses are so frequently displayed by robbing the dead.

ORDER FOR MEMORIAL DAY.

The formation and route of the procession are given below, and also the order of ceremonies at the South Cemetery. Preceding the address, the following hymn will be sung by the double quartet:

Love unchanging for the dead,
Lying here in gloried sleep,
Where the angels softly tread,
While their holy watch they keep.

Wreaths we bring that ne'er shall fade,
Greener with the passing years,
Brighter for our sorrow's shade,
Jeweled with our fallen tears.

Dying that the truth might live,
Here they rest in Freedom's name,
Giving all that man can give—
Life for Glory's deathless fame.

Bend in love, O azure sky!
Shine, O stars! at evening-time!
Watch where heroes calmly lie,
Clothed with faith and hope sublime.

God of nations, bless the land
Thou hast saved to make us free!
Guide us with thy mighty hand,

THE supercilious editor of the Lyre defends his kind of people, of whom we spoke in a recent issue, and with his usual "dislike for personalities" denies our statements in regard to certain specimens of the bar in his customary style of abuse. He has peculiar reasons for securing the friendship of the class he defends, and therefore does not hesitate to utter falsehood upon falsehood. Indeed his misrepresentations have become so thoroughly systematic that he would prefer to publish willful falsehoods when the truth would better answer his purposes. His memory is a very convenient one, while his duplicity has been frequently shown since the Lyre was born and he brought his carpet-bag to this city.

A salute of thirteen guns was fired from the Navy Yard Battery on Monday morning in honor of Rear Admiral Wm. Rogers Taylor, the object of whose visit is to conduct a Court of Inquiry convened here for the purpose of investigating the sinking of a schooner by the Ticonderoga while the latter was on her trial trip. The name of the schooner sunk was Ada A. Andrews, Capt. Kelley. There was a thick fog at the time of the accident, and probably no one was to blame, although the collision was so severe as to cause the schooner to sink in ten minutes after being struck. The affair happened about twelve miles E. S. E. of Cape Cod. All the interested parties in the case are present and the court will probably continue in session two or three days.

Correspondence.

RYE, May 29th.

The town bell is in a bad state. It sounds very much like it was cracked. The selectmen made an investigation Monday, and reported it in a shaky condition as far the "hang" of it is concerned, but couldn't discover any crack about it, although it is certain that a piece of it weighing about ten pounds was broken off from the bottom, and is now on exhibition at Mr. Parsons' store. The wardens of the Congregational Society, on the belfry of whose church the bell has been hung since it was cast in 1842, have called the attention of the selectmen to it, and it seems to be the desire of most of the members of the society to have the bell taken down, and not be put there again, as more damage is caused to the church by the boys, who make it a practice every Independence Day to ring it all day and night, than from all the other causes combined. The bell used in town, before the present one, came over from England a hundred or more years ago, and is said to have been an excellent one, it frequently having been heard distinctly at the Isle of Shoals. The present bell was rung very vigorously just after the March meeting by the enthusiastic democracy and it has been suggested that it couldn't stand the pressure and broke, but the probable cause of the disaster was the tolling apparatus. The repairs and improvements at the Congregational Parsonage have commenced, the members of the society having turned out in good numbers the past week to help along the work. The barn has been repaired, and a new wood house built, and it is proposed to paint and make other necessary repairs to the house. The society have had students from Andover to preach for them for some weeks past. The Advents hold their meetings now in the Methodist Church, which it is understood they have engaged for a year. The Baptist society are still without a minister.

The west school house is in a bad state. It wouldn't do for a pig pen of the second class, now. From a look into it the other day, it would seem utterly impossible for any four legged pig to navigate around its interior with safety. A movement is on foot in the district to do something about it, and it seems as though it couldn't be done too soon for the credit of the district, and the town.

The beach business this season promises to be good; many rooms are already engaged, and quite a number of boarders are coming in June, which is unusual, as heretofore, scarcely any ever came before July. There is to be no change in the proprietorship of the hotels, but some familiar faces may be missed from the places where they were wont to be seen for several seasons past.

Mr. Joseph W. Garland is building a two story house near the Centre for a residence for himself, and Mrs. Parry Jones has about completed a fine barn at her place at Breakfast Hill. The apple trees do not blossom very full, and the prospect is good for a light crop. The hay crop will be light anyhow, and if rain does not come soon, it will be unusually so. H.

Morning Chronicle.

Communicated.

Messrs. Editors:—If you and your correspondent will take the trouble to look at the printed addresses of Mayors Dearborn, Jones and Adams, and the annual reports of the Chief Engineers who have had control of the Fire Department since the advent of steamers, you will find no intimation that Dearborn No. 1 has "never been reliable,"—and they ought to know something about it, certainly. The former Chief Engineer (now serving as Councilman) who introduced the resolution to sell the engine, stated in his report for 1868, that steamer Dearborn was "in first rate condition." Let him rise to explain. The following quotations are from the published records of municipal affairs:

The apparatus of the Fire Department is in excellent condition, and we only want a more extensive supply of water.—*Mayor Dearborn*, 1867. The apparatus belonging to the Department is in very good condition.—*Chf. Eng. Moran*, 1867. Steamer Dearborn No. 1 is now in first rate working order.—*Chief Eng. Waterhouse*, 1868. It will be useless to invest any more money in steam fire engines until this (water) deficiency is supplied.—*Mayor Jones*, 1869. I would say that with your support the past year the Department has been put in a better condition than ever before.—*Chf. Eng. Marston*. We now have three steam engines in good order.—*Mayor Adams*, 1871.

The statements given above do not warrant the assertion that "Steamer Dearborn has been a useless piece of property to our city," positively or "comparatively." Reference to the city accounts proves the statement that only $703 were laid out upon the machine when the boiler tubes gave out, and the engine was thoroughly overhauled. From the same source we learn that steamer Sagamore, a much smaller engine, had to undergo a similar operation at a cost of $750. The corrosive action of water upon the iron tubes was such that they had to be exchanged for composition ones. In that respect the other steamer possessed no advantage over the Dearborn, which is an engine of far greater power than either of the others, and capable of throwing nearly as much water as both,—a fact which you admitted and used as an argument against it when you said, "If there has been a fire where water was not abundant, she could not be used for lack of water." Is the lack of water a fault of the engine? If so the Dearborn has one redeeming trait,—it can take water from Piscataqua river and retail brine on Haymarket Square, or awaken lively reminiscences of old Neptune in the Chronicle office. It is true that "the engine is too heavy to haul rapidly through the streets," unless suitable horses are harnessed to it and driven by an experienced man. We now have a span of horses and a driver capable of taking it anywhere in the compact part of the city, by the time sufficient steam is generated to work the engine. In case of a fire at some distant point the lighter machines would be likely to get there first, and put on the first stream.

The Steamer received, injuries on the way to the fire at the Almshouse, several years ago; causing some leakage of the canteen or cold-water tank, rendering it necessary to use a few more bucketfulls of water at a fire than would otherwise be needed. The leak was situated about midway up the side of the canteen, and we think you strained it a little in saying "the water would strain entirely out of it." This accident would not have happened if well trained horses had been used. The valve-lifting machine job which you lay so much stress upon (another strain) probably cost three dollars; the instrument can be put into a man's pocket, and is as simple as a monkey wrench.

We told Mr. Whittier all about the rubber valve seats, and asked him if he could remedy the sticking. It must be confessed we forgot to speak to you about it. We have the authority of the proprietor of a large shop, himself a machinist, for saying the alterations, additions and repairs (exclusive of painting) will not exceed $1100 in amount. You are in error in your statement that two other machines of the same pattern were condemned and broken up; they were taken in part pay for new engines, and are in existence now. But that proves nothing at all. Boston is able to sacrifice an old machine that has done six years' service in the Highlands, but Portsmouth has made up its mind not to sell steam fire engines at a cent per pound just yet.

Allow me to say in answer to your concluding remark we, did not say by implication, nor otherwise, that the city had received an offer for the steamer in question. But with the story of the Roxbury machines in mind, we expressed an unwillingness to sell for $500. Roxbury sold for that sum and Boston paid the bills for the new ones. Everybody admits our steamer needed repair; and we are having it done at about one half the estimated cost; if that is not satisfactory please tell us what you know about economy.

Note.—Who does our correspondent mean by "you" and what by "your?"

600,000 ACRES

CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $6 to $15 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.

Time is given for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.

EXPLORING TICKETS are sold at the Company's ticket offices at Chicago, and all other principal stations on its line, and if the purchaser of such ticket buys the land of the ticket is applied on the purchase money.

TARRANT'S SELTZER APERIENT.

SECTS AND CREEDS DIFFER, but there are no dissenters from the general principle, that a good medicine is a great blessing. We have many of these blessings, but among them all, in the province to which it belongs, no greater than

Tarrant's Effervescent Seltzer Aperient.

A column would not suffice to enumerate the ailments for which it is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, antacid, and anti-bilious preparation, and an admirable remedy for all bilious complaints.

Consumption.

ITS CURE AND ITS PREVENTIVE.

By J. H. SCHENCK, M. D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proved means of cure. Times near and dear to family and friends are sleeping the dreamless slumber into which, had they calmly adopted

Dr. JOSEPH H. SCHENCK'S SIMPLE TREATMENT,

and availed themselves of his wonderfully efficacious medicines, they would not have fallen.

Dr. Schenck has in his own case proven that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self-saving, self-convincing.

The Seaweed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two-thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbid secretions of the liver. Here, then comes the culminating result, and the setting in, with all its distressing symptoms, of

CONSUMPTION.

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophillum Peltatum. They possess all the blood-searching, alterative properties of the Mandrake, unlike calomel, they

"LEAVE NO STING BEHIND."

The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. The Seaweed Tonic gets to tempting. The stomach acts responsively, and the patient begins to feel that he is getting, at last,

A SUPPLY OF GOOD BLOOD.

The Seaweed Tonic, in conjunction with the Pills, germinates and assimilates with the food. Digestation is now progressing, without its previous tortures. Digestion becomes painless, and the cure is seen to be sure. There is no more flatulence, no exacerbation of the stomach. An appetite sets in.

Now comes the greatest Blood Purifier ever yet given by an Indulgent Father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and ripens the impaired and diseased portions in the lungs. With every expectoration it prepares them for expectoration, and lo! in a very short time the malady is vanquished, the rotten tissue will be removed by the cough and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was

GIVEN UP AS LOST.

The second thing is, the patients must stay in a warm room, until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure cannot be effected. Fresh air and riding out, especially in this section of the country in the full and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased; and yet, because they are in the house they must not sit down quiet: they must walk about as much as they can, and when the strength will bear, to get up a good circulation of blood. The patients must keep in good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.

To despair of cure after such evidence of its possibility in the worst cases, is nearly or quite as ill advised, is sinful. Dr. Schenck's personal statement to the Faculty of his own cure was in these modest words:

"Many years ago I was in the last stages of consumption: confined to my bed, and at one time my physicians thought that I could not live a week; then like a drowning man catching at straws, I heard of, and obtained the preparations of Dr. Schenck, and from that time I gained my strength, and have grown in flesh ever since."

"I was weighed shortly after my recovery," added the doctor, "then being like a mere skeleton, my weight was only ninety-seven pounds; my present weight, without any additional fat, two (235) pounds, and for years I have enjoyed uninterrupted health."

Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., still continue to see patients at their office, No. 15 North Sixth street, Philadelphia, every Saturday from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged $5. The Respirometer declares the exact condition of the lungs, and patients can read for themselves what they are, or not.

The directions for taking the medicines are adapted to the intelligence of a child. Follow those directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines need no other accompaniments than the ample instructions that accompany them: First, create appetite. Second, the liver will respond. The most welcome symptom. When it comes, as it will come, let the patient be cheerful. Then a good chew. Good blood at once follows, the cough loosens, the night sweat is abated. In a short time both of these morbid symptoms are gone forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are a standard preparation: while the Pulmonic Syrup, as a cure of coughs and colds, may be designated as a prophylactic against consumption in any of its forms.

Price of the Pulmonic Syrup and Seaweed Tonic $1.50, a bottle. Price of the Mandrake Pills, 25 cents a box. For sale by all druggists and dealers.

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS,

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawfebl6

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

NO. 78 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"Mr. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

NAT.

"Please, sir, is this Plumfield?" asked a ragged boy of the man who opened the great gate at which the omnibus left him.

"Yes; who sent you?"

"Mr. Laurence. I have got a letter for the lady."

"All right; go up to the house, and give it to her; she'll see to you, little chap."

The man spoke pleasantly, and the boy went on, feeling much cheered by the words. Through the soft spring rain that fell on sprouting grass and budding trees, Nat saw a large square house before him—a hospitable-looking house, with an old-fashioned porch, wide steps, and lights shining in many windows. Neither curtains nor shutters bid the cheerful glimmer; and, pausing a moment before he rang, Nat saw many little shadows dancing on the walls, heard the pleasant hum of young voices, and felt that it was hardly possible that the light and warmth and comfort within could be for a homeless "little chap" like him.

"I hope the lady *will* see me," he thought; and gave a timid rap with the great bronze knocker, which was a jovial griffin's head.

A rosy-faced servant-maid opened the door, and smiled as she took the letter which he silently offered. She seemed used to receiving strange boys, for she pointed to a seat in the hall, and said, with a nod,—

"Sit there and drip on the mat a bit, while I take this in to missis."

Nat found plenty to amuse him while he waited, and stared about him curiously, enjoying the view, yet glad to do so unobserved in the dusky recess by the door.

The house seemed swarming with boys, who were beguiling the rainy twilight with all sorts of amusements. There were boys everywhere, "upstairs and down-stairs in the lady's chamber," apparently, for various open doors showed pleasant groups of big boys, little boys, and middle-sized boys in all stages of evening relaxation, not to say effervescence. Two large rooms on right were evidently schoolrooms, for desks, maps, blackboards, and books were scattered about. An open fire burned on the hearth, and several indolent lads lay on their backs before it, discussing a new cricket-ground, with such animation that their boots waved in the air. A tall youth was practising on the flute in one corner, quite undisturbed by the racket all about him. Two or three others were jumping over the desks, pausing, now and then, to get their breath, and laugh at the droll sketches of a little wag who was caricaturing the whole household on a blackboard.

In the room on the left a long supper-table was seen, set forth with great pitchers of new milk, piles of brown and white bread, and perfect stacks of the shiny gingerbread so dear to boyish souls. A flavor of toast was in the air, also suggestions of baked apples, very tantalizing to one hungry little nose and stomach.

The hall, however, presented the most attractive prospect of all, for a brisk game of tag was going on in the upper entry. One landing was devoted to marbles, the other to checkers, while the stairs were occupied by a boy reading, a girl singing lullaby to her doll, two puppies, a kitten, and a constant succession of small boys sliding down the bannisters, to the great detriment of their clothes, and danger to their limbs.

So absorbed did Nat become in this exciting race, that he ventured farther and farther out of his corner; and when one very lively boy came down so swiftly that he could not stop himself, but fell off the bannisters, with a crash that would have broken any head but one rendered nearly as hard as a cannon-ball by eleven years of constant bumping, Nat forgot himself, and ran up to the fallen rider, expecting to find him half-dead. The boy, however, only winked rapidly for a second, then lay calmly looking up at the new face with a surprised "Hullo!"

"Hullo!" returned Nat, not knowing what else to say, and thinking that reply both brief and easy.

"Are you a new boy?" asked the recumbent youth, without stirring.

"Don't know yet."

"What's your name?"

"Nat Blake."

"Mine's Tommy Bangs; come up and have a go, will you?" and Tommy got upon his legs like one suddenly remembering the duties of hospitality.

"Guess I won't till I see whether I'm going to stay or not," returned Nat, feeling the desire to stay increase every moment.

"I say, Demi, here's a new one. Come and see to him;" and the lively Thomas returned to his sport with unabated relish.

At his call, the boy reading on the stairs looked up with a pair of big brown eyes, and after an instant's pause, as if a little shy, he put the book under his arm, and came soberly down to greet the new-comer, who found something very attractive in the pleasant face of this slender, mild-eyed boy.

"Have you seen Aunt Jo?" he asked,

WEDNESDAY, MAY 31, 1871.

PARIS.—The Paris revolution ended in the cemetery of Pere la Chaise. The fighting was very severe, but Vinoy is now in command over the whole of Paris. The executions have begun and attempts are making to restore order as soon as possible.

A despatch announces the death of Mrs. Field, the mother of Kate Field, on board the steamer Russia, at Queenstown, on the 26th of May. She was the widow of Mr. J. M. Field, highly esteemed as an actor and as a gentleman; and for some time she was herself on the stage, taking leading parts and attaining a high degree of success in them. Mrs. Field was the sister of Mr. Edward Riddle of Charlestown, whose sudden death a few weeks ago was so generally noticed in the press.

THE Portland City Council, has appropriated $3000 toward the celebration of the 4th of July. The programme includes a sailing regatta by the Portland Yacht Club, rowing regatta, military parade, band concerts, salutes, bell ringing and a limited supply of fireworks.

WM. R. SCOTT of Lawrence, Mass., who purchased the arsenic taken by himself and Miss Emma C. Horne, which resulted fatally in the girl's case, has been fully committed on a charge of murder.

GOVERNOR Hoffman of New York has returned unapproved 149 bills, among which are those abolishing the office of canal superintendent and amending the Code.

JUST the best evening paper in New York is the Globe. It should be supported by all the decent men in the city who abhor murders, robberies and rascality generally.

A CHINESE WILL.—A Chinaman died, leaving his property by will to his three sons, as follows: To Fum-Hum, his eldest, one-half thereof; to Nu-Pin, his second son, one-third thereof; and to Ding-Bat, his youngest, one-ninth thereof. When the property was inventoried, it was found to consist of nothing more nor less than seventeen elephants; and it puzzled these three heirs to decide how to divide the property according to the terms of the will without chopping up the seventeen elephants, and thereby seriously impairing their value. Finally they applied to a wise neighbor, Sum-Punk, for advice, Sum-Punk had an elephant of his own. He drove it into the yard with the seventeen and said: "Now we will suppose that your father left these eighteen elephants. Fum-Hum, take your half and depart." So Fum-Hum took nine elephants and went his way. "Now, Nu-Pin," said the wise man, "take your third and git." So Nu-Pin took six elephants and travelled. "Now Ding-Bat," said the wise man, "take your ninth and begone." So Ding-Bat took two elephants and abequatulated. Then Sum-Punk took his own elephant and drove home again. Query: Was the property divided according the terms of the will?

THE REPRESENTATIVE FROM CHICHESTER.—We learn from Chichester that, although the citizens of that town failed to make any choice of Representative at the last election, and finally voted by ballot—98 to 95—not to send any, one has since been elected by the Town Clerk and furnished with a certificate, on which it is supposed he hopes to hold a seat long enough at least to participate in the organization of the House, and in filling the vacancies in the office of Governor and in the Senate. The facts, as communicated to us by a Democrat of Chichester, who holds to fair play even in politics, are substantially as follows:

At the March election there were one Republican and two democratic candidates for Representative in Chichester. The meeting balloted for Representative eight times, without effecting any choice, E. A. Farrington, the regular caucus Democratic candidate, failing to receive votes enough to elect him, at each balloting. At length a motion was made not to send any Representative, and this motion was carried by a majority of three on a ballot taken for that purpose. The town then transacted the other necessary business of the annual meeting, and adjourned.

After adjournment, the Democratic Town Clerk discovered, by counting the number of names checked by him as voting on the several ballotings for Representative, that Mr. Farrington was declared, on one or more of those ballotings, to have received a number of votes larger than half the number of votes larger than half the number of names checked by him. Thereupon, as our informant says, a consultation was had with Mr. Page, of Concord, and under his instructions a certificate of election has been given to Mr. Farrington by the Town Clerk. The precise form and character of that certificate are unknown; but the intention undoubtedly is to smuggle Mr. Farrington into the House as the duly elected Representative of Chichester, when the facts, shown by the record of the town meeting itself, are, that he was not in any way elected, but the contrary.

We give the facts in relation to this matter as they have been communicated to us, in order that the Clerk of the House, and the House itself, may be on their guard against any fraudulent imposition of this kind, if one should be attempted. It would certainly be a novelty in the history of municipal elections, if, after the citizens of a town had endeavored in vain for two days to choose a person to represent them in the General Court, and had at length given up the effort in despair, and voted not to send any, the Town Clerk could accomplish by a single stroke of his pen what the combined efforts of the legal voters could not in two days effect. To what desperate efforts will not Democratic politicians resort to sustain a desperate cause?—*Concord Statesman.*

NEW HAMPSHIRE ITEMS.

On the 23d, in Strafford, Mrs. Ruth Foss was found dead by the roadside. She had been making calls on the previous day, and took ten about a mile from home at a friend's, seemingly in excellent health. She was missed and search made, but was not found till the next morning. Her decease is attributed to a fit.—She was aged seventy and was much respected.

Two citizens of Nashua are worth more than the whole city besides.

Mr. John L. Haines of Wolfeborough has a plum tree, which during the past year has attained a growth of eight feet and ten inches.

Mr. L. D. Moulton of Ossipee has completed and is about to put in operation a new bedstead factory, 105x40, three stories in front and four in the rear, with an ell, 72x45.

An addition is being made to the main building of the Exeter Manufacturing Company, which will increase the productive capacity about 25 per cent. With this increase the mill will run about 10,000 spindles, producing nearly 2,500,000 yards of cotton cloth annually.

It is proposed to reorganize, as far as practicable, the original band that accompanied the Third Regiment to Port Royal, for the regimental reunion at Hampton Beach, Sept. 6 and 7.

—A Florida negro was two years ago so terrified at the cars, that he had to be blindfolded to get him aboard. Now he is a senator and director of the railroad.

—Our agricultural readers will be glad to know that the best preparation for hops is to put a few toads in each hill. A good hour to put in "rye" is just before breakfast, but some farmers put it in at intervals all day.

—A local report of the period: "Mr. Collins of Hartford bought a ferocious watch-dog. Mr. Collins came home late that night. His wife says that his trousers can't be mended. The dog's skin is for sale cheap. Mr. Collins hopes to be able to sit down in a few weeks."

—A correspondent writing from England, says: "Having resided in England about thirty-six hours and in London twenty-four, I am prepared to state my conclusions as to the nation's genius, her tendency and her destiny." That is the way in which Englishmen usually "do" the United States.

NEW PUBLICATIONS RECEIVED.

The Children's Hour and *Arthur's Lady's Home Magazine* for June are received. The latter has "The Hawk and the Dove" for a frontispiece, and a variety of contents — music, stories, poems, fashion plates and fashion talk.

H. A. Brown & Co. of Boston have issued a new catalogue of books published by them. Mr. H. A. Brown has made the sale of Fine Illustrated Books the special business of a life time. Twenty-two years ago, in 1849, he began the task of creating a taste for such works in America, and the business has grown to be very extensive. The catalogue embraces every variety of nice books for old and young. Send for it.

BUSINESS NOTICES.

Johnson's Anodyne Liniment will give more relief in cases of Chronic Rheumatism, no matter how severe, than any other article known to medical men.

As a remedy for Bronchial Affections and Chronic diseases of the Lungs, nothing ever before discovered equals Dr. Pierce's Alt. Ext. or Golden Medical Discovery. It is also a great blood purifier and restorative tonic, and cures Pimples, Blotches and Eruptions on the face, making the complexion clear and fair Sold by druggists.

It is often remarked by strangers visiting our State, that we show a larger proportion of good horses than any other State in the Union. This, we tell them, is owing to two principal reasons; in the first place, we breed from the very best stock; and in the second place, our people use *Sheridan's Cavalry Condition Powders*, which in our judgment are of incalculable advantage.

SPECIAL NOTICES.

You Haven't Tried Them.

Victim of debility, who is responsible for your feebleness? Not yourself, you will say, for you've done all you could to cure it. That's a mistake on your part.

You haven't tried Hostetter's Bitters.

Gloomy dyspeptic, with an uneasy stomach and a world-weary face, of course you don't think yourself responsible for your own torments. But you are. It is easy to see from your condition that you haven't tried Hostetter's Bitters.

Billious sufferer, it is not your fault, you think, that your symptoms grow worse day by day. Blue pill doesn't do you any good. Very likely. But you can be brought round for all that.

Why haven't you tried Hostetter's Bitters?

Friend, on whom fever and ague alternately blows hot and cold, and whose brain seems to be bursting with the effects of some powerful drug, do you assume the responsibility? O, no! You've taken piles of quinine, and all the regulation medicines. What could you do more? One thing more—the very thing that would have exempted you from all the pangs that now rack you.

You have never tried Hostetter's Bitters.

Nervous invalid, what have you to say? You plead that you have taken all the nervines of the pharmacopœia. If they have done you no good, it is not your fault. You are not responsible. Wrong, all wrong. You have, in reality, nobody to blame but yourself.

Why haven't you tried Hostetter's Bitters?

For all the above-named complaints, the Bitters are absolute specifics.

A GOOD OFFER TO THE

Ladies of Portsmouth and Vicinity.

E. A. JOY

Has Fitted up a Spacious and Elegant SEWING MACHINE ROOM directly over his Music Store and employs a competent young lady to take charge of the same. A cordial invitation is hereby extended to all the ladies (not having good Sewing Machines of their own) to bring in lots of work and learn to make it up on the Machines. *This* will cost nothing whether a Machine is purchased or not. If you do not buy now, you will at some future time; for the day is not far distant when a SEWING MACHINE will be considered as indispensable as a Cook-Stove. Come as often as you please. No burdensome offer.

MR. JOY'S business in the Sewing Machine line is very rapidly increasing, which enables him to make the above generous offer.

His long experience in this branch qualifies him to be an excellent judge of the goods he sells; and as he has had the Agency of *all* kinds offered him at different times it is reasonable to suppose that the *Best* SEWING MACHINES may always be had at the SEWING MACHINE EMPORIUM, No. 3 PLEASANT ST., nearly opposite the Post Office, Portsmouth, N. ARE YOU GOING TO PAINT?

—IF SO, USE THE—

AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints which have been on Buildings two years, and you will find them as fresh as if laid but one month.

I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing good experienced workmen by the day at very low wages. B. NORTON, only Agent for selling the

GROCERIES AND PROVISIONS,

THE NEW ORLEANS, MOBILE & TEXAS

RAILROAD COMPANY

are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 105 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 225½ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, at 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.

Subscriptions will be received in Portsmouth by

SAMUEL LORD,

Cashier First National Bank.

OWING to our compositors having taken part in the exercises of Decoration Day, several advertisements are unavoidably laid over; but our advertising patrons will find their favors in our next.

JOHN L. HALL'S Burlesque and Comedy Troupe play at the Temple, this evening. The programme includes the Musical Drama, Manuel, the Muteleer, and the new Burlesque, Paris. The Company needs no commendation from us. They were here a few weeks since and gave the best entertainments that have been offered to theatre-goers for years. The Company has been enlarged since and all the old favorites are retained.

MEMORIAL DAY.

Tuesday was a very pleasant day —"altogether too pleasant" thought the thousands of spectators and participants in the beautiful memorial services when the thermometer registered 85 degrees in the shade at 9 o'clock, A. M. The Marine Band went to Ipswich and the Cornet Band did double duty, at Kittery in the morning and at home in the afternoon, furnishing their choicest marching music and most thrilling dirges, for which they are noted. The day was a trying one for them, their routes were dusty and they performed a day's work which they would hardly wish to repeat under like circumstances. Hot as the day was, the Grand Army boys had seen hotter.

At the advertised hour the procession started, proceeding over the route as previously announced—first to the old North Cemetery, where the graves of soldiers there buried were decorated, and then to Harmony Grove Cemetery. Here the procession formed in hollow square, the double quartet sang an appropriate hymn and Rev. C. M. Dinsmore delivered an address; after which the company separated and laid wreathes and bouquets on the graves of each soldier, the firemen giving the same friendly token of remembrance to their former members — the soldiers' graves being marked by small national flags, and the firemen's by white ones with the name of the engine to which the deceased belonged printed thereon. While the decoration was in progress a gun on Lincoln Hill, in front of the residence of Frank W. Miller, Esq., boomed forth a salute, being manned by a detachment of the G. A. R.; and then the multitude reassembled and sang "America," and the procession reformed, marched back to town and dismissed.

The procession moved from Market Square shortly after 2 o'clock, P. M., with the mercury at 93 degrees, in the following order, Post Commander Wm. H. Lovell, G. A. R., acting as Chief Marshal:—

Platoon of Police.
Portsmouth Cornet Band.
Comp'y of Marines Lieut F. D. Webster, Comd'g
Storer Encampment.
Carriages containing disabled Comrades,
Board of Engineers.
Steam Fire Engine Company Dearborn 1
" " " " Sagamore 2
" " " " Kearsarge 3
Engine Companies 4, 5 and 6.
Citizens.
City Government in carriages.

The number of persons abroad, in the streets and at the Cemetery, was very great, many visitors being present from outside the city; and the livery stables were emptied of teams, to transport the many who preferred riding to a walk in the dust and heat. The firemen made a very handsome show, as they always do, the blue uniforms of Kearsarge Co. No. 3 attracting general attention and commendation. The day was intensely hot and oppressive, but the programme was faithfully carried out; and it seemed to us that the one day set apart to keep fresh in memory the sacrifices of the heroes who laid down their lives for their country, was more generally observed as a sad holiday on this occasion than ever before.

And thus it should be. All that men could give they gave, for the good of the people; and it is a little thing indeed, once each year, for the people to lay wreaths on their graves and do honor to their memories.

Early in the day the cemeteries at Newington, Newcastle and the Plains, were visited by delegations from Storer Encampment; and it is believed that no soldiers' grave in this vicinity failed to receive a floral token of remembrance. The soldiers' monument and graves at Kittery were decorated in the forenoon, by Wentworth Encampment, G. A. R., of that town, the Sabbath School children and the citizens—the intense heat preventing many from this city attending.

THE thirtieth annual meeting of the Concord Railroad was held at Concord, Tuesday. The Directors who came into power last year were re-elected. John A. Spalding—of Nashua 17,965; William R. Spalding of Lawrence, Edson Hill of Manchester, James W. Johnson of Enfield, John H. Pearson of Concord, Frederick Smyth of Manchester and William A. Tower of Boston had each 18,016, all there were cast.

HENRY O. AND GEO. A. TOWLE of Raymond came to town, Memorial Day, went through a process of embalming, in Water Street, felt brave enough to capture all hands, and waxed warm on the fish question. They undertook to surround Michael Dixon, Jos. Wallace and Con. Sullivan, but found themselves mistaken. George got off with a few bruises, but Henry's hand looked as if he had come in contact with a cross-cut saw. Dr. Whittier dressed his wounds.

THE new arrangement of trains over the Eastern and Maine Central railroads will go into effect next Tuesday. The mail train, with Pullman palace car, leaving Bangor at 8:45 A. M., will reach Boston at 7:30 P. M. A mixed train for fast freight and passengers will leave Bangor at 1 P. M., and reach Boston at 5 A. M. The night express, leaving Bangor at 7 P. M., with Pullman sleeping-car, will reach Boston at 6 o'clock in the morning. The morning express from Boston will leave at 8:45, and the night express will leave at 8 A. M.

SIX suicides took place in New York, May 28.

THE Maine Central freight train, from Danville to Waterville, ran off the track at North Belgrade, Monday, instantly killing the fireman, Eugene Gulliver, and badly injuring the engineer, Mr. Austin. The accident was caused by the expansion of the rails by the heat.

THE excitement in Louisville in relation to the admission of negroes into the street cars gave rise to some amusing incidents. A huge fish dealer, with scales on his boots, his clothing saturated with brine, and an ancient and fish like odor pervading his person generally, entered a car on Market street. Presently a full-blooded African also entered and took his seat, when the driver put on his brake and prepared to take a rest. The fishmonger was in a hurry, and inquired why the car did not go on. On learning the reason, he informed the colored gentleman that one or the other must get out. The darkey, on surveying the fishman's stalwart proportions, came to the conclusion that it was he who would have to leave, and so quietly made his exit, but took his revenge as soon as he was out of the reach of his fellow passenger's boots, by shouting: "It's no use drivah, it's no use; I can't nebber ride in a car wid a man dat smells as strong as dat man."

as if that was some sort of important ceremony.

"I haven't seen anybody yet but you boys; I'm waiting," answered Nat.

"Did Uncle Laurie send you?" proceeded Demi, politely, but gravely.

"Mr. Laurence did."

"He is Uncle Laurie; and he always sends nice boys."

Nat looked gratified at the remark, and smiled, in a way that made his thin face very pleasant. He did not know what to say next, so the two stood staring at one another in friendly silence, till the girl came up with her doll in her arms. She was very like Demi, only not so tall, and had a rounder, rosier face, and blue eyes.

"This is my sister Daisy," announced Demi, as if presenting a rare and precious creature.

The children nodded to one another; and the little girl's face dimpled with pleasure, as she said, affably,—

"I hope you'll stay. We have such good times here; don't we, Demi?"

"Of course, we do; that's what Aunt Jo has Plumfield for."

"It seems a very nice place indeed," observed Nat, feeling that he must respond to these amiable young persons.

"It's the nicest place in the world; isn't it Demi?" said Daisy, who evidently regarded her brother as authority on all subjects.

"No; I think Greenland, where the icebergs and seals are, is more interesting. But I'm fond of Plumfield, and it *is* a very nice place to be in," returned Demi, who was interested just now in a book on Greenland. He was about to offer to show Nat the pictures and explain them, when the servant returned, saying, with a nod toward the parlor-door,—

"All right; you are to stop."

"I'm glad; now come to Aunt Jo." And Daisy took him by the hand with a pretty protecting air, which made Nat feel at home at once.

Demi returned to his beloved book, while his sister led the new-comer into a back room, where a stout gentleman was frolicking with two little boys on the sofa, and a thin lady was just finishing the letter which she seemed to have been re-reading.

"Here he is, Aunty!" cried Daisy.

"So this is my new boy? I am glad to see you, my dear, and hope you'll be happy here," said the lady, drawing him to her, and stroking back the hair from his forehead with a kind hand and a motherly look, which made Nat's lonely little heart yearn toward her.

She was not at all handsome, but she had a merry sort of face, that never seemed to have forgotten certain childish ways and looks, any more than her voice and manner had; and these things, hard to describe but very plain to see and feel, made her a genial, comfortable kind of person, easy to get on with, and generally "jolly," as boys would say. She saw the little tremble of Nat's lips as she smoothed his hair, and her keen eyes grew softer, but she only drew the shabby figure nearer and said, laughing,

"I am Mother Bhaer, that gentleman is Father Bhaer, and these are the two little Bhaers.—Come here, boys, and see Nat."

The three wrestlers obeyed at once; and the stout man, with a chubby child on each shoulder, came up to welcome the new boy. Rob and Teddy merely grinned at him, but Mr. Bhaer shook hands, and pointing to a low chair near the fire, said in a cordial voice,—

"There is a place all ready for thee, my son; sit down and dry thy wet feet at once."

"Wet? so they are! My dear, off with your shoes this minute, and I'll have some dry things ready for you in a jiffy," cried Mrs. Bhaer, bustling about so energetically, that Nat found himself in the cosy little chair, with dry socks and warm slippers on his feet, before he would have time to say Jack Robinson, if he wanted to try. He said "thank you, ma'am," instead, and said it so gratefully, that Mrs. Bhaer's eyes grew soft again, and she said something merry, because she felt so tender, which was a way she had.

"These are Tommy Bangs' slippers; but he never will remember to put them on in the house; so he shall not have them. They are too big; but that's all the better; you can't run away from us so fast as if they fitted."

"I don't want to run away, ma'am." And Nat spread his grimy little hands before the comfortable blaze, with a long sigh of satisfaction.

"That's good! Now I am going to toast you well, and try to get rid of that ugly cough. How long have you had it, dear?" asked Mrs. Bhaer, as she rummaged in her big basket for a strip of flannel.

"All winter. I got cold, and it wouldn't get better, somehow."

"No wonder, living in that damp cellar with hardly a rag to his poor dear back!" said Mrs. Bhaer, in a low tone to her husband, who was looking at the boy with a skillful pair of eyes, that marked the thin temples and feverish lips, as well as the hoarse voice and frequent fits of coughing that shook the bent shoulders under the patched jacket.

"Robin, my man, trot up to Nursey, and tell her to give thee the cough bottle and the liniment," said Mr. Bhaer, after his eyes had exchanged telegrams with his wife's.

Nat looked a little anxious at the preparations, but forgot his fears, in a hearty laugh, when Mrs. Bhaer whispered to him, with a droll look,—

"Hear my rogue Teddy try to cough. The syrup I'm going to give you has honey in it; and he wants some."

Little Ted was red in the face with his exertions by the time the bottle came, and was allowed to suck the spoon, after Nat had manfully taken a dose, and had the bit of flannel put about his throat.

These first steps towards a cure were hardly completed, when a great bell rang, and a loud trampling through the hall announced supper. Bashful Nat quaked at the thought of meeting many strange boys, but Mrs. Bhaer held out her hand to him, and Rob said, patronizingly, "Don't be 'frald; I'll take care of you."

To be continued.

—The mayor of Washington discharged a servant girl the other day, and the spirited young woman set his house on fire the very next night.

600,000 ACRES

CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $5 to $15 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.

EXPLORING TICKETS are sold at the Company's ticket offices at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

TARRANT'S SELTZER APERIENT.

SECTS AND CREEDS DIFFER, but there are no dissenters from the general principle, that a great medicine is a great blessing. We have many of these blessings, but among them all, in the province to which it belongs, no greater than

Tarrant's Effervescent Seltzer Aperient.

A column would not suffice to enumerate the ailments for which it is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism, as a cathartic, antomachic, an anti-febrile preparation, and an admirable remedy for all bilious complaints.

Let there be no mistake. Secure the genuine article only.

Consumption.

ITS CURE AND ITS PREVENTIVE.

By J. H. SCHENCK, M. D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proved means of cure. Those near and dear to family and friends are sleeping the dreamless slumber into which, had they calmly adopted

Dr. JOSEPH H. SCHENCK'S SIMPLE TREATMENT,

and availed themselves of his wonderfully efficacious medicines, they would not have died.

Dr. Schenck has in his own case proven that wherever sufficient vitality remains, that vitality, by his medicines and his directions for diet and air, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self assuring, self-convincing.

The Seaweed Tonic and Mandrake Pills are the first two agents with which the citadel of the malady is assailed. Two-thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With the condition the bronchial tubes "sympathize" with the stomach. They respond to the morbific action of the liver. Here, then comes the culminating results, and the setting in, with all its distressing symptoms, of

CONSUMPTION.

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophyllin. Wherever they possess all the blood-searching, alterative properties of calomel, but unlike calomel, they

"LEAVE NO STING BEHIND."

The work of cure is now beginning. The vitiated and noxious secretions of the bowels and the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts spontaneously, and the patient begins to feel that he is getting, at last,

A SUPPLY OF GOOD BLOOD.

The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chyification is now progressing, without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more flatulence, no exacerbation of the stomach. An appetite sets in.

Now comes the greatest Blood Purifier ever yet given to a suffering world. Nature's own man, Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters a diseased lung. Where there should be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatherings it prepares them for expectoration, and lo! in a very short time the malady is vanquished, the rotten tissue is removed, the lungs healed and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was

GIVEN UP AS LOST.

The second thing is, the patients must stay in a warm, room, until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure cannot be effected. Fresh air and riding out, especially in this section of the country in the fall and winter season, are all wrong. Those physicians who recommend that course lose their patients, if their lungs are badly diseased, for when they come in the house they must not sit down quiet: they must walk about the room as much and as fast as the strength will good to get up a good circulation of blood. The patients must keep in good spirits—be determined to get well. This will do more to do with the appetite, and is the great point to gain.

To despair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to the Faculty of his own cure was in these modest words:

"Many years ago I was in the last stages of consumption; confined to my bed, and at one time my physicians thought that I could not live a week; then like a drowning man catching at straws, I heard of, and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They soon loosened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter in a morning for a long time. As soon as that began to subside, my cough, fever, pains and night sweats all began to leave me, and my appetite became great; that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown as flesh ever since."

"I was weighed shortly after my recovery," added the Doctor, "and I weighed one hundred pounds; my weight was only ninety-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and I have always been a consumptive, rupted health."

Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are a standard preparation; while the Pulmonic Syrup, as a cure of coughs and colds, may be regarded as a prophylactic against consumption in any of its forms.

Price of the Pulmonic Syrup and Seaweed Tonic $1.50, a bottle, or $15 per dozen. The Mandrake Pills, per box, a box. For sale by all druggists and dealers.

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS.

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY?

THEY ARE NOT A VILE FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. lyrdawfebl6

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

NO. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, gives unequaled facilities to the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent, ability and skill in the trade me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. Hall's Journal of Health for June. W. W. Hall, M. D., Editor; No. 49 Broadway New York. Contents: Bad Colds; The Breadth of Black; Mind Kills Body; Lead Water-pipes; Drinking in Summer; Weight, Height, Breadth; Shaving; European Travel; Eat Slowly; Whiskey Work; Candles; Want of Sleep; "Fun and Physic; — Health Literature; Vaccination; good Nursing; The Mistletoe Bough; Ignorance and Disease; Little Causes of Death; and Book Notices.

Hundreds of acres of corn planted in the vicinity of Concord have sprouted and dried up, and will replanting is necessary. The grass crop is a complete failure.

Mr. Walker J. Gilbert of Brooklyn, N. Y., a boarder in Hopkinton, was accidentally shot in climbing a fence, recently. The ball passed under his left arm, through the left lung and out under the right shoulder-blade. At the last accounts he was not expected to live.

A seedy stranger in West Windham stole a set of tools at a blacksmith shop and some clothing at a farm-house. He was caught, tried by a jury of his peers, and condemned to be kicked and whipped out of town. At this time about one hundred persons had gathered, and the seedy individual was obliged to run a gauntlet of a half a mile or more with the cut of the lash and toe of boots as propelling power.

Mr. Levi Lyman of Walpole has given $1000 for the establishment and maintenance of the New Hampshire Orphan's Home, the largest single subscription yet for this object.

The State Bible Society has paid the past year the sum of $7158 to the American Bible Society, besides taking care of its own State duties.

A wealthy New Yorker has willed eleven millions of property to the U. S. government, in case it consents to pay his heirs an annual perpetuity of $330,000.

—Mrs. Abbie Sage Richardson has given every cent of the property left her by Mr. Richardson, to his children, and is now entirely dependent upon her own exertions.

—A trapeze player at Saginaw, Michigan, recently fell a distance of fifteen feet, nearly crushing the breath out of the talented leader of the orchestra and rendering the first violin a wreck.

DR. WELLS, having become aware of the extraordinary medicinal properties of the South American Plant, called

J U R U B E B A,

Sent a special commission to that country to procure it in its native purity, and having found its wonderful curative properties to even exceed the anticipations formed by its great reputation, has concluded to offer it to the public, and is happy to state that he has perfected arrangements for a regular monthly supply of this wonderful Plant. He has spent much time experimenting and investigating as to the most efficient preparation from it, for popular use, and has for some time used in his own practice with most happy results the effectual medicine now presented to the public as

Dr. Wells' Extract of Jurubeba,

and he confidently recommends it to every family as a household remedy which should be freely taken as a BLOOD PURIFIER in all derangements of the system and to animate and fortify all weak and Lymphatic Temperaments. 4wm16

THURSDAY, JUNE 1, 1871.

THE NEW DEPARTURE.

The attempt of the democratic patriot Vallandigham to organize his party into a big funeral over the "dead issues of the war," does not seem to have met with unqualified success. The "new departure," if adopted, would still leave the democrats far behind the republicans in principle, but it did propose to accept negro suffrage and civil equality as assured facts, not to be hereafter interfered with; but the democracy, while willing for political effect to allow that negro suffrage is at present an assured fact, persist in adding that it will not be so in the future, after the next national democratic victory. Vallandigham was always a traitor; at least, that is what is now said of him by the very papers which most warmly approved his treason during the rebellion, and then called it patriotism; and judging the future by the past, we may suppose he is a traitor now, and that his progressive resolutions would be kicked aside as soon as they had served their proposed purpose of boosting the democratic party into the high places of the government.

The Cincinnati Enquirer gives space to and warmly approves a three-column letter from "a distinguished Ohio democrat," in which Mr. Vallandigham's resolutions are unmercifully criticised. "By the gods of the Hottentots!" says this writer, "where is the man deserving of the name of democrat, who, after due reflection, would make such a sacrifice of honor, manhood and personal dignity, for the paltry pay of power?" He then goes on with much ability to convict Vallandigham of stultifying himself by subsequently introducing into his platform the "dead issues" rejected at the outset, and of making declarations which are to be found in every republican platform since the war, a part of democratic doctrine. The Enquirer says editorially, "the democracy everywhere believe that the Constitution was altered by fraud and force, and do not intend to be mealy-mouthed in their expression of the outrage," and warns its party as follows; "It has been said that the whig party in 1852 made their platform as near like the democratic as possible. They died that year. That was their last appearance in politics."

Kentucky is a good democratic State, and the chosen standard bearer of the Kentucky democracy may fairly be assumed to express the principles of the party at large. Leslie, the democratic candidate for the Governorship, is stumping the State with Gen. Harlan, the republican candidate. At the first debate, in Frankfort, Leslie said that the xiiith, xivth and xvth Constitutional Amendments were forced upon the country by fraud and violence, and that his party "recognized them as law, but only until they were decided unconstitutional, which they intend to prove at the first opportunity!" He set forth the condition of morals in the State, and said it was only a result of the war, and it was with God to correct the evils, and not human legislation. He "was opposed to having the colored people educated and improved with any portion of the common school fund." So the true copperhead declaration of principles appears to be, "We accept negro suffrage and civil equality, just so long as we have not not power to overturn them;" and an important article in their doctrine is, "The negro, being uneducated, (so unlike the Irish democracy,) is unfit to vote; therefore he shall not be educated."

Now comes that long-time leader of the democracy and bold expounder of democratic faith, J. Davis, traitor, exrebel president and insurance agent—the latter being the most respectable occupation he has been engaged in for many years. In a speech which created intense enthusiasm and drew forth great applause, delivered at Atlanta, Ga., May 27, Jeff Davis made a bold defence of the rebellion, scoffed at those who "accept the situation," and advised his southern friends to wait patiently until with the help of their northern allies the principles fought for in the rebellion are won—assuring them that such a time will come. We give a specimen of the remarks on "accepting the situation" which called forth most applause:—

Let the people of the North take care of themselves. You went to war upon the same question for which your ancestors and theirs contended in the first revolution against the government of Great Britain—the right of commercial independence or State sovereignty. You secured it in that first war, and State sovereignty must again be restored or else the republic of America is a failure. * * These cant phrases that we hear so much of, about "accepting the situation" and about our rights having been submitted to the "arbitrament of the sword" are but the excuses of cowards.

The old democratic war cries of "A white man's government" and "State sovereignty," failed to give the party victory in the past; but from present appearances, however much some of their would-be leaders may talk about "dead issues," the same old issues are to be fought over again in 1872. And they will lead to the same result in '72 that they did in '68.

PARIS.—The commune having been rubbed out by the Versaillists, the victors are now finishing this work by putting the communists to death. Gen. Cluseret has been killed; and people have ceased keeping account of the rebels shot, so many are summarily killed in that manner. The reign of terror is not quite over yet.

Victor Hugo has been sent out of Belgium, in consequence of a letter he recently wrote.

There is a strong feeling that the Paris Government is too weak to last. Awful massacres continue. At the barricades in Rue Rouchuart, in one ditch, wounded people were found buried alive. They groaned and shrieked dreadfully.

WILLIAM FOSTER, who murdered Mr. Putnam on a New York street car, was a pupil at the Jonesville Academy in 1852. The editor of the Gloversville (N. Y.) Standard says he remembers Foster well. He was an obstreperous pupil, and one day he was taken to a barn on the school grounds, where Professor Wilson—a large, powerful man—administered to him several doses of that "Spanish gad" which he generally kept in full view in a show case in the office as a warning to such of the students as would be inclined to be "fast." Foster's conduct was such that the faculty of the school determined not to admit him another term. Truly, "Whatsoever a man soweth, that shall he reap."

THE Alexandria (Va.) Gazette mentions the novel suicide of a little girl, 21 months of age. The child held her breath while in a pet, as children frequently do, and died, although she was perfectly well before the crying fit. An effectual way to prevent unfortunate results of this kind is to throw cold water in the face of the child as soon as it begins to hold its breath. The shock of the water will make it gasp, and necessarily force it to take breath, as well as divert attention from the fit of anger.

AN inquest in the case of the miners suffocated in the Pittston (Pa.) coal mine, shows that three times as many men as the law allows were in the mine when it caught fire. The miners and their employers are both guilty. Two more of the injured miners have died, and the physicians states that the rescued men are slowly dying from the effects of the noxious gases inhaled.

WM. M. CARLETON, who writes such excellent poems for the Toledo Blade, and which are copied into Harper's Weekly, turns out to be Petroleum V. Nasby. His verses are as good as his prose, and the popularity they have met with proves that Bret Harte and John Hay are not to have their peculiar field all to themselves.

GEORGE WALCOTT, who killed a soldier at Frankfort, Ky., some time since, and for whose arrest Governor Leslie offered $500 reward has had himself arrested by a friend, who drew the reward and gave it to Walcott, the latter immediately giving the money to the widow of his victim. He was drunk when the killing occurred.

THE anniversary meetings in Boston this week are numerous. Among the more important meetings are those of the American Unitarian Society, the American Congregational Association, the American Tract Society, the New England suffrage convention, and the Roman Catholic State convention.

SECRETARY Boutwell has been notified that an Englishman named Derby recently died in New York, having devised his entire estate, valued at $11,000,000, to the United States on condition that the interest at three per cent. be divided among his heirs during their life-time only.

THERE was a terrific hail and thunder storm on the Hudson river, May 30. Hailstones four and a half inches in circumference were picked up, and much damage was caused by the lightning. The graining crops are much injured, and in many places destroyed.

—Brown linen cuffs are to be fashionable this year, and children will please take notice.

HORACE GREELEY is mentioned for President. Greeley and Vallandigham would make a good democratic ticket for President and Vice President next year—neither being reliable.

THE corner-stone of the new New York State capitol at Albany will be laid June 24, the anniversary of St. John the Baptist, with masonic ceremonies, conducted by John W. Anthon, grand-master of the Grand Lodge of New York.

THE drinking fountain in State Street, Boston, near the Old State House, having been knocked over by a team, was carted away recently. After its removal a horse was driven up. Missing the accustomed basin, the animal sniffed at the vacant spot, and then lifted his head and in a curious manner peered about the street on every side to discover it. The disappearance seemed to mystify the horse greatly, and it was not until the driver applied his whip that he could be induced to leave the place.

BUSINESS NOTICES.

Johnson's Anodyne Liniment will give more relief in cases of Chronic Rheumatism, no matter how severe, than any other article known to medical men.

As a remedy for Bronchial Affections and Chronic diseases of the Lungs, nothing ever before discovered equals Dr. Pierce's Alt. Ext. or Golden Medical Discovery. It is also a great blood purifier and restorative tonic, and cures Pimples, Blotches and Eruptions on the face, making the complexion clear and fair Sold by druggists.

It is often remarked by strangers visiting our State, that we show a larger proportion of good horses than any other State in the Union. This, we tell them, is owing to two principal reasons; in the first place, we breed from the very best stock; and in the second place, our people use *Sheridan's Cavalry Condition Powders*, which in our judgment are of incalculable advantage.

SPECIAL NOTICES.

You Haven't Tried Them.

Victim of debility, who is responsible for your feebleness? Not yourself, you will say, for you've done all you could to cure it. That's a mistake on your part.

You haven't tried Hostetter's Bitters.

Gloomy dyspeptic, with an uneasy stomach and a world-weary face, of course you don't think yourself responsible for your own torments. But you are. It is easy to see from your condition that you haven't tried Hostetter's Bitters.

Billious sufferer, it is not your fault, you think, that your symptoms grow worse day by day. Blue pill doesn't do you any good. Very likely. But you can be brought round for all that.

Why haven't you tried Hostetter's Bitters?

Friend, on whom fever and ague alternately blows hot and cold, and whose brain seems to be bursting with the effects of some powerful drug, do you assume the responsibility? O, no! You've taken piles of quinine, and all the regulation medicines. What could you do more? One thing more—the very thing that would have exempted you from all the pangs that now rack you.

You have never tried Hostetter's Bitters.

Nervous invalid, what have you to say? You plead that you have taken all the nervines of the pharmacopœia. If they have done you no good, it is not your fault. You are not responsible. Wrong, all wrong. You have, in your misery, nobody to blame but yourself.

Why haven't you tried Hostetter's Bitters?

For all the above-named complaints, the Bitters are absolute specifics.

BATTLE AND THE VICTORY.

The fight is over. Competition is at an end. The humbugs who have disfigured so many heads and endangered so many lives, are "whipped out," and

Cristadoro's Excelsior Hair Dye

remains master of the field, and is acknowledged to be the Standard Hair Dye of America. A LIST OF THE KILLED AND WOUNDED would show scores of charlatans stretched on their backs. Endorsed by Professor CHILTON as pure and harmless, and accepted by the public as matchless in its operation, the Excelsior Dye laughs all rivalry to scorn. As an exquisite dressing after dyeing, use

A Kittery correspondent of the Portland Press speaks of Commander Badgdon and Bragdon of the U. S. S. Ticonderoga, which is equal to the Biddeford Journal's use of the word "lubrication" for "lucubration."

THE Rockingham House christening comes off to-day and several hundred editors and public men from abroad have accepted the invitation to interview its owner and its landlords. Collation at 2 o'clock, P. M.

MR. JOSEPH W. BELL had on exhibition, Wednesday, a couple of dozen specimens of delicious trout, which surpassed any seen here for a long while. The largest one weighed a strong pound and a half, and girted nine inches, dressed.

THE company of Marines from the Navy Yard presented a fine appearance, Memorial Day. They were not ordered to parade, as was generally supposed, but when Major Lewis announced to them that they were invited to take part in the ceremonies but none were obliged to go, every man volunteered, a fact alike creditable to them and the officers who have such an efficient corps to command.

A Holyoke subscriber writes as follows:—"For all the young folks of Portsmouth make so much noise about its being dull and foggyish, I think from the accounts I have seen in the GAZETTE of the numerous improvements going on there, that other places might be found with less life than even Old Portsmouth. One thing seems evident, however, you can ill afford to spare Frank Jones from the business circle."

EVERYBODY knows Steb. H. Dumas and his well kept hotel at Hampton Beach. The individual who hasn't visited the famous hostelry should improve the present season—go and keep going. If the genial proprietor doesn't understand the crooks and turns of that most difficult of duties, keeping a hotel to perfection, we'll slide out of the position of judge of such matters as seen from the outside, in favor of any guest who ever went there and can say he wasn't well cared for and treated only as Steb. Dumas uses his friends.

PAYSON TUCKER, Esq., the popular conductor of the P. S. & P. R. R., has accepted the Agency of the Boston & Maine Railroad at Portland, at a lucrative salary. While we heartily congratulate Mr. Tucker on his well-merited promotion, we can but regret in common with the travelling public and the Corporation which he has so long and faithfully served, his absence from the route of which he has always seemed a permanent institution. Success to him in his new position and any other he may occupy—and may his shadow never grow less.

THE repairs on the Pearl Street Baptist Church are progressing rapidly. The audience room has been cleared and a gallery built over the entrance; the organ and singing seats are to be under the gallery, and a recess has been constructed for the pastor's desk, with an entrance from the rear. Lutheran window frames to contain stained glass have been substituted for the old ones. The audience room has been much enlarged by these improvements, and is intended to be one of the handsomest in the city when finished. Mr. Joseph W. Marden is master workman, with Rev. L. L. Harmon as superintendent.

HALL'S excellent Comedy & Burlesque Troupe gave one of their fine entertainments to a good audience, last evening, and give but one more here at present. The company deserves support from those who appreciate good acting. Every member is deserving of praise for the way the comedies and burlesques are brought out. Managers Wing and Hall offer a change of programme for this evening —"The Lioness of the North," a comedy, and the musical burlesque, "Faust." We hope to see the Temple filled. They deserve it. The company is "way ahead" of any other now travelling. If the atre-goers wish to encourage first class companies to come here they must turn out when they do come.

KITTERY, ME., May 32.

The thermometer marked 102 in the shade over here, Memorial Day. How is that for high.

The memorial services all passed off smoothly, as usual. Commenced at Armory Hall at 9 A. M., with prayer by Chaplain J. J. Lambert, followed by some of the sweetest singing I ever heard, by Mrs. Tilton's class of about 50 children; the procession then formed with the Portsmouth Cornet Band at the head, followed by the clergymen and speakers, Wentworth Encampment, Post 14, G. A. R., Pepperell Lodge of Good Templars, Sunday School children of the several societies, and a company of boys. The exercises at Orchard Grove Cemetery consisted (besides the decoration with flowers) of prayer by Rev. Mr. Hutchinson, oration by Rev. Mr. Dinsmore of Portsmouth, poem, singing, music by band, prayer by Rev. Mr. Cobb, and benediction by Rev. Mr. Pattee. K. M.

ACCOUNTS from nearly all the principal cities of the Northern States report a general observance of Decoration Day, with processions, addresses and appropriate exercises. At the Gettysburg national cemetery, General Humphreys delivered an address, reviewing many incidents of the great battle. General Woodford of New York delivered the oration at the cemetery at Arlington, and Fred Douglass made some eloquent remarks at the tomb erected to unknown soldiers. It is generally remarked that on no previous occasions of a like character has there been more interest manifested by the people, and this notwithstanding that the weather has been most uncomfortably warm.

THE
NEW ORLEANS, MOBILE & TEXAS
RAILROAD COMPANY

Are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 168 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 226½ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these sight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.

Subscriptions will be received in Portsmouth by

First National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

FIRST MORTGAGE

7 PER CENT. GOLD BONDS,
At 90 and Accrued Interest in Currency.
ON A COMPLETED ROAD,
FREE OF U. S. TAX,

This road is now in the dullest season of the year earning more than 12 per cent. net on the amount of its mortgage obligations.

Its 7 per cent gold bonds are equal for security to Government or any Railroad issue. They command a ready market and we are prepared to buy and sell them at all times. No investment in the market possessing equal guarantees of safety, returns an equal percentage of interest. The Chicago, Burlington and Quincy has given a traffic guarantee and obligates itself to invest in these bonds 50 per cent. of the gross earnings derived from all business from this road. This is sufficient indication of the estimate of this enterprise by the largest and most far-sighted Corporation in the West. A limited quantity still for sale by

A GOOD OFFER TO THE
Ladies of Portsmouth and Vicinity.
E. A. JOY

Has Fitted up a Spacious and Elegant SEWING MACHINE ROOM directly over his Music Store and employs a competent young lady to take charge of the same. A cordial invitation is hereby extended to all the ladies (not having good Sewing Machines of their own) to bring in lots of work and learn to sew up on the Machines. *This* will cost nothing whether a Machine is purchased or not. If you do not buy now, you will at some future time, on the day is not far distant when a SEWING MACHINE will be considered as indispensable as a Cook-Stove. Come as often and stay as long as you please.

MR. JOY'S business in the Sewing Machine line is very rapidly increasing, which enables him to make the above generous offer.

His long experience in this branch qualifies him to be an excellent judge of the goods he sells; and as he has had the Agency of *all* kinds offered him at different times it is reasonable to suppose that the *Best* SEWING MACHINES may always be had at the SEWING MACHINE EMPORIUM, No. 9 PLEASANT ST., pretty opposite the Post Office, Portsmouth, N. H. *Twelve Different Kinds to Select from.* mh7

NAT.

Twelve boys, six on a side, stood behind their chairs, prancing with impatience to begin, while the tall flute-playing youth was trying to curb their ardor. But no one sat down, till Mrs. Bhaer was in her place behind the teapot, with Teddy on her left, and Nat on her right.

"This is our new boy, Nat Blake. After supper you can say, 'How do you do? 'Gently, boys, gently."

As she spoke every one stared at Nat, and then whisked into their seats, trying to be orderly, and failing utterly. The Bhaers did their best to have the lads behave well at meal time, and generally succeeded pretty well, for their rules were few and sensible, and the boys, knowing that they tried to make things easy and happy, did their best to obey. But there *are* times when hungry boys cannot be repressed without real cruelty, and Saturday evening, after a half-holiday, was one of those times.

"Dear little souls, do let them have one day in which they can howl and racket and frolic, to their hearts' content. A holiday isn't a holiday, without plenty of freedom and fun; and they shall have full swing once a week," Mrs. Bhaer used to say, when prim people wondered why banister-sliding, pillow-fights, and all manner of jovial games were allowed under the once decorous roof of Plumfield.

It did seem at times as if the aforesaid roof was in danger of flying off; but it never did, for a word from Father Bhaer could at any time produce a lull, and the lads had learned that liberty must not be abused. So, in spite of many dark predictions, the school flourished, and manners and morals were insinuated, without the pupils exactly knowing how it was done.

Nat found himself very well off behind the tall pitchers, with Tommy Bangs just around the corner, and Mrs. Bhaer close by, to fill up plate and mug as fast as he could empty them.

"Who is that boy next to the girl down at the other end?" whispered Nat to his young neighbor under cover of a general laugh.

"That's Demi Brooke. Mr. Bhaer is his uncle."

"What a queer name!"

"His real name is John, but they call him Demi-John, because his father is John too. That's a joke, don't you see?" said Tommy, kindly explaining. Nat did not see, but politely smiled, and asked, with interest,—

"Isn't he a very nice boy?"

"I bet yot he is; knows lots and reads like anything."

"Who is the fat one next to him?"

"Oh, that's Stuffy Cole. His name is George, but we call him Stuffy 'cause he eats so much. The little fellow next to Father Bhaer is his boy Rob, and then there's big Franz his nephew; he teaches some, and kind of sees to us."

"He plays the flute, doesn't he?" asked Nat as Tommy rendered himself speechless by putting a whole baked apple into his mouth at one blow.

Tommy nodded, and said, sooner than one would have imagined possible under the circumstances, "Oh, don't he, though? and we dance sometimes, and do gymnastics to music. I like a drum myself, and mean to learn as soon as ever I can."

"I like a fiddle best; I can play one too," said Nat, getting confidential on this attractive subject.

"Can you?" and Tommy stared over the rim of his mug with round eyes, full of interest. "Mr. Bhaer's got an old fiddle, and he'll let you play on it if you want to."

"Could I? Oh, I would like it ever so much. You see I used to go 'round fiddling with my father, and another man, till he died."

"Wasn't that fun?" cried Tommy, much impressed.

"No, it was horrid; so cold in winter, and hot in summer. And I got tired; and they were cross sometimes; and I didn't have enough to eat." Nat paused to take a generous bite of gingerbread as if to assure himself that the hard times were over; and then he added regretfully—"But I did love my little fiddle, and I miss it. Nicolo took it away when father died, and wouldn't have me any longer, 'cause I was sick."

"You'll belong to the band if you play good. See if you don't."

"Do you have a band here?" And Nat's eyes sparkled.

"Guess we do; a jolly band, all boys; and they have concerts and things. You just see what happens to-morrow night."

After this pleasantly exciting remark, Tommy returned to his supper, and Nat sank into a blissful reverie over his full plate.

Mrs. Bhaer had heard all they said, while apparently absorbed in filling mugs, and overseeing little Ted, who was so sleepy that he put his spoon in his eye, nodded like a rosy poppy, and finally fell fast asleep, with his cheek pillowed on a soft bun. Mrs. Bhaer had put Nat next to Tommy, because that roly-poly boy had a frank and social way with him, very attractive to shy persons. Nat felt this, and had made several small confidences during supper, which gave Mrs. Bhaer the key to the new boy's character, better than if she had talked to him herself.

In the letter which Mr. Laurence had sent with Nat, he had said—

"Dear Jo,—Here is a case after your own heart. This poor lad is an orphan now, sick and friendless. He has been a street-musician; and I found him in a cellar, mourning for his dead father, and his lost violin. I think there is something in him, and have a fancy that between us we may give this little man a lift. You cure his overtasked body, Fritz help his neglected mind, and when he is ready I'll see if he is a genius or only a boy with a talent which may earn his bread for him. Give him a trial, for the sake of your own boy, TEDDY."

"Of course we will!" cried Mrs. Bhaer, as she read the letter; and when she saw Nat, she felt at once that whether he was a genius or not, here was a lonely, sick boy, who needed just what she loved to give, a home, and motherly care. Both she and Mr. Bhaer observed him quietly; and in spite of ragged clothes, awkward manners, and a dirty face, they saw much about Nat that pleased them. He was a thin, pale boy, of twelve, with blue eyes, and a good forehead under the rough, neglected hair; an anxious, scared face, at times, as if he expected hard words, or blows; and a sensitive mouth, that trembled when a kind glance fell on him; while a gentle speech called up a look of gratitude, very sweet to see. "Bless the poor dear, he shall fiddle all day long if he likes," said Mrs. Bhaer to herself, as she saw the eager, happy expression on his face when Tommy talked of the band.

So, after supper, when the lads flocked into the school-room for more "high jinks," Mrs. Jo appeared with a violin in her hand, and after a word with her husband, went to Nat, who sat in a corner watching the scene with intense interest.

"Now, my lad, give us a little tune. We want a violin in our band, and I think you will do it nicely."

She expected that he would hesitate; but he seized the old fiddle at once, and handled it with such loving care, it was plain to see that music was his passion.

"I'll do the best I can, ma'am," was all he said; and then drew the bow across the strings, as if eager to hear the dear notes again.

Concluded in our next.

CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $10 to $15 per acre—the average being about $12. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.

EXPLORING TICKETS are sold at the Company's ticket offices in Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

TARRANT'S SELTZER APERIENT.

SECTS AND CREEDS DIFFER, but there are no dissenters from the general principle, that a great medicine is a great blessing. We have many of these blessings, but among them all, in the province to which it belongs, no greater than

Tarrant's Effervescent Seltzer Aperient.

A column would not suffice to enumerate the ailments for which it is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, antacidic, an anti-febrile preparation, and an admirable remedy for all bilious complaints.

Let there be no mistake. Secure the genuine article only.

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS.

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the decline of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. lyrdawfeb16

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man more *competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. APRIL, MAY AND JUNE,

PURIFY THE BLOOD, and BEAUTIFY THE COMPLEXION, BY USING HELMBOLD'S

Catawba Grape-Juice Pills

AND HELMBOLD'S HIGHLY CONCENTRATED

Fluid Extract Sarsaparilla.

In the Spring and Summer months the system undergoes a change.

This is the time to use good blood-renewing, purifying and invigorating medicines.

Helmbold's Fluid Extract Sarsaparilla

AND HELMBOLD'S

FLUID EXTRACT GRAPE-JUICE PILLS,

ARE THE BEST AND MOST RELIABLE.

One bottle of Helmbold's Fluid Extract Sarsaparilla equals in strength one gallon of the syrup or decoction as made by druggists; and a wine-glass added to a pint of water equals the celebrated Lisbon Diet Drink—a delightful and healthful beverage.

The Grape-Juice Pill is composed of Fluid Extract of Catawba Grape-Juice and

Fluid Extract Rhubarb.

Useful in all diseases requiring a cathartic remedy, and far superior to all other purgatives, such as salt, magnesia, &c.

Helmbold's Grape-Juice Pill

is not a patented pill, put up as those ordinarily vended, but THE RESULT OF TEN YEARS' EXPERIMENTING, AND GREAT CARE IN PREPARATION. SAFE FOR AND TAKEN BY CHILDREN. NO NAUSEA; NO GRIPING PAINS, BUT MILD, PLEASANT, AND SAFE IN OPERATION. TWO BOTTLES OF THE FLUID

EXTRACT OF SARSAPARILLA

AND ONE BOTTLE OF

The Grape-Juice Pills

ARE WORTH THEIR WEIGHT IN GOLD TO THOSE SUFFERING FROM BAD BLOOD, POOR COMPLEXION, HEADACHE, NERVOUSNESS, WAKEFULNESS AT NIGHT, COSTIVENESS, AND IRREGULARITIES,

and to those suffering from broken and delicate constitutions, it will give new blood, new vigor, and new life.

THE CATAWBA GRAPE PILLS

are done up with great care and in handsome bottles, and will surpass all those vended in wooden boxes, and carelessly prepared by inexperienced men, comparing with the English and French style of manufacturing. All of

H. T. HELMBOLD'S

PREPARATIONS ARE PHARMACEUTICAL, NOT A SINGLE ONE BEING PATENTED, BUT ALL ON THEIR OWN MERITS.

To dispel any impression or prejudices that might exist in the minds of many against my Preparations from the publicity given, through advertising, and that I am and have been a Druggist for a period of 20 years—and more conclusively to prove this—see letter

JURUBEBA. WHAT IS IT?

IT IS SURE AND Perfect Remedy for all diseases of the LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR THEIR CONCOMITANTS.

DR. WELLS, having become aware of the extraordinary medicinal properties of the South American Plant, called

JURUBEBA,

Sent a special commission to that country to procure it in its native purity, and having found its wonderful curative properties to even exceed the anticipations formed by its great reputation, has concluded to offer it to the public, and is happy to state that he has perfected arrangements for a regular monthly supply of this wonderful Plant. He has spent much time experimenting and investigating as to the most efficient preparation from it, for popular use, and has for some time used in his own practice with most happy results the effectual medicine now presented to the public as

Dr. Wells' Extract of Jurubeba,

and he confidently recommends it to every family as a household remedy which should be freely taken as a BLOOD PURIFIER in all derangements of the system and to animate and fortify all weak and Lymphatic Temperaments. 4wm16

FRIDAY, JUNE 2, 1871.

THE Boston Traveller of Wednesday last publishes a letter from a lady resident of South Carolina, on Ku-Klux affairs. The Traveller vouches for her reliability, as she is well known in Boston, but declines to give her name or the county she writes from, "as she is not anxious to receive a visit from her Ku-Klux neighbors." Her statement of the recent murder within a half mile of her dwelling of a man and his wife, and the dangerous wounding of their daughter, because the man was a republican, concludes by saying that "no effort has been made to search out and bring to justice these murderers, neither would any attempt this, for the civil law is wholly in the hands of the democrats, and no constable could be found to arrest them, neither jury to convict, as they may be composed of the very criminals themselves." She asserts that the ruffians are not wholly of the "lower classes," and blames the leading democrats more than the followers. She concludes:—

My husband's life is threatened, also that of our friend, a clergyman formerly of New York, because they are republicans, and are considered men of influence, and too kind to the negroes, sometimes teaching and preaching to them. We have our houses guarded at night, and dare not sit on the piazza after 8 P. M. I am anxious through the day, and often sleepless through the night. I would the "Democratic New England editors" you speak of could have passed the last few weeks here with their families, and shared our experiences. I think, if they had, they would not again, as they do, cry "peace, peace, where there is no peace."

Ex-Governor Orr, of South Carolina, who is now in New York, has been interviewed by the Herald's reporter, whom he told that the troops cannot suppress the lawlessness, because the perpetrators don't commit crimes where there are armed forces; it is only in wild and unfrequented places that they operate. It takes some time for a messenger to reach the place where the soldiers are stationed, and a longer time for the latter to reach the scene of the disturbance. Of course, when they get there they find nothing to suppress and nobody to arrest. He admitted the existence of organized bands, of which he said:

I don't know how it may be in other States, but we have got them. They are political bodies, too. Can't say what they are driving at; but, undoubtedly, they are actuated by hatred of the Yankees. They are a trouble and a nuisance to all citizens who are desirous of peace and quiet, and these are the majority of the people of the State. Most of them are soldiers—bad ones, no doubt—of our [Confederate] army; but of this I am not certain. I suppose Ku-Klux would be the proper name for them. If Wade Hampton and the other generals of the State who have the confidence of the people would only declare themselves against the Ku-Klux and their pranks, there would be peace at once. But you see they won't. They are sore. They have their backs up because they were not enfranchised. Had they been pardoned and given the franchise the Ku-Klux would have had no existence, in our State, at least. They are sullen now, and let the niggers, carpet-baggers, scalawags and Ku-Klux send the State to the devil their own way.

This corroborates the statements of the Traveller's correspondent. Gov. Orr thinks that the democrats might carry the next Presidential election with ease, if they would only put up a man with an unexceptionable war record and build a platform on which such a man could stand; but he says they won't do that, preferring to put forward some rabid secession rebel, and "then go to the polls and get licked like ——"

THE Tennessee democracy are said to have resolved that no issue can be made on the fourteenth and fifteenth amendments, and also determined to give the United States all possible assistance in carrying out the provisions of the Ku-Klux bill. It is certain that no issues can be made on the amendments unless the democrats make them, and we hope they *will* put down the Ku-Klux, as they say they will do. But it is quite safe to wait for the fulfilment of democratic promises before putting too much trust in them; that party has more than once "professed" its candidates into office, and then forgotten its professions.

VALLANDIGHAM'S "new departure" resolution are called by the Ohio Republicans, the "old clothes platform," meaning that they are the second-hand property of the Republican party.

George Barnes, aged 14 years, was drowned at Wilton while swimming on Monday evening.

Gustavus Heth fell from the inside staging of the new Methodist church at Concord on Tuesday, receiving fatal injuries.

A French Canadian, named Marcy, was injured at New Durham on Tuesday, by being caught between the deadwoods of two freight cars he was loading, so that he died in forty-five minutes afterwards.

A storehouse of Messrs. E. P. Johnson & Co. in Manchester was burned on Tuesday night. About thirty-five tons of hay, a quantity of straw, and some other property that was stored in the building, were destroyed. The total loss was about $2500; insured for $500.

Mr. William A. Parker of Boston, a native of New Hampshirne, seventy-six years of age, retired from work as a journeyman printer a few weeks ago, to enjoy a fortune of about $40,000, the results of sixty-two years' labor at the case.

PARIS.—The press and people of Europe are protesting against the barbarities practiced by the troops under the control of the government at Versailles. Not only are the leaders of the communists executed as fast as they are taken, but women and children are murdered without mercy. Thirty-three persons, including seven women, were placed on their knees in the square in front of Hotel de Ville, told that they were to be shot for firing buildings in the city, and the sentence was carried into execution, many not dying until after the sixth volley.

Rochefort was one of the 38 communists who were shot in front of the Hotel de Ville, May 31.

A malarious fever has broken out in the city, supposed to be caused by the hundreds of dead bodies lying about the streets and in houses.

ONE hundred Indians attacked a wagon train twenty miles from Jacksonborough, Texas, on the 18th of May, killed seven men belonging to the train and wounded one. General Sherman, who was at Fort Richardson at the time, ordered four companies of cavalry in pursuit, with instructions to drive the Indians into Fort Sill, saying that if they were Fort Sill Indians he would stop Indian trade in that quarter.

THE weather was very warm all over the country on the 30th ult. In Halifax it was at 95 degrees, in New York it was 93, and in some places in New England it reached 96. Several fatal cases of sunstroke were reported.

—Eighty millions of bushels of coal are said to be shipped annually from Pittsburg.

—Two Kentucky neighbors named Summers and Cain, quarreled, and Summers shot Cain twice. Then Mrs. Summers shot him twice more. This seemed to rouse angry and resentful feelings in Mr. Cain, for he took an ax and split both their heads open.

DARTMOUTH COLLEGE, away up in New Hampshire, has taken a step back towards the dark ages by fixing the hour for morning recitations at 6 o'clock. Consequently the poor boys will have to retire at sundown in order to get sleep enough before breakfast; and if they indulge in even the mildest form of an evening's dissipation, they will have to turn out before daylight to cram the unstudied lesson. Colleges and college autocrats infringe upon the personal liberty of young men enough by their ordinary rules and restrictions, and they drag sleepy fellows out by the hair at such unnatural hours. We speak feelingly. We know how it is ourself.—*Chicago Mail.*

It is often remarked by strangers visiting our State, that we show a larger proportion of good horses than any other State in the Union. SPECIAL NOTICES.

You Haven't Tried Them.

Victim of debility, who is responsible for your feebleness? Not yourself, you will say, for you've done all you could to cure it. That's a mistake on your part.

You haven't tried Hostetter's Bitters.

Gloomy dyspeptic, with an uneasy stomach and a world-weary face, of course you don't think yourself responsible for your own torments. But you are. It is easy to see from your condition that you haven't tried Hostetter's Bitters.

Billious sufferer, it is not your fault, you think, that your symptoms grow worse day by day. Blue pill doesn't do you any good. Very likely. But you can be brought round for all that.

Why haven't you tried Hostetter's Bitters?

Friend, on whom fever and ague alternately blows hot and cold, and whose brain seems to be bursting with the effects of some powerful drug, do you assume the responsibility? O, no! You've taken piles of quinine, and all the regulation medicines. What could you do more? One thing more—the very thing that would have exempted you from all the pangs that now rack you.

You have never tried Hostetter's Bitters.

Nervous invalid, what have you to say? You plead that you have taken all the nervines of the pharmacopœia. If they have done you no good, it is not your fault. You are not responsible. Wrong, all wrong. You have, in reality, nobody to blame but yourself.

Why haven't you tried Hostetter's Bitters?

For all the above-named complaints, the Bitters are absolute specifics.

BATTLE AND THE VICTORY.

The fight is over. Competition is at an end. The humbugs who have dodged so many heads and endangered so many lives, are "whipped out," and

Cristadoro's Excelsior Hair Dye

remains master of the field, and is acknowledged to be the Standard Hair Dye of America. A

ARE YOU GOING TO PAINT?

—IF SO, USE THE—

AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleansed with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.

I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing good experienced workmen by the day at very low wages. B. NORTON, only Agent for selling the

THE ROCKINGHAM HOUSE was formally opened on Thursday, June 1st, after being many months closed to the public, while the extension and improvements were being carried out. The splendid hotel was inspected from basement to roof by hundreds of invited guests, many being men whose business requires of them almost constant travel, and the universal verdict was that not another house in New England equals the Rockingham in its finish, furnishings and appointments, the sky parlors being as handsomely and richly finished and fitted as the rooms on the lower floor.

The house is 150 feet front and 170 feet deep, and contains 130 rooms. The work on and in the building has been done by the following persons and firms; Bryant & Rogers, Boston, architects; Bourbon & Bartlett, Boston, Charles W. Norton, Portsmouth, carpenters; Bowker & Torrey, Boston, marble work; P. A. McCarthy, plumbing; Pierce & Sanborn, Boston, gas fixtures, and steam heating apparatus; Lynch & Placier, Boston, stair building; J. W. Lafavor, Portsmouth, painting; John Treat, Portsmouth, granite work; Badger & Batchelder, Boston, furniture; B. L. Solomon & Sons, Boston, window draping; Snow & Knight, Boston, carpets; Phil. A. Butler, Boston, fresco painting.

Some 300 persons sat down to the ample collation. Prayer was offered by Rev. W. H. Alden of the Baptist Church, and Ex-Governor Ichabod Goodwin welcomed the assemblage to the Rockingham House, which he considered the finest hotel in this vicinity. In behalf of the owner and the landlords, the Governor wished the company would provide themselves from the bounteously spread tables, and for an hour the company resolved itself into a social gathering and devoted the time to the discussion of the subjects before them and the cultivation of new acquaintances.

Gov. Goodwin interrapted Ex-Gov. Fred Smyth, ere the latter had an opportunity to finish his strawberries and cream, and Gov. Smyth responded in a jolly speech that drew forth round after round of applause. He thought the delightful old City of Portsmouth had now not only the finest hotel in this vicinity but in New England also, and dwelt particularly on the beauties of the bridal chamber. He hoped that Manchester might some day have a hotel equal to it in beauty and comfort. He wished Manchester had a Frank Jones to give his adopted city such an elegant structure. Gov. Smyth was especially happy in his remarks and sat down leaving his hearers convulsed with laughter.

Gen. Sutton of Salem was called on and retorted on Gov. Smyth, telling that "shad story" in which the Governor was interested. He was followed by Walcott Hamlin, Esq., of Dover, who said he had never seen such an elegant house as the Rockingham and thought Portsmouth should have a hundred men like Frank Jones, and that it might rival Newport as a watering place. Mayor Kelley of Newburyport spoke of Mr. Jones as a future Governor of New Hampshire, and eulogised him and the Messrs. Peirce. Lewis W. Clark, Esq., of Manchester, said his enterprise came not because of the Rockingham House, a brewery or the tin pedler's pusiness, but because Frank Jones has a good heart.

Gov. Goodwin then related an anecdote of the times of Rev. Mr. Buckminister particularly adapted to the occasion.

Capt. Daniel Hall of Dover spoke fervently in praise of the town of Barrington, which had produced many other distinguished citizens besides Frank Jones. We regret that we have not the speech in debial, as it was largely historical. Superintendent Ruggles of the Vermont & Massachusetts Railroads told anecdotes and kept everybody lively. All the speakers heartily commended the Messrs. Peirce as men "who know how to keep a hotel." The evening trains took most of the party homeward.

Harlow's Quadrille Band made music during the dinner hour.

Among the guests were Messrs. G. S. Robinson, Henry A. Lyford, Charles B. Leavitt, George Brewster, John H. Miller, Wm. D. Cowee, W. H. Wendell, Geo. Batchelder, Boston; John D. Sanborn, Rockport, Mass.; T. A. Prescott, Washington, D. C.; Capt. Charles Roundy, Wm. L. Batchelder, Gen. Sutton, T. T. Savory, Salem; William Sutton, A. A. Abbott, Peabody, Mass.; E. H. Hobbs, D. W. Sanborn, Portland; M. V. B. Edgerly, Manchester; J. B. Pendergast, Cleveland, Ohio; W. L. Johnson, W. Williamson, John W. Moore, T. Hiland, U. S. N.; T. A. Philbrick, Rye; James H. Butler, Nottingham; many others from out of town, and a large number of Portsmouth people.

Among the papers represented were the N. Y. Herald by Mr. Thomas Maguire, the Biddeford Journal by J. B. Butler, the Boston Herald by W. P. Hill of Concord, the Portland Press by Mr. Knowlton, the Biddeford Democrat by Mr. Watson, and the local press by their editors or reporters.

PAINTING the lily is not always desirable, but the handsome banking house of the First National and Portsmouth Savings Banks, looks still more elegant with its new coat of drab paint and brown trimmings, just laid on by Mr. Tripp, who gave it the previous coat twenty-seven years ago. Coloring the white marble trimmings is a great improvement. We notice also that the new granite work of the stores corner Market Square is painted freestone color.

MRS. VANDENHOFF'S READINGS.—Those who attended the readings given at Taylor's Hotel by Mrs. George Vandenhoff were more than repaid, as all audiences are who listen to this talented lady's elocutionary efforts. Her style of reading is the result of the cultivated use of rare natural powers of elocution, a refined and correct taste, aided by the advantages of a fine personal presence. The selections for reading were all excellent. We liked best "The Young Grey Head," Mrs. Southey's exquisitely told and touching story of the drowned darling of the cottage; its recital by Mrs. Vandenhoff brought the tears to many eyes. The reading of "Sandalphon," and of "High Tide in Lincolnshire," was perfect; and in humorous selections, such as "Mr. Bumble's Courtship" and "Zekel's Courtin," Mrs. Vandenhoff proved that her power in rendering the comic is not less than in giving full effect to pathetic composition. Suffice to say, that all who listened thoroughly enjoyed the readings.—*Evening Journal, Jersey City.*

THE NEW ORLEANS, MOBILE & TEXAS RAILROAD COMPANY

Are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles of the Texas division; leaving but 140 miles to be built.

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 226½ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.

Subscriptions will be received in Portsmouth by

First National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

This road is now in the dullest season of the year earning more than 12 per cent. net on the amount of its mortgage obligations.

Its 7 per cent. gold bonds are equal for security to Government or any other issue. They command a ready market and we are prepared to buy and sell them at all times. No investment in the market possesses equal guarantees of safety, returns an equal percentage of interest. The Chicago, Burlington and Quincy has given a traffic guarantee and guarantees itself to invest in these bonds 50 per cent. of the gross earnings derived from all business from this road. E. A. JOY

Has Fitted up a Spacious and Elegant SEWING MACHINE ROOM directly over his Music Store and employs a competent young lady to take charge of the same. A cordial invitation is hereby extended to all the ladies (not having good Sewing Machines of their own) to bring in lots of work and learn to make it up on the Machines. *This* will cost nothing whether a Machine is purchased or not. If you do not buy now, you will at some future time; for the day is not far distant when a SEWING MACHINE will be considered as indispensable as a Cook-Stove. Come as often and stay as long as you please.

MR. JOYS business in the Sewing Machine line is very rapidly increasing, which enables him to make the above generous offer.

His long experience in this branch qualifies him to be an excellent judge of the goods he sells; and as he has had the Agency of *all* kinds offered him at different times it is reasonable to suppose that the *Best* SEWING MACHINES may always be had at the SEWING MACHINE EMPORIUM, No. 9 PLEASANT ST., nearly opposite the Post Office, Portsmouth, N. H. *Twelve Different Kinds to Select from.* mh7

NAT.

There was a great clatter in the room, but as if deaf to any sounds but those made, Nat played softly to himself forgetting every thing in his delight. It was only a simple negro melody, such as street musicians play, but it caught the ears of the boys at once, and silenced them, till they stood listening with surprise and pleasure. Gradually they got nearer and nearer, and Mr. Bhaer came up to watch the boy; for, as if he was in his element now, Nat played away and never minded any one, while his eyes shone, his cheeks reddened, and his thin fingers flew, as he hugged the old fiddle and made it speak to all their hearts the language that he loved.

A hearty round of applause rewarded him better than a shower of pennies, when he stopped and glanced about him, as if to say—

"I've done my best; please like it."

"I say, you do that first rate," cried Tommy, who considered Nat his *protege*.

"You shall be first fiddle in my band," added Franz, with an approving smile.

Mrs. Bhaer whispered to her husband—

"Teddy is right: there's something in the child." And Mr. Bhaer nodded his head emphatically, as he clapped Nat on the shoulder, saying, heartily—

"You play well, my son. Come now and play something which we can sing."

It was the proudest, happiest minute of the poor boy's life when he was led to the place of honor by the piano, and the lads gathered round, never heeding his poor clothes, but eyeing him respectfully, and waiting eagerly to hear him play again.

They chose a song he knew; and after one or two false starts they got going, and violin, flute, and piano led a chorus of boyish voices that made the old roof ring again. It was too much for Nat, more feeble than he knew; and as the final shout died away, his face began to work, he dropped the fiddle, and turning to the wall, sobbed like a little child.

"My dear, what is it?" asked Mrs. Bhaer, who had been singing with all her might, and trying to keep little Rob from beating time with his boots.

"You are all so kind — and it's so beautiful — I can't help it," sobbed Nat, coughing till he was breathless.

"Come with me, dear; you must go to bed and rest; you are worn out, and this is too noisy a place for you," whispered Mrs. Bhaer; and took him away to her own parlor, where she let him cry himself quiet.

Then she had him tell her all his troubles, and listened to the little story with tears in her own eyes, though it was not a new one to her.

"My child, you have got a father and a mother now, and this is home. Don't think of those sad times any more, but get well and happy; and be sure you shall never suffer again, if we can help it. This place is made for all sorts of boys to have a good time in, and to learn how to help themselves and be useful men, I hope. You shall have as much music as you want, only you must get strong first. Now come up to Nursey and have a bath, and then go to bed, and tomorrow we will lay some nice little plans together."

Nat held her hand fast in his, but had not a word to say, and let his grateful eyes speak for him, as Mrs. Bhaer led him up to a big room, where they found a stout German woman with a face so round and cheery, that it looked like a sort of sun, with the wide frill of her cap for rays.

"This is Nursey Hummel, and she will give you a nice bath, and cut your hair, and make you all 'comfy,' as Rob says. That's the bath-room in there; and on Saturday nights we scrub all the lads first, and pack them away in bed before the big ones get through singing. Now then, Rob, in with you."

As she talked, Mrs. Bhaer had whipped off Rob's clothes and popped him into a long bath-tub in the little room opening into a nursery.

There were two tubs, besides foot-baths, basins, douche-pipes, and all manner of contrivances for cleanliness. Nat was soon luxuriating in the other bath; and while simmering there, he watched the performances of the two women, who scrubbed, clean night-gowned, and bundled into bed four or five small boys, who, of course, cut up all sorts of capers during the operation, and kept every one in a gale of merriment till they were extinguished in their beds.

By the time Nat was washed and done up in a blanket by the fire, where Nursey cut his hair, a new detachment of boys arrived and were shut into the bath-room, where they made as much splashing and noise as a school of young whales at play.

"Nat had better sleep here, so that if his cough troubles him in the night you can see that he takes a good draught of flax-seed tea," said Mrs. Bhaer, who was flying about like a distracted hen with a large brood of lively ducklings.

Nursey approved the plan, finished Nat off with a flannel night-gown, a drink of something warm and sweet, and then tucked him into one of the three little beds standing in the room, where he lay looking like a contented mummy, and feeling that nothing more in the way of luxury could be offered him. Cleanliness in itself was a new and delightful sensation; flannel gowns were unknown comforts in this world; sips of "good stuff" soothed his cough as pleasantly as kind words did his lonely heart; and the feeling that somebody cared for him made that plain room seem a sort of heaven to the homeless child. It was like a cosy dream; and he often shut his eyes to see if it would not vanish when he hanging up towels and Mrs. Bhaer took out clean clothes, as calmly as if the most perfect order reigned. Nay, she even chased one daring boy out of the room, and fired after him the pillow he had slyly thrown at her.

"Won't they hurt 'em?" asked Nat, who lay laughing with all his might.

"Oh dear, no!" we always allow one pillow-fight Saturday night. The cases are changed to-morrow; and it gets up a glow after the boy's baths; so I rather like it myself," said Mrs. Bhaer, busy again among her dozen pairs of socks.

opened them again. It was too pleasant to let him sleep, and he could not have done so if he had tried, for in a few minutes one of the peculiar institutions of Plumfield was revealed to his astonished but appreciative eyes.

A momentary lull in the aquatic exercises was followed by the sudden appearance of pillows flying in all directions, hurled by white goblins, who came rioting out of their bed. The battle raged in several rooms, all down the upper hall, and even surged at intervals into the nursery, when some hard-pressed warrior took refuge there. No one seem to mind this explosion in the least; no one forbade it, or even looked surprised. Nursey went on

"What a very nice school this is!" observed Nat, in a burst of admiration.

"It's an old one," laughed Mrs. Bhaer; "but you see we don't believe in making children miserable by too many rules, and too much study. I forbade night-gown parties at first; but, bless you, it was of no use. I could not keep those boys in bed, more than so many jacks in the box. So I made an agreement with them; I was to allow a fifteen-minute pillow-fight, every Saturday night; and they promised to go properly to bed, every other night. I tried it, and it worked well. If they don't keep their word, no frolic; if they do, I just turn the glasses round, put the lamps in safe places, and let them rampage as much as they like."

"It's a beautiful plan," said Nat, feeling that he should like to join in the fray, but not venturing to propose it the first night. So he lay enjoying the spectacle, which certainly was a lively one.

Tommy Bangs led the assailing party, and Demi defended his own room with a dogged courage, fine to see, collecting pillows behind him as fast as they were thrown, till the besiegers were out of ammunition, when they would charge upon him in a body, and recover their arms. A few slights accident occurred, but nobody minded, and gave and took sounding thwacks with perfect good humor, while pillows flew like big snow flakes, till Mrs. Bhaer looked at her watch, and called out—

"Time is up, boys. Into bed, every man Jack, or pay the forfeit!"

"What is the forfeit?" asked Nat, sitting up in his eagerness to know what happened to those wretches who disobeyed this most peculiar, but public-spirited school-master.

"Lose their pillows next time," answered Mrs. Bhaer. "I give them five minutes to settle down, then put out the lights, and expect order. They are honorable lads, and they keep their word."

That was evident, for the battle ended as abruptly as it began—a parting shot or two, a final cheer, as Demi fired the seventh pillow at the retiring foe, a few challenges for next time, then order prevailed; and nothing but an occasional giggle, or a suppressed whisper, broke the quiet which followed the Saturday-night frolic, as Mother Bhaer kissed her new boy, and left him to happy dreams of life at Plumfield.—

600,000 ACRES

CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $5 to $15 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the Government, and are not encumbered by any land grants, nor encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.

EXPLORING TICKETS are sold at the Company's ticket offices at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

TARRANT'S SELTZER APERIENT.

SECTS AND CREEDS DIFFER, but there are no dissenters from the general belief, that a great medicine is a great blessing. We have many of these blessings, but among them all, in the province to which it belongs, no greater than

Tarrant's Effervescent Seltzer Aperient.

A column would not suffice to enumerate the ailments for which it is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, a stomachic, an anti-febrile preparation, and an admirable remedy for all bilious complaints.

Let there be no mistake. Secure the genuine article only.

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS,

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY?

THEY ARE NOT A VILE FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ See Pamphlet for circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawtb16

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States, also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his particle me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. NEATNESS ON THE FARM.—Who that has ever travelled about among the farmers of the country has not sometime been disgusted with the untidy appearance of some of the places he has visited. One may sometimes find a man who carries neatness to the extreme, and spends more time in keeping tools polished than is profitable. I have seen a man show with much pride a set of shovels and forks that had always been kept up to a high state of brightness, by scouring in sand every time they were put away; and this after they were so badly worn that no man with a true idea of economy would have allowed himself or his men to use them at all. One cannot afford to wear fork, or hoe, or shovel clear up to the handle. Most people use ploughs, harrows and cultivators as well as shovels, hoes, and forks too long after they are worn below a profitable working condition. The best carpenters keep their saws, chisels and planes constantly sharp, and find economy in it. So should the farmers keep their ploughs and cultivators in good working order by changing the old points for new ones much oftener than they do; and as long as they are worth using, they should be kept clean and bright.

We have known many tolerably good farmers to buy a new plough or cultivator and when done using it for the day, leave it out in the rain or dew over night, without even whipping off the dirt that adhered to the casting. Next time the tool was used it would be covered with dirt and rust, which it would cost ten times as much to remove, as it would to have kept it off if it had been attended to at the right time. No rusty or dirty farm implement is profitable to use. It is the work of but a few minutes to wipe the dirt from a plough, horse hoe, or any of the many hand tools used on the farm, if done at the moment we are done using them. A woolen cloth with or without grease, or even a dry sod will remove the dirt from a plough, and save much scouring in the future. Many plough and cultivator castings are broken every year by being thumped against rocks, while in use, to knock off the dirt that adheres in consequence of their not being kept clean and bright.

In laying down fields to grass, neatness as well as economy requires that loose stones and rubbish of all kinds should be removed, and the land well rolled down, and as far as practicable the larger and fast stones should be removed either by sinking, or blasting and cleaning off from the field. A mowing field never looks quite as neat if it is covered by rocks and stones heaps, as it does if all are cleared out and the land left as smooth as a well kept lawn. We have heard men argue that removing large rocks did not pay. They said it cost a great deal, and when done there was nothing left but a hole in the ground which must be filled up by carting in soil. We have known those same men to find time almost any cloudy day to go out fishing, and when night came all they had gained was an empty stomach, and possibly a half dozen little mud pouts.

A year's stock of wood for fuel all cut and piled under cover is a pleasant sight to almost any farmer's wife. We find different farmers have quite different ways of getting together such a pile. We see some who bring all the refuse fuel on the farm right up to the door and leave it there till they find time for themselves or their men to cut it. Old fence posts and rails, broken down wheels and other farm implements past use, are dumped close by the kitchen door. In a few years the yard is covered with sawdust and chip dirt, and the green grass gives place to burdocks, nettles and other course and disagreeable weeds. We find other farmers who have their wood pile a little farther off from the buildings, in the corner of some lane or pasture, and when the wood is all cut in stove lengths as it should be, and well seasoned, it is thrown on a wagon and carried to the wood house and neatly piled.—*N. ARE THE BEST AND MOST RELIABLE.

One bottle of Helmbold's Fluid Extract Sarsaparilla equals in strength one gallon of the syrup or decoction as made by druggists; and 2 wineglass added to a pint of water equals the celebrated Lisbon Diet Drink—a delightful and healthful beverage.

The Grape-Juice Pill is composed of Fluid Extract of Catawba Grape-Juice and

Fluid Extract Rhubarb.

Useful in all diseases requiring a cathartic remedy, and far superior to all other purgatives, such as salt, magnesia, &c.

Helmbold's Grape-Juice Pill

is not a patented pill, put up as those ordinarily vended, but THE RESULT OF TEN YEARS' EXPERIMENTING, AND GREAT CARE IN PREPARATION. SAFE FOR AND TAKEN BY CHILDREN, NO NAUSEA; NO GRIPING PAINS, BUT MILD, PLEASANT, AND SAFE IN OPERATION. TWO BOTTLES OF THE FLUID

The Catawba Grape Pills are done up with great care and in handsome bottles, and will surpass all those vended in wooden boxes and carelessly prepared by inexperienced men, comparing with the French and English style of manufacturing.

All of H. T. HELMBOLD'S Preparations are Pharmaceutical, not a single one being patented, but all on their own merits. To dispel any impression or prejudice that might exist in the minds of many against my Preparations, from the publicity given through advertising, and that I am and have been a druggist for a period of twenty years and more, conclusively to prove this, See letter.

[From the largest Manufacturing Chemists in the World.]

Nov. 4, 1854.

I am acquainted with Mr. H. T. HELMBOLD. He occupied the Drug-store opposite my residence, and was successful in conducting the business, where others had not been equally so before him. I have been favorably impressed with his character and enterprise.

JURUBEBA. WHAT IS IT?

IT IS A SURE AND Perfect Remedy for all diseases of the LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR THEIR CONCOMITANTS.

DR. WELLS, having become aware of the extraordinary medicinal properties of the South American Plant, called

"JURUBEBA,"

Sent a special commission to that country to procure it in its native purity, and having found its wonderful curative properties to even exceed the anticipations formed by its great reputation, has concluded to offer it to the public, and is happy to state that he has perfected arrangements for a regular monthly supply of this wonderful Plant. He has spent much time experimenting and investigating as to the most efficient preparation from it, for popular use, and has for some time used in his own practice with most happy results the effectual medicine now presented to the public as

Dr. Wells' Extract of Jurubeba,

and he confidently recommends it to every family as a household remedy which should be freely taken as a BLOOD PURIFIER in all derangements of the system and to animate and fortify all weak and Lymphatic Temperaments. 4wm16

SATURDAY, JUNE 3, 1871.

PARIS.—In spite of the hopes of Orleanists, Bonapartists and legitimists, there seems to be a stormy anti-monarchical feeling in Paris and other principal cities of France. A section of the Assembly has proposed the nomination of Duc d'Aumale as a candidate for the presidency.

The interdiction on travel to and from Paris is removed; omnibusses are beginning to run and a few theatres are re-opened.

The barricades in Paris numbered over 400.

The Versaillists have lost their popularity to a great degree by the severe measures which they have carried out. Executions have ceased, but prisoners are yet on trial at Versailles.

Prince Napoleon, in a letter to Favre, demands a plebiscite to determine the future government of the country.

THE funeral of Owen Macken, one of the Pittston mine victims, took place May 31. The procession was over a mile in length, and the deceased miner's six children were present, barefooted, their entire apparel telling of the terrible suffering caused by the late strike and disaster.

The correct number in the mine at the time the fire was discovered was 59, of whom 22 were taken out before the works were burned down, 17 were taken out dead, 4 have died since, and 6 are still in a very critical condition.

Mine Inspector Williams, being dissatisfied with the verdict of the coroner's jury, has instituted an investigation of his own. The feeling against Williams is very strong, and threats of lynching are freely made. Many charge him with neglecting to make a complaint against the company for pecuniary considerations.

NEW YORK has just afforded a queer illustration of the way in which the anticipations of those who fancied that liberating slaves would cut the wages for white labor down to nothing, have been realized. A crowd of several hundred colored men who had been refused employment on the Columbia-street railway at the rate of $2 for eight hours, drove off the white laborers working at $1 28 and $1 50 per day, creating considerable disturbance, which the police suppressed.

GO AHEAD.—The War department received a request from a marshal in the South, June 1, for the aid of the military, and the necessary orders to meet the request were promptly issued by telegraph. Information as to further particulars, and the locality are withheld, lest its publication now might defeat the execution of the movement. The Secretary of War is determined to execute the Ku-Klux law thoroughly, and regards the force at his command ample.

THE Ohio democratic State convention was held June 1. The convention voted to consider the Constitution amended; the other resolutions savor more of Mr. Pendleton than any one else. General George W. McCook was nominated for governor.

THE Tennessee democracy have decided to accept the constitutional amendments and the democratic congressional address! How in the world will they manage it?

COMMISSIONER PLEASANTON has ordered the internal revenue supervisors in the South to apply for troops whenever needed by them.

Jeff. Davis recently visited Petersburg, Va., and the papers land him as "our beloved and honored President."

How is that for a "live issue?"

ALL the large hotels at Saratoga opened June 1, and the season promises to be the most brilliant ever known.

J. Bragdon & Co.'s railroad and carmill at New Albany, Ind., was burned June 1; loss $200,000.

—The last candidate — Greeley.—*Littleton Republican.*

He should be.

—An Illinois thief recently stole the lightning rod off a church.

—Uneducated men and brothers should not play with fire arms. A negro in Tennessee attempted to shoot his companion with the butt end of a pistol, but it fired the wrong way, and his friends went blackburying.

—Some people make their religion go a long way. A good woman bought a lottery ticket the other day, accompanying the purchase with the soliloquy: "The Lord knows how it'll turn out. It's all in the hands of the Almighty. I s'pose."

THE rumors of agitation and Carlist rising in Spain are officially contradicted.

THE trial of E. M. Yerger for killing Colonel Crane is progressing at Jackson, Miss.

THE court of claims adjourned June 1 until November 20, having decided one hundred and ten cases during the past term.

THE London Times sincerely hopes that Canada will not selfishly withhold her consent from the treaty of Washington.

THREE of the Scranton, Pa., rioters have been found guilty of unlawful assembly. There is much dissatisfaction with the verdict.

SECRETARY BOUTWELL has received no information of a bequest of eleven million of dollars by a rich Englishman as reported.

THE President has nominated Mr. Bancroft to the Berlin mission, the grade of which was changed at the last session of Congress.

THE arbitrators for the adjudication of the claims of American citizens on Spain for injuries received in Cuba, met on Wednesday for the first time.

THE old city governments of Washington and Georgetown ceased to exist at midnight, May 31, and the new territorial government is now in complete possession of the district.

CHRISTOPHER TRAUTFELTER, a detective officer, was fatally shot in Baltimore, June 1, by Thomas Goodrich, who had drawn a pistol intending to shoot his brother Washington.

THE Pennsylvania Freemasons, about to make an excursion to Europe, have accepted from the Earl of Shrewsbury an invitation to spend the 4th of July at his residence at Alton Towers.

THE British Columbia papers are greatly excited over the prospect of the loss of the island of San Juan, going so far as to advise the British government to seize and hold it by force.

A Tribune correspondent reports a wide spread apprehension among the negroes of middle and upper South Carolina, of a sort of St. Bartholomew massacre, to be undertaken by the Ku-Klux and executed in a single night.

IN the trotting at Baltimore, June 1, the first race was for a purse of $1000, which was won by Hickory Jack. The second race was for a purse of $3500, and was won by Goldsmith Maid. Time 2:21; 2:23; 2:22.

STEAMER Hansa, which arrived in New York, June 1, from Bremen, ran down and sunk the Norwegian barque Rhea, from Rotterdam for New York, May 31st. The captain and seven seamen were drowned.

THE Bank of California has received a supply of one, two and three cent nickel coins, and is furnishing them to retail dealers for greenbacks at par. This is the first introduction of these coins in California for circulation.

JOSEPH LEDRITZ, a seaman of the British steam-tug Princess Louisa, wrecked in the Straits of Magellan, has arrived at San Francisco in a sailing vessel. He reports all the rest of the crew killed or made prisoners.

A fortnight ago a petition was presented in the House of Commons in favor of a prohibitory liquor law, containing 74,000 signatures, all obtained in the towns of Manchester and Tadfourd. It was two-thirds of a mile long.

FURTHER reports from Camp Grant, New Mexico, show the killing of 100 Apache Indians at that place to have been merely a wanton, cowardly butchery of unarmed men, women and children, there being but eight men among the number murdered.

ATTORNEY-GENERAL AKERMAN decides that all fishing vessels destroyed during the war by the rebel cruiser Tacony will be considered in the same light as like vessels lost, in an ordinary sense of that word as applied to ships foundered or wrecked at sea, and therefore provided for in the bounty by Congress.

BERNARD DEVINE and wife, of New York, quarrelled Thursday afternoon, Bernard received a blow on the head from a large dinnerplate, crushing in the skull, from the effects of which he died in a few hours. He is described as a cruel and abusive husband, and the woman, it is alleged, acted in self-defence. She has been arrested.

NEW HAMPSHIRE ITEMS.

The official report of the Manchester printworks is $1,800,000 paid in capital; $543,057 debts; debts due the corporation, $1,084,585; property and assets, $2,576,111. The mills, boarding-houses, &c., including in this estimate, could not be built for $3,000,000. The par of this stock is $1000 per share, selling at $675. It sold for $2100 in 1865 and fell to $550.

Preparations are being completed for the eighty-first annual meeting of the State Medical Society, to be held in Concord next Tuesday. In the forenoon, addresses will be made by Hon. W. H. Mason, of Moultonboro, and Drs. John Blackmer and A. M. Winn. The anniversary dinner will be spread in the afternoon; and in the evening Dr. J. W. Parsons, of Portsmouth, will deliver an oration.

The first Congregational Society in Derry has raised $133.62 for missions, and Mrs. P. P. Day of the same town has given $25 for missions; North Hampton Congregational Society $10.29; Northwood Congregational Society $29.70; Friends in Windham $11.25.

As a remedy for Bronchial Affections and Chronic diseases of the Lungs, nothing ever before discovered equals Dr. Pierce's Alt. Ext. or Golden Medical Discovery. It is also a great blood purifier and restorative tonic, and cures Pimples, Blotches and Eruptions on the face, making the complexion clear and fair Sold by druggists.

It is often remarked by strangers visiting our State, that we show a larger proportion of good horses than any other State in the Union. This, we tell them, is owing to two principal reasons; in the first place, we breed from the very best stock; and in the second place, our people use *Sheridan's Cavalry Condition Powders*, which in our judgment are of incalculable advantage.

SPECIAL NOTICES.

You Haven't Tried Them.

Victim of debility, who is responsible for your feebleness? Not yourself, you will say, for you've done all you could to cure it. That's a mistake on your part.

You haven't tried Hostetter's Bitters.

Gloomy dyspeptic, with an uneasy stomach and a world-weary face, of course you don't think yourself responsible for your own torments. But you are. It is easy to see from your condition that you haven't tried Hostetter's Bitters.

Bilious sufferer, it is not your fault, you think, that your symptoms grow worse day by day. Blue pill doesn't do you any good. Very likely. But you can be brought round for all that.

Why haven't you tried Hostetter's Bitters?

Friend, on whom fever and ague alternately blows hot and cold, and whose brain seems to be bursting with the effects of some powerful drug, do you assume the responsibility? O, no! You've taken piles of quinine, and all the regulation medicines. What could you do more? One thing more—the very thing that would have exempted you from all the pangs that now rack you.

You have never tried Hostetter's Bitters.

Nervous invalid, what have you to say? You plead that you have taken all the nervines of the pharmacopœia. If they have done you no good, it is not your fault. You are not responsible. Wrong, all wrong. You have, in reality, nobody to blame but yourself.

Why haven't you tried Hostetter's Bitters?

For all the above-named complaints, the Bitters are absolute specifics.

MR. ALBERT A. FERNALD has opened another lumber yard, on the vacant lot at the corner of High and Deer Streets, and has made extensive lumber purchases at the West; another indication of the revival of business enterprise in Portsmouth.

....Mr. Hackett advertises for Saturday, June 17, the sale of an estate on Market St. which has been owned by one family for over sixty-six years. The wharf in old times was the seat of a large cooperage business. Subsequently an era of boat building by Joseph Green followed, and now the premises will doubtless find a purchaser for some new occupation, as its proximity to the Concord Railroad wharves makes it convenient for many kinds of business.

THE Concord Monitor has heard that William R. Martin, Esq., Republican candidate for Senator in this District, is a gauger under the internal revenue laws and also Surveyor of the Port of Portsmouth—and asks, "is it so?" It is so, but will not be so after Mr. Martin is elected Senator; he would be unwise to resign these places before being elected.

CITY COUNCILS, JUNE 1st.

In Board of Aldermen a petition of Geo. L. Treadwell and others for a gas post at the corner of Market Street and Commercial Alley was referred.

Resolutions were passed, in concurrence with the Common Council, adding five per cent. to the Appropriation bill to answer any abatements that may be made; allowing for a discount of six per cent. on all taxes paid within 30 days from the delivery of the tax lists to the Collector; and four per cent. on all paid within the next 30 days. A resolution was passed instructing the Collector to issue notices to all persons whose taxes remain unpaid six months after, stating tl at if the amounts be not paid with twenty cents for such notice within fourteen days thereafter, he may distrain for the same. But four months have been allowed heretofore, but on motion of Alderman Wendell six months was substituted.

George J. Fernald and Wesley Rand were appointed Police Officers, Watchmen and Constables.

The Committee on Fire Department were authorized to secured to the city the reservoir in Rogers' wood-yard.

The Common Council having nonconcurred in the passage of the Appropriation bill, a committee of conference was appointed.

The Committee on Fire Department were requested to consider the subject of constructing a reservoir on Middle Street, between Wibird and Union Streets.

The Committee on Streets with Aldermen Mendum were authorized to fix the line of Middle Street, between Wibird and Union Streets.

The conference committee reported in favor of striking out the appropriation of $100 for the Celebration of Independence in the Appropriation Bill. Adopted.

The subject of repairs of crosswalk and grade at the head of Daniel Street was referred.

Common Council.—Concurrence was refused in an amendment to the Appropriation Bill made in the other board, to strike out an item appropriating $100 for 4th of July, and insert "contingent expenses." The Aldermen adhered to their amendment, and asked for a committee of conference; Messrs. Hatch, Marvin and Fernald were appointed from the Aldermen, and Messrs. Waterhouse, Hanscom and Gardner from the Common Council. The committee recommended that the item be stricken out of the bill altogether, which was agreed to, and the appropriations for the year are as follows:

For State Tax	$30,078.00
County Tax	24,286.82
City Debt	2,000.00
Interest	12,500.00

A joint resolution relating to discounts on taxes was passed.

Adjourned to the call of the Mayor.

A post-office is talked of at Rye Beach during the summer.

THE library of the Young People's Christian Union will be open Saturday evenings, from 8 to 9 o'lock.

MR. CHARLES H. TOMPSON, leader of the Cornet Band, has received a call to lead the Band, in a Massachusetts town near Boston, at a liberal salary. Mr. Thompson has not decided to accept the offer as yet.

OSGOOD Lodge, No 48, I. O. of O. F., have received an invitation to visit Bunker Hill Lodge of Charlestown, Mass., on the 19th of June, to take part in the laying of the corner stone of the Odd Fellows' Hall at Boston.

MAYOR ADAMS of Portsmouth, N. H., has been missing since Monday last, and all attempts to discover his whereabouts have proved fruitless. When last seen he manifested symptoms of insanity, and fears are entertained that he may have made away with himself during his aberration of mind.—*Bos. Trav.*

We think and hope the Traveller is mistaken. Mayor Adams left Portsmouth for Exeter on Monday, and left there for Boston, Wednesday evening. An anxious friend searched for him and telegraphed from Somerville, Thursday, that Mr. Adams was there with relatives. The report of "insanity" probably sprang from a statement that he had received a partial sunstroke, from which we hope he has recovered ere this.

P. S. A later report states that it has been necessary to convey Mr. Adams to the Asylum, and that the attendant physician considers the case very serious. This is sad news for his legion of friends.

FROM the Assessors' Books, we take the following statement for the present year:

Number of Polls taxed	2,449
Number of dogs	199
Number of horses 494, valued at	$47,032
Number of oxen 102, valued at	$6,158

Poll tax 1870	$3.66

THE Legislature meets on Wednesday, and Concord will be overflowing with the "coming men" by Monday. The Republican member of the House from Webster is seriously ill with bilious fever, and will not be present—thus reducing the majority to two. The Governor will probably not be chosen before Thursday. It is our intention to give early and full reports of the doings of the week, by telegraph and mail.

THE Portland papers say that "Maddame Rentz's Female Minstrels" are a swindle.

☞ THE NEW HAMPSHIRE GAZETTE for this week, is now ready for delivery, at the Chronicle Office. Each number contains all the reading matter of the week's Dailies. Price $2 a year; single copies 5 cents,—in wrappers for mailing, if desired. Six copies for $10 per year, to Clubs—per mail or city carrier.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a mammoth Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c., —and are prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, HANDBILLS, CIRCULARS, ORDERS DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, at SATISFACTORY PRICES. THE NEW ORLEANS, MOBILE & TEXAS RAILROAD COMPANY

Are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 226½ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or $200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.

Subscriptions will be received in Portsmouth by

First National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

BACKBONE.

When you see a fellow mortal
Without fixed and fearless views,
Hanging on the skirts of others,
Walking in their cast-off-shoes,
Bowing low to wealth or favor,
With abject, uncovered head,
Ready to retract or waver,
Willing to be drove or led;
Walk yourself with firmer bearing,
Throw your mortal shoulders back,
Show your spine has nerve and marrow,
Just the things which his must lack.
A stronger word
Was never heard
In sense and tone,
Than this, backbone.

When you see a theologian
Hugging close some ugly creed,
Fearing to reject or question
Dogmas which his priest may read,
Holding back all noble feeling,
Choking down each manly view,
Caring more for forms and symbols
Than to know the Good and True;
Walk yourself with firmer bearing,
Throw your moral shoulders back,
Show your spine has nerve and marrow,
Just the thing which his must lack.
A stronger word
Was never heard
In sense and tone,
Than this, backbone.

—Mr. Garnett of Richmond not only dissembled his love, but kicked Mr. Clark down stairs. Mr. Clark remonstrated with his little revolver. It went off three times, and each time a perforation was made in Mr. Garnett's frame. Garnett will have to be resct.

—The ticking of the clock at the Cambridge Observatory can be heard in San Francisco. This is done by connecting the pendulum of the clock with the telegraphic wire in such a manner that the main circuit is broken and instantly closed again at every swing of the pendulum.

—It is said that when Theodore Parker was a young man he could carry a barrel of cider in his hands. Henry Burt of Racine, Wis., heard of his feat and undertook to make his stomach do the same, but he only accomplished half of the task before the undertaker took him in charge.

—A beggar applied for food and lodgings at the Schenectady poor-house, and was given a cold meal. He refused it and abused the keeper's wife shamefully, when her husband interfered. The fastidious mendicant shot at him and cleared out, saying he "never saw such insolence in any hotel before."

—The Austin (Wisconsin) Star says that George Atkins thrust his spear into a large fish just below Boorman's dam. The fish drew the spear from his hand and sailed away—the spear handle sticking straight above the water. The whole town turned out in boats and captured the fish, and had chowder for a week.

—It is said that Professor Struve, of Pultowa, has found that the ring of Saturn, which for several months has been approaching the body of the planet, has at last fallen upon it and become diffused over its surface. The theory was however, that the ring should break up into satellites. If the assertion be true, some modification of the nebular theory is in this case evidently needed.

CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $3 to $15 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting the lands, address ERENEZER COOK, Land Commissioner, Davenport, Iowa.

EXPLORING TICKETS are sold at the Company's ticket offices at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

TARRANT'S SELTZER APERIENT.

SECTS AND CREEDS DIFFER, but there are no dissenters from the general principles that constitute a good laxative and cleansing. We have many of these blessings, but among them all, in the province to which it belongs, no greater than

Tarrant's Effervescent Seltzer Aperient.

A column would not suffice to enumerate the ailments for which it is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, a stomachic, an anti-febrile preparation, and an admirable remedy for all bilious complaints.

Let there be no mistake. Secure the genuine article only.

Consumption.

ITS CURE AND ITS PREVENTIVE.

By J. H. SCHENCK, M. D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and necessary remedies for curing the disease. These near and dear to family and friends are sleeping the dreamless slumber into which, had they timely adopted

Dr. JOSEPH H. SCHENCK'S SIMPLE TREATMENT,

and availed themselves of his wonderfully efficacious medicines, they would not have fallen.

Dr. Schenck speaks of his own case from that wherever sufficient vitality remains, that vitality, by his medicines and the directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid he makes no representation that is not a thousand times substantiated by living and visible proofs. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self-assuring, self-evidencing.

The Seaweed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assaled. Two-thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. This condition has established tubes "sympathize" with the stomach. They respond to the morbific action of the liver. Here, then comes the inquiry, what is the result, and the setting in, with all its distressing symptoms, of

CONSUMPTION.

The Mandrake Pills are composed of one of Nature's noblest aids, the Podophillum, or Mandrake. They possess all the blood-searching, alterative properties of calomel, but unlike calomel, they

"LEAVE NO STING BEHIND."

The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responively, and the patient begins to feel that he is getting, at last,

A SUPPLY OF GOOD BLOOD.

The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chylification is now operative, without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more flatulence, no exacerbation of the stomach. An appetite sets in.

Now comes the greatest Blood Purifier ever yet given by an enlightened father to suffering man, Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature's foes are cheated. It collects and ripens the impaired and diseased particles of the lungs. In the form of gatherings it prepares them for expectoration, and lo! in a very short time the malady is vanquished, the rotten tissue is expelled by coughing and raised and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was

GIVEN UP AS LOST.

The second thing is, the patients must stay in a warm room, until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure cannot be effected. Fresh air and riding out, especially in the second and convalescent stage of the winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased. I would recommend to the invalid, in the house they must not sit down quiet; they must walk about the room as much and as fast as their strength will bear, to keep up a good circulation of blood. The patients must keep in good spirits—be determined to get well. Hope has a great deal to do with the appetite, and is the great point to gain.

To despair of cure after such evidence of its possibility in other cases, is not merely uncharitable in his others, is sinful. Dr. Schenck's personal statement to the Faculty of his own cure was in these modest words:

"Many years ago I was in the last stages of consumption; my friends and my family physicians thought that I could not live a week; then like a drowning man catching at straws, I heard of, and immediately sent for, Schenck's; I now offer to the public, and they made a perfect cure of me. It commenced in the stomach and penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time. As soon as that began to subside, my cough, fever, pains and night sweats all began to lessen, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in flesh ever since."

"I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton, my weight was only ninety-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed uninterrupted health."

Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., of Philadelphia, will be at his office, No. 15 North Sixth street, Philadelphia, every Saturday from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged $5. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow those directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; but the three medicines need no other accompaniments than the simple instructions that accompany them: First, create appetite, secondly, build up the body, and the most welcome symptom, when it comes, as it will come, namely, the coughing it once the of good cheer. Food, blood at once follows, the cough loosens, the night sweat is abated. In a short time both of these morbid symptoms are gone forever.

Dr. Schenck's medicines are constantly kept in thousands of families. As a laxative or purgative, the Mandrake Pills are a standard preparation: while the Pulmonic Syrup, as a cure of coughs and colds, may be regarded as a prophylactic against consumption in any of its forms.

Price of the Pulmonic Syrup and Seaweed Tonic $1.50, a bottle, or $7.50 a half dozen. Mandrake Pills, 25 cents a box. For sale by all druggists and dealers.

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS,

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawSb6

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

NO. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

REPORT OF THE COMMISSIONER OF EDUCATION.—This is the United States Commissioner's Report. We think there has been such a Commissioner but two or three years, and that this for the year 1870 is the first full report yet made. The Commissioner is Hon. John Eaton, Jr. The report is a volume of 579 pages and is worthy of the great cause of education.

It contains the Commissioner's Report of the state of education in the nation, its progress, and most valuable suggestions relative to the successful prosecution of the great enterprise. Then there are abstracts of the reports of the several States and territories so far as obtained. It gives an account of education among the colored people and the Indians, also of deaf mutes. It has very full statistics of the schools in the States and territories, and statistics of the colleges and Theological Seminaries, Institutions for the blind, insane, idiotic, inebriates, etc. Some account of education in foreign lands is also given.

Only hints or glances of the contents of this report have been given. Suffice it to say that it is replete with information on educational matters, and that succeeding reports will be looked for with much interest.

—A lady writing of street-car riding to a Boston contemporary, thus explains why women ought not to stand in the cars:—It was the beautiful custom of the fathers of this generation, to see no woman standing if they could give her a seat. Why? Because, without thinking more about it, their very manliness pleaded to them for her that she was the "weaker," and therefore less able to stand than they. But the theory of their self indulgent and irreverent sons is that "women can stand as well as men," and therefore they allow her to do so. Is this true? Many a woman is as tall as her husband, but compare his broad and long foot in its thick boot with her little one in a delicate shoe, arched and slender, and about two-thirds the size of his. Compare the body she has to support on that foot—its small bones, soft muscles, swelling and heavy contours—with the large bones, firm muscles, small hips and spare limbs of man's frame; reflect, moreover, upon the internal structure of her organism, the frightful danger to which strain or over-fatigue may expose it—including the possible murder of the unborn—and then insist, if you can, that women can stand as well as men. It is not true; they cannot.

— The son of a well-known New Haven politican whose name begins with B, is a freshman at Yale and was seated at recitation near the colored student Bouchet, whereupon the B. senior wrote to one of the professors, asking, as a personal favor, that he would change the young man's seat, as it was distasteful to him to sit so near a negro. The professor wrote back that at present the students were arranged in alphabetical order, and it was not in his power to grant the favor, but "next term the desired change will be brought about, for scholarship then being the criterion, Mr. Bouchet will be in the first division, and your son in the fourth."

—A nice young man at Portland kept looking into the window of a married lady until he saw her shake a handkerchief, when he called at her room. After being picked up at the bottom of the stairs, and having his bones set, it was explained that she was only shaking some apple-peelings from a napkin. Her husband says she did perfectly right in hitting the visitor with the wash bowl.

—A showman in the State of Maine wanted to exhibit an Egyptian mummy, and attended at the court-house to obtain permission. "What is it you want to show?" inquired the judge. "An Egyptian mummy more than three thousand years old" said the showman. "Three thousand years old!" exclaimed the judge, jumping to his feet; "and is the critter alive?"

—When Miss Lane was the charming mistress of the executive mansion, a photographer in New York presented her with an album, superbly bound, containing forty two different views of Miss Lane. A friend remarked on seeing it one day, that it was the most Mis a-Laneous book he had ever seen.

—Two clergymen, late editors of the Ministerial Union, a Christian paper which appeared for four consecutive weeks in Chicago, valedictored as follows: "Chicago is a good place for a religious paper, providing that three pages serve Satan and the other one is mixed."

—At a point on Lickling River, in Nicholas county, Ky., there is said to be a perpetual fog all the year round.

—A Brooklyn painter has a sign reading thus: "Putti phor sall, glaziers by the regiment, stop that draught."

Fluid Extract Sarsaparilla.

In the Spring and Summer months the system undergoes a change. This is the time to use good blood-renewing, purifying and invigorating medicines.

Helmbold's Fluid Extract Sarsaparilla

AND HELMBOLD'S

FLUID EXTRACT GRAPE-JUICE PILLS,

ARE THE BEST AND MOST RELIABLE.

One bottle of Helmbold's Fluid Extract Sarsaparilla equals in strength one gallon of the syrup or decoction as made by druggists, and a wine-glass added to a pint of water equals the celebrated Lisbon diet drink, a delightful and healthful beverage.

The Grape-Juice Pill is composed of Fluid Extract of Catawba Grape-Juice and

Fluid Extract Rhubarb.

Useful in all diseases requiring a cathartic remedy, and far superior to all other purgatives, such as salt, magnesia, &c.

Helmbold's Grape-Juice Pill

is not a patented pill, put up as those ordinarily vended, but THE RESULT OF TEN YEARS' EXPERIMENTING, AND GREAT CARE IN PREPARATION. SAFE FOR AND TAKEN BY CHILDREN, NO NAUSEA, NO GRIPING PAINS, BUT MILD, PLEASANT AND SAFE IN OPERATION. TWO BOTTLES OF THE FLUID

EXTRACT OF SARSAPARILLA

AND ONE BOTTLE OF

The Grape-Juice Pills

ARE WORTH THEIR WEIGHT IN GOLD TO THOSE SUFFERING FROM BAD BLOOD, POOR COMPLEXION, HEADACHE, NERVOUSNESS, WAKEFULNESS AT NIGHT, COSTIVENESS AND IRREGULARITIES,

and to those suffering from broken and delicate constitutions, it will give new blood, new vigor, and new life.

THE CATAWBA GRAPE PILLS

are done up with great care and in handsome bottles, and will surpass all those vended in wooden boxes, and carefully prepared by inexperienced men, comparing with the English and French style of manufacturing. All of

JURUBEBA. WHAT IS IT?

IT IS A SURE AND Perfect Remedy for all diseases of the LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, BLOTCHES OR ERUPTION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR THEIR CONCOMITANTS.

DR. WELLS, having become aware of the extraordinary medicinal properties of the South American Plant, called

JURUBEBA,

Sent a special commission to that country to procure its native purity, and having found its wonderful curative properties to even exceed the anticipations formed by its great reputation, has concluded to offer it to the public, and is happy to state that he has perfected arrangements for a regular monthly supply of this wonderful Plant. He has spared no much time or expense, and investigating as to the most efficient preparation from it, for popular use, and has for some time used in his own practice with most happy results the effectual medicine now presented to the public as

Dr. Wells' Extract of Jurubeba,

and he confidently recommends it to every family as a household remedy which should be freely taken as a BLOOD PURIFIER in all derangements of the system and to animate and fortify all weak and Lymphatic Temperaments. 4wm16

MONDAY, JUNE 5, 1871.

POLITICAL.—The New York Standard, in a column leader, renominates General Grant for the Presidency. The editor alludes to the fact that Harper's Weekly and the Independent have also taken like ground.

The Democrats of Kentucky have finally succeeded in eliminating the Union element from their State ticket, it now being composed entirely of Ex-Confederate officers or Confederate sympathizers.

The election contest in Gen. Schenck's district has received a new turn by the confession of one Peter Schwab that he put either fifty-one or fifty-three tickets into the ballot-box for Mr. Campbell, General Schenck's Democratic competitor.

The Richmond Enquirer says that the South has seen the worst of the Ku-Klux outrages, and that for the future the people will behave themselves. Better late than never; but isn't this very like an acknowledgement of what the Enquirer has hitherto denied, the truth of the republican charges against the southern democracy?

IN the coming contest of 1872, the Democratic party have nothing new to present. In 1868, aided by the Confederate recruits, and by the fusion of Seymourism and Blairism, it had some hope of success; but, in 1872, they have nothing but the old issues of the war to fight over again, upon which they have been defeated, outside of New York city, annually since 1860. They might have made a respectable showing upon the issue of taxation; but upon that the party seems as ignorant as savages, and, when it votes at all, it votes under command of Kelley and Randall. It will have to enter the fight once more with no other battle-cry than "Down with the niggers!" and "Up with Boss Tweed!" and of course will meet with as disastrous a defeat as that of 1864 or 1868, unless it shall be out-blundered in the next 18 months by the Republican party, which we conceive to be quite impossible.—*Chicago Tribune.*

THE dissolution of the Portuguese cortes has been ordered.

OVER 77,000 immigrants have arrived at Castle Garden, New York, this year.

AT Mendocino, Cal., a mob has notified all the Chinese in town to leave within ten days on peril of their lives.

FANNY PUNSHON, daughter of William Moreley Punshon, of Toronto, was married to Professor Raynor, of the Coburg University, on Thursday.

EX-SENATOR WARNER, of Alabama, recently appointed governor of New Mexico, vice Pile, transferred to the mission to Venezuela, has declined the office.

THE reunion of the army of the James will be held in New York city, July 19. General Terry will deliver an address, and Colonel John Hay the poem.

MACE appeared in the ring in Kansas City in fighting costume at the appointed time, but his adversary not putting in an appearance, the referee declared Mace the winner.

BISHOP WHITEHOUSE formally pronounced the decree degrading Rev. Mr. Cheney from the ministry at Chicago on Friday. Mr. Cheney's congregation will stand by him it is said.

THE coroner's jury in the case of Bernard Devine, killed by a dinner-plate thrown by his wife, in New York, exonerated her from blame, as she was acting in self-defence. Mrs. Devine was discharged.

Of the one hundred and seventy-six towns and cities in Massachusetts which voted on the question of licensing the sale of ale and beer, only seventeen voted in favor of license. This looks encouraging for the temperance cause.

THE Irish democracy of New York had their meeting to oppose the Treaty of Washington, Friday night. Their opposition will not amount to much, as there won't be any ballot-box stuffing or repeating in the ratification of the treaty.

THE Odd Fellows celebration in Boston on the 13th of June, bids fair to be one of the most successful affairs of the kind ever undertaken there. Over 6000 members of the order from all parts of the State and from New England, with some forty-five bands, will be present.

H. W. CALDWELL of Indianapolis, great-grandson of John Casino, who leased eight acres of land in New York, adjoining Trinity Church property, in 1778 for 99 years, has recovered the original papers establishing his claim, and compromised with the occupants and transferred his individual interests for one million dollars.

NEW HAMPSHIRE ITEMS.

Mr. Walter T. Gilbert, who accidentally shot himself at Hopkinton, had $50,000 insurance on his life.

Mrs. Adeline Young of Wolfborough committed suicide May 30, by drowning herself. Her age was fifty-nine years.

The second annual meeting of the Fifth New Hampshire Veterans' Association was held in Concord Thursday, June 1st, and the following officers elected for the ensuing year: President, Colonel Charles E. Hapgood of Boston; secretary, Lieutenant-Colonel J. E. Larkin of Concord; treasurer, Colonel Thomas L. Livermore of Boston. Letters were read from Generals Hancock, Howard and Bulock. It was voted to hold the next reunion in that city on June 1, 1872.

A survey is making at Sewall's Falls and vicinity, Concord, with a view of ascertaining the best means of utilizing water power at that point, preparatory to the erection of factories, machine shops, etc.

A little four-year-old daughter of Mr. Roy, a stone-mason of Lebanon, was drowned on the 1st, by falling headforemost into a post hole about half filled with water.

A boy named White was instantly killed May 30, at a steam mill in Keene, by being caught in the belting and drawn over the shafting. The body was frightfully mangled, the legs broken and the arms torn from their sockets.

Concord is disturbed over a rumored case of small-pox.

The Manchester Gas Works have recently imported 700 tons of coal from Newcastle, England.

The permanent location of the Nashua and Acton Railroad has proceeded as far as Graniteville, and will be pushed to Nashua as fast as possible.

Dudley Hill, Esq., of Hill's Corner, Canterbury, died a few days since, aged 81 years. He had been in the hotel business since 1822, had served as representative many years, been postmaster and held other honorable places with credit.

Disastrous fires have been raging in the woods in Epping and Kingston for several days. In the former place, 80 acres of woodland were burned over, and about 100 cords of wood were destroyed. A large tract of woodland in Kingston was overrun by the fire, which also destroyed the house and outbuildings of Joseph Webster, whose loss was about $700; partially covered by insurance.

It is proposed to reorganize, as far as practicable, the original band that accompanied the third regiment to Port Royal, for the regimental reunion at Hampton Beach on September 6 and 7th.

Brentwood is in trouble about one of its schools located near the county poor-house. The county commissioners claim the rigat to send the pauper children to the school, and by their order, Superintendent Philbrick sent them daily, and daily the teacher sent them home per order of the school committee. For two weeks the farce was continued, until finally the war ended by closing the school, and the teacher is idle until the disputed point gets settled or settles itself.

THE forthcoming report of the State Treasurer will show an increase of revenue over last year of $1,332.17. We give the figures, together with those of 1870.

THE San Francisco police are endeavoring to arrest a gang of boys, who stoned to death an inoffensive Chinaman on the afternoon of June 1st. A dozen people witnessed the assault but did not interfere until the murder was complete. No attempt was then made to arrest the murderers.

THE COMMUNE.—The attempts which have been made in some quarters to exalt the late Paris Commune to the respectability and dignity of a Republican organization, prompts The Nation to define its real creed as follows.—

The real creed of the Commune leaders, and on which the Communal Government in Paris was to be based, in case they had triumphed, included the total denial of the existence of God and of a future life, the prevention of any religious observances, and the treatment of priests and ministers and impostors; the abolition of marriage, and the substitution of temporary connections, based on the inclination of either of the parties; the rearing and education of children by the Commune as in a vast foundling hospital; the outlawry of all persons not living by the labor of their hands, or, in other words, the creation of an aristocracy of ouvriers; the expulsion of the literary or educated class from all places of trust or dignity; the substitution of 'natural justice' in the courts of law for all artificial systems of jurisprudence; the appropriation of all property to public use, and the provision of labor for all persons able to labor, and support for those who were not able, out of the public purse. If they could not have all this, they would have nothing, and were ready to go to any extremes in the attempt to get it.

BUSINESS NOTICES.

UNTIRING EXERTION can alone render a hotel worthy to be considered first class in this age of progress. The Messrs. Rice, of the AMERICAN HOUSE, BOSTON, have kept this fact constantly in view, and their hotel offers every desirable convenience to travellers.

THERE is not such a reliable purgative known as HELMBOLD'S CATAWBA GRAPE PILLS. They are safe, pleasant and efficacious, and cause neither nausea or griping pains. HELMBOLD'S SARSAPARILLA, the great Blood Purifier.

Johnson's Anodyne Liniment may be used to advantage where any Pain Killer is desirable. In cases of severe cramps and pains in the stomach, it is undoubtedly the best article that can be used.

Habitual constipation leads to the following results: Inflamation of the kidneys, sick and nervous headache, biliousness, dyspepsia, indigestion, piles, loss of appetite and strength; all of which may be avoided by being regular in your habits, and taking, say one of *Parson's Purgative Pills* nightly, for four or six weeks.

SPECIAL NOTICES.

A Pitiful Condition.

It is a sad thing to pass through life only half alive. Yet there are thousands whose habitual condition is one of languor and debility. They complain of no specific disease; they suffer no positive pain; but they have no relish for anything which affords mental or sensuous pleasure to their more robust and energetic fellow-beings.

In nine cases out of ten this state of lassitude and torpor arises from a morbid stomach. Indigestion destroys the energy of both mind and body. When the waste of nature is not supplied by a due and regular assimilation of the food, every organ is starved, every function interrupted.

Now, what can common sense suggest under these circumstances of depression? The system needs rousing and strengthening; not merely for an hour or two, to sink afterward into a more pitiable condition than ever, (as it assuredly would do if an ordinary alcoholic stimulant were resorted to,) but radically and permanently.

How is this desirable object to be accomplished? The answer to this question, founded on the unvarying experience of a quarter of a century, is easily given. Infuse new vigor into the digestive organs by a course of HOSTETTER'S STOMACH BITTERS. Do not waste time in administering temporary remedies, but make the system up by recuperating the fountain-head of physical strength and energy, the great organ upon which all the other organs depends for their nurture and support.

By the time that a dozen doses of the great vegetable tonic and invigorant have been taken, the feeble frame of the dyspeptic will begin to feel its benign influent. Appetite will be created, and with appetite the capacity to digest what it craves. Persevere until the cure is complete—until healthful blood, fit to be the material of flesh and muscle, bone and nerve and brain flows through the channels of circulation, instead of the watery pabulum with which they have heretofore been imperfectly nourished.

NEW ADVERTISEMENTS.

HEALTH REGULATIONS.

THE BOARD OF HEALTH of the City of Portsmouth call the attention of the public to the following sections of City Ordinances No. 4 and No. 100, and invite all interested in the preservation of health in the City to aid them in the execution of their duty.

ORDINANCE NO. 4.

SEC. 3.—All waste water of houses, yards, cellars, sinks, pumps, &c. shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEC. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low-water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners or occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

SEC. 11. The health officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing deemed by them, on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said health officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, vessel, or enclosure, and cause the said nuisance or other thing aforesaid to be removed or destroyed.

SEC. 14. The owner or occupier of any building, vessel or enclosure shall be liable to pay the expense of the removal or destruction of any such nuisance or other thing, as aforesaid, including fees of the health officers who order or cause the same to be removed; and the same may be recovered by action to be brought in the name of the city.

SEC. 17. Any person or persons who shall violate any rule or regulation, or commit any act forbidden in any section of this ordinance, to which no special penalty is annexed, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars, to be recovered by complaint before the police court of this city.

ORDINANCE NO. 100.

SEC. 1. When any householder shall know that any person within his family is taken sick of the Small Pox, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Health Officers.

SEC. 2. When any physician shall know that any person whom he is called to visit is infected with the Small Pox, or any other disease dangerous to the public health, such physician shall immediately give notice thereof to the Health Officers.

SEC. 3. If any such householder or physician shall refuse or neglect to give the notice required in the preceding sections, he shall for such refusal or neglect, forfeit the sum of twenty dollars, to be recovered by either of the Health Officers in the name of the city.

HON. HORTON D. WALKER has been appointed one of the three New Hampshire Agents for the World's Fair.

THE U. S. S. Wyoming is rapidly being fitted out at the Navy Yard. Her engines were run on Thursday of last week, and gave good satisfaction; she will probably be ready for sea by the end of this week.

MR. BENJAMIN CURTIS of Farmington, formerly of Newcastle, went out to burn brush in his field on Friday, June 2d, and was found some hours afterward, dead, and with his clothing burned from his body. He was about 60 years of age, and it is supposed he was sunstruck or taken with a fit, and fell down in the flames he had kindled. Mr. Curtis was a member of Piscataqua Lodge, I. O. O. F., of this city, and was buried by that organization on Sunday, at Farmington.

THE Portsmouth delegation to the State legislature met in the office of William H. Hackett, Esq., Saturday evening, to decide if they would support in the legislature a bill empowering Portsmouth and Newcastle to unite, should the majority of the citizens of both places vote to do so in formal meetings called for the purpose. It was unanimously resolved to favor such a bill, which commits no one to either support or oppose the proposed union, but merely provides that the question shall be submitted to the people, and if annexation is approved by them that the union may then take place.

REV. D. A. MACK, agent of the New Hampshire Orphans' Aid Association, visited several of the churches in this city on Sunday, to present the claims of this noble institution. He discoursed in the Middle St. Baptist in the forenoon, and at the close of the service a collection was taken up amounting to some over $300. In the afternoon he addressed the Methodist Society, who responded with a contribution exceeding $100; and later in the afternoon Chaplain Mack visited the Unitarian Church, which likewise contributed liberally.

The claims of the N. H. Orphans' Aid Association are for the establishment of a Home and School of Industry for the orphan and homeless children of the State. Mr. Mack gives his whole heart to the work, which was his favorite subject for years before any public action was taken in the matter. The Board of Trustees, of which Hon. Horton D. Walker has been made Vice President, are pressing the accomplishment of the object with vigor, and a successful issue will surely be effected. We take pleasure in commending this matter to the liberality of our citizens.

AT the Universalist Church, Sunday, the ceremony of consecrating twenty infants and nineteen children, (the ages of the latter ranging from six to ten years) attracted a large congregation, the spacious church being filled, galleries and all. Many members of the Universalist Society of Kittery were present, and visitors from other neighboring towns.

The desk and altar of the church were profusely decorated with beautiful flowers, while baskets of floral offerings were suspended throughout the audience-room. The subject of the discourse by the pastor, Rev. Mr. Bicknell, was "Children and Flowers," the theme being drawn from two passages of scripture, as well as suggested by the occasion. The remarks were instructive and eloquent, well worthy of the speaker's best efforts. At eleven o'clock the parents of the several infants which were to be consecrated entered the church bearing their respective charges, and severally took their positions around the altar. Mr. Bicknell then proceeded to baptize each child, the ceremony consisting of applying water to the head, accompanying it with a fervent plea that the Father might lead the little one with His own loving hand, that it might be guided safely through the rugged pathway of life and at last be brought to the full maturity of purity and holiness in the higher sphere.

Whatever may be thought of this rite, which is, we believe, peculiar to the Universalists, there can be but one opinion in regard to its beautifully impressive features. No person, whatever may be his faith or predelictions, or however cynical may be his nature, can witness such a service as that to which we have alluded, without feeling his grosser passions sink within him, and the higher and spiritual gain the ascendancy, for the time, at least.

REV. C. M. DINSMORE will deliver an address before the Y. M. C. Association this (Monday) evening at 8 o'clock, in their Rooms over Wallace's shoe store.

THE U. S. S. Ticonderoga is still lay-in the lower harbor, and on Friday afternoon Commander Badger held a brilliant levee on board, which was attended by naval officers and many of our leading citizens, with ladies. The ship was gayly decorated with the flags of all nations, that of the new German Empire being very prominent. Comodore Pennock officially inspected the ship, and Admiral Taylor also went on board; the customary salutes were fired.

THE editor of the Manchester Union came down to the Rockingham House opening, and effervesces as follows:—

We always avail ourselves of any respectable pretext to visit Portsmouth. The quaint old city is the epitome of two centuries, historical, architectural and social. One of the earliest of European settlements on this continent, it embodies the peculiarities of every age and generation for more than two hundred years, in one form or another, and its inner and outer walks are replete with historical memories and traditions of facinating interest to the student of antique lore. * * All circumstances conspired in the old town's favor. The weather was delightful and the invigorating presence of the sea was never more gratefully realized. The ample folage around and above, just washed by a generous shower—which had been denied to us in the interior—appeared in all its greenness and glory; and we were glad to observe a general brushing up of buildings and grounds all over the city—which indicates taste and neatness, if not extraordinary growth. As before intimated, the architecture of Portsmouth is of many eras, and as many models. At least two or three marked styles have no copies in any of our younger cities. On the other hand, there are many elegant residences of the most modern conception, and some which are not excelled by any in the State. The aspect of the city as a whole, was pleasant and busy—though venerable, by no means "gone to seed."

THE Mine Inspector, Williams, who is blamed for neglect of duty concerning the Pittston mine, where a score or more of men were recently burned to death, has given up the private inquest which he instituted in order to clear himself from blame, as a bad job. He has left Pittston to escape lynching.

AT Cherokee Flat, California, as some persons were returning on foot from a ball, a man known as "Austrian George" sprang out of his place of concealment, seized Susie McDaniell, cut her throat and stabbed her in the head, and then made his escape. Citizens are in pursuit and will hang him as soon as caught.

UNDER the law of last Congress, providing for the payment of pensions to soldiers of the war of 1812, over one thousand applications have already been filed, and the applicants are generally men over 85 years of age. Two who applied, one from Virginia and the other from Indiana, were respectively aged 107 and 112 years.

THE seventy-first annual convention of the Protestant Episcopal Church in the Diocese of New Hampshire, met in St. Luke's Church, Charlestown, on Wednesday, May 31st, and remained in session that day, and a part of Thursday. The Missionary Sermon was preached on Tuesday evening, by Rev. J. B. Richmond of Dover, and the Convention Sermon on Wednesday morning by Rev. R. W. Clark, Jr., of this city.

COMMISSIONER PLEASANTON refuses the offer of a druggist of the first Maine district to pay $300 and affix proper stamps to a quantity of perfumery, value at $173, which had been seized for having stamps which had been previously used. The commissioner directs the collector to transfer the papers to the district-attorney, with a request to proceed at once against the delinquent, as the reuse of stamps is an evil which is daily increasing.

THE NEW ORLEANS, MOBILE & TEXAS RAILROAD COMPANY

Are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 22¾ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.

Subscriptions will be received in Portsmouth by

First National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

ROCKINGHAM STATISTICS.—The report of the Census Bureau contains the following statistics:

The only town in the county reporting the growing of hops is Nottingham, the product being 4 pounds. The towns reporting maple sugar are Brentwood 225 pounds; Candia, 1,005 pounds and 534 gallons maple syrup; Deerfield, 2,600 pounds and 928 gallons syrup; and Nottingham, 916 pounds.

The towns having the largest areas of improved land are Deerfield 21,846 acres, Candia 14,151, Derry 12,130, Londonderry 11,710, Nottingham 11,473. Then come Raymond, Northwood, Epping, &c. The least area of improved land, if we except Gosport, which really returns neither land nor products, is New Castle 140 acres, then Portsmouth 2,360, Plaistow 2,609, Danville 2,900. Deerfield also reports most horses, 336; Newcastle least, 7; Portsmouth has only 110 on the record, evidently a mistake. Deerfield also reports the largest number of neat cattle, 1,947; Londonderry 1,219; Derry 1,186; Candia, Nottingham and Epping are next in order. Deerfield also excels in sheep, having 827, while Greenland excels in swine, having 236 to 223 in Deerfield.

Deerfield is the banner town in wheat growing, having produced 2,803 bushels; Northwood 1,084.

In rye growing Londonderry comes in ahead, with 500 bushels, while Deerfield comes next with 495, then Stratham with 367, Hampton with 344, Kingston with 322.

Corn is a favorite in Deerfield, the product being 10,151 bushels; Londonderry 7,769; Derry 7,462, and Northwood 7,087.

In oats and barley Londonderry excels, returning a product of 5,110 bushels; next come North Hampton 4,024; Epping 3,535; Greenland, Derry, Kensington, Rye and Stratham each giving over 3,000 bushels.

Deerfield, having the greatest area, naturally leads in most articles; of peas and beans the harvest is 986 bushels; Candia 504; Epping 470.

The potato crop of Seabrook is put down at 46,149 bushels; of Deerfield at 24,975; Londonderry 23,221; Hampton 22,415.

Of orchard products Greenland has $12,820 in value, Deerfield $12,102, Candia $3,639.

Portsmouth leads in market gardening, having a return of $5,115; Brentwood comes next with $4,100; Stratham $2,000.

The chief butter town is Deerfield, making 125,750 pounds to 51,280 in Candia, while in cheese Brentwood leads, having 7,889 pounds to a little more than 5,000 each in Deerfield, Northwood and Nottingham. Derry sells the most milk, 106,575 gallons. Atkinson comes next, with 86,318 gallons, and Portsmouth 85,895 gallons.

Deerfield grows the most hay.

Salem is the chief honey town, Londonderry and Sandown the next.

Derry and Auburn lead in the lumber business, having nearly $20,000 worth each, while Salem and Seabrook come well up to them.

The estimated value of all farm products in each town foots up as follows:

Atkinson,	$41,476

—The Hartford Times prints an amusing catalogue of Nilsson's troubles in that vicinity a short time since. She had parlous words with her manager, Strakosch; she dropped her beautiful watch, the gift of the Emperor, and accidentally put her heel on it; she disliked the cooking at the Allyn House and wanted the cook to bring a chicken to her room and cook it over the grate, which the cook tartly and emphatically refused to do. But her smiles and sweetness returned, as by magic, when a lovely bouquet with Gov. Jewell's compliments arrived, and would have continued had not a subsequent message announced the bouquet as intended for Cary; the storm then grew fearful, her brow knitted, her cheeks flushed, and as her dress of satin was soiled by burnt cork left by the negro minstrels who proceeded her in the hall where the performance took place, there was a outbreak of wrath which obliged those about her to look for shelter. The papers, nevertheless said she sang "I know that my Redeemer Liveth" in angelic style.

THIRTY THOUSAND DOLLARS PAID.—The TRAVELERS LIFE AND ACCIDENT INSURANCE COMPANY, of Hartford, Connecticut, paid $20,000 on W. H. Forbush and Wm. C. Curry, victims of the New Hamburg railroad; $5,000 on the late Jas. H. Blake, mayor of Worcester, Mass.; and $5,000 on the late S. H. Lewis, Jr., of St. Albans, Vt. All these accidents occurred, and the insurance was paid, within three months—each claim being paid about sixty days before it was due by the terms of the policy. The TRAVELERS has paid SEVEN HUNDRED DOLLARS A DAY in benefits to its policy holders, for deaths or injury by accident, for every working day during the past seven years.

The TRAVELERS LIFE AND ACCIDENT INSURANCE COMPANY, of Hartford, Conn., grants all the usual forms of LIFE and ENDOWMENT Policies, on exceedingly favorable terms. AMPLE SECURITY and LOW RATES.

CHEAP FARMS! FREE TRAVEL!
Chicago, Rock Island, and Pacific Railroad Company.
600,000 ACRES
CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, averaging from $6 to $15 per acre, the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and in the most accessible and fertile region in the State.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.

EXPLORING TICKETS are sold at the Company's ticket offices at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

TARRANT'S SELTZER APERIENT.

SECTS AND CREEDS DIFFER, but there are no dissenters from the general belief that this preparation is a great relieving. We have many of these blessings, but among them all, in the province to which it belongs, no greater than

Tarrant's Effervescent
Seltzer Aperient.

A column would not suffice to enumerate the ailments for which it is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, a stomachic, an anti-febrile preparation, and an admirable remedy for all bilious complaints.

Let there be no mistake. Secure the genuine article only.

Consumption,
ITS CURE AND ITS PREVENTIVE,
By J. H. SCHENCK, M. D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and easily attainable means of cure. Those near and dear to family and friends are sleeping the slumbers slumber into which, had they calmly adopted

Dr. JOSEPH H. SCHENCK'S SIMPLE TREATMENT,

and availed themselves of his wonderfully efficacious medicines, they would not have fallen.

Dr. Schenck has in his own case proven that wherever sufficient vitality remains, that vitality, by his medicines and directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of those who have made no representation that is not a thousand times substantiated by living and visible witnesses. The theory of the treatment of Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self-satisfactory and convincing.

The Seaweed Tonic and Mandrake Pills are the active weapons with which the citadel of the malady is assailed. Two-thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. The Seaweed Tonic and Mandrake tubes "sympathize" with the stomach. They respond to the morbific action of the liver. Here, then comes the inflammation, the pain, and the setting in, with all its distressing symptoms, of

CONSUMPTION.

The Mandrake Pills are composed of one of Nature's noblest aids to the hypodyspeptic human. They possess all the blood-searching, alterative properties of calomel, but unlike calomel, they

"LEAVE NO STING BEHIND."

The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last,

A SUPPLY OF GOOD BLOOD.

The Seaweed Tonic, in conjunction with the Pills, permeates and exhilarates with the food. Chylification is now proceeding, without the pain of convulsions. Digestion becomes painless, and the cure is sure to be at hand. There is no more tedious, nonsecretion of the stomach. An appetite sets in.

Now comes the greatest Blood Purifier ever yet given by an indefatigable father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature's work is checked. It collects and ripens the impaired and diseased portions of the lungs. In the first gatherings it prepares them for expectoration, and so I in a very short time the malady is vanquished, the rotten tissue that it occasioned is thrown off, and made now, and the patient, in all the dignity of regained vigor, stays from to enjoy the manhood or womanhood that was

GIVEN UP AS LOST.

The second thing is, the patients must stay in a warm room, until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it may be prevented if a cure is to not be effected. Fresh air and riding out, especially in the winter, is the most fatal thing at this season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are healthy they may get out, but if diseased, the moment they must not sit down quiet: they must walk about the room as much and as fast as their strength will bear, to get up a good circulation of blood. The patients must keep in good spirits—cheerfulness is the best cordial in the world to do with the appetite, and is the great point to gain.

To despair of cure after such evidence of its possibility is to do a great injustice to himself and to all others, is sinful. Dr. Schenck's personal statement to the Faculty of his own cure was in these modest words:

"Many years ago I was in the last stages of consumption, and my friends, and the physicians, and myself thought that I could not live a week; then like a drowning man catching at straws, I tried every thing, and prepared to die. I now offer to the public, and they make a perfect success of it, the medicines that I could find that penetrate my whole system. They soon ripened the matter in my lungs, and I could spit up more than a pint of matter every other every morning for a long time. As soon as that began to subside, my cough, fever, pains and night sweats all grew less, and I became able to sit up. I was so weak that it was with difficulty that I could keep from falling too much. I soon gained my strength, and I now grow in health every day."

"I was weighed shortly after my recovery," and of the Doctor, looking like a mere skeleton; my weight was only ninety-seven pounds; my present weight is five hundred and twenty-five pounds, and I feel as I have not enjoyed uninterrupted health." ☞ [illegible]

Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., still continue to see patients at their office, No. 15 North Sixth street, Philadelphia, every Saturday from 9 A. M. to 3 P. M. Those who think a consultation with the Doctor by mail or remotely will be charged $5. The Respondent declares the exact condition of the lungs, and patients can generally learn whether they can be cured.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow the directions, and nature will do all the cure, excepting that in some cases the Mandrake Pills need to be taken freely (gently) for a few days. Purgatives need no other accompaniments than the ample nutritious food they afford them. First, purgatives are not cathartics, but are tonics. Second, diarrhoea is a common symptom. When it comes, as it will come, in the declining at even low of good cheer. Good spirits are half the battle. Third, no food is so nutritious as oatmeal gruel. As a beverage or to improve the taste, Mandrake Pills are a standard preparation: while the Pulmonic Syrup, as a cure for coughs and colds, may be regarded as a prophylactic against consumption in any of its forms.

Price of the Pulmonic Syrup and Seaweed Tonic $1.50 a bottle, or $15 a half dozen. Mandrake Pills, 25 cents a box. For sale by all druggists and dealers.

A GREAT MEDICAL DISCOVERY!
DR. WALKER'S CALIFORNIA
VINEGAR BITTERS,
Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing, in addition, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

The Platform.

Gen. Hall, of Maine, and Mrs. Mary A. Livermore, as heretofore announced, have agreed to discuss the question of "Woman Suffrage" before lyceums. This will not be a presentation of the opposing theories, but a veritable debate. The Saturday Evening Gazette, referring to this arrangement, says, "Both gentlemen are born debaters."

Mrs. Livermore has in reserve two new historical lectures, on "Xanthippe, the Greek Termagant," and "Isabella, Queen of Spain."

Col. Shannon, of Biddeford, will lecture next season on "the Land of the Southern Cross" (to wit, Brazil) and a "Trip to Rio."

Dr. A. C. Hamlin, of Bangor, has a lecture on "Gems" which gives more information about the precious stones of America than is anywhere else accessible.

Rev. Wm. L. Gage will lecture, from personal knowledge of his subjects, on "The Emperor William and his Generals."

Frederick Douglass will have something to say about St. Domingo.

General Harriman will have a new lecture on "General Thomas."

General Hawley, who talked last year about "the Gentleman in Politics," will now describe the other people, the "Rings and Lobbyists."

"Carleton" will continue his remarks about "the Great Northwest."

James Parton has some observations to submit concerning "the Pilgrim Fathers as Men of Business."

Dr. Willits, having said his say about "Sunshine," is now preparing a lecture on "Moonshine, or the Illusions of Life."

Richard Grant White will have lectures on "Speaking English," and on "Dancing, Public and Private."

Josh Billings will give "Readings" from his "Works," and have a new lecture entitled "What I know about Hotels."

Col. John Hay, the author of "Jim Bludso," will lecture on "Democracy in Europe," "Franklin in Paris," and "Phases of Washington Life."

Olive Logan, Anna Dickinson and Kate Field have gone to England, and will lecture there, if anywhere.

—Jamaica proposes to abolish trial by jury.

—A man is in jail in Kansas just for letting a neighbor's mule follow him home.

—They were in 1776, fifty post-offices in the United States. There are now twenty thousand.

—A Mr. Kettle of Illinois has married a Miss Fish. He has made a pretty kettle of fish, as he had another wife living.

—Lenders do not take so much interest in the money market as formerly. Because they can't get it, is the explanation.

—The Lynn Semi-Weekly Reporter says that the authorities of that town are putting in the water pipes at the rate of "fifteen hundred miles a day," which is good time even for Lynn.

—Somebody has written a book entitled "What shall my son be?" Upon which some one frankly replies: "If the boy is as bad as the book, the chances are that he will be hanged."

—Jefferson Davis' tongue runs freely. Although he "accepted the situation" of an old woman, when trying to escape capture, he now thinks he shan't accept anything more in the "situation" line.

—The people of Pittsburg are indignant because a committee of ladies and gentlemen, interested in attending to the erection of a soldiers' monument there, have not displayed the name of a single soldier upon the column, but have ornamented the shaft with their own cognomens instead.

—A Pennsylvania woman advertises her husband as leaving her bed and board. She says he "has considerable money and a high forehead, long face and lantern-jawed man, a bad man with a fist like a giant, and has often beat me, and I want him to end his days in a penitentiary, where he belongs; and he wears a gray coat, with a very large mouth, and one blue eye and one blind blue eye, and a hidious-looking man, and I want him brought slap up in the law with blue pants."

—A machine has recently been perfected in London, with which a writer, using a pen in the usual manner, can at the same time produce a duplicate so small as to be invisible to the naked eye, yet so distinct that a microscope will reveal every line and dot. A most useful application of the apparatus will be for the prevention of forgery, as private marks can be made, on notes and securities, legible under microscope power, but which no imitator could see or even suspect the presence of. The inventor, a Mr. Peters, states that the entire contents of the Bible can, with the help of this machine, be written twenty-two times in the space of a square inch.

CARD.

Having become satisfied after therough investigations that Elastic Sponge, as now and lately manufactured, is one of the best of all substitutes for curled hair, for many if not most uses in upholstery, we have accepted the Agency for it, and intend to make it hereafter a speciality in our business. The objections which been made to it and which it is well known we ourselves have thought were well founded, we have ascertained cannot be urged against the article as now perfected. The process of manufacture has been entirely remodeled under the advice and superintendence of one of the most eminent chemists of New England. New chemical and mechanical appliances have been introduced in cleansing crude Sponge, and in charging it with glycerine with such entire success, that Elastic Sponge may now be said to be chemically pure. There is absolutely nothing in it but the clean fibre of Sponge and chemically pure glycerine.

The objections to Elastic Sponge being thus removed there remain its undisputed merits which certainly entitles it to be considered one of the most valuable, as it is one of the most curious and interesting of late discoveries. Chief among these merits is, that it is proof against moths—the great scourge of the business,—against all other insects. Then its elasticity is permanent, based as it is upon the non-evaporable property of glycerine and the indestructibility of sponge fibre. We have always been satisfied upon these two points which are the essential requisites in such materials. The evidence is now equally clear that it is wholesome and sweet. It is very light and soft, easy to manipulate, and cheap enough for all except the lowest class of goods. For the cushioning of Churches, Theatres, Public Halls, Railway Stations, Omnibuses, Carriages, Steam and Horse Cars and the like, it will probably be found, everything considered, the best article in use. For all uses, and especially for Bedding, we are now prepared to recommend the public to give it a fair trial as we ourselves intend to do. We are now ready also to supply quilts, make estimates and take orders for every description of work in Sponge as well as to supply the trade the article in Bulk.

JURUBEBA. WHAT IS IT?

IT IS A SURE AND Perfect Remedy for all diseases of the

LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR THEIR CONCOMITANTS.

DR. WELLS, having become aware of the extraordinary medicinal properties of the South American Plant, called

JURUBEBA,

Sent a special commission to that country to procure it in its native purity, and having found its wonderful curative properties to even exceed the anticipations formed by its great reputation, has concluded to offer it to the public, and is happy to state that he has perected arrangements for a regular monthly supply of this wonderful Plant. He has spent much time experimenting and investigating as to the most efficient preparation from it, for popular use, and has for some time used in his own practice with most happy results the effectual medicine now presented to the public as

Dr. Wells' Extract of Jurubeba,

and he confidently recommends it to every family as a household remedy which should be freely taken as a BLOOD PURIFIER in all derangements of the system and to animate and fortify all weak and Lymphatic Temperaments. 4wm16

TUESDAY, JUNE 6, 1871.

LATE Southern papers comment on the speech of Jeff Davis, in Atlanta; the democratic papers nearly all speak of it in glowing terms of praise, and say that in the present juncture of political affairs it is peculiarly acceptable to the Southern people.

FROM this time until after the Presidential election, let it be understood that it is for Northern and Western Democrats and anti-Radicals to declare what citizens among their own number shall be chosen for the Presidency and Vice-Presidency of the United States, and what shall be the character of the resolutions adopted by the Democratic Convention.—*Montgomery (Ala.) Advertiser.*

So it seems that from now "until after the Presidential election," the Montgomery Advertiser is willing to have the secession Southern wing of the democratic party yield to the new-departure Northern wing; but how about after the election? Will the Southern wing then come to the front again, with "our honored President, Mr. Davis," as their director and expounder of principles?—We should not be surprised if the republican party had a word to say as to "what citizens shall be chosen" as President and Vice President, in spite of the Northern and Western democrats and anti-radicals.

PARIS.—It has been discovered who gave the order for the murder of Archbishop Darboy, and papers have been found showing that the moving spirits of the commune were in London and that they would have extended the insurrection to England had it succeeded in Paris.

The assembly has voted 1,053,000 francs to rebuild the house of Thiers. The gates of Paris are closed at nine o'clock. Executions continue.

THE Atlantic cable of 1866 is again in working order.

THE Cuba, with General Schenck and the English commissioners, has arrived at Liverpool.

PART of the city of New Orleans is flooded, owing to the heavy rains, the crevasses and breaks in the canals. The railroads leading from the city are also under water.

BASE BALL.—White Stockings 12, Harvards 2.

Forest City s of Rockford 23, Stars of Brooklyn 10.

THE Methodists will commence a great camp-meeting at Salt Lake, June 8. Excursion tickets at reduced rates, from New York to Salt Lake and return, will be issued.

THE credentials of Mr. Bancroft as minister to the German Empire have been sent to him. Mr. Bancroft is anxious to return home, but our government desires him to remain at his post.

THE Russians in Odessa are charged with having conspired to have a sort of St. Bartholomew massacre of all the Jews in that city. The report will bear confirmation, before being accepted as truth.

A Berlin despatch says: "The Emperor has decided the San Juan boundary question in favor of the United States." The treaty not yet having been ratified by England, the statement seems premature, to say the least.

MRS. ELLINGSWORTH of Louisville, Ky., was fatally shot on Saturday morning by the accidental discharge of a pistol, which fell from the pocket of a coat she was receiving from her father, Rev. Mr. Sutton, a Methodist minister.

TWO fellows who have been sailing about Long Island Sound in a small boat, stealing goods from stores in various ports, have been captured after a sharp skirmish in which one of them received a charge of duck shot in his hip. Deputy Sheriff Raymond of New London, who made the arrest, has but one arm.

THE trial of ex-Congressman Bowen for bigamy, to the surprise of almost every one, resulted in his conviction. People generally expressed no doubt that he was guilty, but the trial was known to be pushed on mainly by his political enemies and not from anybody's desire to have justice served. On the jury were seven negroes, who were expected to be moved by this fact if in no other way, but the negroes showed themselves better fitted for jurors than many white panels. Bowen has asked a new trial, but it is thought he will not get it.

NEW HAMPSHIRE ITEMS.

The annual report of the treasurer of Rockingham County shows the receipts for the past fiscal year to have been in round numbers, $165,000; expenditures, $158,000; County indebtedness, $151,000.—an increase over the previous year of $12,000 in the receipts, $10,000 in the expenditures and $14,000 in the indebtedness.

A lot has been purchased for the site of a new Roman Catholic church in Exeter, the erection of which will soon be commenced. The lot is centrally located on Water street adjoining the Town Hall. The new edifice with the lot will cost about $25,000.

The house of David Beede of Jefferson was burned June 3d. Loss $800, eight hundred dollars; small insurance. Beede has been arrested as the incendiary.

THERE was a lively thunder storm in Boston and its vicinity on Sunday, during which the Custom House was struck by lightning. But little damage was done beyond the flagstaff being shivered to pieces. Several houses were also struck. The lightning struck in many other cities. A stable at Newton Centre was burned, and at Lonsdale, R. I., a man was killed.

At Fall River the City Hall was struck, set on fire and slightly damaged; and Charles Hambly, a farmer who lived three miles from the city, was killed while under a tree.

At Claremont, in this State, a house was damaged by the lightning.

MORNING NAPS.—A worthy and sensible writer in Every Saturday says:—

Not being a lark ourselves, we decline to regulate our movements on any ornithological principle. We believe that too little sleep is more injurious than too much. Unless a man's business or professional engagements oblige him to turn out very early, he does his physical nature injustice by defrauding himself of those delicious morning naps which so refresh and strengthen one.

Our heart warms towards the writer of the above, and should we ever happen to lodge in the same hotel with him, we will rise early ourself and confiscate the gong, that his morning slumbers may not be disturbed. He evidently knows what real comfort is. So do we. And if there is any one thing in which we excel, it is laying abed late—till noontime, if folks will only let us alone till then. We have heard a great deal about the delights of early rising and of invigorating walks in the fresh morning air, when the diamond drops of dew glitter on the leaves and the wild songsters of the air fill all creation with their hymns of praise—but we don't believe a word of it. We tried it once, being deluded thereunto by an enthusiastic lover of nature and early rising, (which is not nature,—not *our* nature, at least,) who persuaded us to get up at three o'clock and take a fearful tramp out to the Plains, then down to Rye and home by way of the Sagamore—about fifty miles, we thought. We had never injured that man; on the contrary, we had always treated him with marked kindness. But our good deeds had not touched his heart, as was shown by the ruthless manner in which he dragged us through the wet grass, over slippery rocks and among ferocious mosquitoes during that disgusting morning walk.

We reached home at nine o'clock, tired, wet to the waist, both cheeks spotted and nose swollen from mosquito bites, hungry and miserable, and feeling cross as a whole regiment of menagerie bears. Yet, incredible though it may seem, we did not heap contumely on that man's head, nor scoff aloud at getting up in the middle of the night and calling it fun. Wretched as we were, we exhibited an instance of christian forgiveness which we doubt was never parralelled by a mere mortal—we invited our enemy in to breakfast. How he did enlarge on the lovely little walk we had enjoyed, and the pleasure we had experienced; and how we did want to tell him he was a swindler and a fool, but didn't like to, for fear it might be a transgression of the duties of hospitality and the rules of good breeding. But neither he nor any one else has ever succeeded in getting us up at three o'clock to take a hungry walk in the wet grass and chill air since then; and we don't believe any one ever will, again.

We don't mind being out late at night, even if we don't get to bed till ten o'clock; but unless our "professional engagements oblige us to turn out early," a mistaken idea of what constitutes pleasure will never defraud us of "those delicious morning naps which so refresh and strengthen" the writer in Every Saturday and the writer of this. P.

THE labor reform and democratic leaders were consulting in Concord on Monday. A fusion ticket will probably be run at the Legislative organization.

NEAR Darlington, Wisconsin, a few days ago, a boy named Cousins, thirteen years of age, concluded he would go into a pasture and have a little fun with a calf that was there. A rope was tied round the animal's neck, and the boy tied the other end round his own body, when the calf started to run, threw the boy down, and dragged him through brush and among trees and stumps, how long it is not known. When found, the calf, completely exhausted, had laid down; and near to it lay the dead body of the boy.

POOR HINKLER, who died last week, had only five doctors to attend him. They each doctored him for a different disease, and he was only sick a week. One doctored him for consumption, one for pneumonia, one for asthmatic diarrhœa, another for chronic inflammatory bronchitis, and the last one went in on general principles against a formidable combination of all these diseases, crossed with several other undefined ones, and the last dose he ordered from the drug-store, which was a teacupful of ammonia, laudanum, sulphuric acid, tincture of cantharides and rye whiskey, equal parts mixed, arrived just ten minutes too late—poor Hinkler was dead.—*Gold Hill (Nevada) News.*

DELICIOUS is the new Tea of the Great Atlantic & Pacific Tea Co., of No. 8 Church St., New York. It is named "Thea Nectar," and is claimed to be a Pure Natural Leaf Tea, dried upon porcelain, and cured in the same manner as if prepared for native consumption. It is a palatable beverage, and cheap. Give it a trial.

BUSINESS NOTICES.

Johnson's Anodyne Liniment may be used to advantage where any Pain Killer is desirable. In cases of severe cramps and pains in the stomach, it is undoubtedly the best article that can be used.

Arrest that terrible Catarrh, and thus avoid a consumptive's grave, by using Dr. Sage's Catarrh Remedy. It's not warranted to cure Consumption when the lungs are half consumed, nor to make men live forever, nor to make this earth a blissful Paradise, to which heaven shall be but a side-show, but the proprietor will pay $500 reward for a case of Catarrh which he cannot cure. Sold by Druggists, or send sixty cents to Dr. R. V. Pierce, 133 Seneca street, Buffalo, N. Y., and receive it by mail.

Habitual constipation leads to the following results: Inflamation of the kidneys, sick and nervous headache, biliousness, dyspepsia, indigestion, piles, loss of appetite and strength; all of which may be avoided by being regular in your habits, and taking, say one of *Parson's Purgative Pills* nightly, for four or six weeks.

SPECIAL NOTICES.

A Pitiful Condition.

It is a sad thing to pass through life only half alive. Yet there are thousands whose habitual condition is one of languor and debility. They complain of no specific disease; they suffer no positive pain; but they have no relish for anything which affords mental or sensuous pleasure to their more robust and energetic fellow-beings.

In nine cases out of ten this state of lassitude and torpor arises from a morbid stomach. Indigestion destroys the energy of both mind and body. When the waste of nature is not supplied by a due and regular assimilation of the food, every organ is starved, every function interrupted.

Now, what does common sense suggest under these circumstances of depression? The system needs tonsing and strengthening; not merely for an hour or two, to sink afterward into a more pitiable condition than ever, (as it assuredly would do if an ordinary alcoholic stimulant were resorted to,) but radically and permanently.

How is this desirable object to be accomplished? The answer to this question, founded on the unvarying experience of a quarter of a century, is easily given. Infusing new vigor into the digestive organs by a course of HOSTETTER'S STOMACH BITTERS. Do not waste time in administering temporary nostrums, but WAKE UP system up by recuperating the fountain-head of physical strength and energy, the great organ upon which all the other organs depends for their nurture and support.

By the time that a dozen doses of the great vegetable tonic and invigorant have been taken, the feeble frame of the dyspeptic will begin to feel its benign influence. Appetite will be created, and with appetite the capacity to digest what it craves. Persevere until the cure is complete—until healthful blood, fit to be the material of flesh and muscle, bone and nerve and brain flows through the channels of circulation, instead of the watery pabulum with which they have heretofore been imperfectly nourished.

ARE YOU GOING TO PAINT?

—IF SO, USE THE—

AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings ten years, and you will find them as fresh as if laid but one month.

I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing good experienced workmen by the day at very low wages. B. NORTON, only Agent for selling the

A GOOD OFFER TO THE

Ladies of Portsmouth and Vicinity.

E. A. JOY

Has Fitted up a Spacious and Elegant SEWING MACHINE ROOM directly over his Music Store and employs a competent young lady to take charge of the same. A cordial invitation is hereby extended to all the ladies (not having good Sewing Machines of their own) to bring in lots of work and learn to make it up on the Machines. This will cost nothing whether a Machine is purchased or not. If you do not buy now, you will at some future time; for the day is not far distant when a SEWING MACHINE will be considered as indispensable as a Cook-Stove. Come in often and stay as long as you please.

MR. JOY'S business in the Sewing Machine line is very rapidly increasing, which enables him to make the above generous offer.

His long experience in this branch qualifies him to be an excellent judge of the goods he sells; and as he has had the Agency of all kinds offered him at different times. It is reasonable to suppose that the *Best* SEWING MACHINES may always be had at the SEWING MACHINE EMPORIUM, No. 9 PLEASANT ST., nearly opposite the Post Office, Portsmouth, N. H. *Twelve Different Kinds to Select from.* mh7

IT is suggested that the residents at the West End, and all whose business or pleasure leads them to pass along Islington Street, should get up a petition to the proper authorities to have the seedy-looking old barn on the corner of Islington and Brewster Streets, adjoining the jail, painted, or at least white-washed. At present it is a blur on an otherwise beautiful part of the city.

THE new arrangement for trains on the Eastern and Portland, Saco & Portland Railroads went into operation on Monday. The changes are important. The 11.15 A. M. train from this city to Boston has been changed to 11.50; the 12 M. train from Boston to Portsmouth is changed to 12.15 P. M., arriving here at 2.30. The express trains are to run from Boston and Portland, meeting here at 8 P. M., on Mondays, Wednesdays and Fridays. In addition to the old arrangement, a sleeping-car train will leave Portland at 1 A. M., leaving Portsmouth at 3 A. M. and arriving in Boston at 5 A. M.; a train from Portland at 3.45 P. M. will arrive here and leave at 6.10; an express train is to leave Boston at 8.40 A. M. and another at 8 P. M., every day. We regret that the much talked of train to leave this city at 3.30 P. M. and connect with the 4.15 train at Newburyport for Boston is unannounced.

THE philosopher, Josh Billings, says that it is one of the hardest things in nature for a fellow to court two girls at the same time, and strike a satisfactory average. An illustration of the truth of this saying recently occurred in this city. A very worthy young bachelor, who some months since was presented with a ring by his lady-love, went to see another young lady last Sunday forenoon, exchanged rings with her, and later in the day made his customary call on the donor of the ring he thus swapped away. He appeared on the street Monday morning with a few small bits of cuticle nicely chipped from his forehead, with several parallel red marks on his cheek and a bit of court plaster on his cheek bone, near the eye which showed most color; his hair also appeared much thinner than heretofore. He thinks Josh Billings the wisest of men.

THE annual meeting of the stockholders of the P. S. & P. Railroad was held at the company's hall in Kittery, on Monday at 11 A. M. The occasion brought the usual number of visitors, who took the opportunity to ramble around this city and its surroundings. The attendance at the hall was large.

The annual report of the Co., being printed and distributed to the stockholders present, was accepted without being read. The auditor's report was read and accepted.

Messrs. W. H. Y. Hackett, E. Nott and F. W. Choate were appointed to collect and assort votes for Directors. The whole number of votes thrown was 3371, and the result was the unanimous choice of Thornton K. Lothrop, Nathaniel Hooper and Stephen H. Ballard of Boston, S. Lothrop Thorndike of Beverly, John B. Brown and Charles S. Barrett of Portland and Ichabod Goodwin of Portsmouth, for the ensuing year. Hon. Ichabod Goodwin declined to serve on the board, but on urgent request allowed his name to be used, with the proviso that he should not be elected President. The meeting dissolved at 12 o'clock.

THE steamer to run between this city and the new Marshall House at York Beach the coming season, arrived at York on Monday, under command of Capt. Frank Emerson. She will connect with the morning and afternoon trains from Boston on Tuesdays, Thursdays and Saturdays after June 15, on which day the Marshall House will be opened for the reception of summer guests.

NEARLY all work has been suspended in the Yards & Docks department at the Navy Yard, as will be seen by the following order, which was read at the afternoon muster on Monday: "By order of Capt. Fairfax, Executive Officer, all persons whose time is chargable to 'Repairs of all Kinds,' will be suspended from work to-day (Monday, June 5,) until further orders." Messengers in Executive Officer's and Civil Engineer's offices, Store Laborer, and all Foremen and Helpers are included. The cause of this suspension is understood to be lack of funds.

STONE AND MURRAY'S CIRCUS, always a favorite, is to exhibit here on the afternoon and evening of Tuesday, June 20th. The proprietors have added many new and exceedingly attractive features to their entertainments and still maintain their great reputation as managers who have always successfully catered to the innocent amusement of the public. In addition to one of the best, (if not *the best*,) arenic displays ever given in this country, there will be a free balloon ascension, wind and weather permitting, by Prof. J. W. Hayden. In addition to Den Stone, the Snow brothers, Mr. John H. Murray, and a heavy cast of old favorites, a number of new stars have been added who are said to be performers of rare excellence and attainments.

VICE-PRESIDENT COLFAX arrived home on Saturday morning, having stood the journey well.

THE brakemen on the Erie Railway have struck, and already caused the demolition of three freight cars loaded with molasses and the stoppage of all freight trains.

THE St. Peter, a Roman Catholic journal, warns James Gordon Bennett that if he don't alter the character of his paper and discharge all the heathen who write editorials for the Herald, the devil will get him sure. Some folks wouldn't be at all surprised if Old Squarefoot got Mr. Bennett anyway, no matter what he does hereafter.

MRS LAURA FAIR was sentenced on Saturday to be hanged on July 28, for the murder of A. P. Crittenden in San Francisco. A remarkable scene then ensued. Mrs. Fair maintained almost her usual composure, but the women who had attended throughout the trial manifested their sympathy in a most ostentatious manner, Mrs. Emily Pitts Stevens embracing the prisoner's mother, and then going over to the reporters' desk, telling them she hoped that they were satisfied now. These manifestations continued until the courtroom was cleared. It is believed that Governor Haight will not interfere.

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 168 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 226¾ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is the road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, an 8 per cent. currency bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time for the bonds of the New Orleans, Mobile and Texas Railroad have to run—15 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $3,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.

Subscriptions will be received in Portsmouth by

First National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

Morning Chronicle.

—Too frequent swearing impairs the value of an oath.

—Cincinnati has a judge with the festive name of Swiv.

—Pittsburg dogs take a chew at every lightning-rod man.

—Out in Arkansas, they have rigged up an old boiler for a jail.

—London is the richest city in the world as well as the largest; yet every seventh person is a pauper.

—Iowa has planted a corn crop to raise 100,000,000 bushels. All that remains is to raise and harvest it.

—A negro once gave the following toast: "De Gobernor ob our State. He come in wid very little opposition; he goes out wid none at all."

—Don't waste the soap suds, but apply them to garden, vines, bushes, evergreens or lawns. They are too valuable to be turned out at the back door.

—An exchange tells of a negro who insisted that his race was mentioned in the Bible. He said he had heard the preacher read about how "Nigger Demus wanted to be born again."

—A country treasurer in Iowa, whose safe was broken into and robbed a few days ago, gives notice that "he will have the safe lathed and plastered again in a few days, and it will be as good as ever it was."

—"Why don't you hold your head as I do?" said an aristocrat to a sterling old farmer. "Squire" was the reply, "look at that field of grain. You see that all the valuable heads are bowed down, while those heads that have nothing in them, stand upright."

—M. J. Carter writes the Rural New Yorker that if those who have cribbiting horses will nail a sheep skin, wool side up, wherever there is a chance for the horse to bite, he will not do very much cribbing in the stable. His father has tried it successfully.

—"I feel," moaned a cobbler, "that I wax weaker and weaker each succeeding day, and that I am fast approaching my end—a few more stitches and awl will be over. In heaven there is rest for the sole—earth has no sorrow that Heaven cannot heel." Having said awl he wished, he calmly breathed his last.

—An Irish glazier was putting a pane of glass into a window, when a groom who was standing by began joking him, telling mind and put in plenty of putty. The Irishman bore the banter for some time, but at last silenced his tormenter by, "Arrah, now, be off wid ye, or else I'll put a pain in yer head wid out any putty!"

—In dressing for photographs dark brown, dark green, maroon or black goods, without gloss, will make rich drab color. Silks of the same color will take considerably lighter. Snuff brown, dark leather, dark drab, scarlet, cherry, dark orange, crimson and slate will also take a rich drab color. Violet, blue, purple, pink and magenta will take very light, and should be avoided. The hair should not be very wet or glossy.

—The Examiner and Chronicle (Baptist), in characterizing Methodist preachers, says: Then came a Methodist brother who could tell us about "The Lord taking out the linch-pins of Pharaoh's chariot." We can give him a better sample than that. A Methodist presiding elder, preaching down in Georgia in regard to Joshua commanding the sun to stand still, said: "God heard his voice, and whistled down brakes on the sun, and brought it up standing."

—The late Prof. William Gibson, while going through the ward of a hospital with Velpeau the surgeon, was brought to the bedside of two men who were under treatment for some slight fracture. "Would you believe it," said Velpeau, "these men have made a living for the last fifteen years by being knocked down and run over. When they see a light wagon driven by some wealthy person coming by, they step across the street, and are sure to be run over, picked up, and carried to some hospital, and then they sue for damages. When their money becomes exhausted they begin again. Nearly every bone in their body has been broken."

THE Danbury News supplements that story about the girl in South Norwalk who caught a husband by writing her name and address on the lining of a hat she was trimming, with the following:—

"This is an old trick, played by several of our girls, one of whom in particular had an eventful experience. She stitched her name inside the lining of a hat beneath the statement: "I am thine; wilt thou be mine?" and sent it adrift. After various vicissitudes it was purchased by a gentleman, and took a position on his head. One day the lining became loose, and in endeavoring to fasten it his eye rested upon the sentiment and name, and he involuntarily exclaimed, 'D—n fool.' When Martha returned to her home that day, she was taken to a retired part of the cottage and warmed up with a strap. The gentleman who got the hat was her father."

NEW ADVERTISEMENTS.

THIRTY THOUSAND DOLLARS PAID.—The TRAVELERS LIFE AND ACCIDENT INSURANCE COMPANY, of Hartford, Connecticut, paid $30,000 on W. H. Forbush and Wm. C. Curry, victims of the New Hamburg railroad; $5,000 on the late Jas. S. Blake, mayor of Worcester, Mass.; and $5,000 on the late S. H. Lewis, Jr., of St. Albans, Vt. All these accidents occurred, and the insurance was paid, within three months—each claim being paid about sixty days before it was due by the terms of the policy. The TRAVELERS has paid SEVEN HUNDRED DOLLARS A DAY in benefits to its policy holders, for deaths or injury by accident, for every working day during the past seven years.

The TRAVELERS LIFE AND ACCIDENT INSURANCE COMPANY, of Hartford, Conn., grants all the usual forms of LIFE and ENDOWMENT Policies, on exceedingly favorable terms. AMPLE SECURITY AND LOW RATES.

600,000 ACRES

CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $5 to $10 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.

EXPLORING TICKETS are sold at the Company's ticket offices at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

Tarrant's Effervescent Seltzer Aperient.

A column would not suffice to enumerate the ailments to which it is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, a stomachic, an anti-febrile preparation, and an admirable remedy for all bilious complaints.

Let there be no mistake. Secure the genuine article only.

Consumption,

ITS CURE AND ITS PREVENTIVE,

By J. H. SCHENCK, M. D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proved means of cure. Those near and dear to family and friends are sleeping the premature slumber into which, had they calmly adopted

Dr. JOSEPH H. SCHENCK'S SIMPLE TREATMENT,

and availed themselves of his wonderfully efficacious medicines, they would not have fallen.

Dr Schenck has in his own case proven that wherever sufficient vitality remains, double vitality by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its phenomena are as transcendent. It is self assuring, self-convincing.

The Seaweed Tonic and Mandrake Pills are the first two agents with which the citadel of the malady is assailed. Two-thirds of the cases of consumption commence with a deranged condition of disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the liver's action. Let the liver, then, be put in order, then comes the culminating result, and the setting in, with all its distressing symptoms, of

CONSUMPTION.

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophyllum Peltatum. They possess all the blood-searching, alterative properties of calomel, but unlike calomel, they

"LEAVE NO STING BEHIND."

The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It secretes from the portal vein. The stomach acts responsively, and the patient begins to feel that he is getting, at last,

A SUPPLY OF GOOD BLOOD.

The Seaweed Tonic, in conjunction with the Pills, permeates with its healing balm the blood. Assimilation is now progressing, without its previous torture. Digestion becomes painless, and cure is seen to be at hand. There is no more flatulence, no excoriation of the stomach. An appetite sets in.

Now comes the question, Blood Purifier every pill given by an indulgent father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It detects and expels the impurities and diseased portions of the lungs. In the form of gatherings it prepares them for expectoration, and so! in a very short time the malady is vanquished, the rotten throne that it occupied is renovated and made new, and the patient, in all the dignity of regained vigor, rises forth to enjoy the manhood or womanhood that was

GIVEN UP AS LOST.

The second thing is, the patients must stay in a warm room, until they get well; it is almost impossible to cure them in any cold weather while they are diseased, but it must be prevented or a cure cannot be obtained. Frosts and rains and riding out, especially in this section of the country in the fall and winter season, are all wrong. Physicians who recommend that course, do it from mere guess work. If things are badly diseased; and yet, because they are in the house they must not sit down quietly, they must walk about the room and stands and as fast as the strength will bear, to get up a good circulation of blood. The patients must keep in good cheer, and be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.

To demonstrate the great evidence of the reliability in the worst cases, and moral certainty in all others, is simple. Schenck's pecuniary interest is to the Family of his own care was in these modest words:

"Many years ago I was in the last stages of consumption; confined to my bed, and at one time my physicians thought that I could not live a week; then like a drowning man catching at a straws, I heard of, and obtained the preparations which I now offer to the world. I did not think they would cure of me. It seemed to me that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time. As soon as that began to subside, my cough, night and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in flesh ever since."

"I was weak, feeble and nervous after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only sixty-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed unimpaired health."

Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, can be consulted at the office, as at their office, No. 15 North Sixth street, Philadelphia, every Saturday from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged $5. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligent even of a child. Follow these directions, and kind Nature will do the rest, accepting the medicines she supplies. Mandrake Pills are to be taken in increased doses; the three medicines need no other accompaniments than the ample instructions that accompany them; first, secure appetite. Of returning health hunger is the most welcome symptom. When it comes, as it will come, let the patient eat at once be of good cheer. Good blood at once follows, the cough loosens, the night sweats abated. In a short time both of these morbid symptoms are gone forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are a sure remedy; as a cure of coughs and colds, may be regarded as a prophylactic against consumption in any of its forms.

Price of the Pulmonic Syrup and Seaweed Tonic $1.50, a bottle, or $7.50 a half dozen. Mandrake Pills, 25 cents a box. For sale by all druggists and dealers.

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS,

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawfeb18

BRIGHTON CATTLE MARKET,
FOR THE WEEK ENDING WEDNESDAY, MAY 31.
[Reported for the Boston Journal.]

At market for the current week—Cattle 2275; Sheep and Lambs 6132; Swine 5900; number of Western Cattle 2035; Eastern Cattle 0; Northern Cattle and Working Oxen 40. Cattle left over from last week —.

Prices Beef Cattle—Extra $10 25 @ $10 50; first quality $9 75 @ $10 00; second quality $9 00 @ $9 50; third quality $8 00 @ $8 75; poorest grade of coarse Oxen, Bulls, &c., $6 00 @ $7 50 ₱ cwt, (the total weight of hides, tallow and dressed beef.)

Brighton Hides 7½c ₱ lb; Country Hides 7 @ 8c ₱ lb.

Brighton Tallow 6@6½c per lb; Country Tallow 5@6c ₱ lb.

Sheep and Lamb Skins $1 75 @2 50 each; Calf Skins 16 @ 18c ₱ lb.

Trade this week has not been so quick as it was last. The quality of Beeves from the West were full as good. Prices have declined from our last quotations from ½ to ¾c ₱ lb. There has been but a few cattle sold as high as 10½c ₱ lb this week. Many large lots of the best cattle were sold at prices which would not make the beef cost more than 10c ₱ lb., dressed weight. There were nearly 400 cattle brought to Watertown from the West, all of which were open to Brighton for a market.

Store Cattle—With the exception of Working Oxen and Cows there is but a few Store Cattle brought into market at this season of the year.

Milch Cows—Extra $85 @ $110; ordinary $45 @ $75; Store Cows $35 @ 55 ₱ head. Prices of Milch Cows depend much upon the fancy of the purchaser. But few in market.

Working Oxen—Extra $225 @ 275; ordinary $140 @ $200; but a few pairs in market and not much call.

Sheep and Lambs—We quote extra and select lots $4 50 @ $7 50; ordinary $2 00 @ $4 00 ₱ head, or from 5@7½c ₱ lb.

Store Pigs—Wholesale 9@10c ₱ lb; retail 9@12c ₱ lb. Fat Hogs 5 @ 5½c; Columbia County Pigs 00 @ 00c ₱ lb.

Catawba Grape-Juice Pills

AND HELMBOLD'S HIGHLY CONCENTRATED

Fluid Extract Sarsaparilla.

In the Spring and Summer months the system undergoes a change. This is the time to use good blood-renewing, purifying and invigorating medicines.

Helmbold's Fluid Extract Sarsaparilla

AND HELMBOLD'S

FLUID EXTRACT GRAPE-JUICE PILLS,

ARE THE BEST AND MOST RELIABLE.

One bottle of Helmbold's Fluid Extract Sarsaparilla equals in strength one gallon of the syrup or decoction as made by druggists; and a wine-glass added to a pint of water equals the celebrated Lisbon Diet Drink—a delightful and healthful beverage.

The Grape-Juice Pill is composed of Fluid Extract of Catawba Grape-Juice and

Fluid Extract Rhubarb.

Useful in all diseases requiring a cathartic remedy, and far superior to all other purgatives, such as salt, magnesia, &c.

Helmbold's Grape-Juice Pill

is not a patented pill, put up as those ordinarily vended, but THE RESULT OF TEN YEARS' EXPERIMENTING, AND GREAT CARE IN PREPARATION. SAFE FOR AND TAKEN BY CHILDREN. NO NAUSEA; NO GRIPING PAINS, BUT MILD, PLEASANT, AND SAFE IN OPERATION. TWO BOTTLES OF THE FLUID

EXTRACT OF SARSAPARILLA

AND ONE BOTTLE OF

The Grape-Juice Pills

ARE WORTH THEIR WEIGHT IN GOLD TO THOSE SUFFERING FROM BAD BLOOD, POOR COMPLEXION, HEADACHE, NERVOUSNESS, WAKEFULNESS AT NIGHT, COSTIVENESS, AND IRREGULARITIES,

and to those suffering from broken and delicate constitutions it will give new blood, new vigor, and new life.

THE CATAWBA GRAPE PILLS

are done up with great care and in handsome bottles, and will pass all those vended in wooden boxes, and carelessly prepared by inexperienced men, comparing with the English and French style of manufacturing. All of

CARD.

Having become satisfied after thorough investigations that Elastic Sponge, as now and lately manufactured, is one of the best of all substitutes for curled hair, for many if not most uses in upholstery, we have accepted the Agency for it, and intend to make it hereafter a specialty in our business. The objections which have been made to it and which it is well known we ourselves have thought were well founded, we have ascertained cannot be urged against the article as now perfected. The process of manufacture has been entirely remodeled under the advice and superintendence of one of the most eminent chemists of New England. New chemical and mechanical appliances have been introduced in cleansing crude Sponge, and in charging it with glycerine with such entire success, that Elastic Sponge may now be said to be chemically pure. There is absolutely nothing in it but the clean fibre of Sponge and chemically pure glycerine.

The objections to Elastic Sponge being thus removed there remain its undisputed merits which certainly entitles it to be considered one of the most valuable, as it is one of the most curious and interesting of late discoveries. Chief among these merits is, that it is proof against moths—the great scourge of the business—against all other insects. Then its elasticity is permanent, based as it is upon the non-evaporable property of glycerine and the indestructibility of sponge fibre. We have always been satisfied upon these two points which are the essential requisites in such materials. The evidence is now equally clear that it is wholesome and sweet. It is very light and soft, easy to manipulate, and cheap enough for all except the lowest class of goods. For the cushioning of Churches, Theatres, Public Halls, Railway Stations, Omnibuses, Carriages, Steam and Horse Cars and the like, it will probably be found, everything considered, the best article in use. For all uses, and especially for Bedding, we are now prepared to recommend the public to give it a fair trial as we ourselves intend to do. We are are ready also to answer inquiries, make estimates and take orders for every description of work in Sponge as well as to supply the trade the article in Bales.

JURUBEBA. WHAT IS IT?

IT IS A SURE AND Perfect Remedy for all diseases of the

LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR THEIR CONCOMITANTS.

DR. WELLS, having become aware of the extraordinary medicinal properties of the South American Plant, called

JURUEBA,

Sent a special commission to that country to procure it in its native purity, and having found its wonderful curative properties to even exceed the anticipations formed by its great reputation, has concluded to offer it to the public, and is happy to state that he has perfected arrangements for a regular monthly supply of this wonderful Plant. He has spent much time experimenting and investigating as to the most efficient preparation from it, for popular use, and has for some time used in his own practice with most happy results the effectual medicine now presented to the public as

Dr. Wells' Extract of Jurubeba,

and he confidently recommends it to every family as a household remedy which should be freely taken as a BLOOD PURIFIER in all derangements of the system and to animate and fortify all weak and Lymphatic Temperaments. 4w m16

WEDNESDAY, JUNE 7, 1871.

Editorial Correspondence.

PHENIX HOTEL, CONCORD, June 6th.

The gathering of the clans has commenced. The Monday evening trains brought leading politicians from every part of the State to take part in the coming strife. Republicans and Democrats are alike mysterious and hopeful. Nearly all the Democratic members of the legislature arrived Monday evening and the Republicans generally arrived by to-day's trains. It would be useless as well as impossible to predict surely the result of the first trial of strength by the two parties of the House. The Democrats hope to have the entire strength of the Labor Reform vote by giving the Labor Reformers the nominations for State officers. It is generally conceded that Hon. William H. Gove will be their candidate for Speaker. The Republican members have responded promptly and the indications are that but one of the three sick members will be absent. There was but little canvassing for the position at first, but as the caucus meets this evening the matter is being earnestly discussed, every friend of the cause, including the candidates, being desirous of waiving all considerations for the sake of the man who can poll the largest vote. Great unanimity prevails and the Republican legislators seem to have forgotten all dissensions and are essentially at work, earnest to win.

The hotels and boarding houses are crowded and the streets are thronged. Rumford Hall is the Republican headquarters. The meeting of Monday evening took decisive measures for the protection of the rights of the people through their representatives. There has been a continuous session to-day, the working Republicans preferring to remain where their action tells, rather than neglect their duty. Forewarned they are forearmed. The defeat of the combined opposition by the Republicans would be a sore disappointment to the Democracy, who have parcelled out the various offices as if they were within their gift. There seems but little doubt that the present clerk of the House, J. H. Benton and the efficient Sergeant-at Arms of last year will be re-elected, and enthusiastic Republicans claim everything from Clerk to Governor. Old Tempus will show.

By Telegraph.

Messrs. Legro of Lancaster and Wilson of Pembroke, who have been classed as Republicans, are understood to go with the other Labor Reformers against the Republicans. Mr. Underhill of Chester is claimed by both sides, and Mr. Johnson of Pittsburg and Mr. Scott of Keene, Republicans, are sick at home, though the latter may be present Wednesday. This may reduce the Republican vote in the House to 161. A half dozen or more Democrats claim seats to which they are not entitled. Should they be excluded the Republicans will have a small majority. The Democrats were over confident last night, but are less talkative to-day, and are desirous of finding some Republican who will desert his party for filthy lucre. Quotations are at $1,000, with no takers.

The Manchester Union holds up the case of two white women, one of them an invalid, who recently travelled through the South not only unmolested but receiving sympathy and assistance, as proof there is no such bitterness and enmity in that section towards the North as has been represented. But what of it if the two women were not harmed? Mr. Greeley has not been molested, either; and the complaint has not been that Northern invalids or editors could not pass through the South without being assassinated, but that negroes resident in the South, if they dared to vote the republican ticket, and the white Unionists if they dared to attempt to improve the condition of the freedmen by teaching them, have been murdered or compelled to fly for their lives. As to the animus of the ex-rebels towards the North, the account which we print elsewhere of their proceedings at Alexandria, Va., on Decoration Day, speaks much, louder than the letter of the woman who merely passed unharmed through the South with a sick companion.

The charter election in Norwich, Conn., June 5, resulted in the election of James Lloyd Greene, republican, as mayor, over James A. Hovey, democrat, by 310 majority. All the candidates on the republican ticket were elected by an average majority of 300. Last year Hovey was elected by 350 majority. All owing to the "tidal wave."

NEW HAMPSHIRE ITEMS.

The operations at the new brickyard in North Kingston are progressing finely. Forty Canadians are at work in the yard, and fifteen men and boys, also Canadians are constantly employed cutting wood. The bricks are all "struck" by hand, and from 35,000 to 40,000 are daily prepared for drying. The first kiln of 250,000 will shortly be in readness for burning. This kiln and another of nearly the same size will be required for the new Exeter Academy building. The foundation will be in readness for the bricklayers in about two weeks. It has been decided to dispense with the ceremony of laying the corner-stone.

Lorin Ayers shot his wife three times, in Manchester, June 5, and then attempted suicide by putting a bullet through his own head. He may recover, but the woman is dead. Jealousy.

Mrs. Elizabeth Libbey of Dover was found dead in her bed Friday morning, June 5. She was aged about 70, and highly respected.

Rev. Swift Byington was installed on Friday as pastor over the First Congregational Church at Exeter.

Hampton Falls has abolished the old school district system.

A couple of furniture manufacturers of Leominster, Mass., have recently purchased the timber upon a one hundred acre tract near Claremont, and propose to put up a steam saw-mill with a capacity of 8000 feet a day. In this way they calculate upon clearing the land in three years.

Henry Brown of Newmarket jumped from a window while in a fit of "rum horrors," Friday, crawled under a barn and died. He was 40 years old, and unmarried.

A Dr. Smith of Meredith Village last week gave ether to a young lady named Mason, of Moultonborough, preparatory to filing her teeth, and then committed a gross outrage. He has fled, not being able to hush up the affair with money. He is a prominent church member.

Dr. Bliss of Washington has been active in his opposition to the illiberal spirit manifested by the Medical Society of the District of Columbia in refusing to admit colored physicians to membership, and now the Medical Society has adopted a report against "cundarango," which Dr. Bliss has successfully administered as a specific for cancer. Some of the leading members of the Society who were present when the report of the committee was adopted, declared that there were strong reasons for believing that "cundarango" contains no medical virtues whatever, and their chemist asserted that it contains no alkaloid or active principle. Meanwhile Dr. Bliss has gone home with Mr. Colfax, and will see his mother, who has experienced great benefits from the use of cundarango. Other ladies in Washington have been much benefitted, and it is unfair as yet to intimate, as other doctors do, that it is a worthless nostrum and that Dr. Bliss is a quack. In more than one case in times past, however, professional jealousy has inspired opposition to what proved to be valuable medical discoveries, and this may turn out to be another one. Dr. Jenner had a hard time of it with his vaccination for small-pox, and to call a homeopath a doctor was (and is) rank heresy; yet vaccination is now universal and the allopaths have themselves taken acknowledged valuable hints from homeopathic practice, and some of the most important and successful medical charities in the country are to-day under homeopathic direction. Dr. Bliss may rest assured that if his "cundarango" is really a valuable remedy for that fearful scourge, cancer, all the close medical corporations in the world will not be able to "resolve" sufferers from using it and being grateful to its introducer.

In San Francisco, a boy named O'Brien has been arrested and identified by several Chinamen as having given the fatal blow to the Chinaman who was clubbed and stoned to death last week, but it is doubtful if sufficient white testimony can be obtained to convict him.

Five young men were drowned at North Andover, Mass., on Monday, by the upsetting of a boat. Two of them were married. They were all employed in a machine shop, and were respectable and worthy men.

Base Ball.—The Mutuals beat the White Stockings at New York, June 5—8 to 5. This is the first defeat this year for the latter.

Forest Cities of Rockland 11, Athletics 10.

Capt. Amesbury, of brig J. L. Bowen, of Quincy, Mass., has been murdered at sea by a mutinous crew.

Paris.—The conflict between the Bourbons and the Orleans princes is exciting great interest. The debate on the eligibility of the latter to membership in the assembly was postponed, the committee not being ready to report. The assembly has ordered an investigation into the conduct of the government of national defence. Several Versailles papers accuse Minister Washburne of friendship for the communists. The influx of foreigners to Paris increases daily. Belleville, La Villette and Montrouge are still patrolled day and night.

Count de Gasparin, a friend of religious liberty and negro emancipation, and vindicator of the Union cause during the late civil war in this country, died recently in Geneva, Switzerland, aged 61.

In Missouri, May 31, Richard A. Menifer and three brothers named Underwood had a difficulty about a fence, and one of the Underwoods fired a revolver at Menifer without effect. Menifer returned the fire, mortally wounding Underwood. Another brother then fired fourteen balls into Menifer, killing him.

BUSINESS NOTICES.

Johnson's Anodyne Liniment may be used to advantage where any Pain Killer is desirable. In cases of severe cramps and pains in the stomach, it is undoubtedly the best article that can be used.

There is not such a reliable purgative known as Helmbold's Catawba Grape Pills. They are safe, pleasant and efficacious, and cause neither nausea or griping pains. Helmbold's Sarsaparilla, the great Blood Purifier.

Habitual constipation leads to the following results: Inflamation of the kidneys, sick and nervous headache, biliousness, dyspepsia, indigestion, piles, loss of appetite and strength; all of which may be avoided by being regular in your habits, and taking, say one of *Parson's Purgative Pills* nightly, for four or six weeks.

SPECIAL NOTICES.

A Pitiful Condition.

It is a sad thing to pass through life only half alive. Yet there are thousands whose habitual condition is one of languor and debility. They complain of no specific disease; they suffer no positive pain; but they have no relish for anything which affords mental or sensuous pleasure to their more robust and energetic fellow-beings.

In nine cases out of ten this state of lassitude and torpor arises from a morbid stomach. Indigestion destroys the energy of both mind and body. When the waste of nature is not supplied by a due and regular assimilation of the food, every organ is starved, every function interrupted.

Now, what does common sense suggest under these circumstances of depression? The system needs rousing and strengthening; not merely for an hour or two, to sink afterward into a more pitiable condition than ever, (as it assuredly would do if an ordinary alcoholic stimulant were resorted to,) but radically and permanently.

How is this desirable object to be accomplished? The answer to this question, founded on the unvarying experience of a quarter of a century, is easily given. Infusing new vigor into the digestive organs by a course of HOSTETTER'S STOMACH BITTERS. Do not waste time in administering temporary remedies, but wake the system up by recuperating the fountain-head of physical strength and energy, the great organ upon which all the other organs depends for their nurture and support.

By the time that a dozen doses of the great vegetable tonic and invigorant have been taken, the feeble frame of the dyspeptic will begin to feel its benign influence. Appetite will be created, and with appetite the capacity to digest what it craves. Persevere until the cure is complete—until healthful blood, fit to be the material of flesh and muscle, bone and nerve and brain flows through the channels of circulation, instead of the watery pabulum which they have heretofore been imperfectly nourished.

A GOOD OFFER TO THE
Ladies of Portsmouth and Vicinity.
E. A. JOY
Has Fitted up a Spacious and Elegant SEWING MACHINE ROOM directly over his Music Store and employs a competent young lady to take charge of the same. A cordial invitation is hereby extended to all the ladies (not having good Sewing Machines of their own) to bring in lots of work and learn to make it up on the Machines. *This* will cost nothing whether a Machine is purchased or not. If you do not buy now, you will at some future time; for the day is not far distant when a SEWING MACHINE will be considered as indispensable as a Cook-Stove. Come as often and stay as long as you please.
MR. JOY'S business in the Sewing Machine line is very rapidly increasing, which enables him to make the above generous offer.
His long experience in this branch qualifies him to be an excellent judge of the goods he sells; and as he has had the Agency of *all* kinds offered him at different times it is reasonable to suppose that the *Best* SEWING MACHINES may always be had at the SEWING MACHINE EMPORIUM, No. 9 PLEASANT ST., nearly opposite the Post Office, Portsmouth, N. H. *Twelve Different Kinds to Select from.* mh7

THE Portsmouth Journal says:—"The shade trees are leaving fast on all our streets. They never looked or did better than now." It seems a little unfortunate for us who are to remain in the city, to have them *leave* just at this season, when their shade would be so agreeable. They are probably going to the mountains or the beaches for a short visit. How would it do, brother Journal, to say *leafing?* (*Vide* Webster.) In that case they might be persuaded, perhaps, to remain with us, at least through the hot weather.

A shooting affray occurred at Kittery Foreside, near the end of the Navy Yard bridge, on Monday evening about half past 9 o'clock, wherein a man named Henry Remick was shot by his father, the ball taking effect in his knee, producing nothing further, however, than a bad flesh wound. The son, who is a man of about thirty years, maintains that the pistol was pointed at his head, but by an expeditious movement he succeeded in diverting the aim to his leg, thus saving his life. The affair resulted from a chronic quarrel which has existed between the parties for years.

"RIDE, SIR?"—Came Brothers, the great carriage makers of this city, are finishing out about three thousand dollars' worth of new work this week, including carriages to order for Messrs. Frank Jones, Charles Robinson, T. E. Call and others of this city, Alderman J. F. Paul of Boston, and other parties in Great Falls, Berwick, and all about the country. The Messrs. Came are among our most enterprising and valuable business men; and the manufactory is a great institution for Portsmouth. Let every citizen see to it, that he improves every opportunity to aid, patronize and encourage them.

THERE is a little war between the Boston & Maine and Eastern Railroads, owing to the former having put on an express train between Boston and Portland, leaving Boston at the same hour as the Pullman-car train on the Eastern. The latter controls the P.S. & P. Road, and refuses to take the B. & M. express from Berwick Junction to Portland, as it is not a regular train, and in consequence, Monday, the B. & M. express, passengers and all, was left at the Junction till the regular train came along. How the war will end we cannot predict.

The same hitch occurred in the B. & M. express arrangements, Tuesday morning.

REV. MASSENA GOODRICH, pastor of the Universalist church in Pawtucket, R. I., was recently made the recipient of a grand ovation by his society, in the shape of a surprise silver wedding. The arrangements were perfect in every particular; neither the pastor nor his lady were aware of the matter, and one can imagine their surprise when on being invited to take a ride by a friend, they were taken to the vestry of the church, which had been decorated with a profusion of flowers and tables loaded with viands tempting to an epicure, by warm and loving hearts overflowing with greetings for their pastor and his estimable lady. Shaking of hands, congratulatory speeches, a grand charge on the tables and the presentation of many elegant and valuable gifts and expressed hopes that they may live to celebrate their golden wedding, made an evening's entertainment which will be long remembered by both the pastor and his people. CHINA has had a fearful earthquake, lasting ten days, in Bathang district. Over 2200 lives were lost, and 8 temples and 2400 dwellings destroyed. THE following extract from the inaugural speech of Hon. Thomas Doyle, Mayor of Providence, R. I., contains food for reflection on the part of parents in other cities besides Providence:

The number of young girls from twelve years of age upward, allowed to promenade our principal thoroughfares in the evening, has increased to such an extent as to be alarming to the thinking portion of the community. Why the parents of these girls allow the liberty they do is a mystery to the police department. I regret to say that in many instances where girls have been ordered to their home by the police in consequence of conduct, though not absolutely lewd, yet rapidly approaching it, the police have been rebuked for their interference by the parents, who professed to believe the statements of their daughters in preference to that of the officer. The conduct of these young promenaders on Westminter street became so bad on Sunday evenings of the last autumn that a very large detail of police was required to preserve even decent order on the street. The public street and the night time have not usually been deemed the proper place and season for the right education of the young of either sex, and certainly we may expect a decline in morality when girls particularly obtain their education then and there.

THE NEW ORLEANS, MOBILE & TEXAS RAILROAD COMPANY

Are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 226¼ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—25 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.

Subscriptions will be received in Portsmouth by

First National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

"ACCEPTING THE SITUATION."—It is a tolerably easy thing for Mr. Vallandigham and a few others of the ilk to talk about the acceptance of "the situation" by Northern Democrats and Southern rebels, but still the masses of the conglomerate party will persist in showing that they do not propose to do anything of the kind. They have exhibited this fact, not only in their words, but also very plainly in their actions, about the last being manifested at Alexandria, Va., during the recent decoration of the Union soldiers' graves.

The Grand Army of the Republic prepared for the occasion by filling a tent in the cemetery with flowers, which tent they left in charge of a colored man while the speaking exercises were going on at a little distance off. During this time a party of "conservatives" as the Washington papers are pleased to call them, made a raid upon the tent, drove off the colored keeper, and stole several bushels of flowers, with which they proceeded to decorate Confederate graves.

After this they insulted the clergymen most grievously and hissed the name of President Grant whenever it was mentioned, finally terminating operations by venting their spite against the "damned dead Yankees" by stealing more flowers and by tearing the flags from the graves. Some of these they tore into fragments, while others they transformed into rebel flags and planted them upon rebel graves.

One of the beauties of the entire proceeding was the fact that while all the desecrators were known no effort was made to arrest a solitary one of their number. The scene of their operations, it will be remembered, was not far down in the Southern States, but, on the other hand, right under the shadow of the Capitol itself.

Is it not about time that some measures were adopted by Union men to at least put a stop to such ruffianism? It is quite bad enough to be compelled to listen to the treasonable utterances of such traitors, but when they extend their blackguardism to the graves of the dead heroes who have died for the principles of truth and loyalty, it does seem that it is the duty of somebody who has the power, to exercise it.—*Exchange.*

THE COMMUNE.—The Springfield Republican, in an article on the downfall of the commune, says:—

"What effect will this suppression of the Paris insurrection have upon the immediate future of France? In all human probability to restore monarchical institutions. The commune came into life as the especial champion of popular government. It denied the right of an assembly elected simply to make peace, to decide in what way the French people should be governed. It denounced this assembly as composed of men who did not believe in the republic, and were bent on its overthrow; and, considering that among the deputies are, besides a prince, 8 dukes, 88 lesser nobles, a bishop and a squad of generals and admirals, it must be admitted that the commune had some reasons for being suspicious. It started out then, this insurrectionary movement, with a platform of two planks, viz., the preservation of the republic and the correction of the evils of French universal suffrage. The towns, it said, had been overslaughed and governed by the ignorant, priest ridden rural population long enough. No more general ticket elections! no more plebiscites! In the reformed republic the vote of Paris should not be swamped by the department of the Seine. No; they would have smaller election districts, and direct representation, and municipal self government. This was the original programme and there is really a great deal to be said in its favor. But the commune did not adhere to this simple programme. It was impossible that it should. The war which started as a defense of republican institutions ended in becoming an attack upon society.

A cyclone occured near Mason city, Illinois, on Friday morning. A smoke-like column was observed gathering near the earth's surface on an open prairie, six miles from that place, and from this column there soon shot out three narrower and spire-like cloud columns, which continued to ascend rapidly until they reached and seemed to attach themselves closely to a passing cloud above, and moved slowly toward Mason city, but finally changed its course a mile from its track. An odor of burning sulpher was plainly perceived, small flashes of electricity were constantly visible passing from the earth to the clouds, and rapid cracking reports were heard like infantry in battle firing as fast as possible. The pathway of the cyclone was nearly three miles in length and from twenty to eighty feet in width, and in that pathway not a particle of vegetation was left alive. For some distance the earth was literally ploughed to the depth of six inches. The column of whirling air must have been intensely hot, as every green thing in its path was dried to a crisp. Its outlines were so well defined that five feet from the outline of the total destruction of vegetation not a vestige of its effects could be seen. Fortunately no houses stood in its line of march.

THERE has been a considerable decrease in the number of distilleries in the country within the past year. Good. Wish they would all "decrease" or decease.

NEW ADVERTISEMENTS.

THIRTY THOUSAND DOLLARS PAID.—The TRAVELERS LIFE AND ACCIDENT INSURANCE COMPANY, of Hartford, Connecticut, paid $20,000 on W. H. Forbush and Wm. C. Curry, victims of the New Hamburg railroad; $5,000 on the late Jas. H. Blake, mayor of Worcester, Mass.; and $5,000 on the late S. H. Lewis, Jr., of St. Albans, Vt. All these accidents occurred, and the insurance was paid, within three months—each claim being paid about sixty days before it was due by the terms of the policy. The TRAVELERS has paid SEVEN HUNDRED DOLLARS A DAY in benefits to its policy holders, for deaths or injury by accident, for every working day during the past seven years.

The TRAVELERS LIFE AND ACCIDENT INSURANCE COMPANY, of Hartford, Conn., grants all the usual forms of LIFE and ENDOWMENT Policies, on exceedingly favorable terms. AMPLE SECURITY and LOW RATES.

CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $5 to $15 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.

EXPLORING TICKETS are sold at the Company's ticket offices at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

Tarrant's Effervescent
Seltzer Aperient.

A column would not suffice to enumerate the ailments for which this is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, a stomachic, an anti-febrile preparation, and an admirable remedy for all bilious complaints.

Let there be no mistake. Secure the genuine article only.

ON A COMPLETED ROAD,
FREE OF U. S. TAX,

This road is now in the dullest season of the year earning more than 12 per cent. net on the amount of its mortgage obligations.

Its 7 per cent gold bonds are equal for security to Government or any Railroad issue. They command a ready market and we are prepared to buy and sell them at all times. No investment in the market possessing equal guarantees of safety, returns an equal percentage of interest. The Chicago, Burlington and Quincy has given a traffic guarantee and obligates itself to invest in these bonds 50 per cent. of the gross earnings derived from all business from this road. This is sufficient indication of the estimate of this enterprise by the largest and most far-sighted Corporation in the West. A limited quantity still for sale by

A GREAT MEDICAL DISCOVERY!
DR. WALKER'S CALIFORNIA
VINEGAR BITTERS,
Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.
WHAT ARE THEY!
THEY ARE NOT A VILE FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. lyrdawfeb16

"Words and Their Uses."

From Richard Grant White's new volume bearing the above title, we quote a few paragraphs, showing a nice sense of discrimination, founded on practical views on the subject:

Aggravate. This word should never be employed in reference to persons, as it means merely to add weight to—to make an evil more oppressive; injury is aggravated by insult. It is sometimes improperly used in the sense of irritate, as, "I was much aggravated by his conduct."

Balance, in the sense of rest, remainder, residue, remnant, is an abomination. Balance is metaphorically the difference between two sides of an account—the amount which is necessary to make one equal the other. * * * Yet we continually hear of the balance of this or that thing; even the balance of a congregation—of an army.

Bountiful is applicable only to persons. A giver may be bountiful, but his gift cannot—it should be called plentiful, or large. A "bountiful slice" is absurd.

Fetch expresses a double motion; first from and then toward the speaker. It is exactly equivalent to "go and bring," and ought not to be used in the sense of bring alone.

Calculate, besides its sectional misuse for think, or suppose, is sometimes in the participle form calculated, put for likely, or apt: "That nomination is calculated to injure the party." It is calculated (designed) to do no such thing, though it may be likely to.

Citizen should not be used except when the possession of political rights is meant to be implied. Newspaper reporters have a bad habit of bringing it out on all occasions when "person," "man," or "bystander," would express their meaning much better.

Couple applies to two things which are bound together or united in some way. "A couple of apples" is incorrect; two apples is meant.

Dirt means filth, and is not synonymous with earth or soil. Yet people sometimes speak of a dirt road, or of packing dirt around the roots of trees they are setting. They mean earth.

Execute. When a murderer is hanged his sentence is executed, the man is not. A man cannot be executed—that is, followed out or performed.

Expect looks always to the future. You cannot expect that anything has happened or is happening; but only that it will happen.

Get means to obtain, not to possess. "He has got all the numbers of the Country Gentleman;" "Have you got good molasses?" "They have got bad manners." Why will people persist in introducing the word in such sentences as these, where it is so evidently superfluous?

Help Meet. An abusive use of these two words, as if they together were the name of one thing—a wife—is too common. The sentence in Genesis is; "I will make him an help meet for him"—i. e., a help fit for him. There is no such word as helpmeet.

Lie—Lay. Persons not grossly ignorant sometimes say they will lay (meaning lie) down, that they have laid (lain) an hour, or that the hammer is laying (lying) by the tacks. Lie means to recline; its past tense lay—"I lay there all that night;" its participles, lying and lain. Lay (used of present time) means to put something down—one lays a carpet; its past is laid—"I was interrupted while laying it, and it was not laid until night."

Love rules the heart, not the stomach. You love your wife, or ought to; but favorite articles of food you like.

Observe should not be used for say, as in the oft-heard sentence, "What did you observe?"

Sit, often mispronounced set, is occasionally written so, but it is to be hoped rarely.

—When we started an office of our own, our former publisher, Mr. Charles D. Howard, editor of the Peabody Press, who by the way, is one of the best fellows in the craft, in noticing our removal into new quarters, indulged in a little pleasantry in which he compared the Little Giant to a child, and himself to a nurse. Now here is where the laugh comes in:—our leader in the Little Giant of February 25th, 1871, entitled "Hot House Education," was writen by ourselves, and set up from the original copy, proved, corrected and printed in the nursery (brother Howard's office,) and the views expressed in the article, although disapproved by several school committee men, were adopted by several papers as original matter, and the article finally found its way into Once A Week, a prominent high toned periodical. Coming from that source gave it merit, and it was discovered to be a good thing, so this week our friend Charles copied it entire, and credited it to Once A Week. How high ish dat, mine vrend Sharley?—*Little Giant, Lynn, Mass.*

—The following lines are suggestive of the general feeling among the people just now:—

"Where do you s'pose that cloud is bound?"
Said Bill, with look of wonder;
Said Bob, with anxious look around,
"I hope it's going to thunder."

Catawba Grape-Juice Pills

AND HELMBOLD'S HIGHLY CONCENTRATED

Fluid Extract Sarsaparilla.

In the Spring and Summer months the system undergoes a change.

This is the time to use good blood-renewing, purifying and invigorating medicines.

Helmbold's Fluid Extract Sarsaparilla

AND HELMBOLD'S

FLUID EXTRACT GRAPE-JUICE PILLS,

ARE THE BEST AND MOST RELIABLE.

One bottle of Helmbold's Fluid Extract Sarsaparilla equals in strength one gallon of the syrup or decoction as made by druggists; and a wine-glass added to a pint of water equals the celebrated Lisbon Diet Drink—a delightful and healthful beverage.

The Grape-Juice Pill is composed of Fluid Extract of Catawba Grape-Juice and

Fluid Extract Rhubarb.

Useful in all diseases requiring a cathartic remedy, and far superior to all other purgatives, such as salt, magnesia, &c.

Helmbold's Grape-Juice Pill

is not a patented pill, put up as those ordinarily vended, but THE RESULT OF TEN YEARS' EXPERIMENTING, AND GREAT CARE IN PREPARATION. SAFE FOR AND TAKEN BY CHILDREN. NO NAUSEA; NO GRIPING PAINS, BUT MILD, PLEASANT, AND SAFE IN OPERATION. TWO BOTTLES OF THE FLUID

EXTRACT OF SARSAPARILLA

AND ONE BOTTLE OF

The Grape-Juice Pills

ARE WORTH THEIR WEIGHT IN GOLD TO THOSE SUFFERING FROM BAD BLOOD, POOR COMPLEXION, HEADACHE, NERVOUSNESS, WAKEFULNESS AT NIGHT, COSTIVENESS, AND IRREGULARITIES,

and to those suffering from broken and delicate constitutions, it will give new blood, new vigor, and new life.

THE CATAWBA GRAPE PILLS

are done up with great care and in handsome bottles, and will surpass all those vended in wooden boxes, and carelessly prepared by inexperienced men, comparing with the English and French style of manufacturing. All of

FLUID EXTRACT SARSAPARILLA.

APRIL, MAY and JUNE.

PURIFY THE BLOOD AND BEAUTIFY THE COMPLEXION by using HELMBOLD'S

Catawba Grape-Juice Pills

and HELMBOLD'S highly-concentrated

Fluid Extract Sarsaparilla.

In the Spring and Summer months the system undergoes a change. This is the time to use good blood-renewing, purifying and invigorating medicines. HELMBOLD'S FLUID EXTRACT SARSAPARILLA and HELMBOLD'S FLUID EXTRACT GRAPE-JUICE PILLS are the best and most reliable.

ONE BOTTLE of Helmbold's Fluid Extract Sarsaparilla equals in strength one gallon of the syrup or decoction as made by druggists, and a wine-glass added to a pint of water equals the celebrated Lisbon diet drink, a delightful and healthful beverage.

The Grape-Juice Pill is composed of fluid extract Catawba grape-juice and FLUID EXTRACT RHUBARB. Useful in all diseases requiring a cathartic remedy, and far superior to all other purgatives, such as salts, magnesia, &c. Helmbold's Grape-Juice Pill is not a patented pill, put up as those ordinarily vended, but the result of ten years' experimenting and great care in preparation.

SAFE FOR AND TAKEN BY CHILDREN; NO NAUSEA; NO GRIPING PAINS; BUT MILD, PLEASANT, AND SAFE IN OPERATION.

Two bottles of the Fluid Extract of Sarsaparilla and one bottle of the Grape-Juice Pills are worth their weight in gold to those suffering from bad blood, poor complexion, headache, nervousness, wakefulness at night, costiveness and irregularities, and to those suffering from broken and delicate constitutions it will give new blood, new vigor and new life.

The Catawba Grape Pills are done up with great care and in handsome bottles, and will surpass all those vended in wooden boxes and carelessly prepared by inexperienced men, comparing with the French and English style of manufacturing.

All of H. T. HELMBOLD'S Preparations are Pharmaceutical, not a single one being patented, but all on their own merits. To dispel any impression or prejudices that might exist in the minds of many against my Preparations, from the publicity given through advertising, and that I am and have been a druggist for a period of twenty years and more, conclusively to prove this, See letter.

CARD.

Having become satisfied after thorough investigations that Elastic Sponge, as now and lately manufactured, is one of the best of all substitutes for curled hair, for many if not most uses in upholstery, we have accepted the Agency for it, and intend to make it hereafter a specialty in our business. The objections which been made to it and which it is well known we ourselves have thought were well founded, we have ascertained cannot be urged against the article as now perfected. The process of manufacture has been entirely remodeled under the advice and superintendence of one of the most eminent chemists of New England. New chemical and mechanical appliances have been introduced in cleansing crude Sponge, and in charging it with glycerine with such entire success, that Elastic Sponge may now be said to be chemically pure. There is absolutely nothing in it but the clean fibre of Sponge and chemically pure glycerine.

The objections to Elastic Sponge being thus removed there remain its undisputed merits which certainly entitles it to be considered one of the most valuable, if not the one of the most curious and interesting of late discoveries. Chief among these merits is, that it is proof against moths—the great scourge of the business—against all other insects. Then its elasticity is permanent, based as it is upon the non-evaporable property of glycerine and the indestructibility of sponge fibre. We have always been satisfied that one or two points which are the essential requisites in such materials. The evidence is now equally clear that it is wholesome and sweet. It is very light and soft, easy to manipulate, and cheap enough for all except the lowest class of goods. For the cushioning of Churches, Theatres, Public Halls, Railway Stations, Omnibuses, Carriages, Steam and Horse Cars and the like, it will probably be found, everything considered, the best article in use. For all uses, and especially for Bedding, we are now prepared to recommend the public to give it a fair trial as we ourselves intend to do. We are are ready also to answer inquiries, make estimates and take orders for every description of work in Sponge as well as to supply the trade the article in Bales.

JURUBEBA. WHAT IS IT?

IT IS A SURE AND Perfect Remedy for all diseases of the

LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR THEIR CONCOMITANTS.

DR. WELLS, having become aware of the extraordinary medicinal properties of the South American Plant, called

JURUBEBA,

Sent a special commission to that country to procure it in its native purity, and having found its wonderful curative properties to even exceed the anticipations formed by its great reputation, has concluded to offer it to the public, and is happy to state that he has perfected arrangements for a regular monthly supply of this wonderful Plant. He has spent much time experimenting and investigating as to the most efficient preparation from it, for popular use, and has for some time used in his own practice with most happy results the effectual medicine now presented to the public as

Dr. Wells' Extract of Jurubeba,

and he confidently recommends it to every family as a household remedy which should be freely taken as a BLOOD PURIFIER in all derangements of the system and to animate and fortify all weak and Lymphatic Temperaments. 5wm16

THURSDAY, JUNE 8, 1871.

THE LEGISLATURE.

The Republican legislative caucus was held in Rumford Hall at Concord, Tuesday evening. William H. Hackett of Portsmouth was chosen President, and Sidney M. Morse of Winchester and Wm. D. Knapp of Somersworth, Secretaries. On the first ballot for a candidate for Speaker of the House, 131 votes were thrown, of which James O. Adams of the Manchester Mirror had 85; his nomination was then made unanimous. J. H. Benton of Lancaster was renominated for Clerk and Col. Charles H. Roberts of Farmington for Sergeant-at-arms, by acclamation.

The Democratic and Labor Reform caucuses nominated the same candidates, viz: Wm. H. Gove of Weare for Speaker, James H. Colbath of Barnstead for Clerk, and Alonzo J. Fogg of Concord for Sergeant-at-arms.

Editorial Correspondence.

Phenix Hotel, CONCORD, June 7.

The Senate organized this morning by the choice of Hon. Charles H. Campbell of Nashua, Republican, as temporary President. At ah early hour the galleries and floor of the House were crowded with members elect and spectators, eager and impatient. The poor accommodations for the press were made poorer by the crowd who surged in and occupied every nook and corner. At 11.15 Governor Stearns appeared and administered the oath of office to the members—all being present except Messrs. Scott, of Keene, and Johnson, of Pittsburg, who are very sick. Hon. Harry Bingham nominated Judge Nesmith, Republican, for temporary chairman, and the motion prevailed. On motion of Judge Fowler a ballot for Speaker commenced (at 12 o'clock) and at one o'clock, Messrs. Hackett of Portsmouth and Page of Concord were appointed tellers. The result of the ballot was announced as follows:—

Whole number of votes	326
Necessary for a choice	164
James O. Adams, Repub., had	162
William H. Gove, Opposition	164

and was declared elected. The Speaker was escorted to the chair by Messrs. Adams and Bingham and made a brief speech of acceptance. The House then adjourned until 3 P. M. Gove, the new Speaker, is a renegade Republican, and was supported by the Labor Reformers and Democrats, as a reward for his political treachery. The Republican strength last night was known to be 162, which was just the vote Mr. Adams received. Had the two sick members, both Republicans, been present, there would have been a tie.

The feeling is general that the Republicans were sold out by the adoption of the report of the committee recommending the Clerk of the House to put on the roll the names of several persons who are not lawfully elected members. The most palpable frauds are the cases of S. B. Page of Concord, who was not elected, and Wm. W. Messer of Northwood, who admits that he had not been two years in the State when elected. Two Democratic representatives from Ward 5, Manchester, were not elected but were sworn in today and voted for Gove. The Republicans have it in their power to prevent the entire control of the State from passing to the Democrats. If the Republican legislators do their duty, the result is certain.

[By Telegraph.]

7 o'clock, P. M.

A resolution was introduced to declare Democratic clerks elected; the Republicans moved to amend and vote; by ballot, yeas 161, nays 160; and the speaker voted no, tied and defeated it. On dividing question, yeas 161, nays 162. Adjournment motion defeated, yeas 161, nays 164. Bingham moved the previous question; and Ramsdell moved to lay it on the table. The speaker recognized Ramsdell and that Ramdell's motion took precedence. Voted down, yeas 160, nays 165. Bingham got excited, and Wadleigh floored him in reply, making a point of order that the previous question could not be ordered, no rules having been adopted. The Speaker ruled it parliamentary, and Wadleigh appealed from the decision. Judge Fowler seconded the appeal, and the yeas and nays were ordered, both parties being apparently determined to fight it out all night. The Republicans call for the yeas and nays on every question.

8.30 o'clock, P. M.

Pending the question of appeal from the decision of the chair, a motion to adjourn received 163 yeas and 163 nays; the speaker then voted no. The House refused to sustain the decision of the speaker—yeas 162, nays 164. A motion to adjourn received 153 yeas to 149 nays, at ten minutes past 8 o'clock—the Democrats having got tired of it.

The "new departure" of the democratic party has called out comments from about every paper in the country, —some favorable to it, some adverse, and many ridiculing it or denying that it is any real advance from the old rebel position of the party. The New Orleans Times says it should be called "a new deal" instead of a new departure, as it is but a fresh shuffle of the same old pack of cards the democracy have so long had in use. Some of the northern democratic papers undertake to make people believe that the Vallandigham resolutions are endorsed by the party generally; but the Memphis Appeal, which, during the late unpleasantness, was moved about from place to place to escape falling into Yankee hands, does not like the new departure, and says:

There is no necessity for any fraud in the matter, and when we assert that the constitutional amendments, except the thirteenth, are odious and will be rescinded whenever a convention of the States or absolute Democratic power in the Government may render the consummation possible, we tell the simple, unvarnished truth. * * * We are for the lawful repeal of unlawful mockeries of constitutional law, and to this extent differ from Vallandigham, whose nerves have been unstrung by radical triumphs, and whose eyes are dazed, as age comes over him, by the dawning splendors of a seat in the United States Senate.

The Appeal is good democratic authority concerning political opinions in the South; and so is Jeff Davis, notwithstanding certain Northern democratic papers say he and his speeches are of no significance—for these same insignificant speeches are received by crowds of democratic ex-rebels with immense enthusiasm, Jeff is called "our honored President" in the Southern newspapers, and State courts adjourn in his honor when he arrives in towns where they are held. And Jeff boots at the idea that the South accepts the situation, or will submit to the "reconstruction usurpations" of the radicals for a moment after (with the help of the Northern wing of the party) the Southern democrats have gained the power to overthrow them.

NEW HAMPSHIRE ITEMS.

In Manchester, on the evening of June 5, a man named Griffin broke the skull of Mr. S. B. Haseltine with a brick, while Mr. H. was standing in the doorway of his house. The wounded man is in a precarious condition, and the assailant is in the lockup.

The Nashua Telegraph gives an extended description of a little ship now building in that town, to be propelled by a turbine water-wheel, and hopes the enterprising projectors may succeed in making the thing work. So do we.

The N. H. Medical Society held its 81st annual meeting in Concord, June 6.

The issue between the Boston & Maine and the Concord Railroad, relative to running the Manchester and Lawrence road, and the breaking up of the existing contracts in relation to running all northern freight over the Boston and the Lowell road, was before the Supreme Court at Manchester Tuesday, by printed arguments on both sides. Briefs were ordered for August 1, when the case will be further head. Able counsel are engaged on both sides.

The State Bible Society held its sixtieth annual meeting at Manchester June 6.

There are ninety-three soldiers' graves in Nashua, sixty-eight without stones at their heads.

Dr. Peter L. Hoyt of Wentworth died on Sunday. He received his medical diploma at Dartmouth College in 1838.

The annual parade of the Brooklyn Sunday schools occurred June 6, 30,000 children appearing in line.

The ship Dollaras Ugaru, from Macao for Callao, was burnt at sea recently, and six hundred coolies perished.

There was a terrible storm of wind and rain in Texas on Sunday. The lower part of Galveston was flooded and two vessels were driven on shore.

The Cuban insurgents have killed the celebrated Colonel Miguel Perez and seven men near Guantanamo. A small band of insurgents has appeared near Trinidad.

Gen. Rodman of the Ordnance Department, and inventor of the famous Rodman gun, is dead. At the time of his death he was in command of the Rock Island arsenal.

The Memphis Appeal thinks the South has "fallen upon strange times when southern men propose to hear Horace Greeley speak, while demanding that a gag be placed in the mouth of Jefferson Davis."

Conundrum by Jefferson Davis at Atlanta, on the 27th of May: "Now, my friends, having already said more than I intended, it only remains for me to say how happy I am to see the evidences of prosperity that surround you. I rejoice in these evidences of assiduous, earnest labor in things material, because there is little in this that a foreign government can interfere with." What did Jeff mean by a "foreign government?"

Governor Orr gave some very clear and decided testimony before the southern outrages investigating committee at Washington, June 6. He has no doubt that the purpose of the Ku-Klux organization is to keep the negroes from voting in 1872, by a reign of terror.

—The Democrats of West Virginia refused to strike out the word "white" from their State Constitution, as applied to voters, but now, when they find the word is also exclusively applied to those who have the glorious privilege of paying taxes, the word has become in their eyes very odious indeed, and they want a Constitutional Convention held right away to remove such an objectionable discrimination on account of color.

—The Carlinville Democrat comes to us addressed "Daily Mail—best paper in Chicago." That is our full address, but it is not strictly necessary to append it,—the Postmaster knows it.—*Chicago Mail.*

BUSINESS NOTICES.

Johnson's Anodyne Liniment may be used to advantage where any Pain Killer is desirable. In cases of severe cramps and pains in the stomach, it is undoubtedly the best article that can be used.

As a remedy for Bronchial Affections and Chronic diseases of the Lungs, nothing ever before discovered equals Dr. Pierce's Alt. Ext. or Golden Medical Discovery. It is also a great blood purifier and restorative tonic, and cures Pimples, Blotches and Eruptions on the face, making the complexion clear and fair Sold by druggists.

Habitual constipation leads to the following results: Inflamation of the kidneys, sick and nervous headache, biliousness, dyspepsia, indigestion, piles, loss of appetite and strength; all of which may be avoided by being regular in your habits, and taking, say one of *Parson's Purgative Pills* nightly, for four or six weeks.

SPECIAL NOTICES.

A Pitiful Condition.

It is a sad thing to pass through life only half alive. Yet there are thousands whose habitual condition is one of languor and debility. They complain of no specific disease; they suffer no positive pain; but they have no relish for anything which affords mental or sensuous pleasure to their more robust and energetic fellow-beings.

In nine cases out of ten this state of lassitude and torpor arises from a morbid stomach. Indigestion destroys the energy of both mind and body. When the waste of nature is not supplied by a due and regular assimilation of the food, every organ is starved, every function interrupted.

Now, what does common sense suggest under these circumstances of depression? The system needs rousing and strengthening; not merely for an hour or two, to sink afterward into a more pitiable condition than ever, (as it assuredly would do if an ordinary alcoholic stimulant were resort'd to,) but radically and permanently.

How is this desirable object to be accomplished? The answer to this question, founded on the unvarying experience of a quarter of a century, is easily given. Infusing new vigor into the digestive organs by a course of HOSTETTER'S STOMACH BITTERS. Do not waste time in administering temporary remedies, but wake the system up by recuperating the fountain-head of physical strength and energy, the great organ upon which all the other organs depends for their nurture and support.

By the time that a dozen doses of the great vegetable tonic and invigorant have been taken, the feeble frame of the dyspeptic will begin to feel its benign influent. Appetite will be created, and with appetite the capacity to digest what it craves. Persevere until the cure is complete—until healthful blood, fit to be the material of flesh and muscle, bone and nerve and brain flows through the channels of circulation, instead of the watery pabulum with which they have heretofore been imperfectly nourished.

TRY IT!

How well we remember in days that are gone,
The feelings we felt as we saw the cork drawn—
The disgust—the recoil
From "Cod Liver Oil,"
Dealt out to poor souls in the days that are gone!
But who could complain
Of this to be ta'en?
It swallows as easy as sparkling Champagne—
Does "Marvins' Deodorized Oil."

A GOOD OFFER TO THE

Ladies of Portsmouth and Vicinity.

E. A. JOY

Has Fitted up a Spacious and Elegant SEWING MACHINE ROOM directly over his Music Store and employs a competent young lady to take charge of the same. A cordial invitation is hereby extended to all the ladies (not having good Sewing Machines of their own) to bring in lots of work and learn to make it up on the Machines. *This* will cost nothing whether a Machine is purchased or not. If you do not buy now, you will at some future time; for the day is not far distant when a SEWING MACHINE will be considered as indispensable as a Cook-Stove. Come as often and stay as long as you please.

MR. JOY'S business in the Sewing Machine line is very rapidly increasing, which enables him to make the above generous offer.

His long experience in this branch qualifies him to be an excellent judge of the goods he sells; and as he has had the Agency of *all* kinds offered him at different times it is reasonable to suppose that the *Best* SEWING MACHINES may always be had at the SEWING MACHINE EMPORIUM, No. 9 PLEASANT ST., nearly opposite the Post Office, Portsmouth, N. New Advertisements to-day.

Coal—C. E. Walker & Co.

There will be preaching (D. V.) at Ward Room No. 3, this (Thursday) evening, by Elder E. Owen. The poor are especially invited.

Rev. George Trask of Fitchburg, Mass., the great "anti-tobacco Apostle," proposes to speak in this city next Sunday, the 11th, three times if he can find so many places to speak in.

The Concord correspondent of the Boston Journal says that J. L. Foster, formerly of this city, has purchased an interest in the N. H. Patriot, and is to edit that paper.

Lannier's Dramatic Company advertise two theatrical entertainments, on Friday and Saturday evenings at the Temple. The plays they will present are popular ones, and if the weather is not too hot the audiences will probably be satisfactory.

A CARD.

Portsmouth, June 7, 1871.

At a regular meeting of Storer Encampment, G. A. R., held June 6th, the following resolution was unanimously adopted:—

Resolved, That the thanks of this Post be tendered to the ladies who so kindly assisted in various ways, and to the Fire Department, U. S. Marine Corps, and to those who contributed money or flowers, or assisted in any manner in the ceremonies of Memorial Day, And to the ladies who presented the two beautiful silk Guidons, we offer assurances that their valuable presents are appreciated.

Henry Remick, the man who shot his son at Kittery Foreside on Monday night, was brought before Justice Putnam of York County, Me., on Tuesday, charged with an assault on the person of Henry J. Remick. He was held in the sum of $1,000, for trial at the September term of the S. J. Court. The session of the Justice's Court was held at the house of young Remick, as he is too badly injured to be moved, and his testimony was of too great importance to be dispensed with.

The Boston & Maine Railroad, by counsel, has filed a suit in equity against the Portland, Saco & Portsmouth Road, for refusing to take the express trains of the former from Berwick Junction to Portland.

Judge Walter of the S. J. Court, at Portland, on Wednesday granted the application of the B. & M. Railroad Co., for an injunction restraining the P. S. & P. from further proceedings against the B. & M., and compelling the P. S. & P. to run their trains in connection with the B. & M. The next step will probably be for the P. S. & P. to ask a release from the injunction.

Marvin's Deodorized Cod Liver Oil is taking, or rather has taken, the front rank among the many different—and different-looking, smelling and tasting—preparations offered to the public under the name of cod liver oil. The manufacture of Marvin Bros. & Bartlett is superseding all other oils of the kind in this market, which shows that a good article may have profit in its own country. The oil fully deserves its popularity, its absolute purity and the great care taken in its preparation bringing it much nearer to being a tasteless and odorless oil than anything else made from cods' livers that we have yet seen,—many of the other "odorless oils" reminding us of a whale-ship's hold in August. Marvin's cod liver oil is pleasant to take, and is being taken by the public in quantities sufficient to make a ready market for all the firm can produce with their present facilities.

Barnabee Doomed.—Barnabee 'the inimitable Barnabee, we fear will hang his harp upon the willow when he learns that he has been tabooed by a noted D. D. who has the oversight of a Literary Institution not a hundred miles from this city. The graduating class, like sensible people, thought it would be a good thing to have some quartette singing at the graduating exercises, instead of an orchestra, and accordingly made arrangements with a well known teacher of music in this State for the services of Mr. Barnabee and other good singers for that occasion.

The D. D. heard of it, and straightway summoned the offenders together, and very gravely informed them that "Mr. Barnabee made people laugh in his concerts!" and he couldn't permit such an indecorous thing to be done in the sanctified walls of that literary institution, where "daughters were polished after the simulitude of cornerstones," and the engagement of Mr. Barnabee must be revoked. And revoked, we suppose it has been. What the class will do we know not.

Our concern is for Barnabee. Poor fellow, how can he ever tune his lyre after such a squelching from such a "Watchman on the walls of Zion," who for five and twenty years at least has sung, "Lord, what a senseless worm am I."—*Concord Monitor.*

The Lynn Light Infantry, Capt. George T. Newhall commanding, will arrive in this city to-morrow (Friday) and be quartered at the Rockingham House. The Anniversary Dinner of the company and their invited guests will be served at the Rockingham at 3 o'clock P. M., Saturday.

Communicated.

The following lines were contributed by a lady, for the memorial services recently held at Kittery Foreside; and for beauty of thought and terseness of style as well as for fine rythm we think will take rank with the productions of more pretentious authors. We wish to refer the reader particularly to the last two lines of the closing stanza wherein we are all reminded "to *live* as nobly as they *died*, in peace or battle line." When there is so much cheap doggerel in the market, it is refreshing now and then to fall in with such a really meritorious article.

With fragrant buds and cheerful bloom
We come to dissipate the gloom
That floats around the silent tomb
Where sleep the mouldering forms
Of those who met the battle's shock,
With flashing sword and clicking lock,
Firm as the adamantine rock
That never yields to storms.

The blessed fruits of Liberty,
Enjoyed to-day by you and me,
Drop from the brood, majestic tree
Defended by the brave
Who felt for human brotherhood,
And grandly died for other's good:—
They freely gave life's gushing blood,
To fill an humble grave!

Now to my saddened gaze appears
The widows' and the orphans' tears!
The thousand wants, the thousand fears,
That crowd into the life
Of helpless ones, whose prop and stay
From their weak arms was torn away;—
Whose weary lot from day to day,
Is struggle, toil and strife.

O! may we from the silent dead,
Here learn a lesson, to be read
'Till deeds of love on every head
Shall fall as rain or shine;
And marching firmly side by side,
O! may it be our joy and pride,
To live as nobly as they died,
In peace or battle line.

The break in the canal at New Orleans has been closed and the water is subsiding. The inhabitants of the inundated portions suffered not only from water but from thieves. A committee is collecting aid now. The loss will be about half a million, and the canal company will be sued for damages.

At a picnic at Parlor Grove, Cincinnati, June 6th, a large number of the members of St. Anthony Catholic Church were present. A quarrel was begun and led to a riot, in which many persons were injured, and some fatally. The police of Cincinnati were telegraphed for, and a strong body arrived and quelled the disturbance, making numerous arrests.

THE NEW ORLEANS, MOBILE & TEXAS RAILROAD COMPANY

Are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 226½ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered

to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than twenty-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.

Subscriptions will be received in Portsmouth by

First National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

NEW FIRM!

INSURANCE BUSINESS

The Subscribers having purchased the "Business and Goodwill," of

The Old and Well Established Insurance Company of JOHN S. HARVEY,

have this day formed a co partnership, under the firm name of

MORSE & ILSLEY,

for the purpose of carrying on the Insurance Business in all its branches. They trust, by industry, integrity and good judgment, to merit the approbation of all the old patrons of the office, and to receive a good share of new business.

MR. HARVEY will still take a lively interest in the Companies for which he has so long and faithfully worked, and he is authorized to receive applications for Insurance in said Companies as our Agent.

JOSEPH P. MORSE,
WINGATE N. ILSLEY.

Portsmouth, May 1, 1871.

A CARD.

HAVING disposed of my Insurance Business to Joseph P. Morse and Wingate N. Ilsley, two gentlemen well known for their integrity and business capacity, I return my thanks to my old and constant patrons and friends, for their many favors, and earnestly recommend my successors, trusting the same generous patronage will be extended to them as to myself. They represent some of the oldest and most reliable Companies in both Fire and Life Insurance in the Country.

Morning Chronicle.

THE Indian chiefs Little Raven, Buffalo Goad and Stone Calf made speeches to an immense audience in Tremont Temple, Boston, Tuesday evening. Mayor Gaston and Wendell Phillips also spoke.

THE subject of the restoration of the Pope to temporal power is now under discussion in the Italian assembly. Signor Crispi on Monday proposed that some national arrangement should be made to secure the country against such an attempt by France.

THE Atlantic Cable Company announce that the cable tariff for ten words will be ten dollars in gold, date, address and signature to be counted and paid for. The limit of messages to 50 words is removed, and press despatches hereafter will be charged full rates.

—"Invisible switches" are advertised by a hair dealer. Now give us unseen chignons and we shall be happy. We have seen them too long.—*Chicago Mail.*

—A San Jose (Cal.) man recently lost his nose in a free fight, and putting it in his pocket, started for the doctor's, stopping to change his clothes on the way. After the doctor had washed the blood from his face he called for the servered member in order to replace it, but his patient, after feeling awhile in his pockets, coolly remarked: "I beg pardon, doctor; it is a rough joke on me, but I left my nose at home in the other vest!"

—They make butter in Ravenna, Ohio, by putting the cream in a cloth bag and burying it about two feet deep in the earth, letting it remain three days. When it is disinterred it is found to be transformed into pure, sweet, yellow butter, with not one drop of buttermilk to be seen. The folks out there think that cream will yield about one-third more butter by this process than by the old-fashioned way of churning.

—There is nothing like a good green turf around farm buildings to prevent dust from being blown into the parlor, kitchen or dairy room. On a dairy farm, neatness can hardly be carried to an extreme. The stables, the yards, and the rooms used for keeping the milk and making the butter or cheese, cannot be kept too clean. The yards should have suitable drainage, and be provided with dry walks for the attendants. The stables cannot be kept either clean or comfortable without plenty of bedding or a liberal supply of sand, loam or muck, dried and stored under cover, to be used freely at all times as absorbents; while with these, a stable may be kept in such a condition that the dairy farmer may not be ashamed to receive his friends or customers at any time.

MRS. BOTT'S JOKE.—The cheerful, light-hearted frivolity which characterizes some of the women in the far west is very delightful. Mrs. Botts, of Virginia City, for instance, determined to play a prank upon Mr. Botts. Botts, it appears, was in the habit of coming home every night so completely full of undiluted firewater that the revenue inspector had half a mind to compel him to wear a stamp on his stomach. Mrs. Botts got awfully tired of this kind of thing. She considered it objectionable and rough for Botts to come zigzagging into the house, treading on the baby, upsetting the chairs, making himself generally disagreeable.

So Mrs. Botts, who seems to be something of a wag, determined to put old Botts out of his misery at once and arrange his noble form for the cold and silent grave. So she went up into the garret and dropped a rope down through a knot-hole into a sitting-room. She made a slip-knot in the lower end, and fastened the other end to a bed-post up stairs. Her amusing little game was to put that noose over Botts' head while he sat there drunk, and then to rope him right up to the ceiling so as to choke him to death, and jam his skull to minute particles against the rafters.

Mrs. Botts is considered by competent judges to be the most facetious woman in Nevada. Old Botts came in as usual, and sat down. Mrs Botts, while pretending to caress him, slipped the rope over his head. Botts was as calm as the bosom of a summer lake. He sat there as if he enjoyed himself. But, when Mrs. Botts had everything fixed nicely, she bolted up stairs. Botts immediately rose with a sly twinkle in his dark, solferino eye, slipped off the noose, and tied it around the stove. Unconscious Mrs. Botts up stairs spat on her hands, seized the rope, and hauled in. She got the stove up to the ceiling, and then she gave it a series of jerks, bumping it against the rafters.

A cataract of pans, gripirons, pokers, stove plates, ashes and pipe, rained down in the sitting room, but Mrs. Botts thought it was only old Botts kicking in his last agony. So she fastened the rope and rushed down the back stairs shouting to the neighbors that Botts had hanged himself. The people rushed in and there was Botts sitting calmly amid the wreck of matter with his fingers to his nose, while the stove swung backwards and forwards like a pendulum.

When Mrs. Botts recovered from her fainting fit she was in jail. Botts now spends his evenings at home, trying to accompany himself on the flute while he sings, "I'm lonely to-night, love, without you." Mrs. Botts joke is not regarded as a satisfactory success by the inhabitants of Virginia City.

THIRTY THOUSAND DOLLARS PAID.—The TRAVELERS LIFE AND ACCIDENT INSURANCE COMPANY, of Hartford, Connecticut, paid $20,000 on W. H. Forbush and Wm. C. Curry, victims of the New Hamburg railroad; $5,000 on the late Jas. N. Blake, mayor of Worcester, Mass.; and $5,000 on the late S. H. Lewis, Jr., of St. Albans, Vt. All these accidents occurred, and the insurance was paid, within three months—each claim being paid about sixty days before it was due by the terms of the policy. The TRAVELERS has paid **SEVEN HUNDRED DOLLARS A DAY** in benefits to its policy holders, for deaths or injury by accident, for every working day during the past seven years.

600,000 ACRES
CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $3 to $15 per acre—the average being about $8. The greater portion of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.

EXPLORING TICKETS are sold at the Company's ticket offices at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

TARRANT'S SELTZER APERIENT.

SECTS AND CREEDS DIFFER, but there are no dissenters from the general principle, that a great medicine is a great blessing. We have many of these blessings, but among them all, in the province to which it belongs, no greater than

Tarrant's Effervescent Seltzer Aperient.

A column would not suffice to enumerate the ailments to which it is prescribed by physicians of the highest standing. It does not belong to the category of secret patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, a stomachic, an anti-febrile preparation, and an admirable remedy for all bilious complaints.

Let there be no mistake. Secure the genuine article only.

A GREAT MEDICAL DISCOVERY!
DR. WALKER'S CALIFORNIA
VINEGAR BITTERS,
Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.
WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Rootand Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs,

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. lyrdawf&b16

—Once more Chicago is glorified through her base ball club and Boston is humiliated, the ratio being as 16 to 14. Glory enough for a hot day.—*Chicago Mail.*

—A young lady had many admirers among the limbs of the law, and on being asked how she escaped heart-whole, supposed it was owing to the fact that "in a multitude of counselors there is safety."

—A studious writer classifies blondes as follows: "The Gothic-Irish, the Saxon-English, the little ridiculous blonde, the cephalic gold blonde and the lymphatic blonde. Of these the cephalic gold individuals are most dangerous to masculine peace of mind."

—A Kansas billiard saloon uses a homemade table—a large dry goods box, on which was laid a wagon load of sandstones, covered with eight yards of blue jean. For pockets they use old boots, about No. 10; for cues, broken hoe-handles, boiled eggs for balls, and to count this lovely game they use dried apples on a clothes line.

—General Grant's son Fred, who graduates this year at West Point, has all the obstinacy, smoking propensities and nonchalance of his father developed in undiminished intensity. Some time ago he pitched into a brother cadet who had made sarcastic allusions to his father, and was so badly whipped as to be laid up for several days in consequence. A second and third trial had a like result, but venturing upon a fourth encounter he came off victorious.

—A distinguished professor in one of our theological seminaries relates the following: Being in Germany, with a red-covered book in his hand, a German, supposing the book to be "Murray," asked, in English, if he was an Englishman? The professor replied in German that he was not. The conversation presently turned upon an object of architectural beauty near at hand, in the course of which the professor incidently raised the question of its cost. "Sir," exclaimed the German instantly, "you are an American." "How do you know that?" rejoined the professor. "Sir," continued the German, striking an attitude and assuming a tone of great solemnity, "on the resurrection morn, when we stand before the Great White Throne, the first question of every American in the whole assembly will be; 'How much did that throne cost?'"

—A young husband in Baltimore is in a nice pickle. From some cause he concluded his wife did not love him as she should, and he determined to test that element. Therefore he wrote a note, telling her that he was going to drown himself in the canal, and that before she read the contents of that note his spirit would be hovering over her, observing how she took his death. The would-be suicide entrusted the note to a small boy, but the boy mistook the direction and carried the note to a next door neighbor of his wife. Not liking to communicate the dreadful intelligence to the unlucky woman, the lady handed the note to an officer with instructions, if possible, to prevent the rash act. The officer hurried off, and sure enough, found the man on the bank of the canal. Rushing up, the officer seized the unlucky husband and marched him off to the station-house, notwithstanding his protestations that he did not intend to commit suicide, etc. After the incarceration of the husband, the note was handed to the wife, with the information that he had been saved. After upbraiding the officer for not "letting the darned fool drown himself," the wife made a charge of lunacy against him, and he barely escaped being placed in the asylum.

GROOMING HORSES.—The horse being the most important machine in the farmer's establishment, care should be taken to preserve him in as perfect a state of health and condition as possible. The ordinary care of a horse consists in feeding and watering him, and when from neglect he suffers, dosing him with balls and drenches. Physicking a horse may be avoided altogether by treating him properly. Give him a roomy, airy stable—a loose box, or stall, is preferable to tying up with the halter. Clean out his stable daily; nothing is more hurtful to the feet of a horse than to permit him to stand in a pile of fermenting manure. With a clean bed, and left loose in his stall, he will, of his own instinct, avoid lying in filth, and much labor in cleaning will be saved. Every night, when the day's work is done, wash his feet and legs free from mud and dirt, and in winter clean off all ice or snow. Cleanliness is an absolute preventive of grease and other diseases which commonly affect the feet and legs of horses. Have handy in the stable a piece of rough sacking and rub his legs and knee-joints for a few minutes before leaving him for the night. A day's ploughing or harrowing over soft yielding soil is excessively hard work for the legs both of horse and man, and this plan of rubbing with a coarse cloth is good for either. Feed regularly, and groom morning and night, and you may [illegible] to the work.—*Hearth and Home.*

ARE YOU GOING TO PAINT? —IF SO, USE THE— AVERILL CHEMICAL PAINT.

It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.

I shall keep this season a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead and Oil, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.

I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing good experienced workmen by the day at very low wages. B. NORTON, only Agent for selling the AVERILL CHEMICAL PAINTS, in the City. Burlington, Cedar Rapids and Minnesota Railway. FIRST MORTGAGE 7 PER CENT. GOLD BONDS, At 90 and Accrued Interest in Currency. ON A COMPLETED ROAD, FREE OF U. S. TAX.

This road is now in the dullest season of the year earning more than 12 per cent. net on the amount of its mortgage obligations.

Its 7 per cent. gold bonds are equal for security to Government or any Railroad issue. They command a ready market and we are prepared to buy and sell them at all times. No investment in the market possessing equal guarantees of safety, returns an equal percentage of interest. The Chicago, Burlington and Quincy has given a traffic guarantee and obligated itself to invest in these bonds 50 per cent. of the gross earnings derived from all business from this road. CARD. Having become satisfied after thorough investigations that Elastic Sponge, as now and lately manufactured, is one of the best of all substitutes for curled hair, for many if not most uses in upholstery, we have accepted the Agency for it, and intend to make it hereafter a speciality in our business. The objections which been made to it and which it is well known we ourselves have thought were well founded, we have ascertained cannot be urged against the article as now perfected. The process by manufacture has been entirely remodeled under the advice and superintendence of one of the most eminent chemists of New England. New chemical and mechanical appliances have been introduced in cleansing crude Sponge, and in charging it with glycerine with such entire success, that Elastic Sponge may now be said to be chemically pure. There is absolutely nothing in it but the clean fibre of Sponge and chemically pure glycerine. The objections to Elastic Sponge being thus removed there remain its undisputed merits which certainly entitle it to be considered one of the most valuable, as it is one of the most curious and interesting of late discoveries. Chief among these merits is, that it is proof against moths, the great scourge of the business,—against all other insects. Then its elasticity is permanent, based as it is upon the non-evaporable property of glycerine and the indestructibility of sponge fibre. We have always been satisfied upon these two points which are the essential requisites in such materials. The evidence is now equally clear that it is wholesome and sweet. It is very light and soft, easy to manipulate, and cheap enough for all except the very lowest class of goods. For the cushioning of Churches, Theatres, Public Halls, Railway Stations, Omnibuses, Carriages, Steam and Horse Cars and the like, it will probably be found, everything considered, the best article in use. For all uses, and especially for Bedding, we are now prepared to recommend the public to give it a fair trial as we ourselves intend to do. We are are ready also to answer inquiries, make estimates and take orders for every description of work in Sponge as well as to supply the trade the article in Bulk. HARTY BROTHERS & CO. [illegible]

FRIDAY, JUNE 9, 1871.

Editorial Correspondence.

Phenix Hotel, CONCORD, June 7.

The action of the Republicans thus far paralyzes the combined opposition. All yesterday afternoon and this forenoon discussion and voting by yeas and nays has been carried on, the delay being favorable to the Republicans. The Republicans lusist on a fair ballot for Clerk, while the Democrats want it done by resolution. Bingham of Littleton and other Democrats insinuated when to-day's session opened that the Clerk, Mr. J. H. Benton, Jr., had erroneously recorded the yeas and nay's in two instances yesterday. The House granted leave to Mr. Benton to speak for himself, and he indignantly repelled the insinuation, stating that he did not record the votes in the first instances and if there was any mistake in the second case it was an unintentional error. Mr. Page of Concord and other Democrats warmly endorsed Mr. B., Mr. Page saying that he had been at the desk all day yesterday, and no mortal man could well avoid a mistake amid such confusion. At the Clerk's request two tellers were appointed to assist him in checking the votes. The Speaker selected Messrs Hackett and Page as tellers. Messrs Fowler, Wadleigh, Bingham and Page insisted on the members drawing their seats before further business should be transacted, and the House voted unanimously to do so.

Hall the drawing had been gone through with when it was found that several members had drawn duplicate numbers. The House voted the drawing null and void. Bingham moved to postpone the drawing till Friday, at 11 A. M. Mr. Ramsdell, Republican, spoke against its passage and moved to amend so that the seats could be drawn this afternoon at 3 o'clock. The yeas and nays being called, the amendment was defeated—yeas 162, nays 164. Bingham moved the previous question. Ramsdell moved to lay it on the table and called for the yeas and nays, which resulted as follows—yeas 161, nays 163. Bingham renewed his call for the previous question. Mr. Wadleigh, Republican, in reply to Mr. Bingham, wanted it distinctly understood that the Republicans were not responsible for delay. The Democrats would not allow a fair ballot for Clerk, and now insisted on postponing the drawing of seats until to-morrow. The statutes provide that seats shall drawn on the first day of the session and not on the third. Bingham called Wadleigh's charge an exhibition of "cheek," was called to order and subsided. An impulsive Democrat from the country made some ridiculous remarks about the mistake in printing the numbers, and thought a child of 9 years could do better than that. [It is very probable that the chap from the rural districts would not know the figure 6 from the figure 9 in a fount of type. The mistake was occasioned by the printing of duplicate numbers, which were all put in the box in a hurry.] The House voted to adjourn for dinner at 12,45 P. M. by a large majority.

THE Turkish government is engaged in constructing extensive works for the defence of the sea approaches to Constantinople. About two hundred massive hemispherical iron tanks, each containing seven thousands pounds of powder, will be sunk in suitable parts of the Dardanelles and the sea of Marmora, at the mouth of the Black Sea and in Bosphorus. These tanks are to be filled with durable and most delicate apparatus which will indicate to an operator on land the passage of any ship over the spots at which they are sunk. In case of the approach of a hostile fleet these powerful submarine mines would be exploded, within a radius of six hundred feet, and would, it is said destroy the largest iron-clad built. These tanks are now building, and experiments in the explosion of submarine iron mines and torpedoes are being conducted by the superintendent of this department of the Turkish Navy, who is represented to have formerly been an officer in the United States Navy.

THE brig J. L. Bowen has arrived at New York and the mutineers are arrested and locked up. Captain Amesbury's remains were buried at sea on the 4th instant. It appears that the captain was killed by a blow on the head with a capstan-bar in the hands of a sailor named Thomas. The crew claim that they assaulted the captain and mate in self-defence.

The saw mill of C. W. Batchelder at Bristol was burned on Tuesday morning. Loss about $1000; no insurance. The fire was caused by the breaking of a kerosene lamp in the mill.

Commencement week at Dartmouth College:—Sunday afternoon, July 16, baccalaureate discourse, by President Smith; Sunday evening, address before the theological society, by Professor S. C. Bodwell of Hartford Theological Seminary; Monday evening, prize speaking; Tuesday afternoon, classday exercises; Wednesday morning, address before the alumni association, by Richard B. Kimball of New York; Wednesday afternoon, anniversary of the united literary societies—address by Rev. Dr. McCosh, president of the college of New Jersey, and poem by B. P. Shillaber of Chelsea, Mass.; Wednesday evening, concert by the Mendelssohn Quintett Club of Boston; Thursday morning, commencement exercises; Thursday evening, levee in the library at Reed hall.

PARIS. — Archbishop Darboy was buried with great ceremony June 7. The trial of the commune leaders will begin at once.

The minister of marine has written to the arsenals and navy yards, directing them to employ French, not foreign mechanics.

Thiers insists on giving the republic a fair trial. The municipal elections at Marseilles and Tarascon have been declared void. The proscription of the Orleans princes will be repealed.

The Figaro wants the gambling houses re-opened as an attraction to strangers.

It is thought that the damage to Paris by fire and fighting is about 800,000 francs.

The health of Paris is excellent.

THE steamship City of Melbourne at San Francisco from New Zealand, brings the following news: The New South Wales parliament had passed a bill authorizing the enrollment of a defence corps. The government had forwarded a petition to England praying the British government to annex the Fiji Islands to New South Wales. Great floods had devastated a large portion of the colony. The losses were immense, the early wheat crop being almost entirely ruined. The gold yield of the colony has improved to the extent of nearly 15,000 ounces. A new disease has broken out among the sheep, which is destroying them by thousands. No remedy has yet been discovered.

The Victoria parliament assembled on the 25th ult. Captain McMahon was chosen speaker. The monitor Cerebus has arrived safely and has been prepared for purposes of defence.

A scientific expedition has been projected to go to Cape York next December to watch the solar eclipse. The government has proposed a law re-introducing the lash as a criminal punishment.

In South Australia heavy floods in the interior have put a stop to the operations of the constructors of the overland telegraph. The remains of three men, supposed to have been part of an exploring party, have been found far in the interior.

In New Zealand the Tekootis rebels were defeated by friendly natives. Twenty-five rebels were killed. The Ureivera rebels have surrendered. The gold fever has revived. Immense quantities of gold are obtained from the Caledonian reef.

LOREN AYERS, who murdered his wife in Manchester on Monday last, died at one o'clock Thursday morning in the county jail from the effects of a wound he inflicted upon himself. The mother of Mrs. Ayers arrived there from Island Pond, Vt., Wednesday morning, and the funeral of the murdered woman took place in the afternoon.

THE Prussians, during the late war with France, took immense quantities of war material, which the Pall Mall Gazette sums up as follows:—

At Spicheren, Pange, Gravelotte, Vionville, L'Hallu and Bapaume, hardly any trophies were taken. But at Wissembourg, 2 colors, 1 gun and 800 prisoners were captured; at Worth, 2 eagles, 34 guns, 6 mitrailleurs and 4000 prisoners; at Beaumont, 8 eagles and colors, over 50 guns and 20,000 prisoners; at Sedan, 400 guns and mitrailleurs and 80,000 prisoners, with all their colors; at Metz, 56 eagles, 600 guns and mitrailleurs and 170,000 prisoners. Altogether, exclusive of the capitulation of Paris, the late war has yielded over 120 eagles and colors, 6400 guns and 354,995 prisoners, to which ought to be added 74,000 interned in Switzerland and 6000 interned in Belgium. The capitulation of Paris has added over 170,000 prisoners, the number of trophies being not yet accurately sixted.

THE International Typographical Union adjourned its session in Baltimore, June 7, to meet in Richmond next year. It refused to admit colored printers to membership.

THE horse Thomas Jefferson won the $2000 purse at Prospect Park, Brooklyn, June 7; best time, 2.27 3-4.

BUSINESS NOTICES.

Johnson's Anodyne Liniment may be used to advantage where any Pain Killer is desirable. In cases of severe cramps and pains in the stomach, it is undoubtedly the best article that can be used.

Habitual constipation leads to the following results: Inflamation of the kidneys, sick and nervous headache, biliousness, dyspepsia, indigestion, piles, loss of appetite and strength; all of which may be avoided by being regular in your habits, and taking, say one of *Parson's Purgative Pills* nightly, for four or six weeks.

SPECIAL NOTICES.

A Pitiful Condition.

It is a sad thing to pass through life only half alive. Yet there are thousands whose habitual condition is one of languor and debility. They complain of no specific disease; they suffer no positive pain; but they have no relish for anything which affords mental or sensuous pleasure to their more robust and energetic fellow-beings.

In nine cases out of ten this state of lassitude and torpor arises from a morbid stomach, indigestion destroys the energy of both mind and body. When the waste of nature is not supplied by a due and regular assimilation of the food, every organ is starved, every function interrupted.

Now, what does common sense suggest under these circumstances of depression? The system needs tonicing and strengthening; not merely for an hour or two, to sink afterward into a more pitiable condition than ever, (as it assuredly would do if an ordinary alcoholic stimulant were resorted to,) but radically and permanently.

How is this desirable object to be accomplished? The answer to this question, founded on the unvarying experience of a quarter of a century, is easily given. Infusing new vigor into the digestive organs by a course of HOSTETTER'S STOMACH BITTERS. Do not waste time in administering temporary remedies, but wake the system up by recuperating the fountain-head of physical strength and energy, the great organ upon which all the other organs depend for their nurture and support.

By the time that a dozen doses of the great vegetable tonic and invigorant have been taken, the feeble frame of the dyspeptic will begin to feel its benign influent. Appetite will be created, and with appetite the capacity to digest what it craves. Persevere until the cure is complete—until healthful blood, fit to be the material of flesh and muscle, bone and nerve and brain flows through the channels of circulation, instead of the watery pabulum with which they have heretofore been imperfectly nourished.

NEW ADVERTISEMENTS.

PROPOSALS FOR MATERIALS TO BE SUPPLIED TO THE NAVY YARDS UNDER THE COGNIZANCE OF THE BUREAU OF CONSTRUCTION AND REPAIR.

NAVY DEPARTMENT, BUREAU OF CONSTRUCTION AND REPAIR, WASHINGTON, D. C., June 6, 1871.

SEALED PROPOSALS to furnish Timber and other materials for the Navy for the fiscal year ending June 30, 1872, will be received at this Bureau until 12 o'clock M., of the 30th of June instant, at which time the bids will be opened.

The proposals must be addressed to the Chief of the Bureau of Construction and Repair, Navy Department, Washington, and must be indorsed "Proposals for Timber, &c., for the Navy," that they may be distinguished from ordinary business letters.

To prevent confusion, and facilitate the opening of the bids, parties bidding for supplies at several yards will enclose their bids in separate envelopes, each indorsed with the name of the yard for which the bid is made.

Printed schedules for such classes as parties deal in and intend to bid for, together with instructions to bidders, giving the forms of proposals, of guarantee, and of certificate of guarantors, with printed forms of offer, will be furnished to such persons as desire to bid, on application to the Commandants of the respective Navy Yards, and those of all the yards on application to the Bureau.

The Commandant of each Navy Yard, and the Purchasing Paymaster for each Station, will have a copy of the schedule of the other yards, for examination only, in order that persons who intend to bid may judge whether it is desirable to make application for any of the classes of those yards.

The proposals must be for the whole of a class, but the Department reserves the right to reduce the whole class, should the interest of the Government require it, before the execution of the contract. All applications for information, or for the examination of samples, must be made to the Commandants of the respective yards.

The proposal must be accompanied by a certificate from the Collector of Internal Revenue for the district in which the bidder resides, that he has a license to deal in the articles for which he proposes; *and, by direction of the Department, bids or offers will be received only from parties who are bona fide dealers in, or manufacturers of, the articles they offer to furnish.* The guarantors must be certified by the Assessor of Internal Revenue for the district in which they reside.

The contract will be awarded to the person who makes the lowest bid and gives the guarantee required by law, the Navy Department, however, reserving the right to reject the lowest bid, or any which it may deem exorbitant.

Sureties in the full amount will be required to sign the contract, and their responsibility must be certified to the satisfaction of the Navy Department.

An additional security twenty per centum will be withheld from the amount of the bills until the contract shall have been completed, and eighty per centum of the amount of each bill, approved in triplicate by the Commandants of the respective yards, will be paid by the Paymaster of the station designated in the contract, or, if none is specified, by the Paymaster of the station nearest the yard where the goods are delivered, within ten days after the warrant for the same shall have been passed by the Secretary of the Treasury.

The classes of this Bureau are numbered and designated as follows:—

No. 1, White Oak Logs; No. 2, White Oak Keel Pieces; No. 3, White Oak Curved Timber; No. 7, Yellow Pine Logs; No. 8, Yellow Pine Beams—Oregon Pine Beams at Mare Island yard; No. 9, Yellow Pine Mast Timber- Oregon Pine Mast Timber at Mare Island yard; No. 11, White Pine Logs; No. 12, White Pine Mast Timber; No. 13, White Pine Plank, Boards—Sugar Pine Boards at Mare Island yard; No. 15, White Ash, Elm, Beech—White Ash, Redwood at Mare Island yard; No. 16, White Ash Oars; No. 18, Black Walnut, Mahogany, Maple, Cherry; No. 22. G. A. R. Notice.

LANNIER'S "Dramatic Constellation," of which R. S. Meldrum stage manager and Miss Fanny Garbanatti is the leading lady, offer a good programme for this evening at the Temple.

AT the meeting of the State Medical Society in Concord, Dr. J. W. Parsons of this city introduced resolutions concerning the death of the late Dr. Laighton, which were unanimously passed.

THE Athletic base ball club of this city will play with the Mutuals of Newburyport at the Plains, this afternoon at half-past two o'clock. These clubs are not the ones which originally bore the names, but it is expected they will play about as well as the old ones.

G. SWAINE BUCKLEY, the well known comedian, will appear at the Temple on Monday evening next, supported by Miss Dollie Bidwell and a large corps of performers, including several Portsmouth favorites,—and will present the new sensational drama entitled "On the Track," written expressly for him. During the piece Mr. Buckley appears in six different characters, introduces his performance upon all sorts of musical instruments, gives a banjo solo and song and dance.

IN BOARD OF ALDERMEN, June 8; Mayor absent, Ald. Fernald in chair.

William F. Batten's complaints of pig pens near his house were referred to Health Committee.

The bond of Collector Shannon was received and referred to Finance Committee.

The bonds of police officers Fernald and Wesley Rand were referred to Committee on Police.

The Finance Committee were requested to consider the expediency of providing at the present time for the whole or a part of the city debt falling due in 1872.

Resolved, that the Representatives to the General Court from this city be requested to procure appropriate legislation to provide for filling the office of Mayor when made vacant by the temporary absence or disability of the Mayor.

Voted, that whenever in the absence of the Mayor an emergency shall arise requiring special meeting of this Board, the City Clerk be authorized to call the Board together. Adjourned,

ON Wednesday, as two steamers,—the Emerald and the Ticonderoga's launch,—were backing out from the Navy Yard slip on the Maine side, a sailor and a little boy sitting on the gunwales of the launch, by some accident fell overboard, causing much excitement among the passengers on board the Emerald who, in their eagerness to do something toward saving the little boy (the sailor was supposed to take care of himself) threw overboard first one of the large cushions belonging in the stern of the steamer, then a hat, then a cane,—and finally a large grating was taken up to follow the cane, hat and cushion; but finding that the boy had been seized with a boat-hook, fastened in the loose part of his trousers, and hauled on board, it was deemed inexpedient to heave the grating. It is certainly remarkable that the little fellow should have succeeded in keeping his head above water, after having so many discouraging obstacles thrown in his way. We would not be understood as hinting that those who thus acted did not mean to do their best toward assisting the boy to get out of his predicament, but only mention it to show how unwisely some will conduct themselves when nervously excited. The boy was an excellent swimmer, and if he had been let alone, would have swam ashore had it been much further away than it was.

—Chicago doesn't like the milk it gets.—It prefers the udder kind.

—A good book and a good woman, are excellent things for those who know how justly to appreciate their value. There are men however, you judge for the beauty of their covering.

—Little six-year-old Georgie, having been instructed by his aunt Katie to pray for his papa, and, being one evening interrupted in his devotions, and told by her that he must now pray for his mamma, replied, "Aunt Katie, just hold your horses now. Who's runnin' this prayer, you or me?"

THE Cincinnati rabbinical conference recommends the complete separation of church and state, and the establishment of a rabbinical college.

VICE-PRESIDENT COLFAX, writing from South Bend to a friend, denies the widely-published report of his intemperance in the use of tobacco, and adds:—

Since first elected to preside in the House, eight years ago, I have never risen in the morning here or at Washington, but I have not felt I had twice as much work to do that day as there was really time for,—correspondence of all conceivable inquiries and all kinds of business, &c., often extending to hundreds of letters per week, I have attended to myself in addition to official duties always in hours stolen from rest and frequently in hours stolen from sleep. The very day I was attacked, having felt the oppressive atmosphere of the executive session more unpleasantly than usual, I left it, and going to my room wrote a large number of letters to catch up with the arrears of correspondence, returning to the chair at 4 P. M. The blow fell ten minutes thereafter. It is the old story of mental strain without relaxation; but after this serious warning I intend to "mend my ways," and recognize that there is a limit which even the strongest constitution will not allow to be exceeded.

OUR New England women have been flattered—or at least praised—so often and so much, by visitors and natives of the masculine gender, for their beauty, that they have been in danger of being spoiled; in fact, we fancy a few have really been spoiled. But we have a corrective to offer the ladies after so much sweet, in the opinion of a Southerner writing from Keene to the Augusta (Ga.) Sentinel and Chronicle, who praises New England as a Paradise and her sons as Apollos, but perfectly "disgusts" the New England girls. Hear him, O! girls, and be humbled:—

There cannot be found on earth a more inviting or beatiful city than this, (Keene,) and yet it is but a fair sample of what all these New England towns are. It makes one think sometimes when he enters them with their wide streets, rows of green trees on every side, and their snow-white houses, that he is in fairy land. * * The women are the ugliest and homeliest I ever saw; but the men, as a general thing, are handsome as Apollos. Darwin himself can't account for this. I have not seen a pretty-laced woman since I came east of New York. They are educated, talented, accomplished, and dress with exquisite taste, but oh! shades of ancient Hebes, how awful ugly! I would not give the winsome smiles, the glance from the speaking eye, the red flush of the parting lips of one of our Southern girls or women for all the female beauties of this beautiful New England.

THE
NEW ORLEANS, MOBILE & TEXAS
RAILROAD COMPANY

Are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 226½ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.

Subscriptions will be received in Portsmouth by

First National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

NEW FIRM!

INSURANCE BUSINESS

The Subscribers having purchased the "Business and Goodwill," of
The Old and Well Established Insurance Company of JOHN S. HARVEY,
have this day formed a co-partnership, under the firm name of
MORSE & ILSLEY,
for the purpose of carrying on the Insurance Business in all its branches. They trust, by industry, integrity and good judgment, to merit the approbation of all the old patrons of the office, and to receive a good share of new business.

MR. HARVEY will still take a lively interest in the Companies for which he has so long and faithfully worked, and he is authorized to receive applications for Insurance in said Companies as our Agent.

JOSEPH P. MORSE,
WINGATE N. ILSLEY.
Portsmouth, May 1, 1871.

A CARD.

HAVING disposed of my Insurance Business to JOSEPH P. MORSE and WINGATE N. ILSLEY, two gentlemen well known for their integrity and business capacity, I return my thanks to my old and constant patrons and friends, for their many favors, and earnestly recommend my successors, trusting the same generous patronage will be extended to them as to myself. They represent some of the oldest and most reliable Companies in both Fire and Life Insurance in the Country.

THE CROW.—It is seldom that any one harnesses on to the subject of crows but nevertheless there is a grand opening for some healthy writer to do honor to himself and the Congressional district in which he lives, by saying a few words regarding this bird. The crow is a bird that is set up on two pieces of underpinning, as is common with all bipeds. He dresses in black in a close fitting long tailed coat, and his garments are always cut the same pattern and he looks as neat as a blackleg. He is as moderate as straining cold tallow through a fine sieve. He never hurries any more than a policeman, but always starts in season to get out of the way before any danger is nigh. He walks as if he was troubled with corns, and rolls like an old salt on his sea legs. There is generally about a dozen of him in a flock and the chief end of life with him is to get something to eat.

Crows are raised from the seed. The feminine crow plants more or less of them in a hill, as potatoes are planted, and instead of covering them with dirt she covers them with herself, and sets on them till they sprout and come up. When they begin to grow, they don't rush matters much, having all eternity before them. It is an undisputed fact that crows commence, but it is a mooted question whether they ever end; they certainly never do unless by accident, and accidents are rare in that family. We would like to be an insurance company and insure crows to live five or six thousand years, with a paid up policy in ten years, half cash and the balance note. Natural death is as great a curiosity with them as the Cardiff giant.

When out on a foraging expedition, they always put one crow on guard on a fence, a sort of picket, and his business is to keep watch, and what he does not see is scarcely worth any one's while to look after. Their eyes are run in their heads for business, and they never have to use Brazillian pebbles to make things look clear. They hold conventions and are noisier than a woman's rights meeting. They all talk at once, and yet a crow never speaks without *caws*. They are good linguists and rather have the advantage over man, as they can speak their own tongue and learn to speak his, which is a little beyond what he can do.

Crows are great favorites with the farmer, as they help him to raise his corn and peas. A flock of crows will raise an acre of corn, nearly as quick as the farmer can plant it. They have a first-class boarding house appetite, and every one knows that crows are *offal* eaters.

As an article of fobd there are a class of people that don't like crows; we don't know why, there is no bird whose meat *ranks* higher than the crow, but there is a prejudice against them, and as long as other game is fashionable, crows will command a fancier price than crows.

"It is easier for the eye of a needle to go through a camel," than it is to fool a crow. If men were half as wise, they never would purchase wooden nutmegs or invest in Western land speculations. A crow's head is passably level, and he can smell a mice as far as any nose that smells; they wear a "not for Joseph if he knows it" expression on their countenance all the time.

Crows' photographs are much used in business, and can be seen adorning the covers of blacking boxes and pat pers of stove polish. They representblack about as well as anything this side of a piece of charcoal. Some ardent admirer of this bird has perpetuated the name of the crow, by naming our national female game after it. We refer to Crow-k, and our object in writing this sketch was to state that now is about the time to set up the wickets, and prepare for the summer campaign. *Belfast Journal.*

DUCKS are said to do good service in exterminating the potato bug. A gentleman of Piqua, Ohio, put a pair of Muscovys into his potato patch, which was literally swarming with the bugs. The ducks ate the bugs with such advidity that the latter were soon exterminated, and the patch has not since been troubled with them. The ducks did not appear to suffer any ill effects from eating the bugs, and were not slow in "taking in" all they could discover. The duck remedy is certainly worthy of attention.

600,000 ACRES

CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the price is low, and exceedingly reasonable, ranging from $3 to $15 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.

EXCURSION TICKETS are sold at the Company's ticket offices at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

TARRANT'S SELTZER APERIENT.

SECTS AND CREEDS DIFFER, but there are no dissenters from the general principle, that a great medicine is a great blessing. We have many of these blessings, but among them all, in the province to which it belongs, no greater than

Tarrant's Effervescent Seltzer Aperient.

A column would not suffice to enumerate the ailments for which it is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, a stomachic, an anti-febrile preparation, and an admirable remedy for all bilious complaints.

Let there be no mistake. Secure the genuine article only.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

NO. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Research made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS.

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawfab16

NOT TO BE BEATEN.—A New Hampshire man and a man from Ohio chanced to meet at a public dinner in New York. The man from Ohio suggested to him of the Granite State that it might be advantageous to him to move to the West, especially if he proposed to follow the pursuit of a farmer. The Yankee could not see it; there was no State in the Union equal to New Hampshire. He of the Buckeye State could not agree to this. Ohio was inferior to New Hampshire in no respect she was superior.

The Yankee demanded to know a superior feature. The Buckeye commenced to enumerate; but as fast as he presented his claims of superiority, his antagonist unhesitatingly swept them away by bold and vigorous declarations to the contrary. At length, when all other sources of argument had been exhausted, the Buckeye confidently observed:

"You will at least allow that Ohio justly claims superiority over New Hampshire in point of the extent of the territory?"

"No, Sir!" promptly and emphatically responded the Yankee. "Your State spreads out because it is flat. Look at the mountains of New Hampshire! Goodness mercy! Just roll 'em out flat and they'd make territory enough to cover up the whole of Ohio and fill up a big slice of Lake Erie!"

A NEW SCHEME.—"My dear parson, I am delighted with your sentiments," said the Professor, confidentially, as they walked together in the smoking room. "They have given me so much pleasure that, in return, I must communicate to you an important secret. It's a scheme I have long entertained for setting the Church of England on its legs again." "Sir!" ejaculated the divine, indignantly. "It can stand perfectly well without your help, I do assure you. The religious census returns—" "My good sir;" interrupted the Professor, "that counts the ladies. There is no doubt whatever that a great number of females do attend the services of the church; but, unhappily, if you glance around you, even from your own pulpit, you see many more bonnets than bare heads. Come, confess it. The men don't come as they should do." "Well, then—for argument's sake—they don't." "Just so. Now, I've a plan to make them." "Some new-fangled absurdity of yours, Professor, I'm afraid." "Not at all, my dear sir. I propose to revive an old and reverted custom, which is spoken of by Sir Walter Scott being in use some of the out-of-the-way kirks in Scotland—those, I suppose, 'above the pass.' 'If you will only adopt it, I promise you would get nine male hearers where you now get one. It's nothing wrong, as you think; it's something we are just about to do ourselves." Here the Professor dropped his voice to a stage whisper—"*Let 'em smoke!*"

—New Orleans papers contain the story of a venture recently made by a young printer in that city, Andrew J. Newell by name, who was drowned on Lake Pontchartrain while in search of Lafitte's treasure, the secret of which had been imparted to his family, on his death-bed, by a person who had been one of the Lafitte's band and who had been befriended by Newell's father. The ex-pirate told them that this treasure was buried in one of the islands of the gulf, giving at the same time full directions for finding it. Mr. Newell's father made several attempts to reach the island, but some disaster always occuring on the way, he was never able to reach the coveted spot.

Mr. Newell, the son, since his father's death, implicitly trusting in the man's story, has carefully saved his money to enable him to go in search of the fortune. A few days ago he bought a yacht out of his savings while working at the case as a compositor in the Picayune office. Taking only one individual—a person connected with the same office — in his confidence, he started out on his voyage alone in the yacht. But the fatality which seems to attach to this enterprise pursued him. A storm overtook him before his journey's end, his yacht was capsized, and his body found about the commencement of the present month floating in the lake.

Heretofore the secret has been carefully kept in Newell's family, but it is now said that, having in a measure become public, a party will soon leave New Orleans, fully equipped, to test the accuracy of the dead pirate's story and discover, if possible, the riches that are said to be hidden away.

—A Lawrence, Mass, "labor reform" editor got badly sold the other day. A lady correspondent sent in a poetical effusion which he published, and was very enthusiastic in his thanks for it, earnestly requesting further contributions. Had he read the first letter of each line he would have found it "The "Labor Reformers are Asses," and would have saved his many congratulations to the authoress.

—Nasby intended to call his baby Anna Dickinson. Nature intervened to protect the helpless innocent, however. It wasn't the right sort of a baby for that purpose.

SATURDAY, JUNE 10, 1871.

Editorial Correspondence.

CONCORD, June 8.

At 3 P. M. members drew seats. Judge Fowler offered substitute for resolution before the House for election of Democratic Clerk. Speaker ruled substitute out of order. Knapp, Republican, of Somersworth, asked to be excused from voting. Declared out of order. Fowler appealed. Speaker Gove showed his willingness to do dirty work assigned him by deciding appeal out of order. Putnam, Dem., of Warren made an insulting speech. Fowler did not deign an answer. Chase, Dem., Wadleigh, Nesmith, Holt, Orcutt and Fletcher, Republicans, spoke eloquently in favor of a ballot and against the resolution, Bingham shouting "Question, Question, Question." Speaker said every member had a right to speak on the subject. On question ordering main question, by yeas and nays, the vote was 163 to 163; Speaker voted yes and declared it carried. Wadleigh rose to question of privilege and moved to strike out name of Parsons of Bennington, who had voted yes and has acknowledged by affidavit that he has not been two years in the State, which is necessary by the Constitution to hold a seat in the House.

Speaker decided it out of order. Ramsdell, Republican, made a motion to adjourn. Speaker again stultified himself by deciding it out of order. Resolution declaring J. R. Johnson, Dem., Clerk, passed 164 to 162. J. H. Colbath, Labor Reformer, was elected Assistant Clerk, 163 to 161. On motion of Hackett of Portsmouth rules of last House were adopted. Other Democratic officers of the House were chosen by acclamation, Adams, Republican, seconding. Mr. Hackett gave notice of a bill to repeal the act passed last session making owners of real estate liable for allowing intoxicating liquors to be sold on their premises. Adjourned.

Phenix Hotel, CONCORD, June 9.

At the opening of the House this morning, at 10 o'clock, Rev. Mr. Ham of Gilmanton offered prayer, and desired that the results of yesterday might be continued to-day, and that the minority should submit to the will of the majority without delay. [Another exhibition of Democratic "cheek."] The Democrats desired a suspension of the rules that the reading of the journal might be dispensed with. Judge Fowler objected and the motion was withdrawn to prevent a call of the yeas and nays. The reading of the journal was finished at 12 o'clock. The new officers of the House were sworn in. The House voted to meet hereafter at 10 A. M. and 3 P. M.

Mr. Wadleigh of Milford offered a resolution to strike the names of William W. Messer of Northwood, William M. Parsons of Bennington and Samuel B. Page, Democrats, from the roll. Mr. Bingham of Littleton moved to lay the resolution on the table. Mr. Wadleigh explained the cases, showing that Mr. Page was not elected as stated in his certificate from the town clerk, and that Messrs. Messer and Parsons had not resided in this State two years at the time of their election, and were constitutionally ineligible. Mr. Bingham replied in his usual bullying manner, roaring like a wounded lion because the election of Senators, Councillors and Governor was postponed by the discussion. He moved to amend the resolution by striking out the names of Messer, Parsons, and Page, and inserting the names of David B. Varney, Jas. O. Adams, Atherton W. Quint and Hiram K. Slayton, Republicans of Ward 3, Manchester. Mr. Putnam moved to amend by adding the names of Orren L. Barron of Hill, Converse Gage of Sutton, and Bowles of Lisbon, Republicans. The resolution was finally laid on the table. Mr. Pillsbury of Concord moved that when the House adjourn it adjourn to meet on Monday at 4 P. M. On a call of the roll the motion was defeated—yeas 161, nays 163. Mr. Bingham offered a resolution to notify the Senate of organization and readiness to proceed to the business of the session. Adjourned to 3 P. M.

[By Telegraph.]

7 o'clock, P. M.

In the afternoon Ramsdell opened in opposition to resolution to notify the Senate. Bingham moved the previous question. Roles wanted speeches limited to five minutes' length; speaker decided there was no limit to length of speeches; Wadleigh commenced speaking at 3.15 P. M., and declared it his intention to do his share of speaking to delay the further action until Monday. He continued speaking about two hours, being called to order twice—speaker deciding in his favor once and once against him. A motion to adjourn intervened and was defeated; yeas 159, nays 161. Mr. Wadleigh's speech was in a humorous vein and kept the House on a smile. A motion to allow Mr. Wadleigh to proceed was decided not debatable, and on the call of the roll was defeated; yeas 155, nays 159.

9 o'clock.

Mr. Hall of Manchester spoke in opposition to the previous question, and resented the sentiment that American citizens should not have the privilege of debate. Gen. Wilson of Keene said Mr. Scott was sick at home, and insisted on his right to vote; he would probably be here to-day. He had no idea of talking against time; he hardly felt at ease,—any man, under the speaker's ruling, being liable to be called to order and lose the floor, no matter what he said. Another motion to adjourn at 7.30 received 153 yeas, 157 nays. Ramsdell of Nashua is making a telling speech in opposition to the resolution. The republicans mean business and assert that they will talk until 12 o'clock Saturday night, if possible to prevent the election of Senators, Councillors and Governor before Monday. The Senate is in constant session taking repeated recesses; should the democrats succeed in forcing the resolution by means of the previous question, the democrats of the Senate will come in without any formality and join the House in convention. As yet the Senate has no information that there is any such thing as a House of Representatives in New Hampshire.

Saturday, 0.15 A. M.

Mr. Adams, Republican, of Manchester, in the chair:—Mr. Ramsdell continued his speech at 9 o'clock, and was followed by Berry of Whitefield. Tucker, Labor Reform, thought anybody who wanted to go home could go,—he and his friends preferred to remain. Cummings of Concord opposed the previous question. Jones of Strafham, Democrat, replied. Knapp of Somersworth moved to lay the resolution on the table. Pender of Portsmouth called for the yeas and nays. Parker of Fitzwilliam asked to be excused from voting. Bingham thought it out of order, and the chair decided that no member could be excused until after roll call. Fowler appealed and called for the yeas and nays. Four members asked to be excused from voting. Parker of Dover said he had one reason sufficient to satisfy him. Bingham was overruled on a point of order; the chair decided that yeas and nays were in order on request of members to be excused. Judge Nesmith heartily endorsed the decision.

The House has been in a constant state of merriment for a half hour over the remarks of Baker of Dover, who cornered Bingham and retorted in Bingham's style, completely upsetting that gentleman's equanimity. The Republicans have succeeded in piling motion upon motion until it seems almost impossible for the House to extricate itself before Sunday. This is what the Republicans have been fighting for, and they are in excellent spirits. The Democrats as yet have been unable to concoct any measures to force the election of Senators, Councillors and Governor. Every hour carries the House farther away from the question. The discussion is getting hot. Slayton of Manchester gave notice to the Democrats that the Republicans are now masters of the situation, and can dictate terms. Jones of Stratham replied that the Democrats would stay until 12 o'clock Saturday night and be on hand at 12 o'clock Sunday night. Herring of Farmington wished to go home, being unwell, but would sit it out notwithstanding. Gen. Wilson said he was an old man but had stood it well thus far, and thought he could stick 24 hours longer.

Mr. Wadleigh has just taken the floor, and looks equal to another two hours' speech. The subject before the House is the question of excusing Mr. Baker of Dover from voting on the appeal from the decision of the chair.

BUSINESS NOTICES.

THE LONG EXPERIENCE of Lewis Rice, as landlord of the AMERICAN HOUSE, BOSTON, has made his name familiar with the travelling public throughout the country. This excellent hotel is among the best in the United States.

If *Johnson's Anodyne Liniment* is half as valuable as people say it is, no family should be without it. Certainly no person, be he lawyer, doctor, minister, or of any other profession, should start on a journey without it. No sailor, fisherman, or woodsman should be without it. In fact it is needed wherever there is an ache, sprain, cut, bruise, cough or cold.

Farmers and "Horse Men" are continually inquiring what we know of the utility of *Sheridan's Cavalry Condition Powders*, and in reply, we would say, through the columns of the Portsmouth Chronicle, that we have heard from hundreds who have used them with gratifying results; that is also our experience.

SPECIAL NOTICES.

Common Sense Decide.

What is the rational mode of procedure in cases of general debility and nervous prostration? Does not reason tell us that judicious stimulation is required. To resort to violent purgation in such a case is as absurd as it would be to bleed a starving man. Yet it is done every day. Yes, this stupid and unphilosophical practice is continued in the teeth of the great fact that physical weakness, with all the nervous disturbances that nocompanied it, is more certainly and rapidly relieved by HOSTETTER'S STOMACH BITTERS than by any other medicine at present known. It is true that general debility is often attended with torpidity or irregularity of the bowels, and that this symptom must not be overlooked. But while the discharge of the waste matter of the system is expedited or regulated, its vigor must not be recruited. The Bitters do both. They combine aperient and antibilious properties, with extraordinary tonic power. Even while removing obstructions from the bowels, they tone and invigorate those organs. Through the stomach, upon which the great vegetable specific acts directly, it gives a healthy and permanent impetus to every enfeebled function. Digestion is facilitated, the faltering circulation regulated, the blood reinforced with a new accession of the alimentary principle, the nerves braced, and all the dormant powers of the system roused into healthy action; not spasmodically, as would be the case if a mere stimulant were administered, but for a continuance. It is in this way that such extraordinary changes are wrought in the condition of the feeble, debilitated and nervous invalids by the use of this wonderful corrective, alterative and tonic. Let common sense decide between such a preparation and a prostrating cathartic supplemented by a poisonous astringent like strychnine or quinia.

JOSEPH ROGERS, a boy 14 years of age, employed by Mr. A. K. Warren, was kicked several times by a horse, early in the week, and severely injured.

LANNIER'S Dramatic Company give their second and closing performance at the Temple this evening, with change of programme. "Under the Gaslight" will be presented, with Fanny Garbanatti as "Peach Blossom."

DR. J. F. HALL of this city was elected President of the New Hampshire State Medical Society, at their annual meeting in Concord on Wednesday. A well-deserved compliment to an able and highly esteemed physician.

THE Boston Advertiser says that three boys between nine and ten years of age, named Michael Curley, Timothy Curley and Reuben Ryan, runaways from this city, were found strolling around Boston, Thursday evening, and lodged in the station house for the night.

REV. GEO. TRASK will speak in the Methodist Church to-morrow (Sunday) afternoon at the usual hour, against the use of tobacco; and in the evening at 6 o'clock, on the Post Office steps, on the same subject. He is in earnest in the cause, and is said to be an able speaker.

WE learn that Isaiah Hanscom, Esq., Chief of Bureau of Construction and Repairs, Capt. Daniel Ammen, Chief of Bureau of Yards and Docks, and Wm. P. S. Sanger, Civil Engineer of the latter Bureau, visited our Navy Yard on Friday, being on their annual tour of inspection of Navy Yards.

THE Bowdoin House at York Beach was practised on by an incendiary a few nights ago, but his efforts to illuminate the beach were unsuccessful. A barrel of kerosene-saturated shavings and shingles was found by Mrs. Bowdoin on the piazza of the house, in flames; but a tub of water happened to be standing near by, and when poured into the barrel washed away all the incendiary's hopes of a good time that night.

THE Court of Inquiry which is being held at this Navy Yard for the purpose of investigating the case of the U. S. S. Ticonderoga *vs.* a sunken schooner, is still in session, and probably will not rise for a number of days, as the testimony is not all in yet. The captain and mate of the schooner have been here nearly a fortnight, waiting to tell what they know of the affair. It is said that the evidence on both sides is voluminous, and much time is necessarily consumed in recording it.

BY an advertisement in another column, those Odd Fellows who intend taking part in the celebration at Boston on the 13th, when the corner stone of the new Odd Fellow's Hall is to be laid, are notified to be in the Hall of the Order in this city at 5 o'clock in the morning, on that day. Getting up so early we imagine will be an "odd" performance for many of the members, but a large delegation will manage it, we are told. Osgood Lodge is particularly active in carrying out the arrangements, and the Marine Band will accompany the delegation to Boston.

THE Lynn Light Infantry arrived in this city Friday afternoon, with a Providence band, and attracted much attention as they marched through some of the principal streets before facing the hardships of war at the Rockingham House. The huge bearskins of the visitors and their soldierly bearing drew many eyes upon them; and many who did not stop to look, stopped to listen to the excellent music of their band. This company is one of the oldest military organizations now holding charter in the State of Massachusetts. They had a dress parade in the evening, attended by hundreds of spectators. The company numbered about fifty muskets.

THE flood in New Orleans is subsiding.

THE laborers' strike at Washington is at end.

The June number of the *Young Pilot* is, as usual, full of interesting and instructive matter for the young. Price $1 per annum or 50 cts from June to January. Published by Franklin H. Sinker, Nos. 6 & 7 Farwell Hall, Chicago, Ill.

NEW HOTEL.—On Thursday, as the weather was warm, we allowed a horse to have the pleasure of drawing us over to "Stage Neck" at the mouth of York River, that we might inspect the new Hotel erected there by Messrs. N. G. Marshall & Sons. Our first impression was one of astonishment that so favorable a site for a summer hotel had remained so long unimproved; for if there is any spot along our whole northern coast superior to this in natural advantages for such a purpose it has escaped our notice.

The Marshall House stands on what would be an island were it not for a narrow neck, which has a beautiful little sea beach on one side and a smooth river beach on the other, so that visitors will have their choice of either surf or still-water bathing, but a stone's throw apart. The peninsula contains fifteen acres, and was the spot where the Shoalers were placed by government when they were removed from the island during the war for independence. The traces of their habitations are still visible, as are the remains of two old forts, one erected in 1812 and the other during the revolution. The shores rise boldly from the water's edge nearly everywhere; at "Minister's rock," the outer point of Fort Head, the water is very deep, (large sized cod and other fish have been caught from it for many years,) and in other places a schooner might scrape all the paint from her sides on the shore, without scratching her keel on the bottom; the sea view includes Long Sands, Boon Island and the Shoals, and is equal to almost any other that we know of; while the island view, including York river with its numberless turns and many inlands, and the ancient "city of Gorgeana," is one of unsurpassed beauty. When the house and its attractions once become known to the pleasure seeking public, up-river parties of the guests, and picnics in some of the many inviting groves along the banks, will be a favorite diversion.

The main road to the hotel (now being widened, straightened and improved by the town) is what was intended for the main street of the ancient city of Gorges; and the cross streets running down to the river are pointed out, with the proposed site of the ancient City Market, and the spot where Parson Dummer lived and was shot by the savages. The portion of the town of York visible from the hotel has a quaint, quiet look that pleased us much, whether it ever does anyone else or not.

The hotel is a handsome and substantial building, and from its elevated situation is a prominent object as far off as you can see it, which is not a very great distance, owing to trees; it is four stories high, including the Mansard roof, which is topped by a cupola; a broad piazza extends entirely around the building, giving a covered walk 450 feet long; the number of rooms is something over 100, and they are considerably larger than is common in seaside hotels; the offices and usual conveniences of a first class hotel have not been forgotten; and there is not a window in the house from which either an ocean or a fine river views is not visible. The architect is Mr. Harding of Portland, and the master builder Mr. William H. Fernald of York.

The road from this city to the Marshall House (barring that barren clay patch) is a beautiful drive to take on a hot summer day; but the principal travel will be by water, the steamer Hoffman, Capt. Frank Emerson, having been purchased to run between York River and Portsmouth during the summer. The distance from Whale's Back to the Marshall House is but four and a half miles—just far enough to give passengers a good appetite; and the river is easy of entry, with plenty of water at low tide to admit a vessel drawing ten feet or more. The Hoffman will connect with the morning and afternoon trains from Boston on three days of each week during the season, and will prove a paying investment for her enterprising owner—at least we hope so. And we see no reason why the new hotel should not be patronized to the extent of its capacity; the location cannot well be surpassed and the proprietors announce a determination to treat all patrons courteously and to feed them on the best that can be procured, without regard to expense; the number of summer visitors to this section increases with each year, and we predict for the Marshall House a prosperous—if not an overflowing season.

GENERAL SHERMAN has published a card disavowing any presidential aspirations.

DEATHS.

In this city, June 9, Mrs. OLIVE B. SIMES, wife of William Simes, Esq., aged 63 years, 10 months

THE
NEW ORLEANS, MOBILE & TEXAS
RAILROAD COMPANY
Are building a trunk line, connecting New Orleans with Mobile on the east, and giving
THE ONLY RAILROAD CONNECTION
between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.
The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles of the Texas division; leaving but 140 miles to be built
To Complete the Entire Road.
It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.
The Company now offer for sale the
Eight Per Cent. Mortgage Bonds
upon the Louisiana division of 226½ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.
So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.
The Bonds now offered are of two classes:
FIRST MORTGAGE BONDS,
to the amount of $12,500 per mile, and
SECOND MORTGAGE BONDS,
to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.
The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.
No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.
At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years.—we think that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**
The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.
Subscriptions will be received in Portsmouth by
First National Bank.
Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

NEW FIRM!
INSURANCE BUSINESS
The Subscribers having purchased the "Business and Goodwill," of
The Old and Well Established Insurance Company of JOHN S. HARVEY,
have this day formed a co partnership, under the firm name of
MORSE & ILSLEY,
for the purpose of carrying on the Insurance Business in all its branches. They trust, by industry, integrity and good judgment, to merit the approbation of all the old patrons of the office, and to receive a good share of new business.
MR. HARVEY will still take a lively interest in the Companies for which he has so long and faithfully worked, and he is authorized to receive applications for Insurance in said Companies as our Agent.
JOSEPH P. MORSE,
WINGATE N. ILSLEY.
Portsmouth, May 1, 1871.

A CARD.
HAVING disposed of my Insurance Business to JOSEPH P. MORSE and WINGATE N. ILSLEY, two gentlemen well known for their integrity and business capacity, I return my thanks to my old and constant patrons and friends, for their many favors, and earnestly recommend my successors, trusting the same generous patronage will be extended to them as to myself. They represent some of the oldest and most reliable Companies in both Fire and Life Insurance in the Country.

Albert Morton, superintendent of the Salmon Falls Manufacturing Company, at Salmon Falls, was thrown from his carriage on Tuesday night, receiving severe injuries. His daughter, who was with him, was also severely injured.

At the annual meeting of the State Bible Society, at Manchester, on Tuesday, Rev. Edward Spalding, D. D., was chosen president.

The New York grand lodge of Masons has broken off all negotiations with the Grand Orient of France.

Judge Busteed has placed the Alabama and Chatanooga Railroad in bankruptcy at the petition of an Alabama creditor.

Base Ball.—At Philadelphia the Atheletics defeated the White Stockings—15 to 11. The Forest Citys of Rockford beat the Pastimes at Baltimore—17 to 15.

Constantinople has had another great fire. Over 200 houses were burning at one time, in four different parts of the city.. Supposed to be the work of incendiaries.

In Ohio a brakeman named Jones fell from a freight-train on the Lake Shore road, and had both legs severed by the wheels and his body badly mangled. Hearing a passenger-train approaching, and fearing it would run over him, he stabbed himself twenty-two times in his breast and left arm with a pocket-knife. The engineer of the passenger-train saw him and stopped the train, but Jones died soon after.

At Prospect Park races, June 8, the first race was for $4000, free to all horses; $2000 to the first; $1000 to the second; $600 to the third and $400 to the fourth. Lucy, Goldsmith Maid, American Girl and George Palmer started. The Girl won the first in 2.20 and the Maid the next three in 2.20 3-4, 2.21 and 2.22 3-4. The second race was a purse of $750, for horses that had never beaten 2.40. Six started; Fleetwood was the winner of the first heat in 2.31 3-4, and Sea Foam took the next three in 2.32 1-2, 2.32 3-4 and 2.32 1-2.

The national anti-secret society association began a three days' session at Worcester, Mass., on Wednesday. An address was delivered upon the following proposition: "Freemasonry is incompatible with the Constitution of the United States, has the power to paralyze the laws of the land, defeats the ends of justice, and in its nature and tendency is at war with the genius, spirit and liberties of the great and free republic of the United States, and therefore should be abolished by law." How do its opponents know anything at all about it?

More sleep is required in warm weather than in cold, and should be obtained during the night.—*Medical Independent.*

—The southern papers do not take much stock in the new departure of Mr. Vallandigham, and the indications of a conflict on this question between the democrats of the North and the South are multiplying. The northern portion of the party is quite willing to accept "the situation" or anything else which will give them a chance to obtain power, while the southern wing is too earnestly engaged in "nursing its wrath to keep it warm," dissemble, or even to talk plausibly, to accomplish what it so earnestly desires. The fact is, the new departure was announced at a bad time for the southern people. They were just beginning to enjoy the smart of their old sores, into which Jeff Davis had been skilfully pouring the oil of rebellion and the wine of hate, and it was too much to expect that they would willingly allow them to be bandaged up and cured by any process which would savor of a lack of appreciation of the treatment of their beloved confederate chief. They have nursed the disposition of the bear for so long a time, that they do not take kindly to the proposition of the northern democrats to assume the attributes of the fox, however enticing the republican game may be to them.—*Advertiser.*

NEW ADVERTISEMENTS.

THIRTY THOUSAND DOLLARS PAID.—The Travelers Life and Accident Insurance Company, of Hartford, Connecticut, paid $20,000 on W. H. Farbush and Wm. C. Curry, victims of the New Hamburg Railroad; $5,000 on the late Jas. B. Blake, mayor of Worcester, Mass.; and $5,000 on the late S. H. Lewis, Jr., of St. Albans, Vt. All these accidents occurred, and the insurance was paid, within three months—each claim being paid about sixty days before it was due by the terms of the policy. The Travelers has paid SEVEN HUNDRED DOLLARS A DAY in benefits to its policy holders, for deaths or injury by accident, for every working day during the past seven years.

The Travelers Life and Accident Insurance Company, of Hartford, Conn., grants all the usual forms of LIFE and ENDOWMENT Policies, on exceedingly favorable terms. Ample Security and Low Rates.

600,000 ACRES
CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly low, ranging from $5 to $15 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.

EXPLORING TICKETS are sold at the Company's ticket offices at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

TARRANT'S SELTZER APERIENT.

Sects and Creeds differ, but there are no dissenters from the general principle, that a great medicine is a great blessing. We have many of these blessings, but among them all, in the province to which it belongs, no greater than

Tarrant's Effervescent Seltzer Aperient.

A column would not suffice to enumerate the ailments for which it is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, a stomachic, an anti-febrile aperient, and an admirable remedy for all bilious complaints.

Let there be no mistake. Secure the genuine article only.

A GOOD OFFER TO THE
Ladies of Portsmouth and Vicinity.
E. A. JOY
Has Fitted up a Spacious and Elegant SEWING MACHINE ROOM directly over his Music Store and employs a competent young lady to take charge of the same. A cordial invitation is hereby extended to all the ladies (not having good Sewing Machines of their own) to bring in lots of work and learn to make it up on the Machines. *This* will cost nothing whether a Machine is purchased or not. If you do not buy now, you will at some future time; for the day is not far distant when a Sewing Machine will be considered as indispensable as a Cook-Stove. Come as often and stay as long as you please.

MR. JOY'S business in the Sewing Machine line is very rapidly increasing, which enables him to make the above generous offer.

His long experience in this branch qualifies him to be a judge of the goods to sell; and as he has had the Agency of *all* kinds offered him at different times it is reasonable to suppose that the popular SEWING MACHINE also can be had at the SEWING MACHINE EMPORIUM, No. 9 Pleasant St., nearly opposite the Post Office, Portsmouth, N. H. *Twelve Different Kinds to Select From.* mh7

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, SOLICITOR OF PATENTS,
For Inventions, Trade Marks or Designs,
No. 76 State St., opposite Kilby St., Boston,
After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"Mr. R. H. Eddy has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

A GREAT MEDICAL DISCOVERY!
DR. WALKER'S CALIFORNIA
VINEGAR BITTERS,
Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY!

THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawfebl6

The Chronicle.

—A company has been organized in New Bedford under the name of the Potomska Mills Corporation," which proposes to erect a mill for the manufacture of print cloth. For this purpose they have purchased twenty-seven acres of land near the "Smoking Rocks," and the work will be commenced as soon as possible. James Robinson has been elected president of the corporation.

—The late President Lincoln was somewhat astonished one day when inspecting the prison in Washington. A prisoner said to him, familiarly, "How are you, Mr. Lincoln? I'm glad to see you. I believe that you and I have been in every jail in the Union." Mr. Lincoln replied that the jails at Springfield and Washington were the only ones he was ever in. "Very likely," responded the rogue; "but I've been in all the rest."

DIFFERENT THINGS.—A lady in Boston, occupying a highly respectable social position, in a state of intoxication, staggers and falls in the street. At once a carriage is ordered by the police officer, and she is driven home. "She is seized with a sudden illness." Nearly in the same place, a day or two after, an Irish woman, under the influence of whiskey, reels and falls. She is roughly seized by the police officer and hustled to the nearest police station, brought before the judge and sentenced as a common drunkard.

James Smith is caught selling lottery tickets, and is condemned for a violation of the law. He is condemned as a felon and thrown into jail. At the same time and in the same city, Miss Jones and Madam Prince put up a piano at a fair, the proceeds of which will be used to buy carpets for a church, or aid some charity or reform. These ladies coax men to take shares, and then the prize is awarded to the lucky ticket holder, amid the cheers of the excited ticket holders and spectators. This is called a raffle. But, in the sight of the law and morality, what is the difference between the lottery and the raffle?

Patrick Mahoney helps himself to a hundred dollars, and is sent to the State Prison as a thief. Edward Crafty, placed in a position of great responsibility, violates his trust, and with a marvelous adroitness takes fifty or a hundred thousand dollars. This is a "financial irregularity." The affair is adjusted, notwithstanding he is a criminal. It is soon hushed up and he goes free, ready, like as not, for another swindle.

Now why not call these things by their right names, and then deal with them as rascals accordingly. This shielding of great rogues, and covering up gross frauds with false labels, is fatal to mercantile honor and personal integrity.—*Christian Register.*

PRESENTS FROM AND TO YOUNG LADIES.—"Howard Glyndon," in the New York Evening Mail, has been discoursing on the subject of Presents, from which we make the following extract.

There was a good deal of wisdom in the now obsolete notion that young ladies should be chary in receiving gifts from gentlemen who are "friends only," and that they should be still more chary of making presents to gentlemen.

I heard a young fellow say the other day, out of the depths of his vexation: "I think I'll cut the girls entirely, if they don't stop making me so many trifling presents. You know they're always at it. A fellow can't be introduced to a girl and make himself agreeable to her, but what, after seeing her two or three times, comes the inevitable fancy necktie, or smoking cap, or handkerchief case, or a handkerchief with your initials embroidered on it. All very nice and very good of them, I'm sure. But it gets to be a bore after a time, because it places you under so many obligations to so many different girls. The young lady who embroidered you a pair of slippers thinks you an ungrateful wretch if you take the young lady who worked you a note-case cover out to drive, and the one that worked the note-case cover thinks that she is horribly treated if you ask the one that embroidered the slippers to go to a concert with you. And so you catch it all around, and you have to be a better diplomatist than Bismarck if you can manage this sort of thing and not get into a scrape or several scrapes.

"What's a fellow to do about it? That's what I want to know. One dislikes immensely to be under obligation in this way. But what man would dare to refuse to take a present of this sort from a young lady after she has taken the trouble to make it for him? Most of us would rather they wouldn't do it; but, if they will do, how can you help it?"

I think I hear Minnie, who wears her hair *a la* Pompadour; and Nettie, who lets hers flow in crinkled masses of light brown over her shoulders; and Josie, who is an angel in light blue; and Ella of the roseleaf complexion—all uniting their somewhat high American voices in a chorus of "Conceited! What a wretch! Just like those horrid men, you know! Don't let's ever give them anything again. Never! Never! No, we will not!"

CARD.

Having become satisfied after thorough investigations that Elastic Sponge, as now and lately manufactured, is one of the best of all substitutes for curled hair, for many if not most uses in upholstery, we have accepted the Agency for it, and intend to make it hereafter a specialty in our business. The objections which been made to it and which it is well known we ourselves have thought were well founded, we have ascertained cannot be urged against the article as now perfected. The process of manufacture has been entirely remodeled under the advice and superintendence of one of the most eminent chemists of New England. New chemical and mechanical appliances have been introduced in cleansing crude Sponge, and in charging it with glycerine with such entire success, that Elastic Sponge may now be said to be chemically pure. There is absolutely nothing in it but the clean fibre of Sponge and chemically pure glycerine.

The objections to Elastic Sponge being thus removed there remain its undisputed merits, which certainly entitles it to be considered one of the most valuable, as it is one of the most curious and interesting of late discoveries. Chief among these merits is, that it is proof against moths—the great scourge of the business,—against all other insects. Then its elasticity is permanent, based as it is upon the non-evaporable property of glycerine and the indestructibility of sponge fibre. We have always been satisfied upon these two points which are the essential requisites in such materials. The evidence is now equally clear that it is wholesome and sweet. It is very light and soft, easy to manipulate, and cheap enough for all except the lowest class of goods. For the cushioning of Churches, Theatres, Public Halls, Railway Stations, Omnibuses, Carriages, Steam and Horse Cars and the like, it will probably be found very advantageous, and the best article in use. For all uses, and especially for Bedding, we are now prepared to recommend the public to give it a fair trial as we ourselves intend to do. We are are ready also to answer inquiries, make estimates and take orders for every description of work in Sponge as well as to supply the trade the article in Bales.

MONDAY, JUNE 12, 1871.

Editorial Correspondence.

Phenix Hotel, CONCORD, June 10th.

We left the House in session at 12 o'clock last night, and "the subsequent proceedings interested us no more." Speaker Gove took the chair about daylight and the process of unravelling the "doubling-up" process commenced. He was relieved by Putnam of Warren, a most unscrupulous leader of the Democrats. He declared almost every motion offered by a Republican out of order. Page called for the reading of the resolution before the House, and at its conclusion the clerk commenced calling the roll, thus cutting off the debate. It was a sharp trick and was shrewdly played. The previous question was ordered by a yea and nay vote, and the resolution was passed in like manner. The House then took a recess from half past 7 until 10 o'clock, both parties agreeing to proceed with the business at that hour. A dispatch from Keene announced that Mr. Scott, Republican, would be unable to be here on Monday. No hopes were entertained of Mr. Johnson of Pittsburg being well enough to be present.

On re-assembling at 10 o'clock, on a call of the roll it was ascertained that 317 were present, 10 members having paired off. The Republicans came to time admirably having scattered considerably during the night. They maintain their relative strength. After various preliminaries, the passage of resolutions and appointment of committees to count votes for Governor and Councillors, both Houses met in Convention and proceeded to ballot for Senator from District No. 1.

Daniel Marcy of Portsmouth, Dem.,	164

and Mr. Marcy was declared elected. A committee was appointed to wait upon Mr. Marcy and he appeared in the Convention and was qualified.

Mr. Bingham offered a resolution for the appointment of a committee to designate the constitutional candidates for Senator in District No. 10. Judge Fowler objected and cited precedents. Mr. Bingham withdrew the resolution and announced that Alva Smith, who received four votes for Senator in the Thrasher District, had signified his willingness to act with the Democrats, if elected, being a Labor Reformer, and he (Mr. B.) desired all opponents of the Republicans to support him. Mr. Smith was a Republican, a year ago.

The Convention proceeded to ballot for Senator from District No. 10.

The Republicans did not know that a Councillor was to be elected at that time—many of them being on their way to the depot.

After the Convention rose, the Senate chose Senator Pitman, Democrat, President, W. M. Chase, of Concord, Clerk, and William M. Thayer of Portsmouth, Assistant Clerk.

THE charge of murder against the negro Thomas, one the crew of the brig J. L. Bowen, for killing the captain, has been abandoned, as none of the witnesses against the accused saw any one strike the captain, and there is nothing to show that Thomas struck him, except Thomas' own statement, which the prosecution did not seek to have admitted in evidence, for this statement would have to be taken in connection with the other statement of Thomas that he struck the captain in self-defence; and, as the latter statement would be as well entitled to credit as the former one, the charge of murder could not be sustained. The prosecution, therefore, abandoned the charge of murder, and the charge as it now stands is that of attempting to create a revolt.

THE grand ocean yacht race as Cape May is fixed for July 4th; distance to be sailed, forty miles; prizes, two superb silver cups, valued at $2000 and $1500.

IN common with other coppery sheets in the State, the local daily which lives across the street from us (geographically and politically,) endeavors to throw the blame of commencing the recent filibustering on the Republicans. Speaking of Thursday's work on the vote for clerks, it says:

When the Democrats undertook to proceed to ballot, then came a motion to amend and the yeas and nays were called.

This is pretty well for a Democratic paper—about as nearly correct as their reports usually are. The facts are that the *Republicans* were willing and anxious for a *ballot*; but the Democrats did not dare risk it, and were determined to elect by *resolution*, so that the call of the yeas and nays would bring the "independent" Democracy under the whip and screw. The Democrats were the ones who fought off the ballot, against the earnest endeavors of the Republicans to have one taken.

The coalition leaders showed how much faith they had in their men when they gave them numbered ballots for Speaker, so that if any one failed to vote as they directed he could be detected and properly disciplined; and the "independent" legislators showed their manliness in a favorable light when they submitted to such espionage, and "walked through" like a troop of school boys, trembling under the party whip. It must have been tough work for some of the old "divine institution" worshippers to vote for an original "black abolitionist," and the safeguards adopted by Bingham & Co. were no doubt all needed to keep them from breaking ranks and voting as they would have liked to.

BANGOR AND BOSTON.—For many years an arrangement has existed between the Eastern, the Boston & Maine and the Portland, Saco & Portsmouth railroads for certain trains to be run between Boston and Portland; the time of leaving each of those places being agreed upon, and the rates to be paid the P. S. & P. Railroad Company for hauling the Boston & Maine cars over its road between South Berwick Junction and Portland.

A through express train between Bangor and Boston by way of the Eastern Railroad was commenced June 5, leaving each of those cities morning and evening, with Pullman's magnificent drawing-room cars by day and sleeping-cars for the night trains. In addition to the convenience and comfort of the passengers, by using this as an express train, the time between Bangor and Boston is reduced about two hours and between Portland and Boston one hour, thus arriving in ample time for passengers to take the trains leaving Boston for the South and West both morning and evening. This new arrangement has been made partly in reference to the opening of the European Railroad in September next to St. John.

The difficulty with the Boston & Maine Railroad was caused by extra trains over their road for Portland without any arrangement being previously made to take them over the Portland, Saco & Portsmouth Railroad. There was no difficulty in regard to any of the usual trains, but the Boston & Maine Company claimed the right to attach their cars to any train passing over the P. S. & P. Railroad Company on being notified of the difficulty, telegraphed at once, requesting a conference with the managers of the Boston & Maine Railroad Company, for the purpose of making the necessary arrangements for any new trains to be run over their road.—*Boston Transcript.*

THE Exeter News Letter is vexed to the soul with the Eastern Railroad for refusing to draw the Boston & Maine express trains between Berwick Junction and Portland, and says the Eastern has been playing the dog in the manger. Some people have an idea that the Boston & Maine has been playing Sir Giles Overeach, in attempting to share the profits of an enterprise of which they bore none of the expense and which they declined to join in when it was first proposed. Opinions will differ. The News Letter is glad that an injunction has been granted against the Eastern and hopes it will be made perpetual; "if not, it will be necessary to call on the authorities of New Hampshire to protect their citizens on the inland route in the enjoyment of the railroad facilities which the Eastern R. R. have thus attempted to monopolize." As Berwick Junction, and the whole P. S. & P. Road excepting one mile, is in Maine, we don't exactly see how our State legislature could control it in the interest of the B. & M., even if so inclined.

The professors of the "manly art" have many pleasant little ways of persuading others to do as they wish them. A prize fight at Erie on Thursday, between Bob Conway and Buffalo Bill, was ended during the third round by the friends of Conway, who split Buffalo Bill's head open with an iron bar and thereby induced him to let Conway have the "honors" of the occasion.

AT Newmarket Junction on Saturday evening, Mr. George P. Randall of Rye, an elderly man, was struck in the face and knocked insensible, (while conversing with a lady at the depot,) by a half drunken youth named Charles A. Lord, who belongs in Exeter. Ex-City Marshal Johnson of this city, being present, chased Lord into the hotel, and Deputy Sheriff Smart of South Newmarket deputized Mr. Johnson to bring Lord to this city, which he did. Lord now denies that he struck Mr. Randall, but the assault was witnessed by several ladies and gentlemen.

FRANCE—The executions of communists continue, and no mercy is likely to be shown to Rossel, who has been arrested. The supplementary elections to the assembly are fixed for the 9th of July.

The Prussian troops remaining in France have begun their homeward march and are evacuating the department of the Seine. The minister of finance has asked for a loan of 100 million francs to pay off the indemnity as soon as possible. Rifles are found daily in the cellars, churches and catacombs of Paris. It is thought that the state of siege will be raised on Monday.

The Orleans princes consent to the conditions imposed upon them by Theirs.

IT is reported that the Indians have burned all the steamers, buildings and everything they could lay hands on belonging to the Hudson Bay Company at Shebandowan Lake. The people of the district are in the greatest terror.

THE British Vice-Admiral Fanshawe has detailed eight men-of-war to watch American fishermen on the coast of the New Dominion.

SINCE the war, the public dept of the United States has been reduced as much as the debt of England was reduced in fifty-five years!

BUSINESS NOTICES.

If *Johnson's Anodyne Liniment* is half as valuable as people say it is, no family should be without it. Certainly no person, be he lawyer, doctor, minister, or of any other profession, should start on a journey without it. No sailor, fisherman, or woodsman should be without it. In fact it is needed wherever there is an ache, sprain, cut, bruise, cough or cold.

Farmers and "Horse Men" are continually inquiring what we know of the utility of *Sheridan's Cavalry Condition Powders*, and in reply, we would say, through the columns of the Portsmouth Chronicle, that we have heard from hundreds who have used them with gratifying results; that is also our experience.

SPECIAL NOTICES.

Common Sense Decide.

What is the rational mode of procedure in cases of general debility and nervous prostration? Does not reason tell us that judicious stimulation is required. To resort to violent purgation in such a case is as absurd as it would be to bleed a starving man. Yet it is done every day. Yes, this stupid and unphilosophical practice is continued in the teeth of the great fact that physical weakness, with all its nervous disturbances, that accompanied it, is more certainly and rapidly relieved by HOSTETTER'S STOMACH BITTERS than by any other medicine at present known. It is true that general debility is often attended with torpidity or irregularity of the bowels, and that this symptom must not be overlooked. But while the discharge of the waste matter of the system is expedited or regulated, its vigor must be recruited. The Bitters do both. They combine aperient and antibilious properties, with extraordinary tonic power. Even while removing obstructions from the bowels, they tone and invigorate those organs. Through the stomach, upon which the great vegetable specific acts directly, it gives a healthy and permanent impetus to every enfeebled function. Digestion is facilitated, the faltering circulation regulated, the blood nourished with a new accession of the alimentary principle, the nerves braced, and all the dormant powers of the system roused into healthy action; not spasmodically, as would be the case if a mere stimulant were administered, but for a continuance. It is in this way that such extraordinary changes are wrought in the condition of the feeble, emaciated and nervous invalids by the use of this wonderful corrective, alterative and tonic. Let common sense decide between such a preparation and a drenching cathartic supplemented by a poisonous astringent like strychnine or quinia.

THAT Squash Pie was A 1.

THE Directors of the Portland, Saco & Portsmouth Railroad on Friday elected Thornton K. Lothrop as President.

DR. GILBERT has in our columns this morning an advertisement concerning strawberries, interesting to lovers of those berries.

G. SWAINE BUCKLEY, supported by Dollie Bidwell and a dramatic company, will appear at the Temple this evening. "On the Track," written especially for Mr. Buckley, will be presented, with other attractions. See adv't.

PRICES are reduced to $3 per diem, at the Ocean House of Job Jenness & Son, at Rye Beach, and a new omnibus line runs between the hotel and the Greenland station of the Concord & Portsmouth Railroad, carrying passengers for 50 cts. each, and baggage free. The advertisement may be found in another column.

IN consequence of the detention at Concord of William H. Hackett, Esq., by the "revolutionary and factious proceedings" of the copperheads in the Legislature, the sale of the wood yard on Short Street and of a lot of land and two wharves, advertised for Saturday, June 10, was postponed to June 17. See advertisement.

STEAMER John T. Hoffman, 115 tons burthen, formerly owned by Legrand Lockwood, Esq., of New York, and used as a pleasure boat, and more recently employed in towing in Bridgeport harbor, has been sold to Capt. F. P. Emerson of York, Me., for $4000. The Hoffman will probably be placed on the route between Portsmouth and York and Wells, Me., as a passenger boat during the summer months, in connection with the hotels.—*Exchange.*

"LANNIER'S Dramatic Constellation" gave two really meritorious theatrical performances, on Friday and Saturday evenings of last week. On the last evening the audience was very fair in number, but on Friday night there were many more empty seats than the management liked or the performance deserved. Several causes operated to prevent a good attendance—the principle ones being that the company was unknown, this being their first appearance here; and the dress parade of the Lynn Light Infantry, with the splendid music of the Providence Band, which attracted a large concourse of spectators. Should the company give another entertainment here it would probably be well patronized, those who attended on this occasion speaking very favorably of the troupe and their performances.

THE first result in this city of the report of copperhead success in forcing a vote in the Legislature at Concord, Saturday morning, was as gratifying as it was astonishing—said result being the displaying of a Union flag instead of the stars and bars from the window of a democratic printing office; but perhaps the Union flag was meant to typify the coalition of the old line disunionists with old line abolitionists, and the generous bestowal of offices on the latter by the former, at Concord, as a reward for their assistance and a bid for their continued support.

But the Union flag-raising at the democratic printing office led to one serious result. A republican horse saw it, gazed at it with amazement, and then, probably thinking the world must be near its end, he started off at the top of his speed, taking along with him a stout wagon to which he was harnessed. He made things lively for a few minutes. An ox got in his way on Market Square; but a horse that had seen a Union flag displayed by the democracy wasn't to be stopped by a mere ox, so he ran into him vigorously and knocked him out of the way, to the evident perplexity of the bovine. Next he collided with and capsized a market wagon, causing the stone jar of butter therein to go on a trip across the Square on its own hook; then he left the body and hind wheels of his own wagon where the owner could easily find them; and the last we saw of him he was going up street at a tall rate of speed, with the shafts and two wheels still in his company. Who the owner was we did not learn, nor whether any other damage was done.

But we beseech our democratic brethren not to be fooling with the Union flag any more—it was nearly torn in shreds once by the rough handling of the democracy, and was only preserved with great trouble and expense by the republican party.

THE house and barn of Mr. Daniel Philbrick, of Greenland, were burned about 4 o'clock on Saturday afternoon last.

MR. N. F. MATHES has disposed of his interest in the brewery business of Mathes & Harris, to Mr. William E. Hadley.

WE hear the names of Judge Buford, W. H. Y. Hackett, Frank W. Miller, Thomas S. Nowell, Geo. L. Treadwell and William Simes mentioned for Mayor.

MASTER WILLIE JONES of the Hanover Street Grammar School fell while playing at recess, Thursday P. M. of last week, and fractured the *internal condyle* of the left arm. The bone was set by Dr. Whittier.

WE regret to learn that Mayor Adams shows but little improvement. On Friday he was better than when committed to the Asylum, but was worse the following night and continued in the same state, Saturday. There seems to be no probability that he will be able to resume his duties as Mayor of Portsmouth.

THE Lynn Light Infantry, on Friday evening, made our street musical until a late hour, serenading with the band by which they were accompanied, many of our prominent citizens — Ex-Gov. Goodwin, Hon. W. H. Y. Hackett, Hon. Richard Jenness and others. On Saturday they spent the early part of the day in looking around the city; and later they paid a visit to the Navy Yard, where they were received by the officers of the Station with the courtesy and attention invariably shown to visitors by those gentlemen. Returning, the company and their invited guests, including a goodly delegation of naval officers, and citizens and members of the quill fraternity of this and other cities, sat down to dinner at the Rockingham House soon after 3 o'clock; the dinner needs no further comment than to say it was provided by the landlords, Messrs. G. W. & J. S. Peirce—to add anything in the way of description would be to paint the lily. After properly discussing the solid portion of the dinner, sentiments and speeches were of course in order. The toastmaster, S. E. Ireson, Esq., read letters of excuse for non-attendance at the feast, from prominent men in various places; and we ourself felt called upon to explain why more of the New Hampshire editors had not responded to the invitations extended, the simple but satisfactory reason being that they were all at Concord, engaged in trying to save the country by getting each one's political party into power. Among the toasts offered and honored were the following:—

The State of New Hampshire:—generous in her hospitality and great in her historic recollections, firm in her patriotism as her own granite hills, and true to the principles enshrined in their honored names.

The City of Portsmouth—city by the sea, nursery of great men, home of Webster, Mason and Woodbury.

The toast of "The Navy" was responded to by Paymaster Watson; "The city of Lynn" called up Ex-Mayor Buffum of that city, a Quaker who was converted by the rebellion to a belief that war may sometimes be a necessity, and who was one of the first in Lynn to respond, with voice and purse, when the country called for saviors. Mr. Buffum spoke with feeling and humor, and the applause which is often given to after-dinner speeches by courtesy, was well earned by the Ex-Mayor's happy and appropriate remarks. "The Rockingham House" and "The Band" were responded to by the music—and splendid music it was, too.

The time for leaving having arrived the company rose, the ranks were quickly formed, and the Lynn Light Infantry, escorting their fine and honorary members and some of their invited guests, marched to the railroad station by way of Market Square, accompanied on the route by hundreds of spectators, including a large proportion of ladies; and in a few minutes they were off, leaving behind them a very favorable general impression, and in the minds of their guests a lively personal sense of the fact that the members of the company are liberal and courteous gentlemen. We would particularly express our acknowledgments to Capt. Newhall and the other officers of the company for special courtesies extended us, and to Bro. Post of the Lynn Little Giant for making us personally acquainted with so many agreeable companions among our entertainers.

THE NEW ORLEANS, MOBILE & TEXAS RAILROAD COMPANY

Are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles. The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 166 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 226 miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered

to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $3,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.

Subscriptions will be received in Portsmouth by

First National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

RHYME WITHOUT REASON.—"Summer Friends," one of Claribel's latest songs, is advertised with an illustrated stanza (on the same principle as the man who had a house to let carried about a brick as a specimen) thus:—

Where are thy summer friends,
Friends of thy youth?
Gone with the summer birds,
Back to the South.

This leaves it uncertain whether, in order to ryme, "youth" should be sung "yowth," or "south" "suth." We shall be told, of course, that the rhyme is addressed to the eye, not to the ear. By such a canon the following lines may possibly be deemed melodious:—

Peasant Arcadian,
Guiding the plough;
Coarse are your garments,
Your aspect is rough.

Peasant imprudent,
I hear you're a cough?
Do you feel sure
You're clad warmly enough?

Bibulous peasant,
Your voice it is rough;
You're no disciple
Of temperate Gough.

Home to your cottage,
You hear the wind's sough;
Even the birdies
Sing coarse on the bough.

Home to your cottage,
And bend o'er the trough,
Kneading in loaves
The digestible dough.

Though the bread's heavy,
Unyielding and tough;
Chawbacon's teeth
Will get easily through.

Mr. Punch commends these stanzas to any French ladies or gentlemen at present resident in England, who may be desirous of mastering the peculiarities of English pronounciation.—*Punch.*

PERFECT COFFEE.—A correspondent of the Independent travelling in Sweden, was immensely delighted with the coffee served on steamboats and in hotels. Writing from Upsala, he says:

"We determined to find out how they made such perfect coffee as we had just drank, and stepped into the neat kitchen of the little hotel; and this was the report:—Take any kind of coffee-pot or urn, and suspend a bag made of felt or very heavy flannel, so long as to reach the bottom, bound on a wire fitting the top; put in the fresh ground pure coffee and pour on freshly boiled water. The fluid filters through the bag, and may be used at once; needs no settling, and retains all its aroma. The advantage of this over the ordinary filter is its economy, as the coffee stands and soaks out the strength, instead of merely letting the water pass through it. 'Do you boil it?' inquired the learner. 'Na-s-a-ay,' said the maid, in simple astonishment that any one should be so wasteful as to send the precious away in steam, should rob that prince of food of that evanescent something which constitutes his nobility, and reduces him to mere aliment. As soon would one think of throwing away that drop of sunshine, charged with all the summer's gold, which lies at the throat of a bottle of Johnannisberger."

NEW ADVERTISEMENTS.

THIRTY THOUSAND DOLLARS PAID.—The TRAVELERS LIFE AND ACCIDENT INSURANCE COMPANY, of Hartford, Connecticut, paid $40,000 on W. H. Ferbush and Wm. C. Curry, victims of the New Hamburg railroad; $5,000 on the late Jas. H. Blake, mayor of Worcester, Mass.; and $5,000 on the late S. H. Lewis, Jr., of St. Albans, Vt. All these accidents occurred, and the insurance was paid, within three months—each claim being paid about sixty days before it was due by the terms of the policy. The TRAVELERS has paid SEVEN HUNDRED DOLLARS A DAY in benefits to its policy holders, for deaths or injury by accident, for every working day during the past seven years.

The TRAVELERS LIFE AND ACCIDENT INSURANCE COMPANY, of Hartford, Conn., grants all the usual forms of LIFE and ENDOWMENT Policies, on exceedingly favorable terms. AMPLE SECURITY and LOW RATES.

CHEAP FARMS! FREE TRAVEL!
Chicago, Rock Island, and Pacific Railroad Company.
600,000 ACRES
CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $6 to $15 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.

EXPLORING TICKETS are sold at the Company's ticket offices at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

TARRANT'S SELTZER APERIENT.

SECTS AND CREEDS DIFFER, but there are no dissenters from the general principle, that a great medicine is a great blessing. We have many of these blessings, but among them all, in the province to which it belongs, no greater than

Tarrant's Effervescent Seltzer Aperient.

A column would not suffice to enumerate the ailments for which it is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, a stomachic, an anti-bilious preparation, and an admirable remedy for all bilious complaints.

Let there be no mistake. Secure the genuine article only.

A GOOD OFFER TO THE
Ladies of Portsmouth and Vicinity.
E. A. JOY
Has Fitted up a Spacious and Elegant SEWING MACHINE ROOM directly over his Music Store and employs a competent young lady to take charge of the same. A cordial invitation is hereby extended to all the ladies (not having good Sewing Machines of their own) to bring in lots of work and learn to make it up on the Machines. *This* will cost nothing whether a Machine is purchased or not. If you do not buy now, you will at some future time, for the day is not far distant when a SEWING MACHINE will be considered as indispensable as a Cook-Stove. Come as often and stay as long as you please.
MR. JOY'S business in the Sewing Machine line is very rapidly increasing, which enables him to make the above generous offer.
His long experience in this branch qualifies him to be an excellent judge of the goods he sells; and as he has had the Agency of *all* kinds offered him at different times it is reasonable to suppose that the *Best* SEWING MACHINES may always be had at the SEWING MACHINE EMPORIUM, No. 9 PLEASANT ST., nearly opposite the Post Office, Portsmouth, N. H. *Twelve Different Kinds to Select from.* mh7

AMERICAN & FOREIGN PATENTS.
R. H. EDDY,
SOLICITOR OF PATENTS,
For Inventions, Trade Marks or Designs,
NO. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,
After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
All necessity of a journey to Washington to procure a Patent and the usual great delay thereby, are here saved inventors.

TESTIMONIALS.
"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON,
Commissioner of Patents."
"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* to secure their rights in the name. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.
EDMUND BURKE,
Late Commissioner of Patents.
"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
JOHN TAGGART."

PROPOSALS FOR MATERIALS TO BE SUPPLIED TO THE NAVY YARDS UNDER THE COGNIZANCE OF THE BUREAU OF CONSTRUCTION AND REPAIR.

NAVY DEPARTMENT,
BUREAU OF CONSTRUCTION AND REPAIR,
WASHINGTON, D. C., June 6, 1871.

SEALED PROPOSALS will be received at this Bureau until 12 o'clock M., of the 30th of June instant, at which time the bids will be opened.

The proposals must be addressed to the Chief of the Bureau of Construction and Repair, Navy Department, Washington, and must be indorsed "Proposals for Timber, &c., for the Navy," that they may be distinguished from ordinary business letters.

To prevent confusion, and facilitate the opening of the bids, parties bidding for supplies at several yards will enclose their bids in separate envelopes, each indorsed with the name of the yard for which the bid is made.

Printed schedules for such classes as parties deal in and intend to bid for, together with instructions to bidders, giving the forms of proposals, of guarantee, and of certificate of guarantors, with printed forms of offer, will be furnished to such persons as desire to bid, on application to the Commandants of the respective Navy Yards, and those of all the yards on application to the Bureau.

The Commandant of each Navy Yard, and the Purchasing Paymaster for each Station, will have a copy of the schedules of the other yards, for examination only, in order that persons who intend to bid may judge whether it is desirable to make application for any of the classes of those yards.

The proposals must be for the whole of a class, but the Department reserves the right to reduce the whole class, should the interest of the Government require it, before the execution of the contract. All applications for information, or for the examination of samples, must be made to the Commandants of the respective yards.

The proposal must be accompanied by a certificate from the Collector of Internal Revenue for the district in which the bidder resides, that he has a license to deal in the articles for which he proposes; *and, by direction of the Department, bids or offers will be received only from parties who are bona fide dealers in, or manufacturers of, the articles they offer to furnish.* The guarantors must be certified by the Assessor of Internal Revenue for the district in which they reside.

The contract will be awarded to the person who makes the lowest bid and gives the guarantee required by law, the Navy Department, however, reserving the right to reject the lowest bid, or any which it may deem exorbitant.

Sureties in the full amount will be required to sign the contract, and their responsibility must be certified to the satisfaction of the Navy Department.

An additional security twenty per centum will be withheld from the amount of the bills until the contract shall have been completed, and eighty per centum of the amount of each bill, approved in triplicate by the Commandants of the respective yards, will be paid by the Paymaster of the station designated in the contract, or, if none is specified, by the Paymaster of the station nearest the yard where the goods are delivered, within ten days after the warrant for the same shall have been passed by the Secretary of the Treasury.

The classes of this Bureau are numbered and designated as follows:—

No. 1, White Oak Logs; No. 2, White Oak Keel Pieces; No. 3, White Oak Curved Timber; No. 7, Yellow Pine Logs; No. 8, Yellow Pine Beams—Oregon Pine Beams at Mare Island yard; No. 9, Yellow Pine Mast Timber—Oregon Pine Mast Timber at Mare Island yard; No. 11, White Pine Logs; No. 12, White Pine Mast Timber; No. 13, White Pine Plank, Boards—Sugar Pine Boards at Mare Island yard; No. 15, White Ash, Elm, Beech—White Ash, Redwood at Mare Island yard; No. 16, White Ash Oars; No. 18, Black Walnut, Mahogany, Maple, Cherry; No. 22, Cypress, Cedar; No. 23, Black Spruce; No. 24, White Oak Staves and Heatings; No. 25, Lignumvitæ; No. 30, Ingot Copper; No. 32, Copper, Nails, Iron, round and square; No. 33, Wrought Iron Plate; No. 34, Iron, plate; No. 35, Steel; No. 37, Iron Spikes; No; 38, Iron Wrought Nails; No. 39, Iron Cut Nails; No. 42, Lead, pipe, sheet; No. 43, Zinc; No. 44, Tin; No. 45, Solder; No. 48, Locks, Hinges, Bolts, of brass and Iron; No. 49, Screws, of brass and iron; No. 50, Files; No. 51, Augers; No. 52, Tools for ship stores; No. 53, Tools for use in yard and shops; No. 54, Hardware: No. 56, White Lead; No. 57, Zinc Paints; No. 58, Colored Paints, Dryers, No. 59, Linseed Oil; No. 60, Varnish, Spirits Turpentine; No. 63, Sperm and Lard Oil; No. 64, Tallow, Soap; No. 65, Fish Oil; No. 68, Glass; No. 69, Brushes; No. 70, Dry Goods for upholstering; No. 71, Stationery; No. 72, Crucibles; No. 73, Ship Chandlery; No. 74, Acids; No. 75, Resin, Pitch, Crude Turpentine: No. 77, Belting, Packing; No. 78, Leather, pump rigging, lacing; No. 80, Junk; No. 85, Anthracite Coal; No. 86, Semi-bituminous Coal; No. 87, Bituminous Coal; No. 88, Charcoal; No. 89, Wood.

HOW NATURE ALLAYS PAIN.—We know how much relief is experienced by the grief worn heart if it can vent its deep emotions in a gush of tears. Appreciating the philosophy of tears, a French physician publishes a dissertation on the advantages of groaning and crying in general, and especially during surgical operations, by which nature allays anguish; that those patients who give way to their natural feelings more speedily recover from accidents and operations than those who suppose it unworthy a man to betray such symptoms of cowardice as either to groan or cry. He tells of a man who reduced his pulse from one hundred and twenty-six to sixty in the course of a few hours, by giving full vent to his emotions.

If people are all unhappy about anything, let them go into their rooms and comfort themselves with a loud boohoo, and they will feel a hundred per cent. better afterwards. In accordance with the above, the crying of children should not be greatly discouraged. If it is, systematically, the result, may be St. Vitus' dance, epileptic fits, or some other disease of the nervous system. What is more natural than the crying of children when anything occurs to give them physical or mental pain. Probably most persons have experienced the effect of tears in relieving great sorrow. It is even curious how the feelings are allayed by their free indulgence in groans and sighs. Then let parents and friends show more indulgence to noisy bursts of grief—on the part of children as well as of older persons—and regard the eyes and the mouth as the safety valves through which nature discharges her surplus steam.

—The Goat is a coarse woollen sheep, with a cracked voice and a sanguine digestion. They had rather steal a rotten turnip out ov a garbage barrel than cum honestly bi a peck ov oats. They strike from the hed insted ov the shoulder, and are az likely to hit the mark as a bumblebee iz. They are faithful critters in the hour ov adversity, and will stick tew a man az long az he lives in a shanty. They kan climb everything but a greased pole, and are alwuz poor in the boddy, but phatt in the stummak. What they eat seems tew all go tew appetight. A phatt Goat would be a literary curiosity.

Angleworms are ov earth, earthy, and crawl for a living. The angleworm, tho' full of grit, is not quarrelsome. It is sed (by naturallists) that angleworm ile, rubbed on the back ov the neck will cure a man ov liein. I don't believe this, unless it kills the man. Death is the only safe cure (that baz bin diskovered yet) for the falsehood disease. Angleworms are used by sum people as an artikle ov diet—(to catch fish with). They are handy tew put onto a hook, and are dreadful handy tew take oph agin, as every wicked person knows who haz fished all day Sunday for daice in a mill-pond—*Josh Billings.*

THIRTY THOUSAND DOLLARS PAID.—The TRAVELERS LIFE AND ACCIDENT INSURANCE COMPANY, of Hartford, Connecticut, paid $40,000 on W. H. Forbush and Wm. C. Curry, victims of the New Hamburg railroad; $5,000 on the late Jas. H. Blake, mayor of Worcester, Mass.; and $5,000 on the late S. H. Lewis, Jr., of St. Albans, Vt. All these accidents occurred, and the insurance was paid, within three months—each claim being paid about sixty days before it was due by the terms of the policy. The TRAVELERS has paid SEVEN HUNDRED DOLLARS A DAY in benefits to its policy holders, for deaths or injury by accident, for every working day during the past seven years.

THE TRAVELERS LIFE AND ACCIDENT INSURANCE COMPANY, of Hartford, Conn., grants all the usual forms of LIFE and ENDOWMENT Policies, on exceedingly favorable terms. ample SECURITY and LOW RATES.

600,000 ACRES
CHOICE IOWA LANDS.
This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $5 to $15 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.
Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.
These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.
For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.
EXPLORING TICKETS are sold at the Company's ticket offices at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

AMERICAN & FOREIGN PATENTS.
R. H. EDDY, SOLICITOR OF PATENTS, For Inventions, Trade Marks or Designs, No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON, After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."
"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.
"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

ARE YOU GOING TO PAINT?
—IF SO, USE THE—
AVERILL CHEMICAL PAINT.
It is Cheaper, Handsomer and more durable than the best of other Paints. One Thousand Gallons of it were sold in this City, in the year 1870, and not one complaint has come from those who have used it; but all speak in its favor; it is mixed ready for application, and is much easier put on than any other Paint, making a smooth, glossy surface for years, that can be cleaned with hot suds without injuring it. It is excellent for walls inside, in the place of paper.
I shall keep this reason a large stock of Chemical Paints of all shades on hand, to accommodate customers with any amount, without delay in ordering it. Those who want to use the Chemical Paints and have had them misrepresented by those who deal in Lead, are invited to call and examine my Paints that have been on Buildings two years, and you will find them as fresh as if laid but one month.
I am prepared to do Painting by Contract, or by the day, using the Chemical Paint, or furnishing good experienced workmen by the day at very low wages. B. NORTON, only Agent for selling the

CARD.
Having become satisfied after thorough investigations that Elastic Sponge, as now and lately manufactured, is one of the best of all substitutes for curled hair, for many if not most uses in upholstery, we have accepted the Agency for it, and intend to make it hereafter a speciality in our business. The objections which been made to it and which it is well known we ourselves have thought were well founded, we have ascertained cannot be urged against the article as now perfected. The process of manufacture has been entirely remodeled under the advice and superintendence of one of the most eminent chemists of New England. New chemical and mechanical appliances have been introduced in cleansing crude Sponge, and in charging it with glycerine with such entire success, that Elastic Sponge may now be said to be chemically pure. There is absolutely nothing in it but the clean fibre of Sponge and chemically pure glycerine.
The objections to Elastic Sponge being thus removed there remain its undisputed merits which certainly entitles it to be considered one of the most valuable, as it is one of the most curious and interesting of late discoveries. The merits of these merits is, that it is proof against moths—the great scourge of the business,—against all other insects. Then its elasticity is permanent, based as it is upon the non-evaporable property of glycerine and the indestructibility of sponge fibre. We have always been satisfied upon these two points which are the essential requisites in such materials. The evidence is now equally clear that it is wholesome and sweet. It is very light and soft, easy to manipulate, and cheap enough for all except the lowest class of goods. For the cushioning of Churches, Theatres, Public Halls, Railway Stations, Omnibuses, Carriages, Steam and Horse Cars and the like, it will probably be found, everything considered, the best article in use. For all uses, and especially for Bedding, we are now prepared to recommend the public to give it a fair trial as we ourselves intend to do. We are are ready also to answer inquiries, make estimates and take orders for every description of work in Sponge as well as to supply the trade the article in Bales.

JURUBEBA. WHAT IS IT?
IT IS A SURE AND Perfect Remedy for all diseases of the LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR THEIR CONCOMITANTS.
DR. WELLS, having become aware of the extraordinary medicinal properties of the South American Plant, called
JURUBEBA,
Sent a special commission to that country to procure it in its native purity, and having found its wonderful curative properties to even exceed the anticipations formed by its great reputation, has concluded to offer it to the public, and is happy to state that he has perfected arrangements for a regular monthly supply of this wonderful Plant. He has spent much time experimenting and investigating as to the most efficient preparation from it, for popular use, and has for some time used in his own practice with most happy results the effectual medicine now presented to the public as
Dr. Wells' Extract of Jurubeba,
and he confidently recommends it to every family as a household remedy which should be freely taken as a BLOOD PURIFIER in all derangements of the system and to animate and fortify all weak and Lymphatic Temperaments. 4wm16

TUESDAY, JUNE 13, 1871.

The Late Clerk of the House.

Several papers of Democratic tendencies have unfairly insinuated that Mr. Josiah H. Benton, Jr., late clerk of the House of Representatives, made intentional errors in calling the yeas and nays, previous to the organization of that body. We were present throughout the whole controversy and unhesitatingly pronounce the implied charges false. Mr. Benton's position was a peculiarly trying one and it was evident that he took great care in recording the votes. The responses of some members were so feeble that it was difficult to hear them at the desk, while in some cases it was next to impossible to distinguish whether they voted in the affirmative or negative, so great was the confusion. Mr. Page, Democrat, warmly defended Mr. Benton when Mr. Bingham insinuated that there was fraud in the matter, and stated that he had been at the desk during the time and thought it impossible for any one to keep a correct count under the circumstances. Other Democrats spoke in the same strain, and well they might, for there was hardly a single roll call taken after the House organized in which the present Democratic clerk did not make repeated mistakes.

The Republicans of the House acknowledge that they made a sad mistake when they abandoned the position to the Democrats by acceding to their unjust demands in placing the names of Messer of Northwood, Parsons of Bennington and Page of Concord on the rolls, contrary to the advice of Mr. Benton. We admire men of pluck and sagacity, and Mr. Benton is one of that class. Had the Republicans more men of his stamp they would not have submitted to the surrender which gave the State into the hands of the Democracy, and to which he strongly objected.

All attempts of the opponents of Mr. Benton to injure his reputation by insinuations or false charges will prove harmless. His public and private record as a high-minded and honorable gentleman cannot be controverted by his would-be detractors.

HON. J. S. C. KNOWLTON of Worcester, died in that city, June 11. For many years Mr. Knowlton has been sheriff of the county, discharging the duties of the office so acceptably that he has been re-elected as often as his time expired. He also served one or two terms as mayor of the city several years ago. But long before he filled official positions of trust and responsibility he was widely known as the editor and publisher of the Worcester Palladium, with which he maintained his connection up to the time of his death. He was formerly a democrat in politics, but when the democratic party surrendered to the behest of the slave power he joined the rising republican party and has been a consistent supporter of its policy ever since.

UMPIRING for New York base ball clubs must be rare fun. Two clubs, the Stars and the Flyaways, recently played a game for the junior championship, and their umpire had a real good time of it. The supporters of each of the opposing clubs made it lively whenever he decided a point in the game, by spitting tobacco juice on him and promising to "put a head on him" when the game was finished, if he did not decide in favor of their friends; and the gentlemanly players would themselves surround him and threaten to "boast him" and "smash him out flat" with base ball bats, if his decision did not suit them. The New York police were on the ground to preserve order, which they did by yelling at the players, hissing and hooting,—and they promised to pound the umpire if he did not decide according to their instructions. After the game was finished the unhappy umpire fled for dear life, in a well-guarded hack.

FRANCE.—The Orleans princes have resigned their seats in the assembly, as they promised, and have been well received by the cabinet. The seat of government will soon be removed to Paris. Thiers proposes an income tax. The press of Paris continue firm in their support of Thiers. The restoration of the public buildings has begun. The communist superintendents of the Bank of France have been given safe-conducts to leave the city. All of the property stolen from the churches has been discovered in the mint and restored. Prince Bregution, a Russian subject and a communist, has been shot.

THE Arizona papers justify and approve the massacre at Camp Grant.

MRS. FAIR'S death-warrant has been signed, and is in the hands of the sheriff.

BRIGANDAGE has been nearly extirpated from Greece, Turkey having given valuable assistance by arresting all brigands on the frontier.

A dispatch from Bombay says that a vessel bound from Kurrachee to Kotasir recently, foundered near Luckput, and 80 lives were lost.

JAPAN will send extensive contributions, embracing specimens of all her industries, to the coming Mechanics' Institute Fair in San Francisco.

THERE is considerable complaint by Spanish would-be Americans citizens that the United States government refuses to recognize their cases before the Spanish claims commission.

THE managers of the national asylums for disabled volunteer soldiers are beginning to admit to their institutions disabled volunteer soldiers of the war of 1812 and the Mexican war.

THE long-expected census returns from Texas have been received at the census bureau, and there now remains but a single county in Mississippi and a single county in Arkansas to be heard from.

THE result of the primary elections throughout California indicates the nomination of Booth for Governor by the republicans, and Haight, the present incumbent, by the Democrats. Both are pledged against local subsidies to railroads.

IMMENSE deposits of cannel of coal of the most valuable description have been found in the mainland of Alaska, and on Aleutian Islands, within a few hundred yards of an excellent harbor and a large company has been formed to work them.

THE press of California almost without exception denounce the coroner's jury in the case of the Chinamen murdered by boys on Fourth Street. In the face of the positive testimony the jury returned a verdict of "death from causes unknown."

THE New York Herald, in searching for a Democratic candidate for President, says that Gov. Hoffman "will be a new bottle for the new wine of these new amendments, (the Vallandigham and John Quincy Adams new departure,) and strong enough to withstand the pressure of the gas without much danger of an explosion from the fermintation."

CAPTAIN HALL and his officers went to the Navy department on Saturday, the 10th, took the oath of allegiance, and received their commissions. Secretary Robeson made them a very appropriate farewell speech. The Polaris sailed on Saturday afternoon for New York, from Washington. A large number visited the ship to see her off and bid farewell to her crew and passengers.

THE Morse statue in Central Park N. Y., was dedicated June 10th. Speeches were made in the park by Governor Hoffman, William Cullen Bryant and Mayor Hall, and at the Academy of Music in the evening by several distinguished gentlemen. A message of congratulation was sent all over the world by Professor Morse himself. During the day the New York telegraphers entertained a large number of visitors on the craft.

MASSACHUSETTS had a tornado on Sunday, the 11th. It passed through the towns, of Holden, Paxton and West Boylston, and was last heard of tearing up trees near Oakdale. In Paxton and Holden fifteen or more buildings were destroyed, heavy stone walls thrown down, and trees with tons of earth clinging to their roots were carried away. No lives are yet reported as lost, but one man hurt. The tornado was accompanied by thunder, lightning and rain.

AT Plum Island, Newburyport, Monday morning, at one o'clock, a carryall containing six persons, three men and three women, in turning around near Plum Bush Creek bridge on Plum Island turnpike, was overturned, and while the party were clearing themselves from the carriage the horse started and dragged one of the females on to the bridge. In some manner she fell in the creek and was drowned. Her name was Eliza Shaw and she was about 18 years old. Her body has not yet been recovered. There does not appear to have been any attempt made to save her, the party all running for the horse and leaving her to her fate. Her female companions are in charge of the officials, and the police are after the men.

LATE advices from Teheran state that the famine in one district of Persia has reached such a state that the starving people have killed and eaten 50 children.

AT Pittsburg, Pa., June 10, two county commissioners who pleaded guilty to receiving bribes for the granting of liquor licenses, were sentenced each to pay a fine of $2000 and be imprisoned in the workhouse for one year.

—We are not in the mood, at this time, to discuss the probable consequences of this loss of power by the Republicans, nor the causes which have brought about a change so radical and so little anticipated. It will, probably, be our duty to talk of them, hereafter, to the end of remedying our present misfortunes by reforming our past errors. But this duty can be to be performed when the situation shall be better understood, and when the present atmosphere shall be a little cleared of the clouds now surrounding us.—*Concord Monitor.*

Bah!

—Some people (copperheads all) profess great indignation because one of Brigham Young's sons has been appointed to a cadetship at West Point. But when they lay to the President the authorship of this favor to Brigham's boy brat, they only give one more exhibition of that malicious, asinine disposition which makes Grant the prime author of every conceivable evil, from the potato rot to cannibalism in New Zealand. It happens that the appointment was made by Hooper, the Delegate from Utah, and the President expresses himself as follows on the matter; "Had I known of Hooper's intention I certainly should have asked the Attorney General whether I had power under the law to prevent the appointment, and if advised affirmatively, I would have settled the matter there and then."—*Lake Village Times.*

BUSINESS NOTICES.

If *Johnson's Anodyne Liniment* is half as valuable as people say it is, no family should be without it. Certainly no person, be he lawyer, doctor, minister, or of any other profession, should start on a journey without it. No sailor, fisherman, or woodsman should be without it. In fact it is needed wherever there is an ache, sprain, cut, bruise, cough or cold.

As a remedy for Bronchial Affections and Chronic diseases of the Lungs, nothing ever before discovered equals Dr. Pierce's Alt. Ext. or Golden Medical Discovery. It is also a great blood purifier and restorative tonic, and cures Pimples, Blotches and Eruptions on the face, making the complexion clear and fair Sold by druggists.

Farmers and "Horse Men" are continually inquiring what we know of the utility of *Sheridan's Cavalry Condition Powders*, and in reply, we would say, through the columns of the Portsmouth Chronicle, that we have heard from hundreds who have used them with gratifying results; that is also our experience.

SPECIAL NOTICES.

Common Sense Decide.

What is the rational mode of procedure in cases of general debility and nervous prostration? Does not reason tell us that judicious stimulation is required. To resort to violent purgation in such a case is as absurd as it would be to bleed a starving man. Yet it is done every day. Yes, this stupid and unphilosophical practice is continued in the teeth of the great fact that physical weakness, with all the nervous disturbances that accompanied it, is more certainly and rapidly relieved by HOSTETTER'S STOMACH BITTERS than by any other medicine at present known. It is true that general debility is often attended with torpidity or irregularity of the bowels, and that this symptom must not be overlooked. But while the discharge of the waste matter of the system is expedited or regulated, its vigor must be recruited. The Bitters do both. They combine aperient and anibilious properties, with extraordinary tonic power. Even while removing obstructions from the bowels, they tone and invigorate those organs. Through the stomach, upon which the great vegetable specific acts directly, it gives a healthy and permanent impetus to every enfeebled function. Digestion is facilitated, the faltering circulation regains strength, blood reinforced with a new accession of the alimentary principle, the nerves braced, and all the dormant powers of the system roused into healthy action; not spasmodically, as would be the case if a mere stimulant were administered, but for a continuance. It is in this way that such extraordinary changes are wrought in the condition of the feeble, emaciated and nervous invalids by the use of this wonderful corrective, alterative and tonic. Let common sense decide between such a preparation and a prostrating cathartic supplemented by a poisonous astringent like strychnine or quinia.

BY reference to our advertising columns it will be seen that Mr. Joseph F. Berry has entered into partnership with Mr. W. L. Terhune in the furnishing business in the store under the Franklin House. Mr. Berry is a Portsmouth boy, and solicits the patronage of his friends and the public generally.

WE regret to learn that our esteemed teacher of former days, Timothy G. His old friends, including thousands of pupils who sat under his teaching, wish him a speedy return to health.

REV. GEO. TRASK, of anti-tobacco fame, labored in this city on Sunday as a missionary in the cause to which he has so long been specially devoted. He addressed the Unitarian, Baptist and Congregational sabbath schools, and in the afternoon preached in the Methodist church from the text, "That which is highly esteemed among men is an abomination in the sight of God," arguing that while men are votaries to a wide extent of tobacco, God abhors the common use of it. In the evening Mr. Trask addressed a large congregation in the North Church, on the physical, moral and national effects of the great and popular narcotic. The fight against tobacco-using is a terribly uphill one, but Mr. Trask is a persistent assailant, and a warrior "Who goeth to the warfare at his own charges."

NEW PUBLICATIONS RECEIVED.

Woods Magazine for June. Published by S. S. Wood, Newburgh, N. Y., containing 48 pages of reading matter and furnished for the low price of $1 per year.

Scribner's for July, opens with a splendidly illustrated article on Philadelphia by J. T. Headly; it also contains an illustrated article entitled Jaunts in Japan, and the usual quantity of other reading matter,—an unusually attractive number. Published by Scribner & Co., 654 Broadway, N. Y.

Till the Doctor Comes; by George H. Hope, M. D., published by G. P. Putnam & Sons, New York. A timely book in cases of accident or sudden illness, full of useful advice and invaluable for reference.

The American Odd Fellow for June contains a great variety of reading matter, and information of interest to every member of the order. Published by the American Odd Fellow Association, No. 96 Nassau Street, N. Y.

The Young Mechanic, published by Geo. P. Putnam & Sons, New York, should be in the possession of every boy in the land, old or young. It tells how to make a cage, a table, a steam-engine, how to mortice, mitre, joint, dovetail, rebate, tongue and groove, and treats of working at the lathe, woods and materials for turning, sharpening and setting tools, and hardening and tempering them. It is a book of 346 pages—just the work to have handy.

Mark Twain's Autobiography and First Romance should be his last. It is supremely silly and the paper it is printed on is wasted. If this is the result of Mark's marriage, it certainly furnishes a solemn warning to others not to do likewise. The illustrations are good. Published by Sheldon & Co., New York.

History of the American Stereoscope—for sale by J. H. Foster.

Little Men; Miss Alcott's latest, a sequel to Little Women—for sale by Foster Shores & Co.

SCHNEIDER, the noted French actress, has been married to a nobleman.

—A father was winding up his watch, when he said playfully, to his little girl, "Let me wind your nose up." "No," said the little girl, "I don't want my nose would up, I don't wan't it to run all day."

—It will probably surprise many people to learn that the territory called the "British Isles," of which Great Britain and Ireland are the chief, lying off the European continent, are fully 500 in number, and that 174 are inhabited.

—Two little school girls were lately prattling together, and one of them said:—"We keep four servants, have get six horses and lots of carriages; now what have you got?" With quite as much pride the other said, "We've dot a skunk under our barn."

—During a late performance of the "Lady of Lyons," at the Mormon theater in Salt Lake City, an old elder got up and indignantly walked out of the house with his 24 wives, muttering, "I won't stay and see a play where a man makes such an awful fool of himself about one woman!"

—In Leavenworth, Indiana, a youth named Tucker undertook to play burglar and scare a young man who was a bank clerk and suspected of timidity. In this he succeeded, but as he was chuckling over his exploit he was surprised by the appearance of his victim reinforced by a strong party of friends, who all supposed Mr. Tucker to be a burglar of the most atrocious character. It was not until he had been chased nearly a mile, had forty shots fired at him from revolvers, and been overtaken and fearfully beaten, that Mr. Tucker found an opportunity to explain the joke.

—Not far from Tappan, on the Palisades, the tree is pointed out from which Andre was hung. It is rather a notable feature in the landscape, and as a local memorial helps to break the monotonous refrain of "the house in which Washington slept." A traveller was under escort of a farmer thereabouts who pointed out the tree. "That's a famous tree there." "What is it famous for?" "I believe a general was hung there once." "What general—Gen. Washington?" Yes, that was his name." "What did they hang him for?" "Well, he captured somebody, I believe. I don't remember exactly." "Wasn't it Andre?" "Ay, that was it, they hung him for capturing Andre. I remember now."

GOLD AND GEOLOGY.—That theory may sometimes prove only a blind guide, and that a joker may sometimes have the laugh turned against himself, is the "moral" of the following good story, told by a writer in Lippincott's Magazine for May:—

"In the earliest days of gold-mining we established certain auriferous geological laws. It was legitimate that gold should be found only in certain locations on the river bank, in the bed, in gulches or flats, or riffles and bars. But gold was no respecter of these laws. There is near Columbia, Tuolume County, a very large flat, over a mile in diameter, and perhaps four in circumference. It has been immensely rich. It is surrounded on all sides by hills. One day, some nineteen or twenty years ago, a negro walked over this flat. He had just arrived in the country: he had come to dig for gold. He approached a party of miners at work, and asked them where he had better dig. These were geological miners. They held that gold should be found only in flats and low places. They were also white miners. White miners some nineteen years ago felt themselves at full liberty to expend their rough humor over a solitary inquiring negro: so they told him that good diggings might be found up on yonder hill, pointed to one of the highest in the neighborhood, as yet untouched by pick or shovel. It was a good joke thus to send Ethiopia up the barren hill that hot summer's day, the mercury standing at one hundred in the shade. Ethiopia confidently went, dug, perspired, and opened one of the richest claims in Tuolume.

Caucasia heard of it. The grin faded from her features. She dropped her picks and shovels, ran from the plain, ran up the hill, and in twenty-four hours it was entirely staked out in claims. Ethiopia had some trouble in preserving the integrity of his own legitimate mining boundaries. Caucasia ever after that was careful how she joked with inquiring negroes as to the locality of 'diggins.' She also lost confidence in her geology."

PRACTICAL APPLICATION OF HAMLET'S SOLILOQUY

To insure or not to insure? That is the question.
Whether 'twill be nobler for my family to suffer
The stings and arrows of outrageous fortune
Or take a policy against those dangers,
And, by insuring, end them? To fret, to fear,
No more; and by a policy to end
The heartache and the thousand natural shocks
That flesh is heir to. Yes, my application's
Devoutly to be wished; apply, insure.
And pay the premium: ay—there's the rub
For in that time what premiums may come
Before I shuffle off this mortal coil
Does make me pause, tightens my purse,
And makes me rather pay the bills I have
Than fly to others I know not of.
Than does meanness make brutes of us all.

LIFE INSURANCE COMPANY,
OF NEW YORK.

THE NEW ORLEANS, MOBILE & TEXAS RAILROAD COMPANY

Are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 226½ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, as 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **and 8 per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.

Subscriptions will be received in Portsmouth by

First National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS,

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY?

THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced, and sweetened to please the taste, called "Bitters," "Apperisers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

Health Regulations.

THE BOARD OF HEALTH of the City of Portsmouth call the attention of the public to the following sections of the Ordinances No. 4 and No. 100, and invite all interested in the preservation of health in the City to aid them in the execution of their duty.

ORDINANCE NO. 4.

SEC. 3.—All waste water of houses, yards, cellars, sinks, pumps, &c. shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEC. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low-water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners or occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

SEC. 11. The health officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing deemed by them, on examination, to be injurious to the health, within a certain time limited therein; and in case such owner or occupier or the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said health officers may, by direction of the mayor and accompanied by the city marshal, enter into such building, vessel, or enclosure, and cause the said nuisance or other thing foresaid to be removed or destroyed.

SEC. 14. The owner or occupier of any building, vessel or enclosure shall be liable to pay the expense of the removal or destruction of any such nuisance or other thing, as aforesaid, including fees of the health officers who order or cause the same to be removed; and the same may be recovered by action to be brought in the name of the city.

SEC. 17. Any person or persons who shall violate any rule or regulation, or commit any act forbidden in any section of this ordinance, to which no special penalty is annexed, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars, to be recovered by complaint before the police court of this city.

ORDINANCE NO. 100.

SEC. 1. When any householder shall know that any person within his family is taken sick of the Small Pox, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Health Officers.

SEC. 2. When any physician shall know that any person whom he is called to visit is infected with the Small Pox, or any other disease dangerous to the public health, such physician shall immediately give notice thereof to the Health Officers.

SEC. 3. If any such householder or physician shall refuse or neglect to give the notice required in the preceding sections, he shall for each refusal or neglect, forfeit the sum of twenty dollars, to be recovered by either of the Health Officers in the name of the city.

A CARD.

HAVING disposed of my Insurance Business to JOSEPH P. MORSE and WINGATE N. ILSLEY, two gentlemen well known for their integrity and business capacity, I return my thanks to my old and constant patrons and friends, for their many favors, and earnestly recommend my successors, trusting the same generous patronage will be extended to them as to myself. They represent one of the oldest and most reliable Companies in both Fire and Life Insurance in the Country.

Morning Chronicle.

LOVE AND NYTRO-GLYCERINE.

In Charion county, near the celebrated oil-producing district known as Parker's Landing, and not a great distance from where the Charion River mingles its pellucid waters with the swifter-rolling tide of the Alleghany, has lived for years a man named Howitt, who coming to the country in its earlier history, erected a cabin, and maintained an humble existence by following his profession of horse-shoeing. The years glided along, and nothing occured to vary the monotony of his humble and happy life save an occasional fracas with an unruly horse, or now and then being confined to his bed for a few weeks from the effects of a mule-kick on the cranium, or a dig in the ribs from the hind foot of a rebellious ox; for Howitt used to pursue his trade in its branches, and furnished shoes to everything that came along whereby an honest penny could be made. Meanwhile a daughter was born to him, who grew up in her mountain home like the pines that surrounded his dwelling, and was as graceful and beautiful as the wild flowers among which she played. Laura, for that is her name, obtained a fair education at the district school, aided by her mother, who was an accomplished graduate from an eastern academy, and her natural beauty and brightness was increased by an occasional visit to Pittsburg and eastern cities, where, amid higher social scenes than those which surrounded her birth place, she rapidly acquired the numerous little graces and coquetries of fashion which go to make up "the girl of the period." It is no wonder, then, that to the old man she was the apple of his eye—as a bushel of apples, in fact, of the old fashioned "none-such" kind—and that, as she attained woman's age and stature, the father looked with jealous eye upon the native admirers who surrounded her, and sternly frowned upon the forward young cultivator of buckwheat who, by the slightest action, sought to win her young heart's affections and transplant his wild flower to another's soil and home.

About this time the oil excitement, which for several years previous had raged upon oil creek and its tributaries, broke out in the vicinity of Parker's; an influx of strangers, operators and speculators began, and shortly after a portion of Mr. Howitt's farm was discovered to be on the belt, and leased for a round sum to wealthy operators. Though now comparatively wealthy, he still followed his original trade, though with a light heart as he thought of the bank account which would enable him to bring up and educate his family in a superior style, and place his daughter in a position socially to which her attraction and attainments entitled her.

But at this juncture a cloud appeared upon the old blacksmith's horizon; at first it was about the size of a man's hand, but it speedily grew to the full size and shape of a man himself, who proved to be a workman upon a well a short distance from the Howitt cottage, who fell head over heels into that delicious pool of affection, in which most of mankind have paddled blindly during their lives. At first Laura resisted her suitor's advances; but as weeks passed and there was a lack of society, which at other times might have served as an antidote to the growing admiration she began to feel for the young driller, who was comely, young and strong, and possessed the not unpleasant name of Henry Richardson. She gradually sought his society (her father had long since forbidden his coming to the house,) and hardly a day passed but she was seen in the derrick, watching the pulsation of the walking beam and her heart at the same time, and listening to his stories of adventure by flood and (oil) field. She loved him for the dangers he had passed, and he loved her because she believed his yarns, and finally, one bright day, as he had just finished a horrible recital of escape from death by a falling sand pump pulley, she shrieked and said she "wished that Heaven had made her such a man," when Henry abandoned the temper-screw rope and caught the fair Laura to his petroleum-stained bosom, wiped the benzine from his brow and lips, kissed her, and said, "I am the man."

While enjoying the few moments succeeding their betrothal—blissful moments that only come twice in a man's lifetime, once when he finds his mother's preserves, and the other as mentioned—the lovers were started by the sudden entrance of the "village blacksmith," who seized his daughter, and, without a word to the disconsolate Henry, carried Laura home and locked her up. Days passed without any communication between the lovers, and while Laura grew thin Henry also experienced bad luck; his tools got fast, the sand-pump bursted, and his heart promised soon to follow suit. But just here a happy thought struck him. Outside of the derrick was several hundred feet of gas pipe; he could not lay a telegraph wire, but he might lay a pipe line to his Laura's house, through which perchance, two hearts could beat "best as one," and hold communication sweet in spite of the defeated free-pipe bill. No sooner suggested than acted upon; that night he laid six hundred and eighty-one feet of half-inch gas pipe under ground between his derrick and the prison of his betrothed; a happy junction with the eave-spout was effected during the next night, and, shortly after, messages were sent and received between the lovers—Laura having brought the end of the water pipe close to her window, and Henry had his end of the line directly beneath his pillow, where, after he was "off tour," he would whisper words of undying affection that only ended when he fell asleep and the pipe slipped out of his mouth.

But while "love giggled at the lock-smith," the blacksmith was preparing to snort right out at love; for one day, while Laura was at dinner, her father had, while looking around her room, discovered the misplaced pipe, and, while gazing with a critic's eye at the strange spectacle, was more startled by soft words coming apparently from the cistern, "Laura dear, is the old man round?" Mr. Howitt smelt a mouse; he did more than that, he inhaled the odor of a genuine wharf rat; but, saying nothing, he merely descended the stairs and returned with a pint of oily-looking liquid, which he handled with extreme care. Making a cartridge of paper that would hold nearly all of the mixture, he inserted it in the pipe several feet, and then placing a long bar of iron upon that, called out loudly enough to be heard through cartridge, pipe and all, "Henry, my dear, are you there?" Quickly came the faint reply, "Yes Laura." "Place your ear at the hole, Henry." Here the parent raised a sledge hammer and struck the iron rod; an earthquake followed, before the echoes of which had rolled away could be seen the disappearance of an engine house, in miniatur, followed by the gable end of the Howitt mansion.

And now for the sequel. In his anxiety to see "how it was himself," old Howitt remained too near the pipe, and when the glycerine went off he did also, and was picked up in Armstrong county a few days later. But where was Henry? Instead of applying his ear to the hole he had stepped to the derrick for a moment, during which the explosion occured. He was only stunned, and a few moments later met his betrothed running to see it he was hurt. They fled at once to a neighboring justice of the peace and were married. They have patched up the old house and are happy, though the mysterious disappearance of their father was the subject for conversation for months after. This is the story as told us by an old man who lived near Henry and Laura, who heard the noise, and also saw where the ground had been torn up by the father's vengeful experiment. If any one doubts the story, the derrick is still be to seen.—*Titusville, Pa., Herald.*

TARRANT'S SELTZER APERIENT.

SECTS AND CREEDS DIFFER, but there are no dissenters from the general principle, that a great medicine is a great blessing. We have many of these blessings, but among them all, in the province to which it belongs, no greater than

Tarrant's Effervescent Seltzer Aperient.

A column would not suffice to enumerate the ailments for which it is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, a stomachic, an anti-febrile preparation, and an admirable remedy for all bilious complaints.

Let there be no mistake. Secure the genuine article only.

NEW HAMPSHIRE ITEMS.

At Bradford, Monday, Deputy-Sheriff Robbins took from the train a young Frenchman, charged with burglaries in Concord, Henniker and Hillsborough Bridge. He broke into the station at Henniker, Friday night, and stole ten dollars, including a silver quarter. Saturday he passed the silver at Lovering's saloon, Hillsborough Bridge, loafing there through the evening, and after it was closed stole seven dollars and fifty cents, including the silver quarter again. During the night he walked to Bradford station, eight miles, and passed Sunday in searching the premises, taking his meals but not lodging at the Presby House. The Sheriff reached the cars just as they were starting, and the thief is now at Hillsborough Bridge for examination.

At the church of the Immaculate Conception in Nashua, on Sunday last, 310 boys and girls, between the ages of eight and fourteen, were confirmed.

Ground has been broken for the extension of the State normal school at Plymouth.

The business men of Keene recently presented its postmaster with a valuable gold watch on account of his keeping the post-office opened till the last mail is distributed, which the law does not require him to do.

The steam saw-mill of Mr. G. W. Thomson at Warren Summit, together with a car and barn filled with lumber, were burned on Saturday. No insurance.

Charles Gove of this State is one of the successful applicants for admission as cadet to the Annapolis Naval Academy.

Peter Smart, the eldest stage-driver in the State, died at Northfield Depot on Friday, at the age of 80. He had been on the streets in Concord the day before. When a boy he carried the mail from Concord to Portsmouth. About 1813 or 1814, he ran a stage line from Concord to Portsmouth, which was the first stage ever put upon that route. Soon after, in company with Samuel Tallant of Canterbury, he opened a line of staging from Plymouth to Boston. It is related of him that while on that route he accomplished a feat unequalled by any man who ever sat upon a coachbox, and that way was to drive from Plymouth to Boston in one day and back the next day, and this he followed for one week, without removing his clothing for sleep. His powers of endurance were marvellous. About 1825, in company with Mr. Joseph P. Stickney of Concord, he drove a stage from Concord to Boston, and afterwards he was engaged in staging on routes north of Concord until railroads superseded coaching. While thus engaged he lived for many years in that city, and was widely known to the travelling public as a careful driver and a temperate man. He leaves a wife and three children.

—Admiral Rogers, with the U. S. flagship Colorado and steamers Monocacy and Palos, has left Woosung to join the Benicia and Alaska at Nagasaki and thence sail to Corea.

—The editor of the Bangor (Me.) Whig says he recently saw a large number of young ladies enter a public hall, with dishevelled hair and hat brims apparently wrinkled and broken, and as he fancied, with excited countenances. "Upon enquiring what the riot was about," says he, "imagine our chagrin when told it was the fashion."

—The White Stockings have been "flaxed" for the second time this season, and all, we learn, "through Hodes' wretched play behind the bat." Off with Hodes' head! What claim has he to life now? And what business had he to play behind the bat any way? Why didn't he stand in front of it like a man? *A bas* Hodes!—*Chicago Mail.*

—The parade of Barnum's menagerie through Washington street, Boston, was the occasion of a little incident in which one of the fair sex successfully divided with her sister on the perambulating chariot the attention of the admiring plebians. The woman in question had a quantity of luxuriant, golden curls. A male tyrant attempted to force his way through the crowd, when the tips of his umbrella caught the intervening obstacle and bore away in triumph the golden curls. The shorn blonde stood in amazement watching her disappearing hair, until it dropped off into the mud, when amidst the jeers of the wicked bystanders she rushed forward and rescuing it was lost in the crowd.

Fluid Extract Sarsaparilla.

In the Spring and Summer months the system undergoes a change.

This is the time to use good blood-renewing, purifying and invigorating medicines.

Helmbold's Fluid Extract Sarsaparilla

AND HELMBOLD'S

FLUID EXTRACT GRAPE-JUICE PILLS,

ARE THE BEST AND MOST RELIABLE.

One bottle of Helmbold's Fluid Extract Sarsaparilla equals in strength one gallon of the syrup or decoction as made by druggists; and a wine-glass added to a pint of water equals the celebrated Lisbon Diet Drink—a delightful and healthful beverage.

The Grape-Juice Pill is composed of Fluid Extract of Catawba Grape-Juice and

Fluid Extract Rhubarb.

Useful in all diseases requiring a cathartic remedy, and far superior to all other purgatives, such as salt, magnesia, &c.

Helmbold's Grape-Juice Pill

is not a patented pill, put up as those ordinarily vended, but THE RESULT OF TEN YEARS' EXPERIMENTING, AND GREAT CARE IN PREPARATION. SAFE FOR AND TAKEN BY CHILDREN; NO NAUSEA; NO GRIPING PAINS, BUT MILD, PLEASANT, AND SAFE IN OPERATION. TWO BOTTLES OF THE FLUID

EXTRACT OF SARSAPARILLA

AND ONE BOTTLE OF

The Grape-Juice Pills

ARE WORTH THEIR WEIGHT IN GOLD TO THOSE SUFFERING FROM BAD BLOOD, POOR COMPLEXION, HEADACHE, NERVOUSNESS, WAKEFULNESS AT NIGHT, COSTIVENESS, AND IRREGULARITIES,

and to those suffering from broken and delicate constitutions, it will give new blood, new vigor, and new life.

THE CATAWBA GRAPE PILLS

are done up with great care and in handsome bottles, and will surpass all those vended in wooden boxes, and carelessly prepared by inexperienced men, comparing with the English and French style of manufacturing. All of

CARD.

Having become satisfied after thorough investigations that Elastic Sponge, as now and lately manufactured, is one of the best of all substitutes for curled hair, for many if not most uses in upholstery, we have accepted the Agency for it, and intend to make it hereafter a speciality in our business. The objections which been made to it and which it is well known we ourselves have thought were well founded, we have ascertained cannot be urged against the article as now perfected. The process of manufacture has been entirely remodeled under the advice and superintendence of one of the most eminent chemists of New England. New chemical and mechanical appliances have been introduced in cleansing crude Sponge, and in charging it with glycerine with such entire success, that Elastic Sponge may now be said to be chemically pure. There is absolutely nothing in it but the clean fibre of Sponge and chemically pure glycerine.

The objections to Elastic Sponge being thus removed there remain its undisputed merits which certainly entitles it to be considered one of the most valuable, as it is one of the most curious and interesting of late discoveries. Chief among these merits is, that it is proof against moths—the great scourge of the business,—against all other insects. Then its elasticity is permanent, based as it is upon the non-evaporable property of glycerine and the indestructibility of sponge fibre. We have always been satisfied upon these two points which are the essential requisites in such materials. The evidence is now equally clear that it is wholesome and sweet. It is very light and soft, easy to manipulate, and cheap enough for all except the lowest class of goods. For the cushioning of Churches, Theatres, Public Halls, Railway Stations, Omnibuses, Carriages, Steam and Horse Cars and the like, it will probably be found, everything considered, the best article in use. For all uses, and especially for Bedding, we are now prepared to recommend the public to give it a fair trial as we ourselves intend to do. We are are ready also to answer inquiries, make estimates and take orders for every description of work in Sponge as well as to supply the trade the article in Bales.

JURUBEBA. WHAT IS IT?

IT IS A SURE AND Perfect Remedy for all diseases of the

LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR THEIR CONCOMITANTS.

Dr. WELLS, having become aware of the extraordinary medicinal properties of the South American Plant, called

JURUBEBA,

Sent a special commission to that country to procure it in its native purity, and having found its wonderful curative properties to even exceed the anticipations formed by its great reputation, has concluded to offer it to the public, and is happy to state that he has perfected arrangements for a regular monthly supply of this wonderful Plant. He has spent much time experimenting and investigating as to the most efficient preparation from it, for popular use, and has for some time used in his own practice with most happy results the effectual medicine now presented to the public as

Dr. Wells' Extract of Jurubeba,

and he confidently recommends it to every family as a household remedy which should be freely taken as a BLOOD PURIFIER in all derangements of the system and to animate and fortify all weak and Lymphatic Temperaments. 4wm16

WEDNESDAY, JUNE 14, 1871.

[*By Western Union Telegraph.*]

CONCORD, N. H., June 13th.

The Committees were announced in the House to-day. Walker is on National Affairs, Hackett, Judiciary, Walden, Manufactures, Pendexter, Unfinished Business, Sides, Printer's Accounts, Willey, Military Accounts, Flagg, Claims. House voted one newspaper to every member." Bingham presented remonstrance against holding seats by Fowler and Flint of Concord, all the members from Wards one and two, Portsmouth, and about twenty other Republicans. Wadleigh presented remonstrance against right of several Democrats to hold seats.

A Concord dispatch states that the Democrats proposed "to declare vacant the seats of the Republican members from Wards two and three, Manchester. The former has two members and the other four. The objections are that the Wards have not sufficient population for the ratio of representation. The Manchester Democrats offer to compromise if one representative from each Ward will resign."

Every Republican member should be in his seat to-day and throughout the session. "Eternal vigilance is the price of liberty."

HON. JAMES A. WESTON will be inaugurated as Governor, to-day, at Concord.

THE democratic "tidal wave" from New Hampshire reached New London, Conn., June 12, and the result was that Augustus Brandege, Republican, was elected mayor over F. L. Allen, Democrat, by a majority of 148. The entire Republican ticket was chosen. The city government has been Democratic for six years past.

Then Waterbury felt the collapse and the Republicans carried three of the four wards, electing eighteen of the twenty-four members of the Common Council, (a gain of twelve,) and the whole city ticket except the Mayor. The Democrats chose Geo. B. Thomas, Mayor, by 25 majority, a Republican gain of 175 over last year. The vote was the largest ever polled.

GOV. HENRY D. COOKE, of the Territory of the District of Columbia, has resigned.

EX-CONGRESSMAN BOWEN, convicted of bigamy, has been fined $250 and sentenced to years' imprisonment.

BARON GEROLT will sail for Germany on July . In the meantime there will be manufactured a silver service for presents to him, for which $2000 has been subscribed by his friends.

PRIVATE letters from Shanghai say that great uneasiness is felt at Pekin. The air is filled with strange mutterings, though danger to foreign residents is not supposed to be immediate.

OTTO WEISS, formerly a wealthy German merchant of New York city, committed suicide on Sunday by taking laudanum. His bank-book shows that he had lost $176,000 within a short time.

THE burning of the coolie ship Don Juan, before reported as Dolores Ugarte, which left Macao, May 4th, for Peru, with 650 coolies on board, is confirmed from two sources. Five hundred coolies were roasted alive.

THE manager of the San Paulo railway in Buenos Ayres is under trial for murder, in connection with recent accidents on that road. The people of that country are evidently uncivilized; in this part of the world a verdict of "nobody to blame" fixes everything all up nice, when a misplaced switch, bad rail or defective arrangement sends a few dozen passengers to another world.

THE spicy Republican of Erie has the following good hit: "The Detroit Free Press thinks that the Democratic party having come on to the Republican platform, there is no further excuse for the existence of the Republican party. We beg the Free Press' pardon, but this view of the case renders the existence of the Republican party more necessary than ever. Without that party the Democrats wouldn't stay where they are an hour. When one army surrenders to another it takes about as many men to guard the prisoners, to keep them from mutiny, as it did to capture them. But for the continued existence of the Republican party the Democrats would soon be off bushwhacking again. Can't the Free Press see it?"

—There are said to be four hundred professional wood engravers in the United States, whilst thirty years ago there were not twenty.

ANOTHER LESSON.—The mutiny and homicide on board the brig J. L. Bowen turns out to be as bare of dramatic details as any of the drunken affrays that take place in the vilest dens of the metropolis. Notwithstanding the statements made by some Democratic papers, in their blind zeal to say something against the negro, before a particle of evidence had been taken, that the evidence proved conclusively that the crew only were in fault, it appears (now that the evidence *has* been taken) that there was no premeditation, and that only a few moments elapsed between the first angry words and the terrible blow which sent Captain Amesbury into eternity. The six Spanish negroes who composed the crew were all new hands, and nothing occurred to create trouble for the first four days. On the fifth day, while the men were at work at the capstan stowing away the anchor, the first mate found fault with their work, and used epithets that would arouse the ire of the lowest human mortal. The hot blood of the copper colored seaman was aroused, and they replied in a similar strain. Thereupon the mate threw a heavy stick amongst them. This immediately resulted in a revolt, and the captain and second mate appeared, urging the first officer on and joining in the fight themselves. All were armed with heavy handspikes or other instruments. The affray lasted only for a moment, but in that time the captain had been killed, the first mate stunned by a blow on the head, and the seamen were all more or less injured. So thick and sudden was the fight that no one except James Thomas saw the captain fall. He does not deny having dealt the blow, but as he cannot be convicted on his own confession, he has been released from the charge of murder. It is said that the reports representing the crew as "murderous-looking demons" are altogether false; that in fact a more quiet lot of sailors is seldom seen. Their records are all said to be good, and this is the first serious offence ever charged against them. An exchange, commenting on the case says: "It is a very sad affair in every particular, the blame for which does not appear to belong wholly to either party."

The blame does *not* belong either to the officer who stirred up the strife or with the seamen who resisted abuse, but with the maritime laws of the United States, which have made of the officers of our merchant service in too many cases, savage and inhuman tyrants, and driven nearly every good man from sailing under our flag. That masters and officers of ships should often abuse the unlimited, irresponsible power vested in them, and despise and maltreat men whom the law holds to be slaves, is not surprising; and that seamen should often prefer to seek redress by violence and lawlessness rather than from laws which hold them in bondage but never protect them—laws of which they know nothing but the penalties, and which have in fact nothing but penalties for them—is not surprising, either. Bad laws have weeded out all the Americans and nearly all the better men of the foreign seamen, from the American merchant service; and thus the man who is not willing to emphasize an order with a handspike and enforce obedience with a bullet is really not fit to be an officer. So long as our present anti-democratic maritime slave laws exist, just so long will our merchant fleet be manned by inferior men; so long will masters and mates pour forth profanity and foul epithets on any or no provocation, and "capstan-bar hash" and "belaying-pin soup" be the common sailor's daily food; and so long will the public be startled by tales of constantly occurring horrors at sea—tyranny and murder on the one side and vengeance and murder on the other.

ON the 20th instant the Illinois and Michigan canal will be closed and the locks removed, and on the 3d of July the current of the Chicago River will flow from Lake Michigan.

WHEN we learned that Mr. E. N. Fuller was to start a new daily in Newark, N. J., we felt sure of its success. "Every Day" proves to be a sprightly paper and has run up such a large circulation that its enterprising proprietor issues another edition and calls it "Every Sunday." Mr. Fuller knows how to do things.

THE corner stone of a new Odd Fellows' Hall was laid in Lynn, Mass., with the usual ceremonies, on Monday, June 12; and on Tuesday there was an immense concourse of Odd Fellows in Boston, to assist at the laying of the corner stone of a new Odd Fellow's Hall in that city. The procession at Boston was two and a half miles long and contained 10,000 men.

NEW ORLEANS will be free from water by Thursday night.

IN Chicago, a beer-saloon keeper committed suicide on Sunday last, because a policeman compelled him to keep his saloon closed on that day.

ON Monday forenoon a switchman was killed between the bunters of two cars, in the Boston freight yard of the Boston & Albany Railroad.

THE reception to Horace Greeley in Union Square, New York, took place Monday night. A large crowd was present, and Mr. Greeley made a long speech that was favorably received.

THE Brazilian government has presented to the chambers a bill for the emancipation of all slaves belonging to the Crown. Convict slaves are also to become free after seven years' imprisonment, and their owners are to be indemnified from the treasury. The bill meets strong opposition.

IN the British House of Lords, June 12, Earl Russell moved an address to the crown against the ratification of the Treaty of Washington, and opposed the sixth article, which lays down a new rule of international law. Earls Granville and Derby hoped he would withdraw the motion, saying that although some parts of it were to be regretted, the international gain was incalculable. Earl de Grey and Ripon defended the commission from Earl Russell's charges, and Lord Cairns, the Duke of Argyll and Earl Kimberly also opposed Earl Russell's motion, which was finally withdrawn.

BUSINESS NOTICES.

If *Johnson's Anodyne Liniment* is half as valuable as people say it is, no family should be without it. Certainly no person, be he lawyer, doctor, minister, or of any other profession, should start on a journey without it. No sailor, fisherman, or woodsman should be without it. In fact it is needed wherever there is an ache, sprain, cut, bruise, cough or cold.

In the Spring and Summer months the system should be thoroughly purged, and nothing is so acceptable to the Stomach as HELMBOLD'S CATAWBA GRAPE PILLS, after which use HELMBOLD'S EXTRACT SARSAPARILLA. They invigorate the system, infusing new Life, Health and Vigor, causing no griping pains, and can be taken by Children with perfect safety.

Farmers and "Horse Men" are continually inquiring what we know of the utility of *Sheridan's Cavalry Condition Powders*, and in reply, we would say, through the columns of the Portsmouth Chronicle, that we have heard from hundreds who have used them with gratifying results; that is also our experience.

SPECIAL NOTICES.

Common Sense Decide.

What is the rational mode of procedure in cases of general debility and nervous prostration? Does not reason tell us that judicious stimulation is required. To resort to violent purgation in such a case is as absurd as it would be to bleed a starving man. Yet it is done every day. Yes, this stupid and unphilosophical practice is continued in the teeth of the great fact that physical weakness, with all the nervous disturbances that accompanied it, is more certainly and rapidly relieved by HOSTETTER'S STOMACH BITTERS than by any other medicine at present known. It is true that general debility is often attended with torpidity or irregularity of the bowels, and that this symptom must not be overlooked. But while the discharge of the waste matter of the system is expedited or regulated, its vigor must be recruited. The Bitters do both. They combine aperient and antibilious properties, with extraordinary tonic power. Even while removing obstructions from the bowels, they tone and invigorate those organs. Through the stomach, upon which the great vegetable specific acts directly, it gives a healthy and permanent impetus to every enfeebled function. Digestion is facilitated, the faltering circulation regulated, the blood reinforced with a new accession of the alimentary principle, the nerves braced, and all the dormant powers of the system roused into healthy action; not spasmodically, as would be the case if a mere stimulant were administered, but for a continuance. It is in this way that such extraordinary changes are wrought in the condition of the feeble, emaciated and nervous invalids by the use of this wonderful corrective, alterative and tonic. Let common sense decide between such a preparation and a prostrating cathartic supplemented by a poisonous astringent like strychnine or quinia.

Destruction of the Sagamore House at Frost's Point by Fire.

Our whole community laments the loss of a favorite place of resort, and the sympathy manifested for the proprietors of the Sagamore House is heartfelt and general. About 15 minutes after 10 o'clock, Tuesday forenoon, our citizens were startled by the appearance of Mr. Bart. Holland, who dashed about Market Square, hatless, his hair streaming in the wind, shouting "Fire" with all the strength of his lungs. He had ridden from the Sagamore House, where fire had been discovered shortly before 10 o'clock, in close proximity to the range. Mrs. J. S. Peirce and several attendants at the house were engaged in preparing it for the opening for the season which is just upon us, and had kindled a fire in the range, (near the billiard room,) for the first time this year. All accounts agree that the adjacent wood-work must have caught from the range. When discovered the fire had got so far under way that all attempts to smother or otherwise extinguish it were unavailing, and Mr. Holland, the only man about the house, was sent to the city to give the alarm.

The bells were rung and the firemen quickly responded; Mr. R. H. Beacham at once hitched a pair of horses to steamer No. 3, which immediately started but was turned back by orders from the Chief Engineer or one of his Assistants, on the ground that persons on the roofs of the highest buildings in town declared that the Sagamore House had been burned to the ground. Another excuse for detaining the steamer was the remembrance of past fires when wealthy citizens had remonstrated because steamers had been sent a distance of two miles or less from Market Square, "leaving more valuable property unprotected."

All the engines except No. 5 were ordered to return to their houses, and it was nearly 11 o'clock when No. 5 arrived at the scene of the conflagration, notwithstanding the great efforts of the firemen, who had only the help of one horse for three miles. Had the steamer proceeded on, instead of being stopped, there is but little doubt that the westerly end of the House (the extension built last year) and the stable would have been saved. When the hand tub arrived the firemen were completely tired out, but put on a stream of water in an incredibly short space of time, while scores of willing volunteers sprang to the brakes and relieved each other until No. 5's boys could rest. The hose-men labored under great difficulties but their efforts began to tell on the easterly end of the new extension which had hardly got well on fire. At this critical moment, just as a heavy stream of water was being thrown on the roof with every prospect of saving the building, the hose burst and one length was taken off. The tide was receding, the hose was at best too short, and some excited individual broke the windows in the cupola, which gave vent to the fire confined in the upper story, and the destruction of the House was a foregone conclusion. Had a steamer arrived as late as 12 o'clock, the extension could have been saved. Hundreds of willing hands lay idle, unable to save anything. Some of the firemen amused themselves by tearing down posts and piazzas, while the crowd stood looking at the slowly burning building, which did not fall to the ground for an hour after. The furniture was all taken out but was badly damaged.

The first outside help came from a number of fishermen who were off the Point when the fire broke out. They did signal service. The live stock at the stable was all gotten out, though it is said several hogs went back under the barn and were cooked. Mr. Geo. W. Peirce lost a trunk containing $700, which was burned in his sleeping room. The Messrs. Peirce estimate their loss at $60,000; insurance, about $29,000.—mostly in the Agencies of John Sise and Morse & Ilsley.

The Sagamore House has been an unfortunate building for its owners. It was first opened to the public June 20th, 1855, by Capt. Thos. R. Clark, its builder, who kept it two years with poor success. Capt. George W. Towle afterwards purchased it and found there was more loss than profit in it. After that the House lay idle until Messrs. Geo. W. and Jas. S. Pierce purchased it in 1868. It was growing into great popularity in their charge. Its destruction is an indirect injury to this city.

Work was resumed in the Bureau of Yards and Docks at this Yard on Monday last, after a suspension of about a week.

Half of the packet boat "Factory Girl" will be sold at auction by Deputy Sheriff Morse, on Saturday afternoon next.

Naval.—Sailmaker Augustus A. Warren has been detached from this Navy Yard and ordered to the U. S. frigate Congress.

We have received Governor Weston's Message to the legislature and shall publish it to-morrow. He states that the State debt is $2,360,087.52, and proposed to reduce the State tax one half or more.

A South Ender wants to know if the clock in the tower of the South Ward room is on a "strike?" It struck about fifty times the other morning for six o'clock. Mr. Ham ought to know "how the old thing works."

The rain came down in a fine shower, Tuesday afternoon, and vegetation and humanity were refreshed thereby; but more visitations of the same sort are needed yet, before all apprehensions of a dry summer will be allayed.

The remains of Capt. Joseph Knowlton of Keene, formerly of this city, were brought here last Saturday for burial. He followed the sea for many years, was an amiable and upright man, and enjoyed the good will and esteem of all who knew him.

Sewing Machine operators will find something to interest them in the advertisement of Mr. E. A. Joy, in another column. Mr. Joy has a large stock of sewing machines to select from, and offers a good opportunity for persons wanting such and not able to spare cash to purchase them, to procure machines to their liking; and whatever he promises he will perform.

Mr. B. F. Cate of Kittery has shown us an egg laid by a hen of the Dominique breed, which measures 6 1-4 by 7 3-4 inches in circumference, and weighs 3 1-2 ounces. The egg is now at Messrs. Butler & Laighton's Store on Market Square, and Mr. Cate thinks it will not be easily beaten; if it is, his hen will do better yet, as she is accustomed to laying ostrich's eggs right along, and if spurred to unusual endeavor by ambition, would no doubt eclipse any of her previous performances.

By reference to our dispatches from Concord it will be seen that Bully Bingham, the Democratic leader in the House, proposes to throw out the Republican Representatives from Wards One and Two, Portsmouth. The excuse given is that there are not ratable polls enough for four Representatives in each of these Wards. The facts are that there are 50 ratable polls more than enough in Ward One, and in Ward Two there are 53 more voters than is necessary for four Representatives, not counting several hundred ratable polls on the back of the check list. The desperate Democrats only show their willingness to violate the Constitution by these outrageous attempts to hold the advantage already fraudulently obtained.

Job and Card Printing.—We have made great additions to our jobbing facilities—a mammoth Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c.—and are prepared to execute with neatness and dispatch, all orders for Full Sheet Posters, Date Slips, Pamphlets, Sermons, Addresses, Auction Bills, Constitutions, By Laws, Programmes, Handbills, Circulars, Orders Dances, Blanks, Bill Heads, Receipts, Tickets, Business, Marriage, Address and Visiting Cards, Labels, Tags, and in fact Printing of any Description, at Satisfactory Prices. Orders received by mail, express, or at the Chronicle Office will be *promptly filled.*

TRY IT!

How well we remember in days that are gone,
The feelings we felt as we saw the cork drawn—
The disgust—the recoil
From "Cod Liver Oil,"
Dealt out to poor souls in the days that are 'gone!
But who could complain
Of this to be ta'en?
It swallows as easy as sparkling Champagne—
Does "Marvins' Deodorized Oil."

THE
NEW ORLEANS, MOBILE & TEXAS
RAILROAD COMPANY
Are building a trunk line, connecting New Orleans with Mobile on the east, and giving
THE ONLY RAILROAD CONNECTION
between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.
The Company is composed of strong Northern capitalists, who have already expended nearly TEN MILLION DOLLARS of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles of the Texas division; leaving but 140 miles to be built
To Complete the Entire Road.
It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.
The Company now offer for sale the
Eight Per Cent. Mortgage Bonds
upon the Louisiana division of 220½ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.
So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.
The Bonds now offered are of two classes:
FIRST MORTGAGE BONDS,
to the amount of $12,500 per mile, and
SECOND MORTGAGE BONDS,
to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.
The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.
No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.
At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to principal payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**
The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.
Subscriptions will be received in Portsmouth by
First National Bank.
Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

Consumption,
ITS CURE AND ITS PREVENTIVE,
By J. H. SCHENCK, M. D.
Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proved means of cure. These near and dear to them had and friends are sleeping the dreamless slumber into which, had they calmly adopted
Dr. JOSEPH H. SCHENCK'S SIMPLE TREATMENT,
and availed themselves of his wonderfully efficacious medicines, they would not have fallen.
Dr. Schenck has in his own case proven that wherever sufficient vitality remains, that it can be by his medicines and his directions for their use, is quickened into healthful vigor.
In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self assuring, self-convincing.
The Seaweed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two-thirds of the cases of consumption commence in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbific action of the liver. Here then comes the culminating result, and the setting in, with all its distressing symptoms, of
CONSUMPTION.
The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophyllum Peltatum. They possess all the blood-searching, alterative properties of calomel, but unlike calomel, they
"LEAVE NO STING BEHIND."
The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last,
A SUPPLY OF GOOD BLOOD.
The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chylification is now progressing, without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more nausea, no exacerbation of the stomach. An appetite sets in.
Now comes the greatest blood purifier ever yet given by an indigent father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatherings it prepares them for expectoration, and in a very short time the matter is raised, coughed, the rotten tissue that it occupied is renovated and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was
GIVEN UP AS LOST.
The second thing is, the patients must stay in a warm room, until they get well; it is almost impossible to prevent taking cold, and if the lungs are diseased, but it must be prevented or a cure cannot be effected. Freshair and riding out, especially in this section of the country in the fall and winter season, are all wrong. Physicians who recommend such course lose their patients, if their lungs are badly diseased; and yet, because they do so, the house they must not sit down quiet; they must walk about the room as much and as fast as their strength will bear, to get up a good circulation of blood. The patients must keep in good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.
To despair of cure after such evidence of the possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal statement is the faculty of his own cure as in these modest words:
"Many years ago I was in the last stages of consumption confined to my bed, and at one time my physicians thought that I could not live a week; I was like a drowning man catching at straws, I heard of, and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time. As soon as that began to subside, my cough, fever, pains and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon regained my strength, and have grown in flesh ever since."
"I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only ninety-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed uninterrupted health."
Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., still continue to see patients at their office, No. 15 North Sixth street, Philadelphia, every Saturday from 9 A. M. to 3 P. M. These are days for a thorough examination of the lungs. Good advice will be charged $5. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.
The directions for taking the medicines are adapted to the intelligence even of a child. Having these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be used in increased dose, or the Mandrake Pills need no other accompaniments than the ample directions that accompany them: First, create appetite. Of returning health hunger is the most welcome symptom. When it comes, as it will come, let the demand be met. Let the stomach be fed. Good blood at once follows, the cough loosens, the night sweat is abated. In a short time both of these morbid symptoms are no more seen.
Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are standard preparations; while the Pulmonic Syrup, as a cure of coughs and colds, may be compared to a prophylactic against consumption in any of its forms. Price of the Pulmonic Syrup and Seaweed Tonic $1.50, a bottle, or $7.50 a half dozen. Mandrake Pills, 25 cents a box. For sale by all druggists and dealers.

A GREAT MEDICAL DISCOVERY!
DR. WALKER'S CALIFORNIA
VINEGAR BITTERS.
Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.
WHAT ARE THEY!
THEY ARE NOT A VILE FANCY DRINK,
Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.**
They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.
For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.
DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.
They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.
FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.
FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.
They are a Gentle Purgative as well as a Tonic, passessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawfeb16

Morning Chronicle.

THE LATE FRANCIS BACON, ESQ.—At the May term of the S. J. Court, held at Alfred, York County Me., the following high and deserved tribute was paid by Judge Bourne to the memory of the late Francis Bacon, Esq., of Kittery, in introducing the eulogistic resolutions of the Bar in memoriam, which resolutions were placed upon the Court records.

Among all the names which will be found perpetuated on the records, honorable and worthy as they are, none are more worthy than that of Francis Bacon, which I now, at the request of the Bar, respectfully ask the Court to add to the list. I speak not of him as great, in the too common acceptation of human greatness. But I do speak of him in all the attributes of a true humanity. No member of the Bar comprehended his character more thoroughly than I did. From our association in the ministries in the Probate Court, and the communion and intercourse of subsequent years, I have had revelations of the invisible man that I feel myself to be well grounded in the averment, that one more surely incorruptible and of more sterling integrity, has never been numbered with our associates.

I believe him to have been as honest a man as ever walked the earth. Rooted and grounded in sound moral principle in early life, no proposition involving wrong could ever touch any accordant note in his constitution. It matters not to him that it was one of alleged trifling character. Great or small in the view of many it was alike repulsive to him. Whether in his professional, social, or political action he would give no countenance to any proceeding which did not commend itself to his conscience; and any address to his self interests, to induce an aberration from strict rectitude, here garded as an insult to his manhood. Procul, procul, este profani," was his response to any one who came to him with such an intent.

As a lawyer, in the sense of merely professional ability and acquisition, he maintained a very respectable standing. His aspirations, however high, had no auxiliary in his physical system. For years he has been debilitated, almost disheartened by its frailties. The nervousness consequent upon the weakness kept him from exercising his forensic powers at the Bar. He was quick in his perceptions, accurate in his law, though too distrustful of his apprehension of it; and faithful to his client in the broadest sense of that term. He did not limit his fidelity to the prosecution of his business claim, but he would not embark in a suit, and involve his client in the perils of judicial litigation, however much he was urged to do so, unless under the conviction that the demand was both a legal and just one; and I know that in many cases in which he must have been well satisfied on these points, he would not hazard the enterprise until further armed with the opinion of other counsel. He would under no consideration bring a false, groundless or unlawful suit.

In action as a public officer, his care and caution I have sometimes thought were carried to an unreasonable extent; sometimes not consistent with the public interests and convenience. As Register of Probate this element of his character was strikingly manifest. After a will was filed, he regarded it as entrusted to his responsibility; and he would not allow even the person who filed it or the judge of the court before whom its execution and validity were to be tried, to take it to the place of hearings; but would carry it himself, and abide there until the examination was concluded. Such was the vigilance of the man as to all official duty, and as to his obligation in all the relations of life.

A STARTLING DEATH.—On Sunday last, Elder Howe of the Christain Church of this city, exchanged pulpits with the minister of the Christian Church at Augusta, in this State, and at the close of his sermon, Mr. Howe exhorted his hearers to prepare for death, impressing upon them the uncertainty of life and the absolute necessity of every one being prepared for that hour which cometh unawares. He closed his exhortation by saying that "there might be some person in the congregation now listening to his voice who would never reach home alive." Hardly had he ceased speaking—in fact, while concluding the above sentence—Mr. Howe observed a man gradually sink down in his pew and lay quietly over on his side. A gentleman immediately behind him reached over to raise him up—but he was *dead!* The effect upon the congregation may better be imagined than described — certainly none present will ever forget the words of Mr. Howe that day.

The deceased was a young man named Wood, of good moral character and industrious habits. We were unable to ascertain any particulars of his history or what business he followed. The general opinion among those who knew the young man is that he died of heart disease. He passed away suddenly—instantly—not a struggle or a movement of any kind followed his laying over upon the seat.—*Quincy (Ill.) Whig.*

CONVERSATION BETWEEN CHILDREN, Not to be beaten—"My Mamma's got the shiningest hair in all Bayswater." "My Mamma's got the curlingest hair in all London." "My Mamma's got the longest hair in all England." "My Mamma's got the thickest hair in all the world." "My Mamma can sit on her hair." "My Mamma can take hers off!!"—*Punch.*

NEW ADVERTISEMENTS.

THIRTY THOUSAND DOLLARS PAID.—The TRAVELERS LIFE AND ACCIDENT INSURANCE COMPANY, of Hartford, Connecticut, paid $30,000 on W. H. Forbush and Wm. G. Curry, victims of the New Hamburg railroad; $5,000 on the late Jas. H. Blake, mayor of Worcester, Mass.; and $5,000 on the late S. H. Lewis, Jr., of St. Albans, Vt. All these accidents occurred, and the insurance was paid, within three months—each claim being paid about sixty days before it was due by the terms of the policy. The TRAVELERS has paid SEVEN HUNDRED DOLLARS A DAY in benefits to its policy holders, for deaths or injury by accident, for every working day during the past seven years.

THE TRAVELERS LIFE AND ACCIDENT INSURANCE COMPANY, of Hartford, Conn., grants all the usual forms of LIFE and ENDOWMENT Policies, on exceedingly favorable terms. AMPLE SECURITY and LOW RATES.

CHEAP FARMS! FREE TRAVEL!
Chicago, Rock Island, and Pacific Railroad Company.
600,000 ACRES
CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $5 to $15 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.

EXPLORING TICKETS are sold at the Company's ticket offices at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

TARRANT'S SELTZER APERIENT.

SECTS AND CREEDS DIFFER, but there are no dissenters from the general principle, that a great medicine is a great blessing. We have many of these blessings, but among them all, in the province to which it belongs, no greater than

Tarrant's Effervescent Seltzer Aperient.

A column would not suffice to enumerate the ailments for which it is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, a stomachic, an anti-febrile preparation, and an admirable remedy for all bilious complaints.

Let there be no mistake. Secure the genuine article only.

MESSAGE OF GOV. WESTON.

Gentlemen of the Senate and House of Representatives:

Having taken the oaths which are prescribed by the Constitution as a prerequisite to the performance of the duties of the office to which I have been elected, I desire to express to the people of the State my sense of gratitude for this manifestation of their confidence and trust. On this occasion it is fit that we should render to the Author of every good the homage of grateful hearts for His care over us, and His goodness in continuing unimpaired to the people of the State their social, religious, and civil rights.

In undertaking the duties of the position to which I have been called, I am not unaware of the embarrassments which surround me. I am deeply impressed with the grave responsibility which the duties of the office impose; and I feel a greater degree of anxiety on this subject from the want of experience in public affairs.

The custom has long prevailed in this State, on the assembling of the Legislature in each succeeding year, for the Executive to communicate to the Senate and House of Representatives his views on the subjects of legislation that seem likely to be brought before them, to recommend to their attention such measures as appear especially to demand their action, and to suggest the passage of such laws as in his judgment the public good may require.

Under the peculiar circumstances of my election, I have not had an opportunity to ascertain the details of many of the subjects likely to be presented for your consideration; and shall only call your attention briefly to some of the principal interests of the State, and offer such recommendations and suggestions as appear to be most important. I am not unmindful, however, of the fact that the members of the Legislature, coming from all parts of the State, must necessarily be the best judges of the wants and wishes of the people; and such measures, therefore, as may receive your sanction, will be carefully considered, and a strong sense of duty will alone induce me to withhold my official approbation.

The most important matter that will require your attention is the subject of the finances.

I am informed that the receipts into the treasury of the State the past year from all sources have been.....$1,182,325

The expenditures have been.....1,083,386

of which sum $419,204 have been applied to the payment of the State debt,—the details of which will appear at length in the forthcoming report of the State Treasurer; by which it will appear that the debt is now $2,360,087.52.

The indebtedness of the State has for some years been reduced at a rapid rate, the amount applied to its liquidation having been derived mainly from taxation; and it may well be questioned whether the interests of the people would not be better promoted by a more moderate rate of taxation with which to meet such payment

In my opinion the interests of the State will be best subserved by the annual appropriation, for this purpose, of a sum equal to the interest of the debt, and one hundred thousand dollars of the principal, which will cancel the whole debt within a reasonable period.

It is believed that, by a rigidly economical administration of the finances of the State, the ordinary expenditures may be reduced much below their present amount. This result, and the limitation of the payment of the debt, as proposed, would permit a material reduction of the annual State tax.

I therefore recommend that provision be made for the extinguishment of the debt by permanent laws, which shall fix the amount to be paid annually at such definite sum as would pay the whole debt and interest within a fixed number of years.

At the last session of the Legislature an act was passed for the assumption by the State of a portion of the several town debts, and it is expected that the Commissioners appointed agreeably to the provisions of the act will, early in the session, make their report, embracing the results of their investigation, together with such recommendations as they may deem proper. The adoption of the plan contemplated by the statute, although apparently increasing the State debt, will relieve the towns from a considerable burden, on which some of them at least are paying a comparatively high rate of interest. By giving the credit of the State to this class of indebtedness, the payment may be extended over a longer period, and the immediate burden of its liquidation rendered less oppressive.

Your careful deliberation is invited to the agricultural and manufacturing interests of the State.

The figures of the last census indicate that the State has retrograded in population, and that its position can only be maintained by the active development of its mechanical and manufacturing resources, which will create a home market for our products and increase our agricultural prosperity. As the manufacturing capacity of the State depends mainly upon its water power, you will consider whether further legislation is required to aid in determining the extent and amount that can be made available, and whether the survey authorized a few years since to indicate the amount of undeveloped power, had better be continued on a basis sufficiently extended to enable an accurate estimate to be made of the manufacturing capacity of the State, and to demonstrate its value and importance.

That the promotion of the cause of education among the people of the State, at the first establishment of a government within its limits, was deemed a matter of paramount importance, is duly evinced by the Constitution, which provides that "knowledge and learning generally diffused through a community, being essential to the preservation of a free government, and spreading the opportunities and advantages of education through the various parts of the country being highly conducive to promote this end, it shall be the duty of legislators and magistrates in all future periods of this government to cherish the interest of literature and the sciences and all seminaries and public schools." It is recommended that careful examination be instituted to ascertain whether the advantages to be derived from our free public schools cannot in some way be enhanced. Great as these advantages now are, it is manifest that perfection has not yet been attained, and constant inquiry should be made to see if any changes in the existing laws are required to render the school system of the State more efficient, and more conducive to practical usefulness.

The reports required by law to be made relating to the affairs of the Asylum for the Insane, the Reform School and other State charities, as well as those of the Warden of the State Prison, Commissioners on Fisheries, Adjutant General, and the Trustees of the State Library, will furnish you information as to their present condition. From them you will no doubt be able to ascertain such facts as are requisite to guide you in any action it may be necessary to take in reference to the administration of the affairs of these departments.

These reports are commended to your attention, with the suggestion that such appropriations should be made for these objects, as the interests of the people and the exigencies of the public service shall require. I am not advised that any special appropriation will be required in connection with any of these subjects.

All legislation should be for the whole people, and as far as practicable, general in its application. There seems to be no sufficient reason why the legislature at each session, should be applied to for so many special enactments. There is need that a reformation should be had in this respect, and that the powers of corporations of different classes should be made uniform, governed by general laws, applicable to all parts of the State, and with provisions ample enough to cover all the ordinary subjects for which special legislation is sought. Upon the adoption of such a system, legislation of this character will rarely occur, and the controversies which usually have been the occasion of it, will be otherwise determined.

"Economy being a most essential virtue in all States," the people have a right to insist that the government shall be prudently and honestly administered. Absolute equality of burdens and advantages cannot be expected under any form of government; but the inequality of both is aggravated by extravagance, and experience shows, uniformly to the detriment of labor. Capital by its facilities for combination, can take care of itself. There is reason to apprehend that unless the burdens necessarily imposed for the support of government are made as moderate and as uniform as practicable, we shall realize in our own experience the wide disparity of condition that exists between the extremes of society in the old world. I trust that in your deliberations, special care will be exercised to provide, so far as may be, that the expenses incident to the support of government may be equally distributed.

It will not be expected of me to discuss the details of national politics. The administration of the federal government should be simple, economical, impartial, and obviously constitutional. I apprehend that the present administration will not abide all these tests, and that this view is not held by one political party alone. It is my sincere conviction that there is good ground for many complaints. If the expenses of the government are unnecessarily large, the money is collected here, and disbursed elsewhere; if extraordinary land grants are made to railroad corporations, the land is ours, but the railroads are not; if one portion of the people are unnecessarily overawd by the presence of military force, it is we who pay the expenses; if capital is exempt from equal taxation, little of it belongs to us; and it is perhaps not extravagant to affirm that most of the grievances of which the people rightfully complain would be mitigated or wholly removed if the federal government would confine the sphere of its operations within clearly constitutional limits.

It is the occasion of congratulation that the Union is restored and that all citizens are entitled to protection in the rights guaranteed by the Constitution; and it behooves all to endeavor to cultivate those relations of amity in which the Union had its origin, and which must be fully restored if we would realize the obvious advantages the Union was designed to secure. However diverse the interests of different sections of the country may appear, they are really identical; and the utmost hope of the Union will never be realized until we feel ourselves to be one people; and until we are equally careful of the good name and equally jealous of the rights of all. Let us cherish with care a steady devotion to the Union and all those sentiments of fidelity, charity, and brotherhood, which alone can make the Union blessed.

But while we cannot be indifferent to the policy of the general government, we must not forget that the theory of our institutions invests the government of that State with those practical duties which most intimately affect the welfare of its people. The result of the recent election cannot be regarded as the occasion of personal congratulation merely or mainly; but as the triumph of those great principles of constitutional liberty for which we have always contended, and which we hope may be illustrated in our deliberations and conduct during the current year.

Senators and Representatives:

You are now assembled to discharge the duties of the offices to which you have been elected. These will be performed, I trust, with the wisdom and dispassionate temper their importance demands. The Executive will cheerfully co-operate in any measures tending to the public good. It is believed that the necessary business of the session will not detain you long; and it is hoped that it may be done with sole reference to the welfare of our beloved State.

CARD.
Having become satisfied after thorough investigations that Elastic Sponge, as now and lately manufactured, is one of the best of all substitutes for curled hair, for many if not most uses in upholstery, we have accepted the Agency for it, and intend to make it hereafter a speciality in our business. The objections which been made to it and which it is well known we ourselves have thought were well founded, we have ascertained cannot be urged against the article as now perfected. The process of manufacture has been entirely remodeled under the advice and superintendence of one of the most eminent chemists of New England. New chemical and mechanical appliances have been introduced in cleansing crude Sponge, and in charging it with glycerine with such entire success, that Elastic Sponge may now be said to be chemically pure. There is absolutely nothing in it but the clean fibre of Sponge and chemically pure glycerine.
The objections to Elastic Sponge being thus removed there remain the undisputed merits which certainly entitles it to be considered one of the most valuable, as it is one of the most curious and interesting of late discoveries. Chief among these merits is, that it is proof against moths, the great scourge of the business,—against all other insects. Then its elasticity is permanent, based as it is upon the non-compressible property of glycerine and the indestructibility of sponge fibre. We have always been satisfied upon these two points which are the essentials, required in such materials. The evidence is now equally clear that it is wholesome and sweet. It is very light and soft, easy to manipulate, and cheap enough for all except the lowest class of goods. For the cushioning of Churches, Theatres, Public Halls, Railway Stations, Omnibuses, Carriages, Steam and Horse Cars and the like, it will probably be found, everything considered, the best article in use. For all uses, and especially for Bedding, we are now prepared to recommend the public to give it a fair trial as we ourselves intend to do. We are are ready also to answer inquiries, make estimates and take orders for every description of work in Sponge as well as to supply the trade the article in Bales.

The Daily Chronicle.

Portsmouth, N. H.

THURSDAY, JUNE 15, 1871.

THE LEGISLATURE.

In the House, on the 13th, Mr. Hackett of Portsmouth gave notice of a bill relating to Mayors of cities.

Mr. Patten of Kingston gave notice of a bill to facilitate the building of railroads in this State.

On the 14th, Mr. Walker of Portsmouth gave notice of a bill to aid in the construction of the Portsmouth & Dover Railroad.

GOVERNOR JAMES A. WESTON was duly inaugurated on Wednesday. The grand procession consisted of a delegation of Manchester Police, in uniform; Manchester Cornet Band; the Amoskeag Veterans, as a battalion, in command of Col. Natt Head; Sheridan Guards of Manchester, Capt. O'Brien; the Head Guards of Manchester, Capt. Urich; the Manchester City Government; the Senate and House of Representatives; carriages containing His Excellency Onslow Stearns, Hon. James A. Weston, Governor elect, Hon. Geo. W. M. Pitman, President of the Senate, Hon. Wm. H. Gove, Speaker of the House, Councillors Clough, Barnard, Powers, Rust and Haile, and other distinguished persons; a cavalcade of carriages containing citizens of Concord and one thousand persons from Manchester on foot, wearing blue badges having the motto, "Manchester."

Among the guests of the Manchester City Government was Ex-Gov. Smyth. The two Concord bands were in the line.

—The New Hampshire Democrats did not propose to be cheated by their own men in the organization of the House of Representatives, so they numbered off each Democrat and Labor Reformer in caucus, and gave him a vote bearing the same number, so that if that number failed to appear in the ballot box the culprit would convict himself.* It was never tried before, but worked like a charm. But it is doubted if this method of enforcing party discipline will commend itself to the people; and carries a very doubtful compliment to the integrity of the Democratic leaders of the Granite State.—*Portland Press.*

Whereby hangs a tale—if told correctly. Judge Nesmith, Republican, was the temporary presiding officer of the House. Hackett of Portsmouth, Republican, and Page of Concord, Democrat, were the Tellers, to count votes. Mr. Page was gathering up the Democratic ballots for future inspection, but Judge Nesmith chose to inspect them himself. After leaving the chair, the Judge passed them to Capt. Dan. Hall—and when the Captain was hunted up, it was ascertained that they had passed into other hands. It is said that four of the numbered tickets didn't find their way into the ballot box, but that four Republicans voted with the Democrats and four Democrats voted with the Republicans for Speaker; that the Democracy finally had the tickets returned to them, (the result of a "compromise") and that on due inspection the Democratic leaders found the numbered tickets, all there, but the four unnumbered tickets alleged to have been thrown for Gove by Republicans, were not in the pile. We give the story as we hear it, and do not vouch for its correctness.

THE amendment to the Constitution of West Virginia, which removes political disabilities, and is popularly known as the "Flick Amendment," has been adopted. The complete official returns counted on June 1st, show that 23,546 votes were cast in favor, and 6328 votes against the amendment, giving a majority of 17,223 votes in favor of ratification. No returns were received from McDowell and Logan counties. The total vote was small, being only 29,869, while the aggregate vote for Governor in 1870 was 56,030.

AT Roseburg, Oregon, Thomas and Henry Gale, editors of the Ensign, and William Thompson, editor of the Plaindealer, who had been carrying on a newspaper warfare, fought in the street. It was impossible to tell who fired first. Thompson was shot in six places, in the face, neck, shoulder and side. Thomas Gale received a dangerous wound in the breast, and Henry Gale was beaten over the head with a revolver and badly hurt. The wounds of Thomas are dangerous.

GOVERNOR HOFFMAN of New York has vetoed the bills giving two million dollars to the Midland and Adirondack railroads, and in his message denies the constitutional right of the legislature to pass any such bill.

SOME sensationalist has started the idea that President Grant's son Fred is to wed Queen Victoria's daughter Beatrice.

OLD TIME CHRONICLES, No. 34.

BY UNCLE JOSEPH.

THE LEGISLATURE 45 YEARS AGO.—The first time we were in Concord was in 1826, 45 years ago. Concord was not large as to population, it being then about 3000; now it has 12,241. Going up through Pembroke the lower bridge was crossed. From that bridge there were no buildings till pretty well up to the State House. Then the State House stood almost alone, with scarcely a building near. It made, consequently, quite an imposing show. There were no large hotels, but there were plenty of taverns. The Columbian Hotel, southeast of the State House, remained till a short time since. Then there were 289 representatives and two or three vacancies. Now there are 329, and some vacancies.

Then D. L. Morrill, a native of Epping, was Governor. That was the third and last year he held the office. The Councillor for the First District was Langley Boardman of Portsmouth, and the Senator for District No. 1 was William Claggett of Portsmouth; the representatives of Portsmouth were J. N. Sherburne, D. P. Drown, D. Woodbury, A. Greenleaf and S.E.Coues. Mr. Woodbury had been governor in 1823. He was afterwards Senator in Congress, member of different Presidential Cabinets and Judge of the Supreme Court.

A number of the members of the Legislature of 1826 rose to places of distinction and trust. Matthew Harvey was President of the Senate. He was afterwards Governor, and Judge of the N. H. District Court. Isaac Hill was clerk of the Senate. He became Senator in Congress, and Governor of the State. W. H. Y. Hackett was Assistant Clerk. He has been Senator in the Legislature, and President of that body. John Broadhead was a Senator from District No. 2. He became Representative in Congress. D. Barker, Jr., Representative from Rochester, was afterwards Representative to Congress. Samuel Courtland, the Representative from Haverhill, in 1831 was President of the Senate. In the preceding year, by the resignation of Gov. Harvey, J. M. Harper, President of the Senate, became acting Governor, and after Mr. Courtland became President of the Senate, he was acting Governor for a few hours till Samuel Dinsmore was declared elected Governor. Josiah Quincy, Representative from Rumney, was afterwards President of the Senate. Samuel D. Bell, Representative from Chester, was in time Judge of the Supreme Court. Boswell Stevens, Representative from Pembroke, became Judge of Probate of Merrimack County. And we have not yet named Henry Hubbard of Charlestown, Speaker of the House that year, who was afterwards Senator in Congress, and Governor of the State.

The chapter is a long one. It need not be continued, only to say that Bradbury Bartlett of Nottingham, afterwards became Senator and Associate Judge of the Court of Common Pleas; that J. B. Virgin of Northwood became Co. Treasurer, and that there were also in the House of Representatives that year, Ezekiel Webster of Boscawen, a brother of Daniel Webster, Edmund Tappan of Hampton,—and of ministers E. Leavitt of North Hampton and N. Piper of Stratham. On the whole the Legislature of 1826 was one of great respectability as to talents, and the influence of many of its members in after years was far-reaching for important measures.

THERE will be a grand celebration on the first of August, the anniversary of the emancipation of the slaves of the British West India Islands, by the negroes at Providence. Delegates are expected from New Bedford, Worcester, Boston, Hartford, New York, and from nearly all the principal cities of the eastern and middle States.

BASE BALL.—White Stockings 3, Olympics of Washington 13.

—In New Orleans recently there has been held a teachers' institute. Although such meetings are common enough hereabout, they are strange in that region, and the southern papers have treated the affair as a pernicious Yankee innovation, worthy only of contempt and derision. This, perhaps, was to be expected of a people who esteem the schoolhouse as a snare, when not an abomination to be burned up. One of the instructors of this institute was a Massachusetts lady engaged by the superintendent of schools to come all the way to New Orleans to make known to the teachers there the methods of teaching which have the approval of the wisest educators at the North. That it should have been supposed a Massachusetts woman could teach anybody in Louisiana things not already known there appears to have been taken as a special grievance, and several of the huge daily papers have thought it not inconsistent with their southern notions of chivalry to employ all their sources of wit and temper in disrespectful attack on this lady. The institute itself they misrepresent and malign in a way which serves to show how desperate is their need of frequent sessions of such a school in order that they may come to an understanding of its real purpose and value. But that a Yankee woman should be appointed to teach southern teachers about teaching is an indignity they can scarcely brook. It would seem that with all the boasting about good breeding and social culture with which the southern press is inflated, it might be possible to allude with common courtesy to a lady who comes among them for a noble purpose, even if she were, as does not appear to be the fact in this instance, incompetent.—*Boston Advertiser.*

—Mr. Greeley wishes the Republicans to imitate the Democrats, and also have a "New Departure." He is quite willing to lead in such a movement, which will prove a "Final Departure," if the party attempts to follow him.—*Boston Traveller.*

Correct!

ACCORDING to the Canada papers, a man at Ottawa attempted suicide last week by washing his face. His name is not given, but it is probably Henry Clay Dean.

BUSINESS NOTICES.

If *Johnson's Anodyne Liniment* is half as valuable as people say it is, no family should be without it. Certainly no person, be he lawyer, doctor, minister, or of any other profession, should start on a journey without it. No sailor, fisherman, or woodsman should be without it. In fact it is needed wherever there is an ache, sprain, cut, bruise, cough or cold.

Farmers and "Horse Men" are continually inquiring what we know of the utility of *Sheridan's Cavalry Condition Powders*, and in reply, we would say, through the columns of the Portsmouth Chronicle, that we have heard from hundreds who have used them with gratifying results; that is also our experience.

SPECIAL NOTICES.

Common Sense Decide.

What is the rational mode of procedure in cases of general debility and nervous prostration? Does not reason tell us that judicious stimulation is required. To resort to violent purgation in such a case is as absurd as it would be to bleed a starving man. Yet it is done every day. Yes, this stupid and unphilosophical practice is continued in the teeth of the great fact that physical weakness, with all the nervous disturbances that accompanied it, is more certainly and rapidly relieved by HOSTETTER'S STOMACH BITTERS than by any other medicine at present known. It is true that general debility is often attended with torpidity or irregularity of the bowels, and that this symptom must not be overlooked. But while the discharge of the waste matter of the system is expedited or regulated, its vigor must be recruited. The Bitters do both. They combine aperient and antibilious properties, with extraordinary tonic power. Even while removing obstructions from the bowels, they tone and invigorate those organs. Through the stomach, upon which the great vegetable specific acts directly, it gives a healthy and permanent impetus to every enfeebled function. Digestion is facilitated, the faltering circulation regulated, the blood reinforced with a new accession of the alimentary principle, the nerves braced, and all the dormant powers of the system roused into healthy action; not spasmodically, as would be the case if a mere stimulant were administered, but for a continuance. It is in this way that such extraordinary changes are wrought in the condition of the feeble, emaciated and nervous invalids by the use of this wonderful corrective, alterative and tonic. Let common sense decide between such a preparation and a prostrating cathartic supplemented by a poisonous astringent like strychnine or quinia.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,
SOLICITOR OF PATENTS,
For Inventions, Trade Marks or Designs,

No. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man more *competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
JOHN TAGGART."

LOCAL AFFAIRS.

REV. JAMES DENORMANDIE is summering at his delightful residence at Newcastle.

IN the show window of Mr. E. A. Joy's music and sewing machine store, may be seen a fine marine painting by Mr. T. P. Moses, representing the Portsmouth built ship Jean Inglelow laying to for a pilot. The picture is for sale.

THE buoy-tender steamer towed into the lower harbor on Wednesday, the British schooner Progress,—Crossman, master, from Salmon River for Boston, with loss of foretopmast, eight feet of foremast head gone, and foresail split. She will repair and proceed to Boston.

DURING the smart puffs of wind which preceded the shower of Tuesday afternoon, many young birds in this vicinity were blown or shaken from their nests, and being unable to get back were caught by the boys or cats, unless they were fortunate enough to perish from exposure before the boys or cats got 'round.

WE learn that De Witt Clinton Commandery of Knights Templar of this city contemplate an excursion to Lawrence, Mass., on the 24th day of June inst., in response to a courteous invitation of the Sir Knights of Lawrence. It is said that the valiant Sir Knights of this city will turn out in full ranks on that occasion and will be accompanied by the Portsmouth Cornet Band. They will doubtless be well entertained and have a good time. They are to leave this city on Friday afternoon by the Concord train, and return on Saturday evening, stopping in Lawrence over night.

CHAS. BROWN, a smart-looking young fellow of 21 years, from Wellfleet, Mass., recently made a raid on the fishing fleet at Newcastle and robbed six vessels, taking lines, sails, rope and anything else he could lay his hands on, to the amount of about $50 worth from each vessel. His base of operations was a sail-boat, in which he escaped with his plunder and went to Portland, anchoring off the Grand Trunk Railway wharf. The City Marshal of Portland, who had been warned to look out for him, arrested him while trying to sell the proceeds of his raid on the schooner, and he came through to this city on the Pullman-car train from Portland, Wednesday morning, in custody of Officer Entwistle. He was brought up before the police judge, Wednesday forenoon, plead guilty on one indictment, was bound over in $500 to appear at a higher court, and was locked up in default of bail. Several other complaints against him were not heard.

WHILE serenely wending our way home during the shower of Tuesday afternoon, our attention was attracted and our curiosity excited by the unusual performances of a trotting sulky with a horse and a man in it—the horse in the shafts and the man on the seat. The man was leaning so far over on one side that we wondered why he did not fall out on his head, and the horse was turning 'round and 'round in a circle, without advancing a yard; we thought the man was trying to see something on the horse's side, and pulling on one rein to make the animal turn that side more towards the sulky—a proceeding as easy to accomplish as for one to turn around suddenly enough to catch a glimpse of the back of his own head. Pretty soon the driver straightened himself up a bit, and the horse started off around the corner; but then the man swayed over to the other side of the go-cart he was in, and the horse backed it up against a tree. We saw that something must be wrong, and wondered if the man had been hit by the lightning we had had a short time previous; and a closer look satisfied us that lightning—Jersey brand—had indeed been at work upon him. A party of ladies were watching his movements from an open window, with much commiseration pictured on their faces; and as we also felt much concern for his safety, we responded to their expressed fears lest he should fall out and break his neck, "Hope not; poor fellow, what a pity it is!" At least, if that was not exactly the way our rejoinder was worded, it might well have been so. Whether he did fall out or not we have not heard, but he still stuck to his seat, rolling from side to side, as the perfectly sober horse drew him out of our sight into the next street.

We have since been told that the eccentric driver is an industrious, quiet man and a good citizen, with but one great fault,—a too frequent bending of the elbow. More's the pity, that such a man should be enslaved by rum.

FOSTER SHORES & CO. have introduced a new style of business card. It is a "taking" affair.

ON our 4th page will be found the Message of Ex-Gov. Stearns; and on our 1st, that of Gov. Weston.

IF you want the nicest, freshest strawberries, call at S. Gilbert's on Daniel Street. Dr. Gilbert has received an invoice of these luscious berries from New Jersey, and has made arrangement for daily supplies. They are selling at 35 cts. per box.

A grand complimentary supper is to be given at the Rockingham House next Tuesday evening for the benefit of the Messrs. Peirce, the proprietors of the hotel and also of the Sagamore House, just burned. Tickets are put at five dollars. The matter is in charge of J. C. Butler. We hope our citizens will liberally respond.

THE application of the Portland, Saco and Portsmouth Railroad Company for a dissolution of the injunction, was filed before Judge Walton at Portland on the 14th. It is not decided whether a hearing will be had before him, or at Bangor at the law term, which begins Tuesday, the 20th, before the full bench; probably the latter, by consent of parties. Hon. Josiah H. Drummond is counsel for the Boston and Maine. The counsel for the Portland, Saco and Portsmouth Railroad are Hon. Nathan Webb of Portland, Hon. Artemus Libby of Augusta, and Hon. John A. Peters of Bangor.

THE NEW ORLEANS, MOBILE & TEXAS RAILROAD COMPANY

Are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.

The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 168 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 226½ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.

At the same price, an 8 per cent. currency bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $2,614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**

The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.

Consumption.

ITS CURE AND ITS PREVENTIVE,

By J. H. SCHENCK, M. D.

Many a human being has passed away, for whose death there was no other reason than the neglected and indisputably proved means of cure. Those near and dear to family and friends are sleeping the dreamless slumber into which, had they calmly adopted

Dr. JOSEPH H. SCHENCK'S SIMPLE TREATMENT,

and availed themselves of his wonderfully efficacious medicines, they would not have fallen.

Dr Schenck has in his own case proven that wherever sufficient vitality remains, that vitality, by his medicines and his directions, for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self assuring, self-convincing.

The Seaweed Tonic and Mandrake Pills are the first two weapons with which the citadel of the human body is attacked. Two-thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this combination the mucous tubes "sympathize" with the stomach. They respond to the morbific action of the liver. Here, then comes the culminating wrath, and the setting in, with all its distressing symptoms, of

CONSUMPTION.

The Mandrake Pills are composed of one of Nature's noblest gifts—the Mandrake, Podophyllum. They possess all the blood-searching, alterative properties of calomel, but unlike calomel, they

"LEAVE NO STING BEHIND."

The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last,

A SUPPLY OF GOOD BLOOD.

The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chylification is now progressing, without its previous torture. Digestion becomes painless, and the cure is seen to be at hand. There is no more flatulence, no accumulation of the vitiated blood. An appetite is in

Now comes the greatest Blood Purifier ever yet given by an indulgent father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cooperates. The diseased, it collects and ripens the impaired and diseased portions of the lungs. In the form of expectoration it prepares them for expectoration. Anodyne is in very short time the malady is vanquished, the rotten tissue that it occupied is renovated and made sound, and the patient, as all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was

GIVEN UP AS LOST.

The second thing is, the patients must stay in a warm room, until they get well. It is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented and cures adopted to effect it. Fresh air and riding out, especially in this section of the country in the fall and winter season, are all-important. Physicians who recommend that course lose their patients, if their lungs are badly diseased; and yet, because they are in the house they must not sit down quiet; they must walk about the room as much and as fast as the strength will bear, to get up a healthy circulation of blood. The patients must keep in good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.

To despair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to the Faculty of his own cure was in these modest words:

"Many years ago I was in the last stages of consumption: confined to my bed, and at one time my physicians thought that I could not live a week; then like a drowning man catching at straws, I heard of, and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time. As soon as that became tolerable, my cough, fever, pains and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in flesh ever since."

"I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only twenty-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed unimpaired health."

Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., still continue to see patients at their office, No. 15 North Sixth street, Philadelphia, every Saturday from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged $5. The Respirometer discloses the exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for using the medicines are adapted to the intelligence even of a child. Follow those directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines need no other accompaniments than the simple instructions that accompany them: First, create appetite. Of returning health hunger is the most evidence symptom. When it comes, as it will come, let the despairing at once be of good cheer. Good blood at once follows, the cough loosens, the night sweats abated. In a short time both of these morbid symptoms are gone forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are a standard preparation: while the Pulmonic Syrup as a cure of coughs and colds, may be regarded as a prophylactic against consumption by any of its forms.

Price of the Pulmonic Syrup and Seaweed Tonic $1.50, a bottle, or $7.50 a half dozen. Mandrake Pills, 25 cents a box. For sale by all druggists and dealers.

A GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS.

Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.

WHAT ARE THEY?

THEY ARE NOT A VILE FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetisers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, **free from all Alcoholic Stimulants.** They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawfsb16

VALEDICTORY MESSAGE OF GOVERNOR STEARNS.

Gentlemen of the Senate and House of Representatives:

It seems proper at the close of my official term, I should present a brief statement of the condition of the various State interests, which have been, to some extent, under the care of the Executive during the past two years.

The financial condition of the State is satisfactory. The expenses of the government, by strict economy, have been gradually reduced, until they compare favorably, all things considered, with those of any former period.

Should a further reduction be found consistent with the proper administration of the different departments of the government, and a due regard to the credit of the State, it will probably be made.

At the close of the fiscal year 1868, the State debt amounted to $3,136,879.33, a portion of which bore seven per cent. interest. During the two years since that time, it has been reduced $776,791.81, being for the year ending June 1, 1870, $357,587.35 and for the past year, $419,204.46, leaving the entire State debt, at the present time, $2,360,087.52, none of which bears more than six per cent interest. At the same per cent. of annual reduction, which doubtless can be continued, if not increased, the whole State debt will be extinguished in less than five years.

But while such gratifying progress has been made in the payment of the State debt, it is to be regretted that no reduction has been made in the aggregate indebtedness of the towns.

In view of this, and also of the fact that a large portion of the town debts bears more than six per cent. interest, a law was passed by the last Legislature, providing for a limited re-imbursement to the towns, of their war expenses. The commission appointed under that act, to determine the amount which each city, town, location or grant is entitled to receive, has made some progress in its work, but, owing to defects in the law, which will be apparent upon examination of it, no bonds have been issued for the re-imbursement of the indebtedness mentioned in the act. Should the Legislature consider it desirable to carry out the policy of assuming the war expenses of the towns, as contemplated by the act referred to, it will be necessary to make further provisions to remedy the defects of the act.

During the past two years changes have been made in the military laws of the State, and in the administration of the same, by which a large annual saving has been effected.

The military expenses have been reduced from $45,010.51, in 1869, to $7,617.99 in 1870, and to $4,846.14, during the past year.

Arms and Military Stores of no use to the State, have been turned over to the General Government, and credit received for them to the amount of $121,732.00; and others which the General Government would not receive, have been sold to the amount of $3,000.

It is believed that the changes by which these desirable results have been accomplished, have not worked any injury to that "Well regulated militia," which is "The proper, natural and sure defense of the State," and which should, therefore, always be organized and maintained.

The law passed in 1869, requiring foreign Insurance Companies to pay a tax of one per cent. upon their receipts in this State, and the act of 1870, giving the Insurance Commissioner power to exclude irresponsible companies from the State, has been productive of much good. The tax received from this source during the twenty months since the law of 1869 went into effect has been $14,660.34, while only $160 was received in the year previous; and it is worthy of mention that the tax of last year was all paid in less than three weeks after its assessment by the Commissioner.

This experience justifies the belief that these laws will not only bring considerable revenue to the State, but will also do much towards placing the insurance business done in the State, upon a safe basis, which is of great importance to our citizens.

The affairs of the State Prison have necessarily received much attention. The change made by the Legislature of 1869, requiring the accounts of the Prison to be kept with the State Treasurer, and all disbursements to be made by him, showed that the liabilities of the Prison at the time, were much larger than had been reported. In 1870 the Legislature vested the appointment of the Warden, and the general management and supervision of the Prison in the Governor and Council. Under this law changes have been made in the management of the Prison, with beneficial results.

On May 1st, 1870, the assets of the Prison exceeded its liabilities $2,013.91. July 11, 1870, when the new Warden entered upon his duties the excess was $2,556.01; and at the close of the financial year, May 1, 1871, this excess of assets over liabilities amounted to $7,273.08, showing a profit to the State in nine and two-thirds months under the new management of $4,717.06. The whole profit for the year was $5,259.17.

This gratifying result which fully answers the expectation expressed in my last annual message, that the Prison might be made, not only self-supporting, but a source of considerable revenue to the State, has been accomplished with due regard to the welfare of the convicts, and the good order and discipline of the Prison; and none of the penal or reformatory objects of the institution have been disregarded. The reports of the Council Committee in charge of the Prison, and of the Warden, will give a detailed statement of its affairs.

The various reformatory and charitable institutions of the State are in a prosperous condition, faithfully performing the work for which they were established. They all need the fostering care of the State, and I have desired, so far as was in my power, to obtain for them all the aid which could properly be granted. I presume they will continue to receive such encouragement and support as may be necessary to enable them to fulfill the purposes of their establishment, and to be of the most benefit to the State.

The interests of education, presented by its numerous friends, have received attention from the State; and among the results already accomplished may be mentioned the law allowing the abolition of school districts in towns which desire it, and the establishment of the Norman School recently opened at Plymouth, while the institutes for the instruction of teachers have been successfully continued in the various counties.

The progress of the Geological Survey authorized by the Legislature of 1868, is indicated by the report of the State Geologist. It has been thought that one of the chief benefits to be realized from this work, would be the collection of materials for an accurate State Map. But as a survey is to be made this season, under the authority of the United States, to establish points upon which the State survey can be based, the work for a State map can probably be done better after this survey has been accomplished.

The Commissioners under the Hydrographic Survey authorized in 1869, presented a preliminary report to the Executive, which was laid before the last Legislature. That body, however, did not deem it expedient to continue the survey.

The Board of Agriculture, appointed under the act of 1870, has been actively engaged in, presenting the subject of agricultural improvements to our citizens. With comparatively little expense, much may be done in this way to improve our methods of cultivating the soil.

The friends of the Agricultural College which will soon be established in its new and commodious building, in connection with Dartmouth College, confidently expect the best results from the practical education which will there be given, and from the experimental farm connected with the school.

I have seen no reason to change the views which I expressed in a former message, with regard to the proper means to develop our agricultural and manufacturing resources. Upon those two branches of industry rests all our material prosperity, and we cannot too carefully consider all measures which tend to their improvement.

In conclusion, I desire to express my appreciation of the favorable manner in which the Legislature has considered and acted upon the suggestions which, during my official term, I have deemed it my duty to make, with regard to the interests of the State. I trust, that in the future as in the past, the different departments of the State Government, each acting in its own sphere, according to the true spirit of the constitution, will always co-operate with each other for the common benefit of the State, and all its citizens.

We may thus hope, that under the blessing of Divine Providence, the industry, intelligence, and virtue of our people, will continue to increase, and that, through the influence of our religious and educational institutions we may perpetuate that love of freedom, that spirit of intelligent inquiry, and those habits of independent thought, which, joined with a true respect for lawful authority are the sure basis of a representative government.

NEW ADVERTISEMENTS.

THIRTY THOUSAND DOLLARS PAID.—The Travelers Life and Accident Insurance Company, of Hartford, Connecticut, paid $20,000 on W. H. Forbush and Wm. C. Carry, victims of the New Hamburg railroad; $5,000 on the late Jas. R. Blake, mayor of Worcester, Mass.; and $5,000 on the late S. H. Lewis, Jr., of St. Albans, Vt. All these accidents occurred, and the insurance was paid, within three months—each claim being paid about sixty days before it was due by the terms of the policy. The Travelers has paid SEVEN HUNDRED DOLLARS A DAY in benefits to its policy holders, for deaths or injury by accident, for every working day during the past seven years.

The Travelers Life and Accident Insurance Company, of Hartford, Conn., grants all the usual forms of LIFE and ENDOWMENT Policies, on exceedingly favorable terms. Ample Security and Low Rates.

CHEAP FARMS! FREE TRAVEL!

Chicago, Rock Island, and Pacific Railroad Company.

600,000 ACRES

CHOICE IOWA LANDS.

This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $5 to $15 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.

EXPLORING TICKETS are sold at the Company's ticket offices at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

TARRANT'S SELTZER APERIENT.

SECTS AND CREEDS DIFFER, but all are in unanimous accord, in principle, that a great medicine is a great blessing. We have many of these blessings, but among them all, in the province to which it belongs, no greater than

Tarrant's Effervescent Seltzer Aperient.

A column would not suffice to enumerate the ailments for which it is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, a stomachic, an anti-febrile preparation, and an admirable remedy for all bilious complaints.

Let there be no mistake. Secure the genuine article only.

OLD SHOES. — You probably think that if you look very sharply at an old shoe, when you throw it away, you will know it again if ever comes back to you. But that doesn't at all follow. One of these days you may button your dress with an old pair of slippers, comb your hair with a boot, or grasp a cast-off gaiter while you eat your dinner. You don't see how this can be? Well, we'll tell you. Old shoes are turned to account by manufacturers in the following manner: They are cut into very small pieces, and kept for a couple of days in chloride of sulphur. The effect of this is to make the leather hard and brittle. Next, the material is withdrawn from the action of the chloride of sulphur, washed with water and dried. When thoroughly dried, it is ground to powder, and mixed with some substance like glue or gum, that causes it to adhere together. It is then passed into moulds and shaped into buttons, combs, knife-handles, &c. So you see how it may come to pass that you will comb your hair with a boot, and fasten your clothes with a slipper.

A SCHOOLBOY'S FIRST LOVE LETTER.—"I never wrote a letter before, and don't know just how to begin it; but I know lots of boys who do write letters to the girls, and I'm most as big as they are. Tommy Jones said he had got a letter from somebody; I teased him to let me see it; in taking from his pocket it fell into a mud puddle. I never so tickled in my life; but he cried like everything. I like you real well, for you are a Democrat, and Old School Baptist, and have been to the city. I saw you at church last Sabbath. You have a new bonnet. I like new bonnets; and some time, you know, I shall get you a new bonnet almost every day. I shall learn to build houses, and you wash the dishes and make pancakes. I like pancakes don't you? I don't like molasses a bit; it is real nasty stuff; I hope you don't like it either, for I shall not have a bit in our house, and it wouldn't look well to quarrel about molasses; and I wouldn't strike a girl when she's a woman; when I get some money I'm going to buy you some colonge: I shall turn some out for me, so when I come to see you I can perfume my handkerchief. I can't write any more now. The school 'mam' is looking this way. You see she don't know what true love is. If you hav'n't any paper I'll give you a leaf out of my new reader.—WILLIE BROWN."

—There has been some little excitement at Athol, Mass., in the matter of a selection of a steam fire-engine for the use of the town. A committee of six chosen at town meeting to examine into the merits of different machines were equally divided, three in favor of reporting the Amoskeag machines, manufactured at Manchester, and three in favor of the Jacket patent, manufactured at Fitchburg. A purchasing committee afterwards chosen were also evenly divided. One party ordered the Manchester machine built, and the other immediately ordered the Fitchburg machine; and the town voted to buy the latter by 180 majority. Each of the rival companies made every exertion to surpass the other, and on Tuesday last word was received at Athol that the Amoskeag machine had been shipped that day. The friends of the Jacket machine went down to Fitchburg in the night to be sure and get their machine first. The Manchester engine passed through Fitchburg on the regular freight at 7:30 A. M., bound for Athol. The other party chartered an extra to follow the regular passenger train at 9:18 A. M., with the same right of road as the regular passenger train had, overtook and passed the freight train at Baldwinsville, some twelve miles from Athol, and on their arrival at the depot were escorted by a band of music and a large delegation of citizens to the village. The question now is, who pays for the Amoskeag engine?

—Montreal claims 100,000 population.

—Tilton's Golden Age says "Mother Earth has a heaving bosom." We are happy to add that unlike many of her daughters, she keeps it well covered.—*Chicago Mail.*

—The newspapers quote Longfellow on the "new departure:"

"Lives of great men all remind us
We can make our lives sublime,
And, 'departing,' leave behind us,
Footprints on the sands of time."

—To remove inkspots, put the article stained over a warm flat-iron, stretch it well, then squeeze a few drops of lemon juice on it, and the spot will disappear, at once. Wash immediately in cold water. That's one way. Another method which never fails is to take a pair of scissors and cut them out.

—Hartford has a peculiar character, who, whenever he wants a drink, throws dice with himself to decide whether or not he shall indulge. He does it fair, only he is apt to leave it an open question as to the number of throws which shall decide. If he gets sixes in his own favor he lets one throw decide the question, but if his luck is poor at the start he insists upon three.

We publish the above figures to show the uninitiated and those who contemplate purchasing, what machine is the public favorite.

The above list includes all of what are commonly called the first class machines, but the
NEW FAMILY SINGER SEWING MACHINE
Has proved itself *the best* for all classes and kinds of operators and work.

All that persons need to do to satisfy themselves of this is to enquire of those who have used them the most.

They Hem, Braid, Tuck, Quilt, Cord, Embroider, Fringes, Ruffle, Fell, Puff, Gather, Fagot, Trim, Bind.

They are light running, easy to learn and keep in order and for durability unrivalled.

They will stitch equally well the heaviest beaver or the thinnest muslin, in fact they will do every useful work that mechanical skill has yet perfected in the Sewing art.

These celebrated Machines are Sold for Cash or on the installment principle, as best suits convenience of the purchaser, at the Regular Agency for Portsmouth, Rittery, York, Eliot, Newcastle, Rye, Hampton, North Hampton, Hampton Falls, Greenland and Seabrook.

CARD.
Having become satisfied after thorough investigations that Elastic Sponge, as now and lately manufactured, is one of the best of all substitutes for curled hair, for many of our uses in upholstery, we have accepted the Agency for it, and intend to make it hereafter a speciality in our business. The objections which been made to it and which it is well known we ourselves have thought were well founded, we have ascertained cannot be urged against the article as now perfected. The process of manufacture has been entirely remodeled under the advice and superintendence of one of the most eminent chemists of New England. New chemical and mechanical appliances have been introduced in cleansing crude Sponge, and in charging it with glycerine with such entire success, that Elastic Sponge may now be said to be chemically pure. There is absolutely nothing in it but the clean fibre of Sponge and chemically pure glycerine.
The objections to Elastic Sponge being thus removed there remain its undisputed merits which certainly entitles it to be considered one of the most valuable, as it is one of the most curious and interesting of late discoveries. Chief among these merits is, that it is proof against moths—the great scourge of the business,—against all other insects. Then its elasticity is permanent, based as it is upon the non-evaporable property of glycerine and the indestructibility of sponge fibre. We have always been satisfied upon these two points which are the essential requisites in such materials. The evidence is now equally clear that it is wholesome and sweet. It is very light and soft, easy to manipulate, and cheap enough for all except the lowest class of goods. For the cushioning of Churches, Theatres, Public Halls, Railway Stations, Omnibuses, Carriages, Steam and Horse Cars and the like, it will probably be found, everything considered, the best article in use. For all uses, and especially for Bedding, we are now prepared to recommend the public to give it a fair trial as we well as to supply the trade the article in Bales.

JURUBEBA. WHAT IS IT?
IT IS A SURE AND Perfect Remedy for all diseases of the
LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER, OR THEIR CONCOMITANTS.
DR. WELLS, having become aware of the extraordinary medicinal properties of the South American Plant, called
JURUBEBA,
Sent a special commission to that country to procure it in its native purity, and having found its wonderful curative properties to even exceed the anticipations formed by its great reputation, has concluded to offer it to the public, and is happy to state that he has perfected arrangements for a regular monthly supply of this wonderful Plant. He has spent much time experimenting and investigating as to the most efficient preparation from it, for popular use, and has for some time used in his own practice with most happy results the effectual medicine now presented to the public as
Dr. Wells' Extract of Jurubeba,
and he confidently recommends it to every family as a household remedy which should be freely taken as a BLOOD PURIFIER in all derangements of the system and to animate and fortify all weak and Lymphatic Temperaments. 4wm16

Portsmouth, N. H.

FRIDAY, JUNE 16, 1871.

THE LEGISLATURE.

On the 14th, the House unanimously agreed on Rev. Dennis Powers of Rindge, as Chaplain.

Among the bills introduced in the House on the 15th, was one in relation to the Mayors of cities, providing that in the absence of said officer the Aldermen shall have power to choose a chairman from their number, and in case of the death of the Mayor, the Alderman shall have the authority to elect a Mayor *pro tem.*

Hon. Horton D. Walker of Portsmouth introduced a resolution instructing the Committee on Railroads to ascertain if any additional legislation is required in order to secure the transportation of freight between Concord and Portsmouth, on terms as favorable as those now regulating the transportation of freight between Concord and Boston. The resolution was read and bad its proper reference.

Petitions for an increase of the Deaf & Dumb appropriation for Portsmouth were presented.

Mr. Walker introduced the bill to aid in the construction of the Portsmouth & Dover Railroad.

Mr. Hackett introduced a bill authorizing the construction of the Portsmouth Great Falls & Conway Railroad through the town of Albany.

Mr. Tucker of Pittsfield introduced a bill reducing salaries of State officers.

NEW HAMPSHIRE ITEMS.

Frank P. Foster, M. D., a Concord born and educated boy, has taken an interest in the Medical Gazette, published at New York, the leading article in the current number being an essay on vaccination, from his pen.

Two "settin" hens, taken from a burning barn in Rochester, minded their business, and two broods of chicks are the rewards of their persistency.

The Postmaster at Keene is so obliging that a hundred dollar gold watch has just been given him by citizens of all parties.

On the 5th, in Madbury, Miss Anna L. Kingman was passing a corner near which some boys were playing ball. One little wretch threw very badly and bit Miss Anna plump on the nose, breaking that useful member.

A golden robin has been found in Goffstown, hung by a horse hair to a limb—but that is no sign it committed suicide.

Rev. J. B. Davis of Great Falls has accepted a call from the Free Baptist church in Lynn, Mass.

The amount secured for the State orphan's home is now over $18,000.

Rev. Allen H. Folsom was installed as pastor over the Elm Street Universalist Church at Manchester, June 14.

The anniversary of the State Historical Society took place at Concord, June 14, on which occasion several interesting papers were read. The annual address was delivered in the representatives' hall in the evening by Hon. Charles W. Tuttle.

POLITICAL.—Chief Justice Chase supports Gen. McCook, the Democratic candidate for Governor of Ohio. Chase isn't well of the Presidential fever yet.

Wisconsin's State Temperance Convention was attended by ten persons of both sexes, two tom-cats and a little yellow dog.

The Marion (Ill.) Times wants Gen. Logan to be the Republican candidate for President.

Robert Toombs thinks "It's about time to begin war again." Robert should have been deposited in a tomb ere this.

The Iowa Democrats had a hot contest in their State Convention, but the "new departure" won by a large majority.

ONE day last week a Hudson boy went to swim, and instead of hanging his clothes on a hickory limb, he laid them on the railroad track. A locomotive came along, and the cow-catcher caught up the clothing and carried it off. Mazeppa's bareback steed never made such lively time as did that bareback boy on his way home. The encounter with his female parent and the soothing remarks which she made would not make quite so much impression on the public as they did on the back of that boy. We can tell a naturally anxious public however, that he hasn't appeared on the street yet.

THE Ocean Steam Mills and machinery at Newburyport were sold at auction on Thursday to E. Rollins Morse of Boston.

IT is said that an immense bed of splendid oysters has been discovered off Eaton's neck, Long Island Sound.

THE REPUBLICAN PROTEST.—Having watched with no little interest the protracted struggle over the organization of the legislature last week, we cannot forbear to express our admiration for the manly and resolute course pursued by the Republican members. Led into a mistake at the outset by unwise counsels, they grappled bravely with the adverse circumstances of the situation the moment the mistake was discovered. Nothing was left undone which grit, skill and persistence could do. Was a prospect needed against the unfair and one-sided ruling of the speaker? It came at the right time and in the right place. Was the man needed to lay before the House the conclusive and scorching evidence that the coalition majority was made up in defiance of the Constitution and the will of the people? Mr. Wadleigh presented that evidence with an intrepidity that commanded attention and sent conviction to every honest man in the House. Were votes needed to sustain the Republican protest against unfairness and fraud? They were on hand at every roll-call, with seldom exceptions. Were skillful and trusty tacticians wanted to watch the coalition leaders, backed by half a score of prominent Democratic interlopers? They were found in Messrs. Fowler, Wadleigh, Ramsdell, Hackett, Wilson, Nesmith, Parker, Knapp, Orcutt and Holt. All honor to these men, and to their dauntless associates, who, knowing their duty without being told it by the "gentlemen from Bingham," dared at all times and to the last to maintain it. A triumph won by fraud and trickery is a barren victory. Sooner or later, Justice avenges its own violations. The Republicans can afford to wait and watch. Let legislation now proceed, and let every Republican member of the Legislature be as faithful for the remainder of the session as he has been thus far to record his vote on the right side. The people will take care of the rest.—*Nashua Telegraph.*

THE following "Song of Vallandigham," when proposing the "new departure," is going the rounds of the press. It is a capital parody, and was written by Mr. John Hopley, editor of the fearless Republican sheet, the Bucyrus (Ohio) Journal:

"OFT ON ELECTION NIGHTS."

Oft on election nights,
When sad defeats confound me,
Food memory brings the fights
Of other days around me.
The shouts, the cheers,
Of former years,
The offices bespoken,
The men, the rings,
The set up things,
The platforms smashed and broken.
Thus on election nights,
When sad defeats confound me;
Does memory bring the fights
Of other days around me.

When I remember all
The Butternuts together
I've seen around me fall,
Like leaves in Wintry weather,
I feel like one,
Who stuffs alone,
Some ballot-box neglected;
Whose votes are polled,
Whose numbers told,
And all but he elected.
Thus on election nights,
When sad defeats confound me,
Food memory brings the fights
Of other days around me.

—In such an era our man for President would be Horace Greeley. He is the personification of peace itself. See him as a venerable farmer, strolling across the grounds of Chappaqua, with a wood chopper over his shoulder, and a bland and childlike smile upon his face. As President we should look to him to revive the primitive simplicity of Arcadia, and set an example to the nation in his own person of the beauties and delights of pastoral life. Horace Greeley as President would be a perpetual joy. During his term we should feel from day to day a delicious sensation of suspense as to what next—what policy in agriculture we should have to-morrow that we didn't have to-day. Let us put him in. It is only for four years anyhow, and it will gratify the old man much.—*N. Y. Telegram.*

—Ladies who are fond of cultivating flowers in the house, will find great benefit to the plants by spreading a coat of moss over the earth in their flower pots. This keeps the water from evaporating, and the temperature more uniform. Tea grounds are often used for the same. Where a flower pot sets in a saucer, with a hole in the bottom of the pot, put a little sand in the saucer, and cover it with moss, and you have a simple and admirable arrangement.

—The Mobile Register makes haste to deny that Jefferson Davis is soured and unhappy, as his northern Democratic apologists insist, and it also asserts that it is "utterly untrue that he is at all more defiant, more stubborn or more infatuated than any other exleader of the rebellion, except such as have bartered honor and credit for a pitiful mess of pottage."

—The loss of the steamer Wolf in Green Bay, in the region of the seal fisheries, involved the total loss of a cargo of 17,000 seal skins. It was run down by an iceberg.

—A Providence merchant saves his umbrellas by cutting a small piece out of the handle, which he carries in his pocket-book, ready to prove property at any time.

—In portions of Louisiana white laborers are said to be cultivating cotton and sugar with no sickness beyond the average among the negroes.

—An old Kentucky gent and daughter died on the same day, of milk-sickness.

—"Who dares spit tobacco juice on the floor of this car?" savagely exclaimed a large and powerfully built passenger, as he arose from his seat and strode down the aisle, frowning defiantly upon the other passengers. "I dare!" said a burly looking fellow, as he deliberately squirted a quantity of the noxious saliva upon the floor of the aisle. "All right, my friend," said the first speaker, slapping the other in a friendly manner upon the shoulder, "give us a chew of tobacco."

THE enterprising editor of a paper in Bunker Hill, Illinois, sends out circulars stating that "the Gazette is published solely for the benefit of mankind, by a self-sacrificing management which might enjoy comparative affluence in a poor house. All moneys received for subscription or job work will be devoted to the interests of the poor."

—A young gentleman of Pittsfield, Mass., has recently involved himself in difficulty by stealing empty bottles from the back door of a drug store, and then carrying them round to the front door and selling them to the owner.

—The Columbus (Ohio) State Journal reminds Vallandigham that he forgot one thing in his new departure—that he should have completed the platform by resolving that the colored troops fought nobly.

—In Chicago it is proposed to abolish the lighthouse at the mouth of Chicago river as an unnecessary expense, "the sense of smell of the pilots being all that is requisite to enable them to make the harbor."

—The grasshoppers have invaded Utah, and the consequence is the invention by a Mormon of a "two-horse grasshopper smasher.

—Rope jumpers should be careful. A little girl at New Bedford, Mass., last week, dislocated her hip whilst jumping the rope.

—"Go West," says Greeley. Mr. Stone went thither and died of starvation at Council Bluffs.

—A Michigan man thinks that eternal vigilance will be the price of potatoes this year.

—A resident of Bridgeport, Conn., has won fifty cents by swallowing a greased frog.

BUSINESS NOTICES.

If *Johnson's Anodyne Liniment* is half as valuable as people say it is, no family should be without it. Certainly no person, be he lawyer, doctor, minister, or of any other profession, should start on a journey without it. No sailor, fisherman, or woodsman should be without it. In fact it is needed wherever there is an ache, sprain, cut, bruise, cough or cold.

Farmers and "Horse Men" are continual ly inquiring what we know of the utility of *Sheridan's Cavalry Condition Powders*, and in reply, we would say, through the columns of the Portsmouth Chronicle, that we have heard from hundreds who have used them with gratifying results; that is also our experience.

SPECIAL NOTICES.

Common Sense Decide.

What is the rational mode of procedure in cases of general debility and nervous prostration? Does not reason tell us that judicious stimulation is required. To resort to violent purgation in such a case is as absurd as it would be to bleed a starving man. Yet it is done every day. Yes, this stupid and unphilosophical practice is continued in the teeth of the great fact that physical weakness, with all the nervous disturbances that accompanied it, is more certainly and rapidly relieved by HOSTETTER'S STOMACH BITTERS than by any other medicine at present known. It is true that general debility is often attended with torpidity or irregularity of the bowels, and that this symptom must not be overlooked. But while the discharge of the waste matter of the system is expedited or regulated, its vigor must be recruited. The Bitters do both. They combine aperient and antibilious properties, with extraordinary tonic power. Even while removing obstructions from the bowels, they tone and invigorate those organs. Through the stomach, upon which the great vegetable specific acts directly, it gives a healthy and permanent impetus to every enfeebled function. Digestion is facilitated, the faltering circulation regulated, the blood reinforced with a new accession of the alimentary principle, the nerves braced, and all the dormant powers of the system roused into healthy action; not spasmodically, as would be the case if a mere stimulant were administered, but for a continuance. It is in this way that such extraordinary changes are wrought in the condition of the feeble, emaciated and nervous invalids on the use of this wonderful corrective, alterative and tonic. Let common sense decide between such a preparation and a prostrating cathartic supplemented by a poisonous astringent like strychnine or quinia.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

For Inventions, Trade Marks or Designs,

NO. 76 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

LOCAL AFFAIRS.

U. S. S. Ticonderoga will sail this morning for South America.

RAIN fell in torrents Thursday noon, and did much good. The sun shone brightly throughout the afternoon.

ANDREW WILSON of this city, who escaped from the State Reform School on the 2d, was captured here on the 15th, by the police force.

MISS MARY E. JOHNSON has received a large lot of hair work of all descriptions from Europe, which she will sell at low figures at No. 33 1-2 Hanover St.

REMINISCENCES of the Creek cess-pool are found now-a-days in the north-westerly breezes which waft the aroma down Islington Street and remind us that some of the "filling" has sunk below the water's level.

OSGOOD Lodge, I. O. O. F., visited Boston on the 13th inst., and were the guests of Bunker Hill Lodge of Charlestown, by whom they were handsomely received and provided for during their stay. The Osgoods speak in the highest praise of the Bunker Hillers and only await the opportunity to reciprocate.

THAT people will oft find themselves in a state of "cussitude" is well known. One of our carriers felt like playing, Wednesday afternoon, which accounts for one list of GAZETTES being delivered one day late and our apology for the same. The man who "would like to kill one boy a week" is requested to call at this office without delay.

OUR lyrical friend has been wont to call all Republicans who worked for government, (as officers, clerks, mechanics or laborers,) "pap-suckers" and "paupers," yet shows how eagerly he would fain join in with open mouth and hand for his share, by accepting with alacrity the Assistant Clerkship of the State Senate, worth $3.50 a day for about 24 days. He hopes to be Postmaster or a Custom House officer, if a Democratic President should be elected in 1872.

THE wedding services of one of the former editors of the CHRONICLE took place at the Unitarian Church, Thursday afternoon, there being a large attendance of friends. Rev. James DeNormandie officiated, and the occasion was one of the most agreeable of those most agreeable of all occasions in which the public are interested. The bridegroom was faultlessly attired and did his profession proud, while the fair bride looked the perfect picture of sweetness and loveliness. A profusion of bouquets decked the altar. The services were very impressive, as is the case on all occasions when Rev. James DeNormandie officiates.

THE "ridiculosity" of Navy Department orders is shown by the recent death of a seaman of U. S. Steamer Ticonderoga at this port. It has always been the duty of the surgeon of the vessel in such cases to ascertain and report whether deceased seamen contracted the diseases of which they die during their term of or prior to entering the service. By the new regulations, a Board of Survey is ordered and line officers are called to aid the surgeon in determining whether the man is dead, why and how he died, why he didn't live, where and when he contracted the fatal disease, and why he didn't contract it before or afterwards—"in order that justice be done in the premises," *i. e.*, to snub the surgeon by intimating that he does not know his business. The sailor above alluded to was buried in the cemetery at the Navy Yard on Wednesday at 4 o'clock, P. M. In the absence of a chaplain, Capt. Fairfax performed the burial service.

BECAUSE we failed to notice or reply to the last infamous attack of the Lyre on an honorable gentleman who was lately a candidate for office, an indignant citizen (not the candidate), appeals to us to retort in kind. The article in question can in no-wise injure anyone but the writer, whose contemptible public course long ago divested him of any real claims to the respect of decent men. The facts given us as to past acts of the writer who has boiled over with such bitterness and gall during the campaign, are not entirely new, and we decline to use them—one chief reason being that the matter is as distasteful to our subscribers as to us personally. Our friends must remember that an entirely different taste is administered to in the columns of the Lyre, that to cater to the lowest classes is not our *forte*, while those who choose to do so sometimes indicate that their own doses are too reactionary. If a man prefers to live differently from us, it's no very extensive business of ours. If he chooses to make of his paper a record of shame, it is not our business to go and do likewise.

SACO has voted an ordinance to encourage manufactures. It is as follows: That any person or persons who shall invest the sum of five thousand dollars or any additional sums in manufactures in this city shall be exempt from taxes on the amount so invested for ten years from the date of commencing to manufacture, except the real estate, which shall be taxed during the time of exemption at the same valuation as when purchased or entered upon for manufacturing purposes. Sensible Saco!

THE Cincinnati Gazette says: "In the New Hampshire House of Representatives the Labor Reform members united with the Democrats and elected the Speaker. How is this? Have we not taxed ourselves from forty to one hundred and twenty per cent. for the protection of American labor, and now does the New Hampshire labor party go back on us?"

THE Stateman's estimate of Mr. Speaker Gove is thus summed up:

"Transient as the importance of the subject is, we should be glad to lay before our readers a fuller history of the new Speaker; but we have not been able to obtain it, on account of the obscurity from which he has been so suddenly lifted and to which he must so soon return."

THE annual reunion of the Society of the Army and Navy of the Gulf, at which General Sheridan will preside, will be held at Newport on July 7. Colonel Granville P. Hawes of New York will deliver the oration, and Rev. Dr. H. E. Montgomery the memorial address on the life of Farragut.

JAMES SHERRY will serve seven years in the New York State Prison for biting off Patrick O'Brien's nose—and then O'Brien's nose won't be lengthened.

THE formal opening to the public of the magnificent Island Ledge House at Wells Beach, is to be celebrated by a grand feast and clam-bake, June 20th.

☞ THE NEW HAMPSHIRE GAZETTE for this week, is now ready for delivery, at the Chronicle Office. Each number contains all the reading matter of the week's Dailies. Price $2 a year; single copies 5 cents,—in wrappers for mailing, if desired. Six copies for $10 per year, to Clubs—per mail or city carrier.

JOB AND CARD PRINTING.—We have made great additions to our jobbing facilities—a mammoth Hand Press (the largest in Portsmouth,) new Display Type, Borders of various styles, &c. —and we prepared to execute with neatness and dispatch, all orders for FULL SHEET POSTERS, DATE SLIPS, PAMPHLETS, SERMONS, ADDRESSES, AUCTION BILLS, CONSTITUTIONS, BY LAWS, PROGRAMMES, HANDBILLS, CIRCULARS, ORDERS DANCES, BLANKS, BILL HEADS, RECEIPTS, TICKETS, BUSINESS, MARRIAGE, ADDRESS AND VISITING CARDS, LABELS, TAGS, and in fact PRINTING OF ANY DESCRIPTION, at SATISFACTORY PRICES. Orders received by mail, express, or at the CHRONICLE OFFICE will be *promptly filled.*

MARRIAGES.

In this city, June 15, at the Unitarian Church, by Rev. Jas. DeNormandie, JOHN H. MILLER of Boston, and MISS MAY SWEETSER, youngest daughter of the late Washington Sweetser of this city. [Boston and New Orleans papers please copy.]

Which is why we remark that the numerous friends of the newly formed alliance earnestly wish that the happiest of happy lives be the future experience of both parties; that all the blessings which Providence vouchsafes to untransplanted mortals be showered upon them, with as few ills as is compatible with the circumstances of the case; and that continued prosperity may attend them through many years, ever increasing and never failing.

THE
NEW ORLEANS, MOBILE & TEXAS
RAILROAD COMPANY
Are building a trunk line, connecting New Orleans with Mobile on the east, and giving
THE ONLY RAILROAD CONNECTION
between the former city and the great and most productive State of Texas of the west, the total distance from Mobile to Houston being 475 miles.
The Company is composed of strong Northern capitalists, who have already expended nearly **TEN MILLION DOLLARS** of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 168 miles of the Texas division; leaving but 140 miles to be built

To Complete the Entire Road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.
The Company now offer for sale the

Eight Per Cent. Mortgage Bonds

upon the Louisiana division of 226½ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.
So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.
The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS,

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice.
The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.

No better security has been offered

to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government Five Per Cents.
At the same price, an 8 per cent. currency bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. **an 8 per cent currency bond at 90 will give a return of $614.18 MORE than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.**
The Bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1st to date of remittance.
Subscriptions will be received in Portsmouth by

First National Bank.

Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

MARSHALL HOUSE,
YORK BEACH. This new and commodious SUMMER HOTEL is situated in one of the most beautiful localities on the coast, at the mouth of York River; the facilities for Bathing, on sandy beaches, in surf or still water,—for Fishing, or for Boating on a beautiful river, are unrivalled; the sea view (taking in Boon Island and the Shoals) is unsurpassed, and the river and inland scenery *not equalled* by that surrounding any other Hotel along the whole coast. With a good table, moderate charges, and strict attention and courtesy to all, we intend to merit and hope to receive a fair share of public patronage. The hotel will be open to the public, June 20th. N. G. MARSHALL & SONS, Proprietors.
☞ Steamer HOFFMAN, Capt. Emerson, will make trip trips daily (on Tuesdays, Thursdays and Saturdays) between Portsmouth and York Harbor, connecting with morning and afternoon trains from Boston, during the season, conveying passengers at reasonable rates and landing them but a few rods from the Hotel. The run across will occupy but about one hour. je10

Consumption,
ITS CURE AND ITS PREVENTIVE,
By J. H. SCHENCK, M. D.
Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proved means of cure. Those near and dear to such, and friends are sleeping the dreamless slumber into which, had they calmly adopted
Dr. JOSEPH H. SCHENCK'S SIMPLE TREATMENT,
and availed themselves of his wonderfully efficacious medicines, they would not have fallen.
Dr. Schenck has in his own case proven that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.
In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self assuring, self-convincing.
The Seaweed Tonic and Mandrake Pills are the first two agencies with which the citadel of the malady is assailed. Two-thirds of the cases of consumption originate in dyspepsia and a disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbid condition of the liver. Hence then comes the culminating result, and the setting in, with all its distressing symptoms, of
CONSUMPTION.
The Mandrake Pills are composed of one of Nature's robust gifts—the Podophillum Peltatum. They possess all the blood-searching, alterative properties of calomel, but unlike calomel, they
"LEAVE NO STING BEHIND."
The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It stimulates into healthful vigor the stomach and bowels, and the patient begins to feel that he is getting, at last,
A SUPPLY OF GOOD BLOOD.
The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Digestion is now progressing, without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more flatulence, no exacerbation of the stomach. An appetite acts in.
Now comes the greatest Blood Purifier ever yet given by an indulgent father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatherings it prepares them for expectoration, and lo! in a very short time the malady is vanquished, the robust health that it occupied and demolished and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was
GIVEN UP AS LOST.
The second thing is, the patients must stay in a warm room, until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure cannot be effected. Fresh air and riding out, especially in this section of the country in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased; and yet, because they are in the house they must not sit down quiet; they must walk about the room as much as they can, as the strength will bear, to get up a good circulation of blood. The patients must keep in good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.
To despair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to the Faculty of his own cure was in these modest words:
"Many years ago I was in the last stages of consumption; confined to my bed, and at one time my physicians thought that I could not live a week; then like a drowning man catching at straws, I heard of, and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of offensive matter every morning for a long time. As soon as that began to subside, my cough, fever, pains and night sweats all began to leave me, and my appetite came so great that it was with difficulty that I could keep from eating too much. I gained my strength, and have grown in flesh ever since."
"I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only ninety-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed uninterrupted health." S
Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., still continue to see patients at their office, No. 15 North Fifth street, Philadelphia, every Saturday from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged $5. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.
The directions for taking the medicines are adapted to the intelligence even of a child. Follow those directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased efficacy; the three medicines need no other accompaniments than the ample instructions that accompany them: First, create appetite. Of returning health herself, this is the most welcome symptom. When it comes, as it will come, let the despairing at once be of good cheer. Good blood at once follows, the cough loosens, the night sweat is abated. In a short time both of these morbid symptoms are gone forever.
Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, take Mandrake Pills; as a tonic, Seaweed Tonic; while the Pulmonic Syrup, as a cure of coughs and colds, may be regarded as a specific against consumption in any of its forms.
Price of the Pulmonic Syrup and Seaweed Tonic $1.50, a bottle, or $7.50 a half dozen. Mandrake Pills, 25 cents a box. For sale by all druggists and dealers. S

A GREAT MEDICAL DISCOVERY!
DR. WALKER'S CALIFORNIA
VINEGAR BITTERS.
Hundreds of Thousands Bear Testimony to their Wonderful Curative Effects.
WHAT ARE THEY!
THEY ARE NOT A VILE FANCY DRINK,
Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Root and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and a LIFE-GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.
For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.
DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.
They invigorate the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities and imparting new life and vigor to the whole system.
FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever nature or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins, cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.
FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.
They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs. 1yrdawf6t6

NEW PUBLICATIONS RECEIVED.

The Old Curiosity Shop is a new candidate for public favor, in the shape of a monthly magazine, published by Harlow E. Woodward, Boston, for $1 per annum. "John Granger" is the title of a serial story by the author of "Lady Audley's Secret."

The Fall of England?—the Battle of Dorking, is received from the New England News Co., through Foster Shores & Co.

The July Number of "*Peterson's Magazine*" is unusually good. The principal embellishment is a spirited steel engraving, "Ahead of the Field," illustrating an old-fashioned love story. The fashion-plate is on steel, and richly colored. The stories are all original. Chas. J. Peterson Publisher, 306 Chestnut street, Philadelphia.

Le Bon Ton for June contains four highly colored engravings, and two Paper Patterns, cut full size; published by S. T. Taylor, 391 Canal St., New York.

The June number of *Leffel's Illustrated Mechanical News* contains the usual choice and varied assortment of articles on scientific and mechanical topics. Road Locomotives, which are just now attracting much attention both in this country and England, are the subject of one of its leading articles, accompanied by two very handsome engravings. The editorials on Rebolting Fleur, Transmission of Power by Belting, and other practical topics, will repay an attentive perdsal. One of the most valuable features of this number is the continuation of a series of articles on the Construction of Mill Dams, with original illustrations, the design this month representing a Log-Dam for soft or sandy bottoms. Altogether, this number contains eleven choice engravings, including three views of the Elgin Watch Factory and a portrait of Henry Carey Baird, the eminent industrial publisher of Philadelphia. The humorous cartoon on the last page must be seen to be appreciated. The exceedingly low price of the News, Fifty Cents per annum, should place it in the hands of every mechanic and mill-owner in the country.

"EMOTIONAL insanity" of the worst kind was what ailed the Paris communists, according to a French physician, who says the minds of the people were gradually unhinged by the privations of the siege; the revolt of the 18th of March gave the last blow to brains which were already shaken; and at length the greater part of the population went raving mad. He says:—

This epidemical insanity is one of the most surprising cases that physiologists have ever witnessed. You are astonished at seeing women, young girls and children throw petroleum and lighted matches into private houses. This fanaticism is attributed to their having been paid ten francs a day for their horrible work. Can anything be more improbable than that they should expose themselves out of mere thoughtlessness to the almost certain prospect of being shot down by our troops for such a miserable sum? They were simply under the epidemical influence of the mania of incendiarism. They acted under a hallucination which is as incontestable as it is difficult to understand and explain. This is not the first time that a whole population, attacked by a sort of vertigo, ran about with torches and set fire to everything in their way. The records of the middle ages are full of similiar examples. Women are under such circumstances fierce and more reckless than men. This is because their nervous system is more developed, their brains are weaker and their sensibilities more acute than those of the stronger sex; and they are consequently far more dangerous and do much more harm.

None of them knew exactly what they were fighting for; they were possessed by one of the various forms of the religious mania,—that which impelled the Jansenists to torture themselves, with a strange delight in pain of the acutest kind. The men who threw themselves on the bayonets of the soldiers in a paroxysm of passion were seen ten minutes after utterly prostrate and begging for mercy. They were no more cowards in the last state than they were heroes in the first; they were simply madmen. Look at the citizens who did not take part in the insurrection; they are immovable and stupid, like men struck with paralysis. Yet they have on many occasions given proofs of uncommon vigor and courage; but the air of Paris is at this moment poisoned by deleterious miasmats which make some people furious madmen and others helpless idiots. I have seen the strongest intellects stagger under this pernicious influence, and I have myself frequently felt as if my reason were going.

—Four German princes, members of sovereign houses, are married to actresses.

—Garibaldi is as poor as patriotic, as may be inferred from the fact that when his daughter Theresa died in Florence several months ago, she was so nearly penniless that her friends were obliged to pay the expenses of her funeral.

TARRANT'S SELTZER APERIENT.

SECTS AND CREEDS DIFFER, but there are no dissenters from the general principle that this medicine is a great blessing. We have many of these blessings, but among them all, in the province to which it belongs, no greater than

Tarrant's Effervescent Seltzer Aperient.

A column would not suffice to enumerate the ailments for which it is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, a stomachic, an anti-febrile preparation, and an admirable remedy for all bilious complaints.

Let there be no mistake. Secure the genuine article only.

TRY IT!

How well we remember in days that are gone,
The feelings we felt as we saw the cork drawn—
The disgust—the recoil
From "Cod Liver Oil,"
Dealt out to poor soulsin the days that are gone!
But who could complain
Of this to be ta'en?
It swallows as easy as sparkling Champagne—
Does "Marvins' Deodorized Oil."

STRAWBERRIES.

IT IS WELL KNOWN that not many of these nice berries are to come from the beds in this vicinity, this season. The subscriber has therefore gone abroad and engaged a supply, to be delivered here and ready for his friends and customers one day after they are picked from the vines. The first lot is expected early this week—Tuesday afternoon. The supply is limited. Please call immediately,—those who wish a supply for the season. S. GILBERT,
je13 27 Daniel Street.
